PREFACE

The Estimates of State Domestic Product representing the value of all goods and services produced within the State is one of the important indicators used to measure the growth of the State's Economy in a nutshell. These estimates provide a broader picture of outcomes due to various policy interventions, investments made opportunities opened-up in the state. State Domestic Product is a reflection of economic development of the State and its derivative Per Capita Income is a suitable measure of the well-being of its people. The Directorate of Economics & Statistics, Delhi has been bringing out estimates of State Domestic Product since 1970, and making them up to date from time to time as per the guidelines and methodology provided by the National Accounts Division, National Statistical Office, M/o Statistics & Programme Implementation, Govt. of India.

In January 2015, NSO introduced the new series of national accounts statistics with base year 2011-12, replacing the previous series with base year 2004-05. These estimates are based on the latest available data on agricultural production, industrial production, government expenditure, departmental and non-departmental enterprises, private corporate sector, etc. In the new series, the latest recommendations of SNA 2008 have been implemented. Further, the new series, besides the shifting of the base year from 2004-05 to 2011-12, incorporates improvements in terms of coverage of corporate sector, financial corporations and local bodies, results of latest surveys and studies and important procedural changes. Accordingly, changes have also been incorporated in the Estimates prepared at State level. This issue presents Estimates of Gross/Net State Domestic Product of Delhi for 2011-12 to 2017-18, Third Revised Estimates for 2018-19, Second Revised Estimates for 2019-20, First Revised Estimates for 2020-21 along with Advance Estimates for 2021-22 with new series at current and constant prices with the base year 2011-12.

The publication has been prepared in the "State Accounts Division" of this Directorate due to the sincere efforts made by the officers/ officials of the Division. I also take this as an opportunity to pay my sincere gratitude to the officers/ officials of the National Accounts Division, National Statistical Office for their unstinted guidance, help and support. The cooperation extended by various departments and organizations functioning in the National Capital Territory of Delhi, in the preparation of these estimates by providing required data is gratefully acknowledged.

It is earnestly hoped that this publication would meet the requirements of all those concerned with the economic development of the state and prove a strong tool in the hands of academicians for research work and administrators for policy formulations. It is our constant endeavor to improve the utility of the publication.

Suggestions, if any, for improvement of the coverage and contents of this brochure, are welcome.

ANNEXURE 2: Methodology used by DES, Delhi for the new series of GSDP with base year 2011-12

Estimates of State Domestic Product
2011-12 to 2017-2018,
2018-19 (3rd Revised Estimates), 2019-20 (2nd Revised Estimates),
2020-21 (1st Revised Estimates) and 2021-22 (Advance Estimates)
(Base Year: 2011-12)

EXECUTIVE SUMMARY

The salient features of the Report on Estimates of State Domestic Product 2021-22 (Advance Estimates) with Base Year 2011-12 are as under:

A. GROSS STATE DOMESTIC PRODUCT (GSDP)

- ❖ The GSDP of Delhi at Current Prices is expected to increase from ₹ 343798 Crore in 2011-12 to ₹ 785342 Crore in 2020-21 and ₹ 923967 Crore in 2021-22 signifying an annual average growth rate of 10.49% (2011-12 to 2021-22).
- ❖ The growth in nominal GSDP of Delhi during 2021-22 is estimated at 17.65% as compared to the contraction of 1.09% during 2020-21.
- ❖ The annual increase in nominal GDP at National level during 2021-22 is estimated at 19.4% as compared to the contraction of 1.4% during 2020-21.
- ❖ In real terms, GSDP at constant (2011-12) prices is expected to increase from ₹ 343798 Crore in 2011-12 to ₹ 564669 Crore in 2020-21 and ₹ 622430 Crore in 2021-22 with annual average growth rate of 6.19% (2011-12 to 2021-22).
- ❖ The growth in real GSDP of Delhi during 2021-22 is estimated at 10.23% as compared to the contraction of 3.86% in 2020-21.
- ❖ The annual increase in real GDP at national level during 2021-22 is estimated at 8.9% as compared to the contraction of 6.6% during 2020-21.
- ❖ Delhi's GSDP (at Current Prices) contraction of 1.09 per cent during 2020-21 reflect the unparalleled effect of the Covid-19 pandemic and the containment measures that were taken to control the pandemic. However, Advance estimates suggest that the Delhi's economy is expected to witness real GSDP expansion of 10.23 per cent in 2021-22 after contracting in 2020-21. This implies that overall economic activity has recovered past the pre-pandemic levels.

