## *PREFACE*

The Annual Report on Registration of Births and Deaths in N.C.T. of Delhi has been brought out for the year 2024 by the Directorate of Economics and Statistics & Office of Chief Registrar (Births & Deaths) under Sections 4(4) and 19(2) Registration of Births & Deaths Act, 1969, which makes it mandatory to bring out the Annual Report on Registration of Births and Deaths.

This report presents an overview of the working of the Civil Registration System (CRS) in the NCT of Delhi and provides good source of information on the vital rates at all levels. The Report elicits very useful statistical information on registered births, deaths, infant deaths and still births and sex ratio at birth based on Civil Registration Records. Many valuable indicators are presented in the Report like birth rate, death rate, trends in birth order and its relation with level of literacy of parents, type of medical attention at the time of birth, deaths by age group, leading medically certified causes of deaths and a host of many other features in an exhaustive manner. The information would be very useful for evolving policies for improved health management in the state.

The report is presented in five sections. The first section gives details of the administrative set-up of the Civil Registration System, registration initiatives taken for effective implementation of the provisions of the Registration of Births & Deaths Act, 1969 and other related aspects, whereas, sections three and four covers birth profile and death profile respectively. Detailed statistical tables are given in section five. Maximum number of tables as prescribed by the Office of RGI, have been presented in the Report.

The Report has been prepared by the Vital Statistics Unit of the Directorate of Economics & Statistics, Delhi with IT support from the EDP Section. I sincerely acknowledge the sincere efforts of all the officers and officials associated in this exercise. My special thanks are to the functionaries of the local bodies (MCD, NDMC & DCB) engaged in the Civil Registration work for providing the basic data on registration of births & deaths in Delhi.

I hope, this report will be of immense help to the Policy makers, Planners and Research Scholars interested in the study of Vital Statistics in N.C.T. of Delhi. It will be our constant endeavor to improve the quality of the publication, for which, we invite the valuable comments and suggestions from the readers of this Report.

## **INTRODUCTION**

(Review of the Working of Act)

## **SECTION ONE**

### **INTRODUCTION**

The Civil registration is the continuous, permanent, compulsory and universal recording of the occurrence and characteristics of events, including vital events, pertaining to the population, as provided by decree or regulation, in accordance with the legal requirements of a country. Civil Registration is carried out primarily for the purpose of establishing the legal documents provided for by law. These records are also the best source of vital statistics.

The Civil Registration System (CRS) aimed at proper accounting of vital events for the issuance of certificates as well as generation of valuable data for plan & policy formulation on health sector, received a big boost with the promulgation of the Registration of Births and Deaths Act, 1969 (RBD Act, 1969) in all States/ UTs in the country. This Act came into force in Delhi w.e.f. 1<sup>st</sup> July, 1970 and accordingly the Delhi Registration of Births and Deaths Rules, 1970 have also been notified w.e.f. 1<sup>st</sup> January, 1971. These rules were modified and made more people friendly in December 1999 and came into force w.e.f. 1<sup>st</sup> January, 2000. The Registration of Births and Deaths Act, 1969 has been amended vide the Registration of Births and Deaths (Amendment) Act, 2023 and is notified on 11th August 2023 vide Gazette Notification No. 20 of 2023. The provisions of the amended Act came into force with effect from 1st day of October, 2023. The Delhi Registration of Births and Deaths (Amendment) Rules, 2024 has been notified on 11<sup>th</sup> October 2024 vide Gazette Notification No. F. 4(43)/VS/DES/2024/ 5773. Prior to the implementation of the Registration of Births and Deaths Act, 1969 (Act No. 18 of 1969), Registration of Births and Deaths in Delhi was governed by multiple Acts/ Rules. The urban area of Municipal Corporation of Delhi (MCD) was covered under the provisions of the Delhi Municipal Corporation Act, 1957 (Section 394-96) and by laws made there under, whereas this function in the rural area of MCD was carried out under the Panchayat Raj Act, 1959. Further, the MCD had been trifurcated w.e.f. May, 2012 into three corporations namely East Delhi Municipal Corporation (East DMC), North Delhi Municipal Corporation (North DMC) and South Delhi Municipal Corporation (South DMC) and re-unified into a single entity on 22<sup>nd</sup> day of May 2022 as Municipal Corporation of Delhi. On the other hand, the registration within the limits of New Delhi Municipal Council (NDMC) was governed by section 188 (c) and subsection (1) of section 199 of the Punjab Municipal Act, 1911. In the area under Delhi Cantonment this function was performed under clause (1) of section 281 of Cantonment Act, 1924.

## **MEANING & SCOPE OF CRS**

According to the United Nations, civil registration is defined as the continuous permanent and compulsory recording of the occurrence of vital events, like, live births, deaths, fetal deaths, marriages, divorces as well as annulments, judicial separation, adoptions, legitimations and recognitions. Civil registration is performed under a law, decree or regulation so as to provide a legal basis to the records and certificates made from the system, which has got several civil uses in the personal life of individual citizens. Moreover, the information collected through the registration process provides very useful and important vital statistics also on a continuous basis at the national level starting from the smallest administrative unit. In fact, obtaining detailed vital statistics on a regular basis is one of the major functions of the Civil Registration System (CRS) in several countries of the world. Vital records obtained under CRS have got administrative uses in designing and implementing public health programs and carrying out social, demographic and historical research. For an individual, the birth registration records provide legal proof of identity and civil status, age, nationality, dependency status etc., on which depend a wide variety of rights.

Civil Registration System may be defined as the legal recording of the occurrence of vital events (births and deaths) through a network of government offices and designated officials, together with certain identifying or descriptive characteristics of the events on a continuous, permanent and compulsory basis. Civil Registration System also serves as the tool for measuring the changes in the population. In other words, population census held once in a period of 10 years gives stock of population at a point of time whereas, vital statistics presents the flow of population.

## **ADMINISTRATIVE SET UP**

### **National level Machinery:**

The Registrar General of India is appointed by the Central Government under section 3(1) of the Act and is the central authority to coordinate and unify the activities of the Chief Registrars of Births & Deaths in States and Union Territories and to provide general directions and guidance in the matter of registration of births and deaths and working of the Act. He has to submit to the Central Government an annual report on the working of the Act in the various states as stipulated in section 3(3) of the Act.

At the national level, all matters relating to vital registration and vital statistics are handled by the Vital Statistics (Civil Registration) Division. The Division assists the Registrar General, India in (i) coordinating and unifying the work of registration and compilation of vital statistics in the states, (ii) providing direction and guidance to the state authorities, (iii) standardization of forms and procedures for registration and compilation of

vital statistics for promoting uniformity and comparability, (iv) providing clarifications on various provisions of the Act and ensuring uniform interpretations of the law, (v) organizing training programmes, (vi) initiating publicity and other promotional measures, (vii) preparation of annual report on the working of the Act in different states for submission to the Central Government, (viii) preparation of annual statistical report for the country entitled **'Vital Statistics of India'** and (ix) various other matters for securing a uniform and efficient system of registration throughout the country.

