PREFACE

The Report on 'Sixth Economic Census in Delhi' is prepared on the basis of data collected during February - June, 2013 under the Central Sector scheme of Ministry of Statistics & Programme Implementation, Government of India. The huge task of conduct of Sixth Economic Census was undertaken by Directorate of Economics and Statistics. The report contains information on the total number of entrepreneurial units in agriculture (excluding crop production and plantation) & non-agriculture (except Public Administration & Defence) in Delhi and the total number of persons usually working therein.

The data in the report is presented district-wise and provides various indicators of economic activities in Delhi. Detailed information on various characteristics of the entrepreneurial activities viz. location, kind of ownership, nature of operation, employment status, registration particulars, sources of finance etc. are also presented in the report. The data generated under the Sixth Economic Census will provide necessary frame for launching of follow-up socio-economic surveys on different sub-sectors of un-organized non-agricultural sector.

The whole hearted participation by the Principals/ Vice- Principals of Govt. schools designated as Charge Officers, school teachers of GNCTD, Local Bodies, Anganwadi & Asha Workers & Govt. Officials and unemployed youths worked as Supervisors and Enumerators for conduct of field work of sixth Economic Census is highly appreciated. We are also grateful to the households and entrepreneurs who have made this economic census a success by providing requisite information to enumerators.

I place on record my special gratitude for the tireless efforts put by all the officers and staff of DES and Planning Department, Govt. of NCT of Delhi for overall supervision of field work, providing training to all field functionaries and scrutiny of filled-in schedules within stipulated time period. The report has been prepared by Sh. P.K.Chaurasia, Statistical Officer, Mrs. Varsha Kumar, Sh. K. Prasanth Kumar and Dr. Prateek Jain, Statistical Assistant of Economic Census Unit of this Directorate under the supervision of Sh. Chandan Kumar Dutta, Dy. Director. I also render my special thanks to the Officers of Economic Census Division, Central Statistics Office, MOSPI, Govt. of India for providing valuable guidance from time to time.

CHAPTER ONE

INTRODUCTION

Economic Census is the complete enumeration of entrepreneurial activities operating in the geographical boundaries of State/Country at a given point of time to come out with the official count of enterprises and their characteristics. The subject of coverage under the Sixth Economic Census briefly includes all types of entrepreneurial activities in the field of agricultural (except crop production and plantation) as well as non-agricultural. Entrepreneurial activities mean, all those economic activities dealing with the production and/or distribution of goods/services not solely for the purpose of own consumption. To illustrate, a Tailor engaged in the tailoring activity and charges for the service is included and a housewife stitching the clothes of family members alone, as a part of her domestic work is excluded for the purpose of Economic census.

All economic activities - agricultural and non-agricultural, except those involved in crop production and plantation, public administration, Defence and compulsory social security, related to production and/or distribution of goods and/or services were covered. The main agricultural activities covered under the Sixth Economic Census include livestock production, agricultural support activities, hunting, forestry, logging, fishing and aquaculture. Non-agricultural field of activity covered by Economic Census operations includes mining & quarrying, manufacturing, electricity, gas & water supply, sewerage, waste management, construction, wholesale & retail trade, transport & storage, accommodation & food service, information & communication, financial & insurance, real estate, professional, scientific & technical, administrative & support service, education, human health & social work, arts; entertainment & recreation etc. The above said activities whether they are in household or institutional, private or public were covered without exception. However, as were done earlier Censuses, following activities were kept out of the preview of the 6th EC:

- a. Establishments of shelter-less and nomadic population, which keep on moving from place to place and camp either without shelter or with makeshift shelter.
- b. Establishments engaged in some illegal activities like smuggling, gambling, beggary, prostitution, etc.
- c. Domestic servants, whether they work in one household or in a number of households, drivers, etc. who undertake jobs for other on wages.
- d. Household members engaged in household chores.
- e. Households in which none of the members is engaged in any gainful activity i.e. households depending on remittance, rent, interest, pension etc.

ECONOMIC CENSUS IN PERSPECTIVE

The first Economic Census was conducted in India in 1977. The coverage of the Census was confined to non-agricultural establishments. The census did not cover own-

account and agricultural enterprises. The items of information collected from each establishment were its location, description of activity, total number and the number of hired persons usually working by gender, type of ownership, activity, power/fuel used for carrying out the activity, value of annual output/turnover/receipts mixed activity or not, registered/licensed/recognized or not, and act/authority, if registered. In addition to the above, a schedule giving village amenities in rural areas was also canvassed. A mixed approach was followed for collection of requisite data. It was complete house listing in the entire urban area and in those villages (contiguous, compact and well identifiable area units) with a census population of more than 5000. In other smaller villages (i.e. villages with 5000 population or less), a village level enquiry was made to list establishments and they were later visited and establishments were canvassed, wherever warranted.