B. NET STATE DOMESTIC PRODUCT (NSDP)

- ❖ State Income / NSDP of Delhi, at current prices, is expected to touch a level of ₹ 702519 Crore in 2020-21 and ₹ 836162 Crore in 2021-22 as compared to ₹ 314650 Crore during 2011-12, registering annual average growth rate of 10.38% (2011-12 to 2021-22).
- ❖ The growth in nominal NSDP of Delhi during 2021-22 is estimated at 19.02% as compared to the contraction of 1.55% during 2020-21.
- ❖ The annual increase in nominal NDP at National level during 2021-22 is estimated at 19.6% as compared to the contraction of 2.5% during 2020-21.
- ❖ In real terms, NSDP at base year (2011-12) stood at ₹ 314650 Crore whereas 1st Revised Estimates and Advance Estimates for the years 2020-21 & 2021-22 at constant prices is estimated to be ₹ 496284 Crore and ₹ 548058 Crore respectively.
- ❖ The growth in real NSDP of Delhi during 2021-22 is estimated at 10.43% as compared to the contraction of 4.93% in 2020-21.
- ❖ The annual increase in real GDP at national level during 2021-22 is estimated at 9.1% as compared to the contraction of 8.3% during 2020-21.

C. PER CAPITA INCOME

- ❖ 1st Revised and Advance Estimates of Per Capita Income for the year 2020-21 and 2021-22 at current prices are estimated at ₹ 344136 and ₹ 401982, respectively with the contraction of 3.37% and a growth of 16.81% over the previous years. It is also to be noted that the Per Capita Income at current prices recorded annual average growth rate of 8.18% for the period 2011-12 to 2021-22. At the National level, Per Capita Income for the year 2020-21 and 2021-22 were ₹ 126855 and ₹ 149848 respectively with the contraction of 4.0% and a growth of 18.1% over previous years.
- ❖ Per Capita Income at constant prices for the years 2020-21 and 2021-22 is expected to touch a level of ₹ 243110 and ₹ 263477 as compared to ₹ 185001 during the base year 2011-12 indicating the contraction of 6.69% and a growth of 8.38% respectively over the previous years. It is also to be noted that the Per Capita Income in real terms recorded annual average growth rate of 3.69% for the period 2011-12 to 2021-22. At National level, Per Capita Income for the year 2020-21 and 2021-22 is estimated at ₹ 85110 and ₹ 91723 respectively showing contraction of 9.7% and a

growth of 7.8% over the previous years. Per Capita Income of Delhi is around three times higher than the National level Per Capita Income.

D. SECTORAL COMPOSITION

- ❖ 1st Revised Estimates and Advance Estimates of GSVa at current prices for the year 2020-21 and 2021-22 shows that contribution of Primary Sector (comprising of Crops and Livestock, Forestry and Logging, Fishing, Mining and Quarrying) in the economy of Delhi has decreased to 1.77% and 2.28% for both years respectively from 3.49% share in the base year 2011-12. At constant prices, the share of Primary Sector has also decreased to 3.08% during 2020-21 and it remained intact during 2021-22. NSVA at current prices shows that contribution of primary sector in the economy of Delhi has declined from 3.50% in the base year 2011-12 to 1.80% and 2.31% respectively during the year 2020-21 (1st Revised Estimate) and 2021-22 (Advance Estimate) respectively. Similarly, in real terms, the contribution has decreased to 3.22% in both the years 2020-21 (1st Revised Estimate) and 2021-22 (Advance Estimate) respectively.

At National level, percentage share of GVA in Primary Sector (at current prices) is estimated to be 21.0% during 2021-22 as compared to 21.7% share during the base year i.e. 2011-12.

- ❖ GSVa at current prices reveals the fact that contribution of Secondary Sector (comprising of Manufacturing, Electricity, Gas, Water Supply & Other Utility Services and Construction) in the economy has decreased from 13.09% during the base year 2011-12 to 12.85% in 2020-21 (1st Revised Estimate) while it increased to 13.78% in 2021-22 (Advance Estimate) whereas, at constant prices it has increased to 13.70% and 15.52% in the years 2020-21 (1st Revised Estimate) and 2021-22 (Advance Estimate) respectively. NSVA at current prices shows that the contribution of secondary sector in the economy of Delhi for the year 2020-21 (1st Revised Estimate) is to the tune of 12.54% while it increased to 13.64% in the year 2021-22 (Advance Estimate), whereas the contribution of this sector at constant prices increased to 13.16% and 15.25% in the years 2020-21 (1st Revised Estimate) and 2021-22 (Advance Estimate) respectively from 12.54% in the base year.

At National level, GVA in Secondary Sector (at current prices) is contributing around 26.2% during 2021-22, while it was 29.3% during the base year i.e. 2011-12.