### **State level Machinery:**

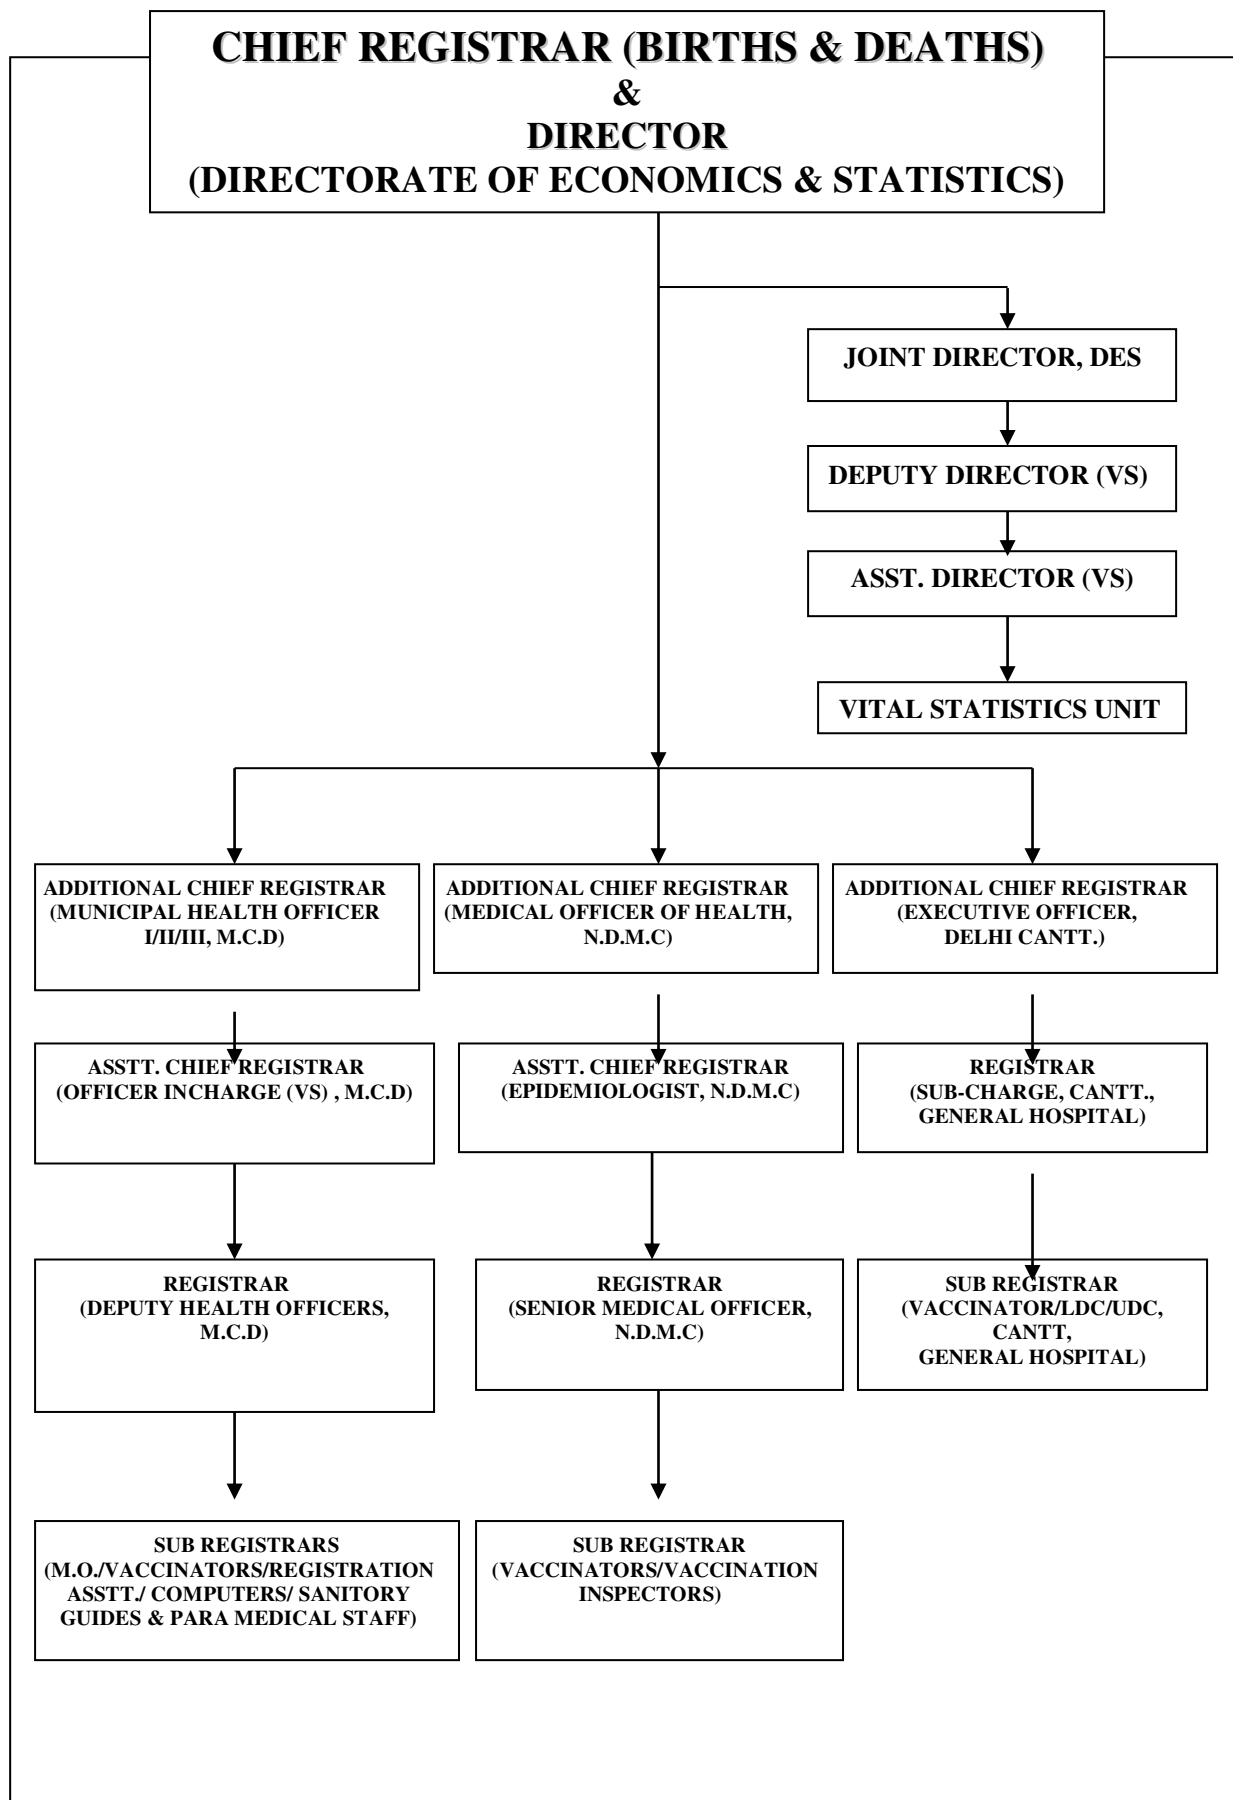

Director, Directorate of Economics and Statistics, Govt. of NCT of Delhi also functions as the **Chief Registrar (Births & Deaths)** for the NCT of Delhi. The Chief Registrar is responsible for the proper implementation of the RBD Act, 1969 and the rules made there under and keeps a close liaison with the Registrar General of India, Ministry of Home Affairs, which is the nodal agency for such matters at the national level. The Chief Registrar is assisted by a secretariat in the form of vital statistics unit of the Directorate.

### **Local Authority level Machinery:**

The actual registration of births and deaths in Delhi was done by three local bodies viz MCD, NDMC and Delhi Cantonment Board through a network of centers spread all over Delhi and with effect from May 2012 five local bodies were doing the civil registration work due to trifurcation of MCD into North/South/East Delhi Municipal Corporations. The three existing civic bodies, East DMC, North DMC and South DMC are re-unified into a single entity on 22<sup>nd</sup> day of May, 2022 as Municipal Corporation of Delhi. Each local body has a notified Additional Chief Registrar to coordinate the functions in the designated geographical area. The administrative set up of the civil registration system in Delhi may be seen from the organization chart.

### **REGISTRATION PROCEDURE**

Registration of births, still births and deaths is compulsory under the Registration of Births & Deaths Act, 1969 and rules framed there under. According to the Act, it is the duty of the head of the household and if he is not present in the house the nearest relative of the head present in the house and in the absence of any such person, the oldest adult person present in the house to report the occurrence of any live birth or still birth or death. For births and deaths in hospitals/ health centers/ maternity homes/ nursing homes, other similar institutions or in jail or in dharamshala or in hostels etc., it is the responsibility of the In-charge of the institution to report birth, still birth and death to the Registrar (B&D) in their respective area within the prescribed time limit. Further, Registrar (Births & Deaths) can act suo moto and direct concerned to report the event under section 21 of the RBD Act 1969, if he/ she comes to know that a vital event has occurred in the area under jurisdiction.

As per Delhi Registration of Births & Deaths Rules, 1999, all births, still births and deaths within 21 days of the occurrence are to be reported to the Registrar/ Sub-Registrar of the concerned local area. The information is to be given in live birth report (Form-1), still-birth report (Form-3) and death report (Form-2). To get the birth registration of adopted child in the name of adoptive parents, the provision of Form 1-A has been made. Further, as per direction of ORGI, the UID number has been incorporated in the Forms. As soon as registration of birth or death is completed, a certificate in form No. 5 or 6 respectively containing essential particulars of the event is given free of cost to the applicant under Section 12 of the R.B.D. Act 1969. Additional copies of the birth/ death certificates may be obtained by the applicant by paying the prescribed fee under section 17 of the RBD Act.