The second and third Economic Censuses were clubbed with the house listing operations of Population Censuses conducted in 1980 and 1990 respectively keeping in view the operational convenience and cost effectiveness. The censuses had wide scope and coverage than that of the first one. Both own account enterprises and establishments, agricultural and non-agricultural enterprises were covered. The items on which information was collected under these censuses were more or less the same as those collected in the first Economic Census. However, based on the field problems faced and experience gained in the first Economic Census, the collection of information relating to value of output/turnover/receipts was dropped. Domestic workers engaged by household (maids) were also not included in the coverage of Economic Census. The same line of approach was adopted under the Fourth (1998), Fifth (2005) and Sixth Economic Census (2013) as well. New feature added during the fifth and sixth Economic census was canvassing of a separate schedule “Address slip/Directory of Establishments” among the enterprises employing 10 or more workers for compilation of a Directory of larger establishments.

ECONOMIC CENSUS: OBJECTIVE

The main objectives behind the conduct of Economic census are explained below:

- The Economic Census which mainly gives activity-wise and area-wise head count of enterprises, employment and other main characteristics in numerical terms and their growth over a period of time gives a measure of impact of policies of Government in this regard.
- To provide detail information on operational and economic variables, activity wise, of all the establishments of all the States/Countries including its distribution at lower geographical levels like tehsil/villages in case of rural areas and towns/wards in case of urban areas for decentralized planning.
- To generate information on number of exporting establishments, employing 10 or more workers, activity- wise and area- wise in operation.
- To provide updated Directory of Establishments employing 10 or more workers for local level planning purposes and also for using a ‘list frame’ for conduct of survey of such establishments in the non-manufacturing/services sector, and

- It provides area sample frame for follow-up surveys. The follow-up surveys give out data on size, region, distribution, employment, value added of each of non-agricultural sector. This will help bridge data gaps in the unorganized sector of the economy. The rationale behind the repetition of this exercise periodically is to update the database.

GEOGRAPHICAL COVERAGE

The 6th Economic Census was conducted in Rural as well as Urban areas of Delhi without exception. Rural area consists of 112 Census villages. Census villages refer to those areas classified and covered as villages during 2011 Population Census conducted by Registrar General of India (RGI).

Urban area of Delhi comprised of three statutory towns viz. Municipal Corporation of Delhi (MCD), New Delhi Municipal Council (NDMC), Delhi Cantonment and Census towns. Census towns are those villages having a population of 5000 and above, at least 75% of male working population are employed in non-agricultural activities and density of population is at least 400 per sq. km., covered as urban areas during Population Census 2011 by RGI. There were 110 such Census Towns in Delhi.

The unit of survey in both rural and urban areas was the Enumeration Blocks (EBs) used in Population Census 2011 by ORGI. The total number of such blocks covered during the course of field work was about 33,210.

STEERING COMMITTEE

A State Level Steering Committee was constituted in February-2012 under the Chairmanship of Chief Secretary, Govt. Of NCT of Delhi (Annexure I). The committee inter alia included representatives from Department of Finance, Planning, Services, Education, Labour, Industry, Divisional Commissioner, Development Commissioner, MCD, NDMC, Delhi Cantonment Board and the Ministry of Statistics & Programme Implementation, Govt. of India.

FUNDS

The Plan Scheme of 6th Economic Census is fully funded by Ministry of Statistics & Programme Implementation, Government of India. The total outlay at the national level is Rs. 763.49 crores. Out of this, an amount of Rs. 10.51 crores (1.4%) was provided to Delhi. Under the scheme, two posts of officers (Assistant Director, Statistical Officer) and five posts of officials (four Statistical Assistants, one LDC/Typist) were created in this Directorate on temporary basis during the period of the scheme.

MANPOWER DEPLOYMENT & TRAINING

For the conduct of field work of Economic Census, teachers of Local Bodies, Anganwadi workers, Asha Workers and 12th pass unemployed youths were deployed as enumerators and teachers of Directorate of Education and officers/staff of Planning &

Statistical cadre besides some other category of government staff were deployed as supervisors on part time basis. In all, 5,300 enumerators, 4,700 supervisors and 92 Charge officers were deployed for conduct of field work. Overall supervision was done by the officers of Planning & Statistical cadre. The teachers deployed for Economic Census were given seven days special Earned Leaves apart from the honorarium for conducting the field work. Teachers/other official and unemployed youths deployed for the conduct of field work were given two days training in batches and trainings were imparted during January-March, 2013 by the officers of this Directorate/Planning Department.