- ❖ Contribution of Tertiary Sector (comprising of Trade, Hotels & Restaurants, Railways, Transport, Storage, Communication, Financial Services, Real Estate, Ownership of Dwellings & Other Professional Services, Public Administration and Other Services) in the economy is showing mixed trend. GSVA at current prices shows that the contribution of tertiary sector in the economy was 83.42% during the base year 2011-12 that has increased to 85.38% and 83.94% in the years 2020-21 (1st Revised Estimate) and 2021-22 (Advance Estimate) respectively, while at constant prices, it has decreased to 83.22% and 81.40% in the years 2020-21 (1st Revised Estimate) and 2021-22 (Advance Estimate) respectively. NSVA Estimates at current prices shows that contribution of tertiary sector in the economy of Delhi has increased from 83.96% during base year to 85.66% in the year 2020-21 and 84.05% in the year 2021-22, whereas at constant prices, it has declined to 83.62% in the year 2020-21 (1st Revised Estimate) and 81.53% in the year 2021-22 (Advance Estimate) respectively.

At National level, contribution of Tertiary Sector (at current prices) in the economy is estimated at 52.8% during 2021-22, whereas the share of GVA in Tertiary Sector during 2011-12 was 49.0%.

E. GSDP TO GDP RATIO

- ❖ The share of GSDP Delhi in All India GDP at current prices in the year 2011-12 was 3.94% and it is expected to reach at 3.91% during 2021-22, while ratio of population of Delhi to All India is estimated to be 1.52% during 2021-22. The figure of GSDP Delhi to All India GDP for constant prices is expected to reach at 4.21% during 2021-22.

Chapter 1

State Domestic Product (Base Year: 2011-12)

State Domestic Product is a measure in monetary terms of the volume of all goods and services produced by an economy during a given period of time accounted without duplication. SDP is a reflection of economic development of the State and its determinate Per Capita Income is a suitable measure of the well-being of its people. The measure obviously has to be in value terms as the different units of production and different measures of services are not directly additive. The estimates of State Domestic Product (SDP) of the National Capital Territory of Delhi are prepared at current and constant prices by the Directorate of Economics & Statistics, Delhi. The estimates of SDP at current prices are obtained by evaluating the product at current prices prevailing during the year. The estimates of SDP at current prices, over the time do not reveal actual economic growth because these contain the combined effect of (i) the changes in volume of goods and services and (ii) the changes in the prices of goods and services. In order to eliminate the effect of price changes/inflation, the estimates of SDP are also prepared by evaluating the goods and services at the prices prevailing in the fixed year known as base year and are known as the estimates of State Domestic Product at constant prices.

The estimates of State Domestic Product are prepared for all the sectors of economy both in terms of Gross and Net basis. The difference between the two is that in the gross estimates, no deduction is made for Consumption of Fixed Capital (CFC) which takes place in the process of production, whereas in the net estimates, CFC is subtracted from the gross value figures. Net State Domestic Product is also called State Income. Again, capital is one of the primary factors used in production and this results in the consumption of the fixed capital and hence, a reduction in the economic life of the capital. In other words, the capital depreciates as a result of its use in the process of production. The CFC measures the replacement value of that part of the capital stock, which has been used up in the production process during the year.

The SDP estimates are prepared with respect to a base year and this base year gets revised from time to time to take into account the structural changes which have been taking place in the economy and to depict a true picture of the economy through macro aggregates like GSDP, consumption expenditure, capital formation, etc. For examining the performance of the economy in real terms through the macro economic aggregates like Gross State Domestic Product (GSDP), State Income, consumption

expenditure, capital formation etc., estimates of these aggregates are prepared at the prices of selected year known as base year.

First series of estimates was compiled for the period 1960-61 to 1977-78 with base year 1960-61. Second series covers the period from 1970-71 to 1986-87 with base year 1970-71. The third series was w.e.f. 1980-81 to 1996-97 with base year 1980-81. Fourth revision took place in nineties with base year 1993-94 and continued up to 2004-05. Fifth revision took place in 2006 with base year 1999-00 and continued up to 2008-09. Sixth revision took place in 2010 with the base year 2004-05. For the present series the base year has been revised to 2011-12. The estimates at the prevailing prices of the current year are termed “at current prices”, while those prepared at base year prices are termed “at constant prices”. The comparison of the estimates at constant prices, which means “in real terms”, over the year gives the measure of real growth. Therefore, the base year of the present SDP series has been shifted to 2011-12.

Three major components influencing the present revision exercise include (i) revision to the base year to a more recent year (for meaningful analysis of the structural changes in the economy), (ii) complete review of the existing data base and methodology employed in the estimation of various macro-economic aggregates including choice of the alternative databases on individual subjects and (iii) to the extent feasible, implementing the recommendations of the System of National Accounts (1993 and 2008) prepared under the auspices of the Inter Secretariat Working Group on National Accounts comprising of the European Communities (EUROSTAT), InterNational Monetary Fund (IMF), Organisation for Economic Cooperation and Development (OECD), United Nations and World Bank.