### **ADDITION OF NAME IN BIRTH RECORD**

In case, where the birth of any child had been registered without a name, the parents or guardian of such a child may approach the Registrar (B&D) for addition of the name of the child in the birth certificate free of cost within 12 months from the date of registration of the birth of a child. In case where the registration had been made prior to 01.01.2000 or in case where the registration is made after the date of the commencement of DRBD Rules 1999, the name of child can also be entered in the record after 12 months of registration but within a period of fifteen years on payment of a late fee of rupees five. Further five years extension has been given for addition of name of child vide Gazette Notification No F.13(1)/VS/DES/2006/9742-78 dated 08/12/2014.

Vide Gazette Notification No. F. 4(18)/VS/DES/2020/10020, dated 09/07/2021, for clause (i) and (ii) of sub-rule-1 of rule 10 of the Delhi Registration of Births and Deaths Rules, 1999, the following provisions for extension of further five years for addition of name of child in birth record has been notified:-

(i) (a) In case where the registration had been made prior to the date of commencement of the principal rule, further five years period from the date of commencement of this rule (i.e. Registration of Births & Deaths (Amendment) Rules, 2021) shall be given. Or

(b) In case where the registration had been made after the date of commencement of the principal rule and fifteen years period from date of registration has already been lapsed, they shall also be given five years period from the date of commencement of this rule (i.e. Registration of Births & Deaths (Amendment) Rules, 2021). In respect of those cases, where fifteen years period from the date of registration has not yet been lapsed, they shall be allowed to avail the fifteen years period. Or

(ii) In case where the registration is made after the date of commencement of the Registration of Births & Deaths (Amendment) Rules, 2021, the period of fifteen years from the date of such registration, subject to the provisions of sub-section (4) of section 23. the Registrar shall-

- (a) If the register is in his possession forthwith enter the name in the relevant column of the concerned form in the birth register on payment of a late fee of rupees five.
- (b) If the register is not in his possession and if the information is given orally, make a report giving necessary particulars, and if the information is given in writing, forward the same to the officer specified by the State Government in this behalf for making the necessary entry on payment of a late fee of rupees five.

### **DELAYED REGISTRATION**

Any vital event not reported to the appropriate authority within a period of 21 days from date of occurrence constitutes delay. The following procedure is to be followed as per Delhi Registration of Births & Deaths (Amendment) Rules, 2024 in such situations:

- (a) Any birth or death of which information is given to the Registrar after the expiry of the specified period of **21 days** but within thirty days of its occurrence shall be registered on payment of a late fee of Rs. 20/-.
- (b) Any birth or death of which delayed information is given to Registrar after **30 days**, but within one year of its occurrence shall be registered only with the written permission of the District Registrar or the officer prescribed in this behalf and on payment of late fee of Rs. 50/- and on production of self-attested document, electronically or otherwise in Form no. 14.
- (c) Any birth or death which has not been registered **within one year** of its occurrence, shall be registered only on an Order made by a District Magistrate or Sub-Divisional Magistrate or by an Executive Magistrate authorized by the District Magistrate, having jurisdiction over the area where the birth or death has taken place and on payment of a late fee of Rs. 100/-.