METHODOLOGY

During the course of field work, dual approach was adopted for covering the entrepreneurial activities. In respect of establishments operated with fixed structure, such units were covered at the place of their operation. On the other hand, economic activities that are carried out without any fixed structures or location were accounted at respective households (residence). This was done to ensure the complete coverage of the activities without exception. The actual work of enumeration was done on house to house basis, covering the length and breadth of Delhi.

PERIOD OF FIELD OPERATIONS

The field work of 6th Economic Census was initially planned during February-March, 2013. The field work was inaugurated in the first week of February, 2013 by the Hon'ble Chief Minister. Due to non-availability of adequate number of teachers and heavy dropout of unemployed youths the field work could be completed by June, 2013.

SCHEDULES CANVASSED

Three schedules namely, (i) House and Establishment Listing Schedule, (ii) Establishment Abstract, and (iii) Directory of Establishment Schedule were used in the sixth Economic Census. The specimens of these schedules are given at Annexure-II.

PUBLICITY

Wide publicity campaign was organized through print media by releasing series of advertisements in the leading news papers of Hindi, English, Urdu, Punjabi languages soliciting cooperation for providing information under the Economic Census. All Resident Welfare Association (RWAs) and Trader's Associations associated with 'Baghidari' scheme were also sensitized by sending letters and pamphlets. Apart from this, Government of India had publicized through TV and other electronic media.

LIMITATIONS OF SIXTH ECONOMIC CENSUS

The limitations of data generated under the 6th Economic Census are discussed below keeping in view the interest of users of this data.

The method of collection of data under Economic Census is not record- based information but only oral information provided by the informants. In this method under reporting of employment, unintended accuracy, recall lapse and casual approach on the part of the informants is likely to some extent.

Majority of enumerators deployed under the sixth Economic Census in Delhi were unemployed youths/students, Asha workers and Anganwadi workers who were totally new to such type of work. The limited availability of the services of the school teachers who are considered to be seasoned field workers for such type of enumeration work, was felt during the course of organization of field work

Although certain improvements were made in the schedule to guard against under-listing of establishments (particularly the home-based units or those operating without fixed structures), data as per sixth economic Census may be subject to some amount of coverage error on account of such under-listing, which is difficult to eliminate totally in a massive census operation.

Despite the above limitations, the data collected under the 6th Economic Census is expected to fulfill the needs of planners and other data users richly.

CHAPTER TWO

CONCEPTS AND DEFINITIONS

Concepts and definitions of the important terms used in Sixth Economic Census are detailed below:

ESTABLISHMENT

An establishment is a unit or an economic entity situated in a single location in which predominantly one kind of economic activity is carried out such that at least a part of the goods and /or services produced by the unit is sold. For example, it can be an office providing services to the consumers/clients on fee or payment basis, a shop selling the provisions of day to day consumption /use, a factory producing or manufacturing a goods item, or a house where an economic activity is carried out by the member(s) within the household by themselves or by hiring person(s) or with a combination of the two. The activity may be carried out within fixed premises/permanent structure or without having any permanent structure.

AGRICULTURAL ESTABLISHMENT

An agricultural establishment for the purpose of this Census is one engaged in production of agriculture good (other than crop production & plantation by the farmers or a group of farmers or any agency), agricultural services, hunting, trapping & game propagation, livestock production, forestry and logging as well as fishing and aquaculture, where at least some part of the production or services is sold out. Establishments engaged in activities pertaining to crop production and plantation though in the agriculture sector were not covered. Thus primarily cultivators themselves were outside the purview of Economic Census. However, services incidental to crop production or plantation provided/ undertaken by any one individual or a firm or a company by charging fee or rent /compensation e.g. machinery & equipment for tilling/cultivation, preparation of field or sowing harvesting/chaffing, transportation of agriculture goods/ produce, charging for irrigation facilities etc. as their principal activity were included and the establishments engaged in such activities were enumerated.

It may be noted that while the growing of tea, coffee, rubber, tobacco, etc. were not classified as agricultural establishments for the purpose of this census, however, establishments engaged in processing of tea, coffee, tobacco etc. were covered.

Agricultural Broad Activates:

- 1) Agriculture Activities (Except Crop production & Plantation)
- 2) Live Stock
- 3) Forestry and Logging
- 4) Fishing & Aqua Culture

NON-AGRICULTURAL ESTABLISHMENT

Establishments engaged in activities other than agricultural activities as defined above are termed as non- agricultural establishment.