In the new series, efforts have been made to make use of as much current data as possible. Further, the results of latest available surveys have also been made use of. Some of the important sources of data, which have been used in the new series, are as follows:

Improvements in coverage

Corporate Sector - In the 2004-05 series, the Private Corporate Sector in 2004-05 series was being covered using the RBI Study on Company Finances, wherein estimates were compiled on the basis of financial results of around 2500 companies. In the new series, comprehensive coverage of Corporate Sector has been ensured in mining, manufacturing and services by incorporation of annual accounts of companies as filed with the Ministry of Corporate Affairs (MCA) under their e-governance initiative,

MCA21. Accounts of about 5 lakh companies have been analysed and incorporated for the years 2011-12 and 2012-13, while the number of common companies (companies for which accounts are available for the year 2012-13) is around 3 lakh for the year 2013-14.

Financial Corporations - Financial corporations in the private sector, other than banking and insurance, in the earlier series was limited to a few mutual funds and estimates for the Non-Government Non-Banking Finance Companies as compiled by RBI. In the new series, the coverage of financial sector has been expanded by including stock brokers, stock exchanges, asset management companies, mutual funds and pension funds, as well as the regulatory bodies, SEBI, PFRDA and IRDA.

Local Bodies and Autonomous Institutions - Earlier at National Level, estimates for local bodies and autonomous institutions were prepared on the basis of information received for seven autonomous institutions and local bodies of four States - Delhi, Himachal Pradesh, Meghalaya and Uttar Pradesh. In the new series, there has been an improved coverage of local bodies and autonomous institutions, covering around 60% of the grants/transfers provided to these institutions.

Use of results of recent surveys and censuses and type studies - In the new series, efforts have been made to make use of as much current data as possible. Further, the results of latest available surveys have also been made use of. Some of the important sources of data, which have been used in the new series, are given below:

- (i) NSS 68th round (2011-12) - Survey on employment and unemployment and consumer expenditure;
- (ii) NSS 67th round (2010-11) - Survey on Unincorporated Non-agricultural Enterprises (Excluding Construction);
- (iii) All India Livestock Census, 2012;
- (iv) NSS 70th round (2013) - All India Debt and Investment Survey and Situation Assessment Survey; and
- (v) Population Census, 2011.
- (vi) Study on yield rates of meat products & by-products of different livestock species conducted by National Research Centre on Meat, Hyderabad.
- (vii) Study on the inputs in the Construction sector by Central Building Research Institute (CBRI), Roorkee.
- (viii) Study on 'Harvest and Post-harvest losses of major crops and livestock products in India' conducted by Central Institute of Post-Harvest Engineering and Technology (CIPHET), Ludhiana.

Implementation of 2008 SNA

While revising the base year, efforts have also been made by the NSO, MOSPI, Govt. of India, to implement the recommendations of the System of National Accounts (SNA) 2008 to the extent data are available. Some of the recommendations which presently form part of the new series are:

- (i) **Valuation of various GVA, NVA and related aggregates at basic prices and GDP at market prices instead of factor cost.**
- (ii) Estimates of the institutional sectors - Non-financial and financial Corporations, General Government and households are shown separately, in view of their 'intrinsic difference in their economic objectives, functions and behaviour'.
- (iii) Distinction between General Government and public corporations has been made and units have been allocated to institutional sectors so that general government and other public units can be identified separately.
- (iv) Unincorporated enterprises belonging to households, which have complete sets of accounts, tend to behave in the same way as corporations. Therefore, as recommended by SNA 2008, such enterprises have been treated as quasi-corporations. Some examples of quasi-corporations in the Indian context are proprietorship and partnership enterprises, maintaining accounts.
- (v) The head office has been allocated to the non-financial corporations sector unless all or most of its subsidiaries are financial corporations, in which case it is treated as a financial auxiliary in the financial corporations sector. In the 2004-05 series, the recommendation had been adopted for service sector wherein GVA estimates were compiled from enterprises in this sector. In the new series, this approach has been adopted for the mining and organized manufacturing sectors also.
- (vi) Sub-sectoring of Non-Profit Institutions (NPIs) in the corporate and government sectors has been done in respect of autonomous bodies and Section 25 companies.
- (vii) Expenditure on Research & Development (R&D) has been capitalised in Government, Public Corporations and Private Corporations and hence has become part of capital formation.
- (viii) Output of Financial Intermediation Services Indirectly Measured (FISIM) has been calculated using a reference rate for the financial sector, except in the case of central bank (Reserve Bank of India).
- (ix) Output of central bank (RBI) is measured at cost.