### **Major highlights of the Registration of Births & Deaths (Amendment) Act, 2023 are as follows:**

- Birth certificate is now the only document to prove the date and place of birth of a person born on or after 1<sup>st</sup> October, 2023 for various purposes;
- In case of delayed information of any birth or death to the Registrar after one year of its occurrence, the ordering authority has been changed from 'Magistrate of first class or Presidency Magistrate' to 'District Magistrate or Sub-Divisional Magistrate or an Executive

Magistrate authorized by the District Magistrate'. In addition, self-attested document is now required to be submitted in place of an affidavit made before a Notary Public;

- It is mandatory for all medical institutions, irrespective of ownership, to provide a certificate as to the cause of death to the Registrar and a copy of the same to the nearest relative;
- Following the completion of registration, Registrar is required to provide the certificate of registration of births or deaths, electronically or otherwise, to the informant, within seven days;
- Registrar General of India and Chief Registrar of State shall maintain the database of registered births and deaths at National and State level respectively, which may be made available, on request, to the authorities dealing with other databases at National and State level with the prior approval of the Central Government and the State Government, as the case may be;
- Provision for appointment of Special 'Sub-Registrars' in the event of disaster or epidemic for speedy registration of deaths and issuance of certificates;
- Enabling legal provisions to facilitate registration process of adopted, orphan, abandoned, surrogate child and child to a single parent or unwed mother;
- Grievance redressal mechanism for general public aggrieved by any action or order of the Registrar or District Registrar; enhancement of penalties, etc;

## **MEDICAL CERTIFICATION OF CAUSE OF DEATH**

One important aspect of vital statistics is the certification of cause of death. Medical Certification of Cause of Death (MCCD) provides reliable data on cause of mortality. This data serves as a valuable tool for public health planners, administrators, medical professionals and research workers to study cause of death in the population. Keeping in view the importance of this information, the provision has been made u/s 10(2) and 10(3) of the Registration of Births & Deaths Act, 1969 for cause of death certification by the medical practitioner of the hospital last attended by the deceased and report it on Form No. 4 (in case of institutional death) and on Form No. 4A (for domiciliary death) for further submission of it along with death reporting form (Form No. 2) to the Registrar's office at the time of registration of death. Form 4 has two parts, Part-I provides for entering the diseases in a specific sequence of events leading to death so that the immediate cause is shown first and the underlying cause is shown last. The underlying cause is that morbid condition which initiated the chain of events leading to death.

In Delhi, the reporting of Medical Certification of Cause of Death has been made compulsory since the year 2003 in respect of institutional deaths. The domiciliary deaths

have not been brought under the ambit of MCCD due to various practical problems such as lack of awareness among the citizens, economic conditions and also due to non-availability of adequate health infrastructure.

### **LEVEL OF COMPUTERIZATION & FLOW OF DATA**

All local bodies have computerized the births & deaths registration system and all hospitals are reporting the events online to the concerned Registrar (B&D). NIC has developed new software for Birth and Death Registration process, addition of name of child, correction in birth/death records in Municipal Corporation of Delhi. This has enabled a complete online system to facilitate citizen to apply Birth & Death registration/certificates from their home. Birth/death certificates can also be downloaded by the Citizens from the websites of concerned local bodies.

In Municipal Corporation of Delhi, all hospitals/ nursing homes report the vital events through newly developed online system thereby avoiding manual handling for feeding the data/ information and consequently less chances of delays, omissions etc. for reporting the events. In NDMC & DCB, almost all hospitals are reporting the vital events online. Soft copy of the CRS data is supplied along with MCCD to Chief Registrar's Office by the local bodies for preparation of Annual Report.

### **FUNDS UTILISED FOR CIVIL REGISTRATION SYSTEM**

During the year 2024-25, a total amount of Rs. 22,824/- was spent from State budget on training programmes in Delhi. The item wise expenditure is as under:

#### **Statement 1.1: Expenditure incurred on CRS in Delhi**

Sl.No.	Items	Expenditure incurred from			
		State Budget (Rs)		Central Assistance (Rs)	
		2023-24	2024-25	2023-24	2024-25
1	Training programmes (MCCD)	31,628	-	-	-
2	Training programmes (CRS)	-	22,824	-	-
	<b>Total</b>	31,628	22,824	-	-

### **LEVEL OF REGISTRATION**

The registration of births and deaths varies from state to state and between births and deaths. One way to assess the performance of CRS is to compare the rates derived at state level from CRS with those derived from SRS, which collects these information for the usually resident population and provides reliable estimates of birth and death rates at state level.

The CRS in quantitative terms can be gauged primarily from the level of registration achieved consistently in a given region/ state. The level of registration may be taken as the

ratio of actual number of births/ deaths registered as per CRS to the estimated births/ deaths under SRS in a calendar year.

**Statement 1.2: Level of Registration in Delhi**

Obviously, Delhi is among the few States/ UTs which have achieved 100% level of birth and death registration. Apart from Delhi, this list includes Andhra Pradesh, Assam, Chandigarh, Goa, Gujarat, Karnataka and Puducherry. The level of registration of births/ deaths in Delhi over a period of time is indicated in the above statement. It is evident from the above statement that the level of registration in Delhi was more than hundred percent (except Level of Registration of births in 2021) mainly because of the existence of good health infrastructure as well as responsive registration mechanism at ground level. Due to this fact, the people from other areas outside Delhi also come to avail better health facilities/ treatment in Delhi's hospitals and consequently the births and deaths pertaining to non-residents of Delhi also occurred here and then the registrations of such vital events are done in Delhi in accordance with provisions of the RBD Act, 1969 to register the vital event as per the place of occurrence of the event. Evidently, this factor plays a key role in having the number of registered births and deaths higher than the SRS estimates.

**MEASURES FOR IMPROVEMENT OF CIVIL REGISTRATION SYSTEM**

- (i) A Citizen's Charter for Registration of Births & Deaths has been implemented and the issuance of Births & Deaths certificates has been covered under e-Service Level Agreement (SLA) to facilitate the public. The citizen charter indicates brief procedure and guidelines to be followed by the citizens of Delhi and Local Bodies for

registration of Births & Deaths. This may prove helpful to improve the Civil Registration System in Delhi. All registration centers have to display the informative boards regarding various provisions under e-SLA pertains to issuance of Birth & Death certificate to guide the public properly.