Non-Agricultural Broad Activities:

- 1) Mining and Quarrying
- 2) Manufacturing
- 3) Electricity, Gas, Steam & Air conditioning
- 4) Water Supply and Sewerage and Waste Management
- 5) Constructions
- 6) Sale, Maintenance and repair of Motor vehicles and Motor cycles
- 7) Wholesale Trade
- 8) Retail Trade
- 9) Transport and Storage
- 10) Accommodation and Food service activities
- 11) Information & Communication
- 12) Financial & Insurance Activities
- 13) Real Estate Activities
- 14) Professional, Scientific & Technical Activities
- 15) Administrative and Support Service Activities
- 16) Education
- 17) Human Health and Social Work Activities
- 18) Arts entertainment, Sports & Amusement and Recreation
- 19) Other Activities

Following types of establishments were kept out of census coverage:

- ❖ Agriculture: Establishments growing perennial and non-perennial crops including plantation crops
- ❖ Government offices: Establishments engaged in public administration covering all Ministries, Departments at Central and State/ UT Govt. level and also local Govt. This includes Courts, Tax Office, Offices of Ministry of Defence (Air Force, Navy and Army), Police, ESIC, EPFO etc.
(However, government schools/institutions, colleges, hospitals, hostels/ flats, guest houses, government banks, all public sector undertakings including that of Ministry of Defence other than defence equipment production or sensitive material corporations, undertakings etc. were covered.)
- ❖ Establishments involved in Gambling and betting activities declared illegal by the Government
- ❖ International organizations such as United Nations and its agencies, Foreign Embassies/Consulates etc.

HOUSEHOLD

A household is a group of persons usually living together and taking their meals from a common kitchen. It includes temporary stay-away (those whose total period of absence from household is expected to be less than six months) but excludes temporary visitors and guests (with expected total stay of less than 6 months). There may be a household of persons related by blood or a household of unrelated persons or having a mix of both but satisfying above condition of a household. Example of households having unrelated persons/members are boarding houses, messes, hostels, recue houses, jails, ashrams, etc. These are called 'Institutional Households'.

CENSUS HOUSE

A census house is a building or a part of building having a separate main entrance from the road or common courtyard or staircase, etc., used, or recognized as a separate unit. It may be occupied or vacant. It may be used for residential, commercial or for both purposes.

PREMISES

Premise is census house or part of a Census house occupied by a unit/household. If the activity of the enterprise carried out by a unit /household extends beyond the boundaries of a single house to a group of contiguous houses and in rare cases a group of houses in close proximity, the entire group of houses is regarded as single premise.

WORKER

All persons (including children under 15 years of age) working in an establishment either as owners, members of the household working as co-owner or partner or helping the owner in running the establishment, whether hired or not, besides regular and salaried employees, casual/ daily wage labourers are considered as workers for that establishment. A worker may serve the establishment in any capacity-primary worker or as supervisor. Salespersons appointed by an establishment for selling/marketing its produce or services of apprentices, supporting workers, paid or unpaid are also treated as workers. The owner running the establishment would also be considered as a worker and counted for the purpose.

CONCEPTS OF VARIOUS TYPES OF OWNERSHIP

GOVERNMENT/PUBLIC SECTOR UNDERTAKING

Establishments which are wholly owned/run/managed by Central or State governments, quasi-government institutions, local government bodies like Zila/Gram Panchayat, Zila Parishad, City Corporation, Municipal authorities, autonomous bodies like Central/State/deemed to be Universities, Education boards, and government owned institutions like schools, libraries etc. set up by the government, with 100% funding are usually called Government establishments. Those run with more than 50% share of the government and remaining share coming from other sources will be treated as government/public sector undertaking.

All establishments which are not treated as Government/ Public sector establishments will be treated as Private Establishments and classified into one of the following:

PROPRIETARY ESTABLISHMENT

When an individual is the sole owner of an establishment it is a proprietary establishment.

PARTNERSHIP ESTABLISHMENT

Partnership is defined as a 'relationship between two or more persons who have agreed to share the profits of a business carried out by all or any one of them acting for all'. There may be two or more owners in a firm, belonging to the same or different household, on a partnership basis, with or without formal registration. All partnership establishments registered under partnership Act, 1932 were also covered in the Economic census.

PRIVATE CORPORATE ESTABLISHMENTS (COMPANIES)

Those Private Establishments (companies) registered under the companies Act 1956 and carrying out economic activities fall under the category of 'Private corporate Establishments'. It includes private limited and public limited companies, as well as establishments registered under Limited liability partnership ACT, 2008.

NON-PROFIT INSTITUTION

Non-Profit Institution are legal or social entities created for the purpose of producing goods and services whose status does not permit them to be a source of income/profit or other financial gain for the units that establish, control or finance them.

CO-OPERATIVE SOCIETIES

A co-operative society is one that is formed through the co-operation of a number of persons, recognized as members of the society, to benefit themselves. In the process, the funds are raised by members' contribution /investments and the profits generated out of the society's activities are shared by the members. Such societies are usually registered under Co-operative Societies Act 1912.