- (x) Non-financial assets in the earlier series were classified as 'construction' and 'machinery'. In the new series, as recommended by SNA 2008, non-financial assets have been classified as 'dwellings, other buildings and structures', 'machinery and equipment', 'cultivated biological resources' and 'intellectual property products'.
- (xi) Consumption of fixed capital has been measured at the average prices of the period with respect to a constant-quality price index of the asset concerned.

FISIM - In the earlier series, output of Financial Intermediation Services Indirectly Measured (FISIM), which gives an estimate of the 'net interest margin' of the financial corporations, was based on the difference between total property receipts (dividend+ interest+ net profit on sale of investments) and total interest payments by the financial corporations. In the new series, as recommended in the SNA 2008, the estimates of FISIM have been compiled, using the Reference Rate (RR) approach.

Use of Consumer Price Indices – Rural/Urban/Combined - Price indices are used for compiling the estimates in two cases – (i) as a deflator when current price estimates are available through firm data sources (e.g. annual financial reports) and (ii) for converting the constant price estimate to that at current prices, when quantum indicators are used in compilation. In the earlier series, CPI-AL/IW was being used as an indicator for the movement in retail prices. In the new series, these have been replaced by the more broad based CPI-Rural/Urban/Combined, which have since become available.

Further, the results of various studies undertaken by the NSO through the Ministry of Agriculture, Ministry of Environment and Forestry and also NSO's input output transaction tables and the Ministry of Agriculture's Cost of Cultivation Studies have been used in the new series for updating the rates and ratios used to estimate the production/consumption of fodder, market charges paid by the farmer, yield rates of meat, meat products and meat by products for different categories of animals, input rates for agriculture and forestry and the trade and transport margins.

Under the present series, estimates of State Domestic Product of Delhi are compiled with effect from 2011-12 to 2021-22. The Estimates of State Domestic Product of Delhi for the years 2018-19 (third revised) and 2019-20 (second revised) have been prepared on the basis of revised data received from National Statistical Office (NSO) and other data sources. Also, the second revised estimates for the year 2019-20 for certain sub-sectors have been prepared on the basis of actual data culled out from the analysis of budget documents of State Govt., Local Bodies, Delhi Jal Board, Delhi

Development Authority, Annual Accounts of State Autonomous Institutions, actual data on production in r/o Agriculture and allied activities received from different data sources and provisional data received from Govt. of India. The first revised estimates for the year 2020-21 have been prepared using actual data on production in r/o Agriculture and allied activities received from different data sources, projected data using extrapolation techniques / National trends at sub-sector level and using budget data of RE. The advance estimates for 2021-22 have been projected by using extrapolation techniques / National trends at sub-sector level and using budget data of BE. As per advise of National Accounts Division, NSO, MoSPI, Govt. of India, Population Projections officially released by National Commission on Population, Ministry of Health & Family Welfare have replaced the earlier projections provided by the NSO, Govt. of India for calculation of Per Capita Income. Therefore, Per Capita Income both at current and constant prices for the years 2011-12 onwards have been revised accordingly during the preparation of advance estimates of SDP for the year 2019-20. The revised population projections have also been used for advance estimates of SDP for the year 2021-22.

As per the press note on new series of National income dated 30th January, 2015 issued by the Ministry of Statistics & Programme Implementation, it is to be noted that Gross Domestic Product (GDP) at factor cost will no longer be discussed in the press releases. As is the practice internationally, industry-wise estimates will be presented as Gross Value Added (GVA) at basic prices, while "GDP at market prices" will henceforth be referred to as GDP. Estimates of GVA at factor cost (earlier called GDP at factor cost) can be compiled by using the estimates of GVA at basic prices and production taxes less subsidies. Like-wise, estimates of SDP are also prepared and presented in this report in conformity with the procedure followed at the National level.

ESTIMATION OF SDP

For the purpose of estimation of SDP, the whole economy of the state has been divided into eleven (11) sectors and twenty one (21) sub-sectors in conformity with the procedure followed at the National level to estimate the National Income estimates. The procedure is followed by each state and union territory of the country to make the estimates comparable. The twenty one sub-sectors have been further categorized into three broad sectors as shown in the following table:

PRIMARY SECTOR	
1.	Agriculture, forestry & fishing
1.1	Crops
1.2	Livestock
1.3	Forestry & Logging
1.4	Fishing
2.	Mining & Quarrying
SECONDARY SECTOR	
3.	Manufacturing
4.	Electricity, Gas, Water Supply & other Utility Services
5.	Construction
TERTIARY SECTOR	
6.	Trade, hotels & restaurants
6.1	Trade & Repair Services
6.2	Hotels & Restaurants
7.	Transport, Storage & Communication
7.1	Railways
7.2	Road transport
7.3	Water transport
7.4	Air transport
7.5	Services incidental to transport
7.6	Storage
7.7	Communication & Services related to broadcasting
8.	Financial Services
9.	Real estate, ownership of dwellings & professional services
10.	Public Administration
11.	Other Services

Estimates of these sectors are prepared individually by adopting one or more of the following approaches.