- (ii) The Chief Registrar's Office is operating a website '[www.des.delhi.gov.in](http://www.des.delhi.gov.in)' giving details of registration procedure, administrative machinery for redressal of grievances etc. Provision has also been made for the general public to give their suggestions for the improvement of the system through e-mail.
- (iii) All the local bodies have computerized their operations resulting in improvement in the quality of service rendered to the public. All hospitals, government/ private have been provided the facility of online reporting of events and this has sped up the process of reporting/ registration of events. Further, online facility to take the birth/ death certificates directly from website is also being provided by all local bodies i.e. NDMC, MCD and DCB.
- (iv) Total 7,16,723 birth certificates and 1,81,611 death certificates were issued under Section 12 & 17 of RBD Act, 1969 during the year 2024 in Delhi.
- (v) No penalties have been imposed under section 23 of RBD Act, 1969 on defaulting institution, registrar and the individuals for non-registration, non reporting and for negligence to register any birth/ death in the year 2024.
- (vi) MRD branch of Hindu Rao Hospital has been jointly inspected by the officers of DCO, Delhi and Office of Chief Registrar (Births & Deaths) on 20.12.2024.
- (vii) Supply of Registration stationery: The Office of Chief Registrar (B&D) provides registration stationary i.e. Birth reporting forms, Death reporting forms, Still birth reporting forms, MCCD forms etc. free of cost to the local bodies, Govt. and Private hospitals, Nursing homes and Maternity Centers.
- (viii) NGOs and other voluntary organizations were involved in the propagation of benefits of registration of births/ deaths and identification of unregistered cases if any, in slum areas. The Office of Chief Registrar (Births & Deaths) has cooperated in the mission of Plan India by providing the birth certificate of children in difficult circumstances with the help of zonal offices of Municipal Corporation.
- (ix) As per the initiative of office of RGI, GOI; some new tables based on statistical information reflected in birth & death reporting forms have been added w.e.f. the Annual Report, 2013. These statistical tables (like birth weight of child at the time of birth, age of mother at the time of marriage, the gap in years between marriage and different orders of the children etc.) have been presented in the Section 5 of the report.

- (x) During the field visits/surveys in the area/cluster pamphlets containing the advantages of institutional deliveries related benefits under the Government schemes, role of ASHA workers along with list of nearest hospitals were distributed among the citizens by the O/o Chief Registrar (Births & Deaths). Awareness was provided through pamphlets how citizen can get birth certificate without any hassle in case of hospital delivery. It was also appealed that the medical facilities available at nearest Government hospitals may be availed for delivery. The publicity efforts for improving registration of births & deaths were done by DCB during the year 2024. The Publicity was also done by MCD through website [mcdonline.nic.in](http://mcdonline.nic.in).
- (xi) The Registration of Births and Deaths Act, 1969 has been amended vide the Registration of Births and Deaths (Amendment) Act, 2023 and is notified on 11th August 2023. The provisions of the amended Act came into force with effect from 1st day of October, 2023. The Delhi Registration of Births and Deaths (Amendment) Rules, 2024 has been notified on 11<sup>th</sup> October 2024 vide Gazette Notification No. F. 4(43)/VS/DES/2024/ 5773.
- (xii) Office of the Chief Registrar (B&D), GNCTD organized a one-day meeting cum training programme on Civil Registration System in Delhi on 19<sup>th</sup> November, 2024. The Municipal Corporation of Delhi organized 12 training programmes and Delhi Cantonment Board organized 01 training programme for Civil Registration functionaries during the year.
- (xiii) Office of the Chief Registrar (B&D), GNCTD has arranged a field visit of two newly recruited Indian Statistical Service (ISS) Probationers of 45<sup>th</sup> batch to O/o the Registrar (Births & Deaths), NDMC Registration Centre, Mandir Marg, New Delhi on 22.08.2024 as a part of their induction training to interact with the authorities in order to gain some field experience related to Birth & Death registration in Delhi.

### **Monitoring and Coordination**

A high level Interdepartmental Co-ordination Committee (IDCC) has been constituted in Delhi under the Chairmanship of Pr. Secretary (Plg.) and Chief Registrar (B&D) as Member Secretary. This committee consists of representatives from Directorate of Health Services, Education, Police and local bodies etc. to sort out the matters relating to the subject without much delay. This platform is expected to ensure close coordination and effective monitoring of the implementation of the provisions of the Act. Vide Order dated 23.09.2021 it has been decided to reconstitute Inter Departmental Co-ordination Committee (IDCC) to review the progress of registration of births and deaths in NCT of Delhi from time to time and also to ensure proper co-ordination among various departments/ institutions and local bodies entrusted with the responsibilities of the registration of births and deaths in NCT

of Delhi. The latest IDCC meeting was held on 18.08.2023 under the Chairmanship of Pr. Secretary (Plg.), GNCTD to discuss further measures to make the Civil Registration System people friendly.

## Sex Ratio in Delhi

The main source for bringing out this vital indicator is Population Census data and CRS data. The population data gives universal sex ratio for every 10 years. This data suffers from two major limitations viz. time lag and does not give the realistic situation as it gets affected by the in and out migrations. Therefore, the records of registration of births & deaths become the primary source for compilation of sex ratio at State/ District etc. levels. The CRS data will provide short term and very effective inputs on this burning problem so that remedial measures can be initiated without loss of time.

The sex ratio is expressed as the number of female births to thousand male births for a particular period of time says one year/ month etc. As per the International practice, sex ratio is worked out as number of male births per 100 female births. As per the International standard, sex ratio around 105 males per 100 females is considered as an acceptable level.

## Sex Ratio as per Population Census

The universal sex ratio of Delhi as per population census for all age groups taken together was 821 females per 1000 males in 2001 and it has become 868 females per 1000 males as per final data of census - 2011. Child sex ratio (0-6 years) of Delhi went up marginally from 868 (as per census 2001) to 871 (as per census 2011). As can be seen from statement 1.3, at both points of time the figures of Delhi were below the All India level. The district-wise scenario for the children of 0-6 years varies in different districts.

## Sex Ratio as per CRS Data

The data available from Civil Registration System indicates that sex ratio at birth (refer statement 1.4) was 822 females per 1000 males in the year 2005 and it is improving every year and was 848 in the year 2007. However, during 2008 the sex ratio was reversed showing 1004 females per 1000 males which was unprecedented and may be due to implementation of LADLI SCHEME w.e.f. 01.01.2008. Further, the sex ratio at birth has decreased from 922 females per 1000 males in the year 2023 to 920 during the year 2024.

## **MONTHLY MONITORING OF THE SEX RATIO OF INSTITUTIONAL BIRTH**

The national conference of Chief Registrars Births & Deaths, held in 2003 unanimously recommended for the monitoring of sex ratio on a regular basis at the State/UT level taking into account the alarming decline in the sex ratio which has become a cause of concern for the policy makers and administrators. In compliance of the mandate of the Chief Registrar Conference, Delhi has started the monthly monitoring of sex ratio of institutional births w.e.f. the year 2004.