SELF-HELP GROUPS (SHG)

A self-help group (SHG) is a financial intermediary usually composed of 10-20 local persons. Members make small regular savings/ contributions over a few months until there is enough capital in the group to begin lending. Funds are then lent back to the members or to others in the village for any purpose. Many SHGs are 'linked' to banks for the delivery of microcredit. SHG need not be registered.

NATURE OF OPERATION

If the entrepreneurial activity is carried on or likely to be carried on (for newly started establishments) throughout the year more or less regularly, it is treated as perennial activity.

If the activity of the establishment is confined to a particular season i.e. fixed months of a year, the same is called the seasonal activity. The economic activity of the establishment which is neither perennial nor seasonal is termed as casual. In case of casual entrepreneurial activity, it is carried out occasionally depending upon the availability of time and resources.

NUMBER OF PERSONS EMPLOYED ON THE LAST WORKING DAY IN RELATION TO DAY OF VISIT

The number of persons found working comprising, hired, non-hired (including family members; unpaid apprentice and owner himself), on the last working day in the establishment with gender break up: male and female, and the total had been recorded. Eunuchs & Hermaphrodite workers are added under male. Regular wage/salaried workers, who are temporarily absent on the last working day were also counted. In case of working owners/other family workers (i.e. Self-employed persons), those 'normally 'work in the establishment but could not work on the last working day, were also included.

CHAPTER THREE

RESULTS AT A GLANCE

This chapter is devoted to the analysis of the main findings of the Sixth Economic Census held in Delhi during the year 2013. The data collected in respect of 112 villages and 113 towns (MCD, NDMC and Delhi Cantonment and 110 Census towns) was initially got tabulated and released in the form of quick estimates in the year 2014. In the earlier Economic Census the NCT of Delhi was divided into 9 districts but in 6th Economic Census the number of districts increased to 11 and data was collected on the basis of these 11 districts. Subsequently, the data was scrutinised thoroughly and all the agricultural and non-agricultural establishments other than crop production and plantation were assigned appropriate codes as per National Industrial Classification 2008. All the entrepreneurial units were grouped under the broad sectors of economy, namely, agriculture (other than crop production and plantation), non-agriculture (other than service), non-agriculture (service). The importance of non-agricultural sector gets multiplied in respect of NCT of Delhi as this set of activities occupy pivotal position as 99.2% of establishments come under this category.

The data reveals that there was 15.52% growth in terms of number of establishments over the Fifth Economic Census. In this process, some minor modifications have occurred in the final tally of results presented in this report when compared to the summary results released under quick estimates. The main findings are discussed with the help of Statements, Graphs and wherever it is feasible, comparison with the earlier Economic Census data was also made in separate chapter to project the changes that had taken place during the last three Economic Censuses.

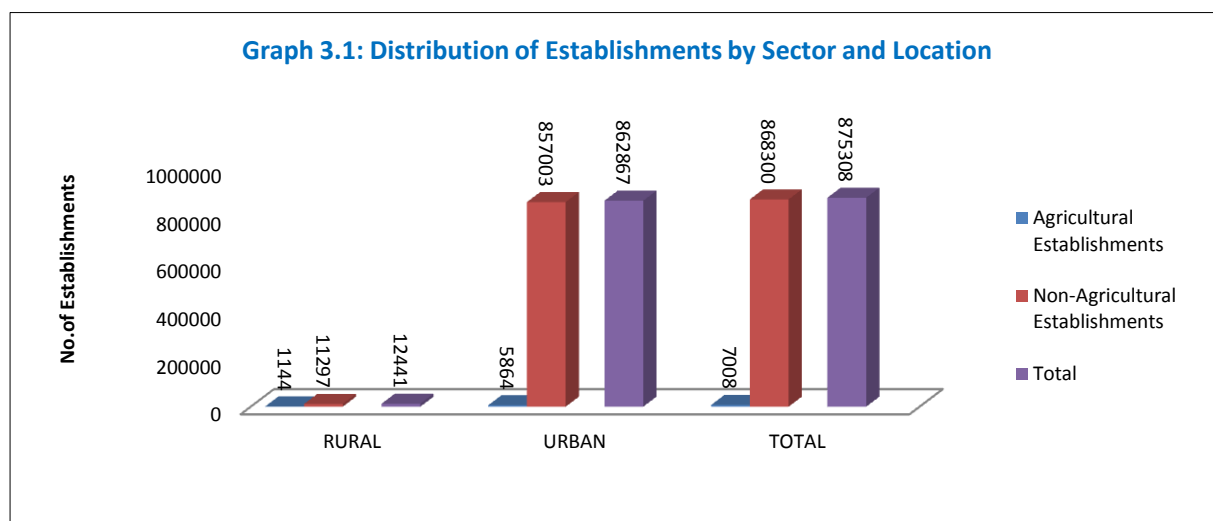

DISTRIBUTION OF ESTABLISHMENTS

The results reveal that the total number of establishments found to be operating in the geographical boundaries of NCT of Delhi during 2013 comes to 8,75,308. Out of them only 12,441 (1.42%) were in rural areas and 8,62,867 (98.58%) in urban areas. Break-up of establishments in terms of agricultural and non-agricultural type revealed that 7,008 (0.80%) belong to former category and 8,68,300 (99.20%) to latter.