(i) **Production Approach:** In this method, the sum of economic value of all goods and services produced within the State during the year is considered after deducting the inputs consumed in the process of production.

(ii) **Income Approach:** The income accrued to the factors of production namely land, labour, capital and entrepreneurship in form of rent, salaries and wages, interest and profit is taken into consideration in estimation of value added.

(iii) **Expenditure Approach:** This method is based on the measurement of income at the stage of disposal. All that is produced is either ultimately consumed or part of it is saved for further consumption or future production of goods and services. Thus, the money value of consumption expenditure plus the savings gives the income.

2. COVID-19's Impact on Economy and Sequential Recovery

To adopt strict social distancing and isolation measures to contain the spread of COVID-19 in NCT of Delhi, the Government of NCT of Delhi had issued the Delhi Epidemic Diseases, COVID-19 Regulations, 2020 under the Epidemic Diseases Act, 1897 for prevention and containment of COVID-19 and notified a lockdown in the whole of territorial jurisdiction of NCT of Delhi from 0600 hrs on Monday, 23rd March, 2020 to midnight of Tuesday, 31st March, 2020. Thereafter, a nationwide 'stringent' lockdown for 21 days was declared on March 24, 2020 and subsequently extended till May 31, 2020. India imposed a stringent nation-wide lockdown during the initial phase of the pandemic in March-April, 2020, followed by gradual unlocking and phasing out of the containment measures.

During the April- May, 2021, the nation witnessed the second wave of Covid-19 caused by Delta variant, a variant of concern classified by WHO on May 11, 2021 and is currently the dominant variant that is circulating globally. Delta spreads more easily than earlier strains of the virus and is responsible for more cases and deaths worldwide. During the December, 2021 and January, 2022 the third wave of Covid-19 spread across the nation, with the new variant called Omicron. This has also impacted the momentum of economic growth during the year 2021-22. The economy continues to be plagued by uncertainty, with resurgent waves of mutant variants, supply-chain disruptions.

The last two years have been difficult for the world economy on account of the COVID-19 pandemic. The years 2020 and 2021 witnessed unrivalled turmoil with the novel COVID-19 virus and the resultant pandemic emerging as the biggest threat to economic growth in a century. The pandemic has been unique in its wide-ranging effects on almost every section of the economy and the society. The pandemic impacts both supply and demand in the economy.

The public health measures, adopted to contain the spread, engendered sizeable immediate economic costs as they led to almost full suspension of economic activity, curbed consumption and investment, as well as restricted labor supply and production. COVID-19, therefore led the world to the predicament of saving 'lives' or 'livelihoods' as the steps taken to flatten the infection curve, steepened the macroeconomic recession curve.

The pandemic has been a unique economic shock that has triggered both supply and demand side shocks simultaneously across economies around the world. Increased uncertainty, lower confidence, loss of incomes, weaker growth prospects, fear of contagion, curtailment of spending options due to closure of all contact-sensitive activities, the triggering of precautionary savings, risk aversion among businesses and resultant fall in consumption and investment – leading to the first order demand shock. The supply chain disruptions caused by closure of economic activity and restricted movement of labour lead to the first order supply shocks. The first order supply side disruptions potentially created second round effects on both demand and supply. The initial supply shock, resulting in wage and income loss, could impact aggregate demand and impair productive capacity leading to supply shocks. Vaccination has played a major role in minimizing loss of lives, boosting confidence in the economy towards reopening of activity and containing the sequential decline in output due to second wave.

Delhi's GSDP (at Constant Prices) contraction of 3.86 per cent during 2020-21 reflect the unparalleled effect of the Covid-19 pandemic and the containment measures that were taken to control the pandemic. However, Advance estimates suggest that the Delhi's economy is expected to witness real GSDP expansion of 10.23 per cent in 2021-22 after contracting in 2020-21. This implies that overall economic activity has recovered past the pre-pandemic levels. The sector wise position of growths observed in GVA/GSDP of Delhi as compared to National level GVA/GDP and consequential recovery of the economy is presented in Statement 1.1.