The data is collected on monthly basis from 100 major hospitals which account for 69.75% of total registered births in the year 2024 in Delhi. This helps to review the sex ratio at the highest level in the shortest possible time without waiting for the yearly indicators. The sex ratio of institutional births on the basis of these 100 hospitals comes out to 925 in the year 2024.

## **COMPARISON OF SEX-RATIO AMONG STATES/ UTs**

The data pertaining to the scenario of sex ratio in different States/ UTs, given by office of R.G.I. may be seen in Statement 1.5. However, at the time of comparing it should also be kept in mind that Level of Registration is not uniform in all States/ UTs.

## **RESULTS AT A GLANCE**

## SECTION TWO

### RESULTS AT A GLANCE

This section is devoted to the brief analysis of the vital events registered under the Civil Registration System in Delhi during the calendar year 2024. The main focus will be on number of events, sex-wise distribution, type of event, geographical distribution etc. The total number of vital events registered in Delhi during 2024 were 4,45,939. Out of them 3,06,459 were births and 1,39,480 deaths. Gross natural addition to the population of Delhi during 2024 comes to about 1.67 lakh persons.

#### Statement 2.1.: Distribution of Vital Events by Sex

Sl. No.	Item	Male	Female	Others #	Total
<b>Events</b>					
A.	Births	159549	146832	78	306459

The analysis of institutional vital events reflects that the proportion of institutional births to total births is higher than the proportion of institutional deaths to total deaths. During the last seven consecutive years, the proportion of Institutional births to total births has crossed the level of 90%.

## Registration of Vital Events by Local body

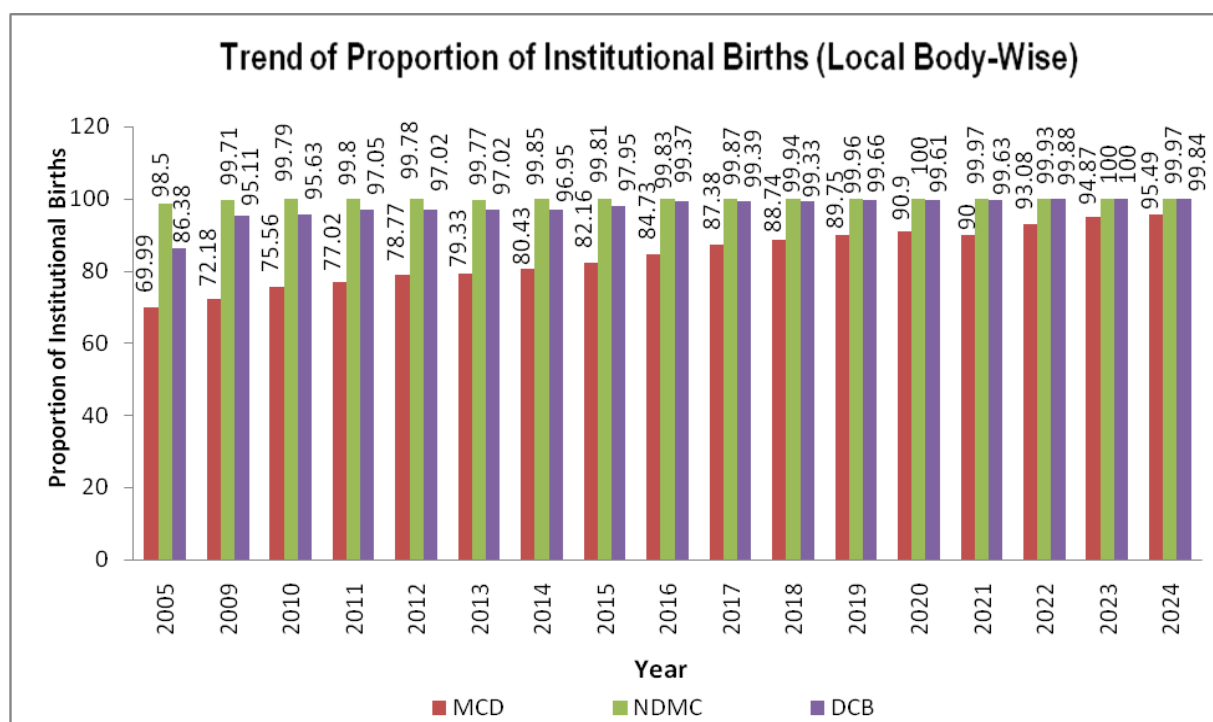

The responsibility for registration of all types of vital events lies with the local bodies in Delhi. The majority of the registrations were done in Municipal Corporation of Delhi followed by New Delhi Municipal Council and Delhi Cantonment Board. The details about proportion of registered births and deaths in different local bodies during the year 2024 are reflected in statement 2.5.

2024	-	-	-	95.49	99.97	99.84	96.09

The analysis of trend of proportion of institutional births in local bodies reveals that the NDMC and DCB had almost 100% births in the institutions/ hospitals whereas this proportion in case of MCD mostly lies in between 68% and 96%.

It is observed that in Delhi, the proportion of institutional births during the seven consecutive years was more than 90% in consequence of the positive impact of different government programmes to encourage institutional delivery for safe maternal and child health. Still, there is strong need to take further measures to achieve the milestone of cent-percent institutional delivery.

It is observed that the proportion of institutional deaths in the year 2024 was 65.16%. Further, local body wise analysis clearly reflect that the proportion of institutional deaths in case of NDMC and Delhi Cantonment Board were 98.53% and 93.27% respectively, whereas it was 54.80% in case of the Municipal Corporation of Delhi.

## Main Vital Indicators of Delhi and India

The vital indicators emerged out of the CRS of Delhi are presented in statement 2.8. For the benefit of data users; indicators of national level are also included.

**MEDICALLY CERTIFIED CAUSE OF DEATH:**

As per the Act and Rule, it is mandatory to provide medically certified cause of death for each institutional death by the doctor who attended the patient / deceased. During the year 2024, total 90883 deaths were reported by the hospitals/ nursing homes and registered in local bodies. These deaths have been provided medically certified cause of

death as per ICD-10 coding of WHO. The medically certified cause-wise broad classification of these deaths is given in statement 2.10.

## CRS vis-à-vis SRS Results

Any attempt aimed at making a comparison between SRS estimates and CRS results strictly speaking is not tenable as they follow different approaches to determine the basic parameters. However, they can be taken as two alternatives to complement/ supplement each other. SRS estimates which are based on sampling approach serves as a short term tool in the management of health scenario as CRS results are not available at short notice. Moreover SRS covers events pertaining to domicile population whereas CRS is inclusive of vital events of migratory population as events are registered as per place of occurrence under RBD Act. That is the reason why CRS results are usually on the higher side when compared to that of SRS. Further, if CRS results could be brought about in shortest possible timeframe it can supplement the SRS in the times to come. Therefore the following statements are included to serve academic purpose at present.