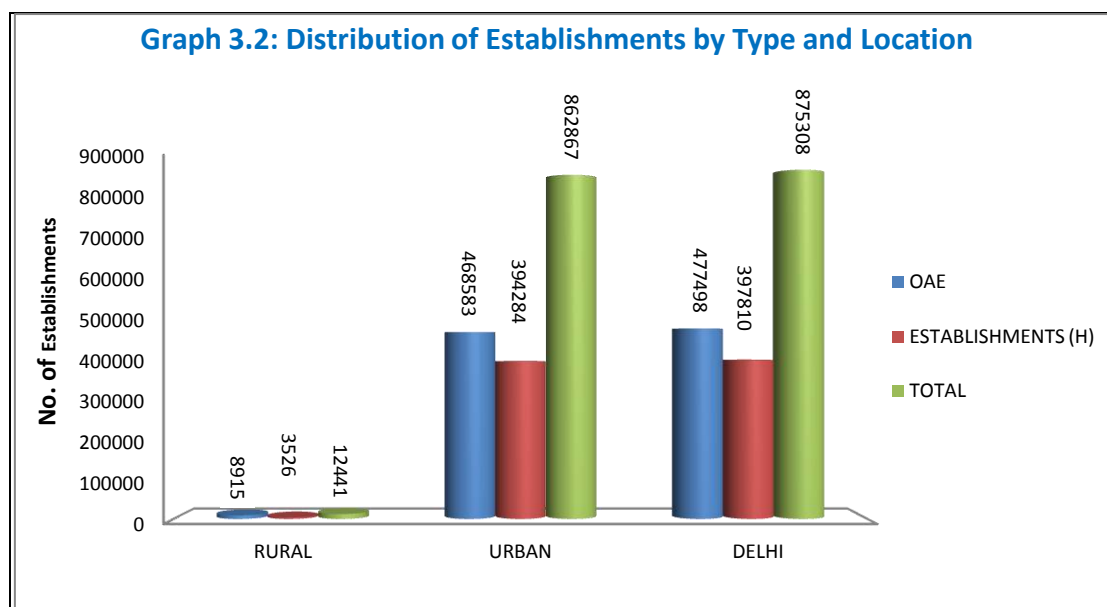

In the rural areas out of total establishments 1,144 belong to agriculture and 11,297 to non-agriculture. Similar classification in respect of urban areas reveals that there were 5,864 agricultural and 8,57,003 non-agricultural establishments. Location-wise distribution of establishments is presented in Graph – 3.1. The insignificance of rural areas in the context of number of establishments is clearly visible from the graph.

CHAPTER FOUR

AGRICULTURAL SECTOR

Entrepreneurial activities in the primary sector of the economy were also covered under the Sixth Economic Census though the main thrust was on non-agricultural economic activities. The coverage however, is limited to all those agricultural activities minus crop production and plantation. Accordingly, 'Agricultural Establishments' referred to in this chapter may be taken to mean those engaged in Live Stock Production, Agricultural services, forestry logging, fishing and aquaculture. Agricultural establishments account for only 0.80% of total establishments and no. of persons employed is 0.55% of the total employment in Delhi. Among the agricultural activities covered under the Sixth Economic Census the sub sector 'Livestock' emerged as the main activity.

The principal features of agricultural establishments were explained in terms of no. of establishments, employment, type of ownership and other principal characteristics to give an idea about this activity both in rural and urban areas of Delhi.