Statement 1.1: Growths and sector-wise recovery of Economy (at Constant Prices) of Delhi vs All India

SECTORS	Growths over Previous Years (in %)						Recovery over 2019-20	
	2019-20		2020-21		2021-22			
	Delhi	All India	Delhi	All India	Delhi	All India	Delhi	All India
1. Agriculture, Forestry & Fishing	-0.74	5.5	-17.36	3.3	-2.85	3.3	80.29	106.70
2. Mining & quarrying	9.46	-1.5	9.68	-8.6	10.66	12.6	121.37	102.85
3. Manufacturing	5.56	-2.9	-0.42	-0.6	29.91	10.5	129.37	109.81
4. Electricity, Gas, Water Supply & Other Utility Services	-1.74	2.2	15.63	-3.6	11.41	7.8	128.82	103.85
5. Construction	-3.19	1.2	-6.45	-7.3	25.91	10.0	117.79	101.92
6. Trade, Hotels, Transport, Communication and Services related to Broadcasting	5.93	5.9	-19.77	-20.2	10.54	11.6	88.68	89.14
7. Financial, Real Estate & professional Services	4.51	6.7	3.07	2.2	4.45	4.3	107.66	106.64
8. Public Administration, Defence and Other Services	9.12	6.3	-2.00	-5.5	8.06	12.5	105.89	106.35
GSVA/GVA at basic prices	5.17	3.8	-4.34	-4.8	9.26	8.3	104.51	103.07
GSDP/GDP at market prices	3.89	3.7	-3.86	-6.6	10.23	8.9	105.98	101.76

With the economy's returning to normalcy brought closer by the successful mega vaccination drive, hopes of a robust recovery in services sector, consumption, and investment have been rekindled. Overall economic activity in Delhi has recovered more faster compared to national past the pre-pandemic levels. In the year 2021-22, a sharp recovery of real GSDP of Delhi with double digit growth is based on a low base effect and inherent strengths of the economy.

3. GROSS STATE DOMESTIC PRODUCT

Statement 1.2: GSDP at Current and Constant Prices

(Rs. Crore)

Price	2011-12	2012-13	2013-14	2014-15	2015-16	2016-17	2017-18	2018-19 (3 rd RE)	2019-20 (2 nd RE)	2020-21 (1 st RE)	2021-22 (AE)
Current	343798	391388	443960	494803	550804	616085	677900	738389	794030	785342	923967
Constant	343798	366628	392908	428355	475623	511765	542015	565327	587316	564669	622430

(3rd RE) - Third Revised Estimates, (2nd RE) - Second Revised Estimates, (1st RE) - First Revised Estimates, (AE) - Advance Estimates.

GSDP at current prices has increased with annual average growth rate of 10.49% from Rs. 343798 crore in 2011-12 to Rs. 923967 crore in 2021-22. However, annual growth rate for 2021-22 was 17.65% over previous year as compared to all India growth of 19.4%. At constant (2011-12) prices, GSDP has increased from Rs. 343798 crore in 2011-12 to Rs. 622430 crore in 2021-22 registering annual average growth rate of 6.19%. For 2021-22, annual growth rate of 10.23% is likely to be recorded in GSDP at constant prices. At National level, annual growth in GDP for 2021-22 is 8.9% at constant prices.

4. NET STATE DOMESTIC PRODUCT/ STATE INCOME

Statement 1.3: NSDP at Current and Constant Prices

(Rs. Crore)

Price	2011-12	2012-13	2013-14	2014-15	2015-16	2016-17	2017-18	2018-19 (3 rd RE)	2019-20 (2 nd RE)	2020-21 (1 st RE)	2021-22 (AE)
Current	314650	357400	404841	448487	500524	558546	613631	665808	713549	702519	836162
Constant	314650	334193	356528	387639	431730	461592	487631	506332	521994	496284	548058

(3rd RE) - Third Revised Estimates, (2nd RE) - Second Revised Estimates, (1st RE) - First Revised Estimates, (AE) - Advance Estimates.

State Income/NSDP of Delhi at current prices was estimated at Rs. 836162 crore during 2021-22 as compared to Rs. 314650 crore during 2011-12, registering average annual growth rate of 10.38% per annum. During the same period, average annual growth rate of National Income at current prices was recorded to the tune of 10.5% per annum. Comparison of the estimates of NSDP (at current prices) of 2021-22 with that of 2020-21 reveals an annual growth of 19.02%. However, annual growth in National

Income for 2021-22 was 19.6%. At constant (2011-12) prices, State Income of Delhi was estimated at Rs. 548058 crore in 2021-22 as compared to Rs. 314650 crore during 2011-12 with average annual growth rate of 5.80%. For the same period, annual average growth of 5.2% was recorded in National Income. Annual growth of State Income was 10.43% in 2021-22 over the previous year as compared to that of 9.1% in National Income.