**BIRTH REGISTRATION  
PROFILE**

## SECTION THREE

### PROFILE OF BIRTHS REGISTRATION

In this section various aspects of birth registrations, that had taken place during 2024 under Civil Registration System, are analyzed with special reference to the number of events registered across years, male- female composition, matters relating to birth order and literacy, age of the mother at the time of child birth, the type of medical attention available in case of domiciliary events, local body-wise registration of events etc. The level of birth registration was found to be more than 100% consistently over a period of time thereby indicating the sound health of Civil Registration System in Delhi.

#### **Birth Registration under Civil Registration System**

During 2024, a total of 3,06,459 birth events were registered by all the local bodies taken together. Out of them, 1,59,549 (52.06%) were males, 1,46,832 (47.91%) were females and 78 (0.03%) were others.

#### **Statement 3.1: Total Number of Births registered under CRS sex-wise**

\* Out of total registered births, 78 births have Sex “Others” during the year 2024.

\* Sex “others” includes transgender/ ambiguous/ not stated.

It may be observed from the statement 3.1 that the composition of male and female births in the total births was consistently 50% - 55% and 45% - 50% respectively across the years.

The sex ratio at birth is found to be 920 females per thousand males during 2024. Further analysis of institutional and non-institutional births indicates that sex ratio in respect of institutional births was 915 in the year 2023 and remain same during 2024 whereas in domiciliary births sex ratio decreased from 1077 in 2023 to 1060 in 2024.

2024	294464	153727	140660	915	11995	5822	6172	1060	920

\*Out of total registered institutional births, 77 births have sex “Others” whereas in domiciliary births 1 case was registered having sex “Others”.

The exceptionally higher sex ratio (during 2008) can perhaps be attributed mainly to the implementation of the various welfare schemes of the girl child (including Ladli Scheme w.e.f. 01.01.2008). However, the sex ratio based on total registered births (including institutional and domiciliary) during 2024 has marginally decreased in comparison to the year 2023.

## BIRTH RATE

One of the important indicators that emerge out of Civil Registration System is the Birth Rate. Statement 3.2 provides the time series data from 2005-24. The birth rate during the period of the year 2005 to 2019 is hovering between 18-22 per 1000 population. However, after Covid-19, the birth rate ranges between 13-15 per 1000 population during the years 2020-2024. The graph plotting the birth rate for the said period clearly exhibits this fact.

**Statement 3.2: Birth Rate as per CRS**

## DISTRIBUTION OF LIVE BIRTHS BY BIRTH ORDER

Birth order statistics are important indicators for measuring the progress and effectiveness of family welfare activities. Time series data on percentage distribution of births by birth order is given in statement 3.3.

**Statement 3.3: Percentage Distribution of Births by Order of birth**

Year	Birth Order			
	1	2	3	4 & above (including not stated)
2005	50.59	32.42	12.45	4.54
2006	56.79	28.97	11.08	3.16
2007	58.98	27.47	9.79	3.76
2008	55.12	31.24	10.15	3.49
2009	53.39	32.81	11.01	2.79
2010	60.33	29.28	8.07	2.32
2011	56.37	32.39	8.80	2.44
2012	55.80	33.14	8.83	2.23
2013	61.19	29.21	7.69	1.91
2014	55.47	33.75	8.67	2.11
2015	62.78	32.57	3.93	0.72
2016	55.78	32.89	9.29	2.04
2017	54.48	34.24	9.32	1.96
2018	56.65	32.51	9.03	1.81
2019	55.90	33.00	9.22	1.88
2020	55.74	33.47	9.20	1.59
2021	53.84	35.55	9.41	1.20
2022	53.49	35.56	9.27	1.68
2023	57.24	32.10	8.99	1.67
2024	51.49	36.39	10.16	1.96

It is obvious from above statement that the first order of births accounts for 51.49% of the total births registered during 2024. The proportion of first and second order of births taken together accounted for 87.88% in the total registered births of 2024. The share of births beyond third order was only 1.96%.

## DISTRIBUTION OF LIVE BIRTHS BY AGE OF MOTHER

The age of the mother at the time of attainment of motherhood will have an influence on the overall health of the child and the safety of mother during the time of delivery. Attainment of motherhood below the age of 18 years is considered to be undesirable in the interest of mother as well as of the newly born child. Though out of the total registered births during 2024, only 2.57% are from the mothers in the age group  $\leq 19$  years, there is still need to undertake sustained campaign focused towards eligible couples in the age group of up to 18 years and living in slums, advising to avoid attainment of motherhood at such an early age.

### Statement 3.4: Percentage Distribution of Births by age of Mother

Year	Age Group of Mothers in Years				
	$\leq 19$	20-24	25-29	30-34	35 & above
2005	2.25	46.62	38.56	9.86	2.71
2006	1.97	45.56	39.67	9.37	3.43
2007	1.97	48.71	37.39	9.61	2.32

## TYPE OF MEDICAL ATTENTION RECEIVED AT DELIVERY

The type of medical attention received at the time of birth in case of domiciliary events is an important factor in controlling the level of infant mortality. Further, it will have a bearing on the quality of service rendered by health workers involved in the field.

### Statement 3.5: Percentage Distribution of Births by type and medical attention

Statement 3.5 gives percentage wise distribution of live births by type of medical attention at the time of child birth. It may be seen from the above statement that medical institutions have accounted for more than 96% of the total births during 2024. Obviously, the share of institutional births has gone up continuously. It was only 73.72% in 2005. During 2024, the proportion of institutional births to total registered births has marginally increased (0.51%) in comparison to year 2023. In the year 2024, total 294464 live births occurred in the hospitals i.e. on an average 805 live births occurred daily in the hospitals during 2024.

## BIRTH EVENTS - LOCAL BODY WISE

Statement 3.6 reveals the distribution of birth events of 2024 among local bodies of Delhi. Out of the total births, 86.64% were registered in the MCD whereas NDMC accounted for 12.14%. The total registration under DCB constitutes only 1.23% of the total births. Further, break-up of registered birth events reveals that only 11.90% of the births were rural, whereas 88.10% were urban.

## BIRTHS BY BIRTH ORDER VIS-À-VIS LEVEL OF MOTHER'S EDUCATION

It is widely known that there is close relationship between the level of educational attainment of mother and order of births. The data presented in statement 3.7 states that a specific trend has been seen in the level of education of the mother, and the birth order. It is evident from column No. 6 that proportion of births under “Graduate and above” category is decreasing with the higher order of birth.