NUMBER OF AGRICULTURAL ESTABLISHMENTS

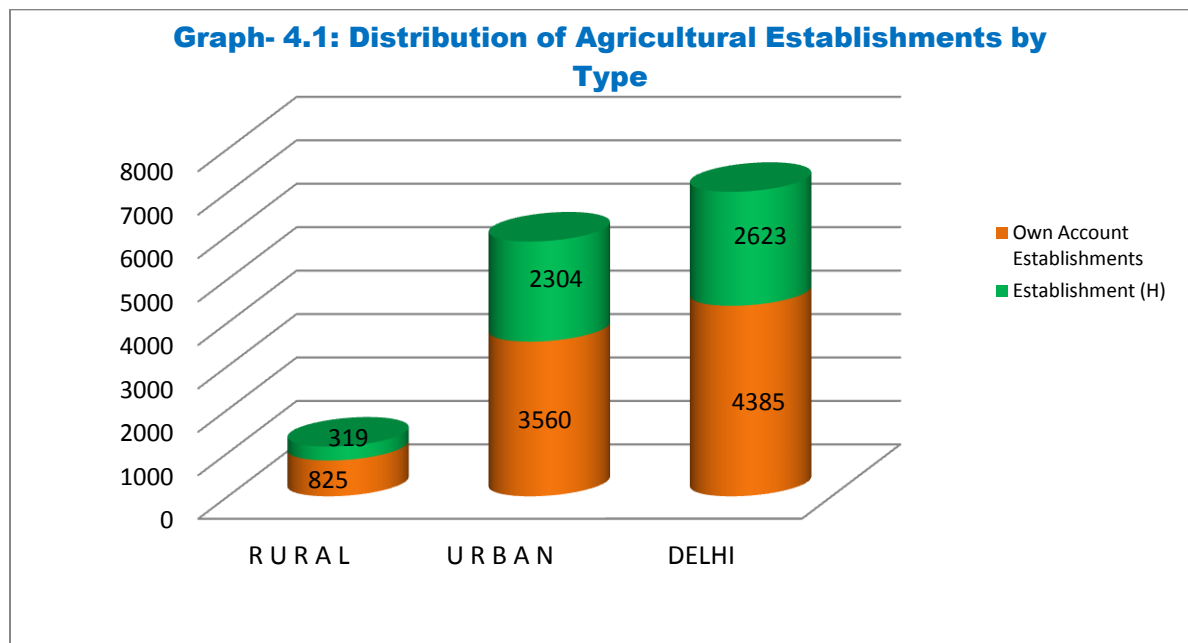

The total number of agricultural establishments as per the Sixth Economic Census comes to 7,008. Out of them 1,144 (16.32%) were located in rural areas and rest of the 5,864 (83.68%) in urban areas. Further distribution of these establishments in terms of own account establishments and establishments with at least one hired worker (H) reveals that 4,385 (62.57%) belong to the establishment category OAE and 2,623 (37.43%) to the establishment (H). Statement 4.1 gives the details of agricultural establishments by type, location and employment thereof.

CHAPTER NINE

COMPARISON OF RESULTS OF ECONOMIC CENSUSES 1998, 2005 & 2013

The first Economic Census was conducted in 1977, and subsequently 2nd, 3rd, 4th and 5th Economic Censuses were conducted in 1980, 1990, 1998 and 2005 respectively. The 6th Economic Census was the latest held in the year 2013. In the present chapter a comparative study on last three Economic Censuses were done. Many changes have been observed among these censuses in terms of coverage, methodology, geography, economic activities, employment etc.

During the 4th and 5th Economic Censuses for rural area villages and for urban area Urban Frame Sample blocks created by NSSO (FOD) was taken as primary unit but in the 6th Economic Census, Enumeration Blocks (EBs) provided by the office of Registrar General India & Census Commissioner, Ministry of Home Affairs, Govt. of India were taken as primary units for both rural and urban sectors. The purpose of using the Census EBs in urban areas is to have a single/uniform map for lowest geographical units of urban areas, which would facilitate to synchronize the Economic Census results with the Population Census 2011.

The rural and urban composition of Delhi has been changed over last 15 years. Huge urbanization has been witnessed in these years. In fourth Economic Census (1998) in rural area of Delhi, the data was collected from 209 census villages as per 1991 population census where as in fifth economic census; survey was conducted in 165 census villages as per 2001 population census. Similarly, in urban area, besides MCD, NDMC & Delhi Cantonment, 59 census towns were surveyed in fourth economic census whereas in fifth economic census 29 census towns were surveyed. In sixth economic census the number of census villages decreases to 112 as per 2011 Population Census whereas the number of census towns increases to 110. Further, in fourth economic census Delhi was taken as single district, in fifth economic census Delhi was divided in nine revenue districts and data was collected district wise whereas in sixth economic census the number of revenue districts increased to 11, and the district wise data was collected from all the eleven districts.

Unlike fourth economic census a new feature was added during the fifth economic census was canvassing of a separate “Address Slip” among the establishments employing 10 or more workers for compilation of a Directory of Establishments. Similarly, with few changes a separate schedule (Schedule 6C) was introduced in sixth economic census for collecting information of the establishments employing 8 or more workers for compilation of a Directory of Establishments.

Statement 9.1 reveals that number of establishments in Delhi is increasing steadily over the years. Annual growth rate was 6.35% in fourth economic census whereas, it was 1.50% in 5th economic census. Sixth economic census registered annual growth rate of 1.94%. In absolute term, there is an increase of 1,17,565 establishments over fifth economic census. From the Statement it is evident that number of enterprises declined continuously after fourth economic census in rural Delhi due to merging of villages in its urban counterpart.

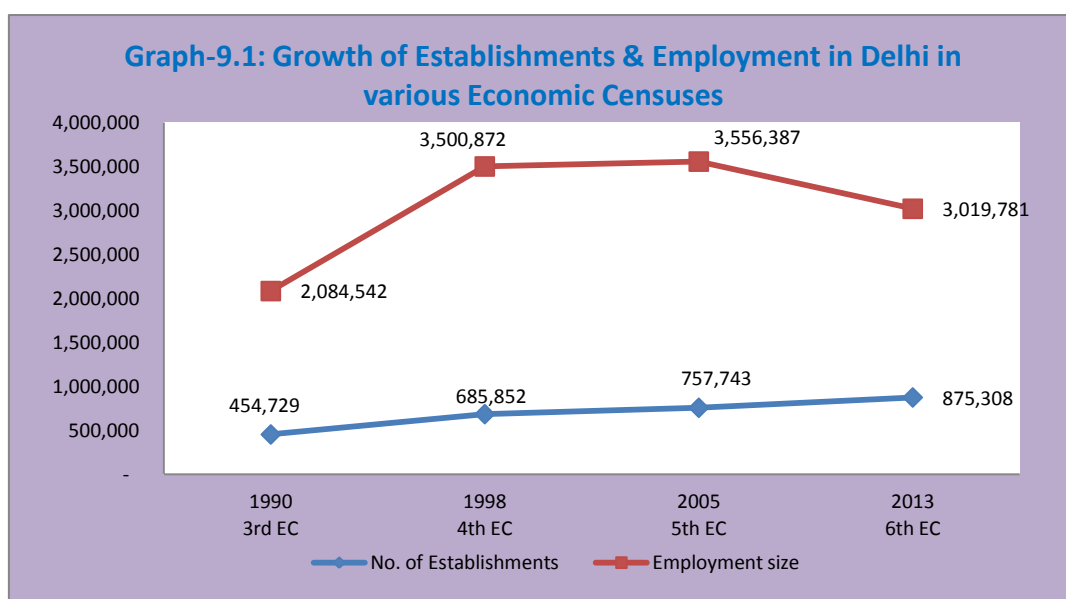

Establishments were further divided into two types namely, own account establishments (OAE) and establishments with at least one hired worker [Establishment (H)]. Fourth and sixth economic censuses witnessed sharp increase in number of establishments in OAE category whereas fifth economic census experienced negative growth of 0.67% in the number of OAEs. On the other hand a considerable growth had been observed in fourth and fifth economic censuses in establishment (H) category. However, in sixth economic census number of enterprises in this category has decreased by 1.30%.

Being a highly urbanized state, number of agricultural enterprises per 100 non agricultural enterprises was very nominal in all the economic censuses in case of Delhi. The

proportion of agricultural enterprises was 1.04, 0.43 and 0.80 respectively in fourth, fifth and sixth economic censuses.

Fourth and fifth economic censuses registered a growth of 8.49% and 0.23% in the number of employment in Delhi, whereas, sixth economic census has experienced a considerable decrease of 1.89% in the number of persons engaged in different entrepreneurial activities. Average employment size had been decreased from 5.10 per establishment in fourth EC to 4.69 in fifth EC and 3.45 in sixth EC.

Pictorial presentation of growth in the number of establishments and employment therein is given in Graph no. 9.1.

CHAPTER TEN

CHARACTERISTICS OF DIRECTORY OF ESTABLISHMENTS

This chapter is giving a glimpse of characteristics of relatively bigger establishments in terms of number of persons employed therein. So, this chapter is exclusively devoted to the establishments which were having 8 or more workers as per sixth Economic Census. In this sixth EC, to capture the statistics of the enterprises with more than 10 or more workers, a separate form (schedule 6C) was designed and surveyed along with main schedule 6A. Data extracted from schedule 6C are being tabulated separately. One separate publication is being released to give the economic overview of these bigger enterprises in the form of Directory. However, all the data presented in this chapter are based solely on the information collected through schedule 6A.

Statement 10.1 depicts the broad activity-wise number of establishments with 8 or more persons employed therein in Delhi. The data reveals that only 34,236 (3.91%) establishments out of total 8,75,308 have employed 8 or more persons. For agricultural activities, the percentage of establishments with 8 or more persons is worked out to 0.40% only as against 3.94% for non-agricultural activities. In absolute term, a maximum of 18,952 establishments have engaged 8 or more persons in 'manufacturing' sector. It constitutes 55.4% of total non-agricultural establishments with 8 or more persons.

While analysing the composition of establishments sector-wise (Statement 10.1), it is exhibited that Financial & insurance activities has the highest proportion with 19.4% of establishments having 8 and more persons employed, followed by Electricity, gas, steam & air conditioning (12.8%) and Manufacturing (12.2%).