Further, it is observed that out of total births of fourth and higher birth order, in 41.12% cases the level of education of mother was ‘matric but below graduate’ and in 16.70% cases, the mothers were illiterate. Obviously, in case of fourth and higher order of birth, the proportion of births was 9.63% in the category of mother having ‘graduation or above qualification’.

**DISTRIBUTION OF BIRTHS LOCAL BODY WISE BY TYPE AND SEX**

Statement 3.8 gives the distribution of births in institutional (government and non government) and non institutional categories in each local body. It reveals that during 2024, out of total births 96.09% births were institutional including 62.56% births in govt. institutions and 33.52% in non-govt. institutions, whereas, 3.91% were non-institutional i.e. domiciliary births. During 2024, govt. hospitals in Delhi have handled on an average 524 cases of live births per day (533 per day in 2023) as against 281 per day (292 per day in 2023) by non-govt. institutions. The sex composition in birth events in both type of institutions were more or less having same pattern and on the other hand the sex composition in non-institutional i.e. domiciliary cases has different picture.

### REGARDING STILL BIRTHS

Of late, it is being observed that data / information which pertains to still births is not reported regularly by the hospitals/ institutions to the concerned Registrar (B&D). The Office of Chief Registrar (B&D) had made a communication to sensitize the Medical Superintendents of the hospitals/institutions to report the vital events inclusive of still births within the stipulated period of 21 days to the concerned Registrar (B&D).

An effort has been made to present the data on still births for the years 2019 to 2024 in the statement 3.9.

## SECTION FOUR

### PROFILE OF DEATHS REGISTRATION

This section reflects the information on different aspects of death registrations that had taken place during 2024 under Civil Registration System with special reference to the number of events registered across years, male- female composition, age at the time of death, medically certified causes of deaths, infant and maternal mortality rates, local body-wise registration of death events etc. The level of death registration was found to be more than 100% consistently over a period of time thereby indicating good status of Civil Registration System in Delhi.

#### Death Registration under Civil Registration System

During 2024, a total of 1,39,480 deaths were registered by three local bodies. Out of total deaths, 85,391 (61.22%) were males, 54,051 (38.75%) were females and 38 (0.03%) were others. Sex ratio of deaths revealed that for every 1000 male deaths, 633 female deaths have occurred during 2024. On an average, 381 number of deaths were registered per day during 2024.

## Medically Certified Cause of Deaths

Statement 4.9 provides MCCD data pertaining to institutional deaths as per coding of ICD-10. The ICD-10 is used to translate diagnosis and other health related problems from words to alphanumeric code and thereby facilitates the classification and analysis of data. This statement provides the status regarding major causes of deaths as per MCCD for institutional deaths during 2024. In this regard, more details are presented in Table D-11 of the section 5 of the report.

## CONCEPTS & DEFINITIONS

**Some important concepts used in this Annual Report are defined as follows:**

1. **Birth:** “Birth” means live-birth or still birth.
2. **Live Birth:** “Live-Birth” means the complete expulsion or extraction from its mother of a product of conception, irrespective of the duration of pregnancy, which after such expulsion or extraction, breathes or shows any other evidence of life, and each product of such birth is considered live-born.
3. **Still-Birth:** “Still-Birth” means foetal death where a product of conception has attained at least the prescribed period of gestation.
4. **Death:** “Death” means the permanent disappearance of all evidence of life at any time after live-birth has taken place.
5. **Foetal Death:** “Foetal Death” means absence of all evidence of life prior to the complete expulsion or extraction from its mother of a product of conception irrespective of the duration of pregnancy.
6. **Infant Death:** “Infant Death” means death of a child less than one year old.
7. **Level of Registration:** The level of registration, defined as the percentage of registered births/ deaths to the births/ deaths estimated through SRS, determines the performance of a State/ Union Territory with regard to functioning of Civil Registration System.

$$\text{Level of Registration (LOR)} = \frac{\text{Number of events registered during the year}}{\text{Number of estimated events for the year}} \times 100$$

$$\text{Number of estimated events for the year} = \text{Mid-year population} \times \text{SRS Rate}$$

8. **Mid-year Population:** “Mid- year population” means, population at the mid-point of the year, i.e. 1<sup>st</sup> July of the year.

$$\text{Sex Ratio at Birth} = \frac{\text{No. of female births registered during the year}}{\text{No. of male births registered during the year}} \times 1000$$

Delayed Registered Birth events of more than one year have been duly deducted for arriving the sex ratio at birth.

9. **Birth Rate:** Birth rate acts as an index of the relative speed at which additions are being made to the population through child-birth. It is only a live birth that signifies an addition to the existing population, excluding still births.

The annual birth rate is defined as:

$$\text{Birth Rate} = \frac{\text{No. of Births in a year}}{\text{Mid-year Population}} \times 1000$$

10. **Death Rate:** The death rate for a given year tells us at what rate deaths have depleted the population over the course of the year.

The death rate, which measures the decrease in a population due to deaths, is perhaps the most widely used of any vital statistics rate because of its value as an index in numerous demographic & public health problems.

The Annual Death Rate is defined as :

$$\text{Death Rate} = \frac{\text{No. of Deaths in a Year}}{\text{Mid-year Population}} \times 1000$$

11. **Infant Mortality Rate:** Infant mortality rate serves as one of the best indices to the general “healthiness” of a society. It is similar to age-specific death rate for infants under 1 year of age.

The annual infant mortality rate is defined as :

$$\text{Infant Mortality Rate} = \frac{\text{No. of deaths under 1 year of age which occurred among the population}}{\text{No. of live births which occurred among the population}} \times 1000$$

12. **Maternal Death Rate:** Maternal death rate is defined as maternal deaths per thousand live births.

$$\text{Maternal Death Rate} = \frac{\text{No. of Maternal Deaths}}{\text{No. of live births}} \times 1000$$

13. **Neo Natal Mortality Rate:** The neo-natal mortality rate, like the infant mortality rate, is similar to an age specific rate. It is a rate used to measure the risk of death during the first month of life and is defined as:

$$\text{Neo-Natal Mortality Rate} = \frac{\text{No. of deaths of infants under the age of 1 month which occurred among the population}}{\text{No. of live births which occurred among the population}} \times 1000$$

14. **Post Natal Mortality Rate:** The post natal mortality rate, like the infant mortality rate, is similar to an age specific rate. It is a rate used to measure the risk of death during 28 days to 12 months of life and is defined as:

$$\text{Post-Natal Mortality Rate} = \frac{\text{No. of deaths of infants during the age of 28 days to 12 months which occurred among the population}}{\text{No. of live births which occurred among the population}} \times 1000$$