5. PER CAPITA INCOME (Delhi Vs All India)

Statement 1.4: Per Capita Income of Delhi and All India

YEAR	CURRENT PRICES		CONSTANT PRICES	
	DELHI	ALL INDIA	DELHI	ALL INDIA
2011-12	185001	63462	185001	63462
2012-13	205568	70983	192220	65538
2013-14	227900	79118	200702	68572
2014-15	247209	86647	213669	72805
2015-16	270261	94797	233115	77659
2016-17	295558	104880	244255	83003
2017-18	318323	115224	252960	87586
2018-19	338730	125946	257597	92133
2019-20	356151	132115	260541	94270
2020-21	344136	126855	243110	85110
2021-22	401982	149848	263477	91723

Delhi's Per Capita Income for 2021-22 at current prices has been worked out to Rs. 401982 as against Rs. 344136 during 2020-21 showing a growth of 16.81%. At All India level Per Capita Income in 2021-22 at current prices has been worked out by NSO to the tune of Rs. 149848 with 18.1% growth over previous year. The annual average growth rate of Per Capita Income of Delhi over the period 2011-12 to 2021-22, was registered at 8.18% per annum at current prices. In real terms, Per Capita Income of Delhi was calculated at Rs. 263477 in 2021-22 as against Rs. 185001 in 2011-12, revealing an average annual growth rate of 3.69%. At constant prices, annual growth during 2021-22 over the previous year was recorded at 8.38%. In real terms, Per Capita Income at National Level has increased from Rs. 63462 in 2011-12 to Rs. 91723 in 2021-22 with average annual growth rate of 3.9% while the annual growth in terms of percentage for 2021-22 over previous year was found to be 7.8%. Here, it may be noted that Per Capita Income of Delhi has always been around three times higher when compared to National averages both at Current and Constant Prices.

6. GSDP TO GDP RATIO

The ratio of GSDP Delhi to All India GDP both at current and constant prices has been increasing consistently except deviation in few years as appeared in the two comparative statements 1.5 and 1.6. It is revealed from the statements that share of GSDP Delhi in All India GDP at current prices in the year 2011-12 was 3.94% and it is expected to reach at 3.91% during 2021-22, while ratio of population of Delhi to All India is estimated to be 1.52% during 2021-22. The figure of GSDP Delhi to All India GDP for constant prices is expected to reach at 4.21% during 2021-22.

7. SECTORAL COMPOSITION OF DELHI

Statement 1.8: Sector wise Contribution of GSVA at Current Prices

(In %)

SECTOR	2011-12	2012-13	2013-14	2014-15	2015-16	2016-17	2017-18	2018-19 (3 rd RE)	2019-20 (2 nd RE)	2020-21 (1 st RE)	2021-22 (AE)
Primary	3.49	2.93	3.29	2.79	2.09	1.70	1.67	2.08	1.94	1.77	2.28
Secondary	13.09	14.17	14.07	12.26	13.62	13.48	13.80	13.45	12.58	12.85	13.78
Tertiary	83.42	82.90	82.64	84.95	84.29	84.82	84.53	84.47	85.48	85.38	83.94

(3rd RE) - Third Revised Estimates, (2nd RE) - Second Revised Estimates, (1st RE) - First Revised Estimates,
(AE) - Advance Estimates.

Sector-wise percentage share in the total Gross State Value Added (at current prices) are presented in Statement 1.8. The analysis of sectoral composition of Gross State Value Added (GSVA) at current prices reveals a mixed trend in the contribution of Primary Sector in the economy of Delhi (viz: Crops, Livestock, Forestry & Logging, Fishing, Mining & Quarrying). The contribution of the Primary Sector, which was 3.49%

during 2011-12, is likely to be declined to 2.28% in 2021-22. The Secondary Sector comprising of Manufacturing, Electricity, Gas, Water Supply & Other Utility Services and Construction contributed 13.09% in the total GSVA during 2011-12, which is likely to be increased to 13.78% during 2021-22. The Tertiary Sector, also known as Service Sector, comprising of Trade, Hotels & Restaurants, Transport, Storage & Communication, Financial Services, Real Estate, Ownership of Dwellings & Professional Services, Public Administration and Other Services is the major contributor in the economy of Delhi with the contribution of 83.42% in the total GSVA during 2011-12 and its contribution is expected to be 83.94% during 2021-22.

The overall view of sectoral composition of State Economy (GSVA) at current prices since 2011-12 to 2021-22 has been depicted in the following graphical presentation:

Statement 1.9: Sector wise Contribution of GSVA at Constant Prices

(In %)

Sector	2011-12	2012-13	2013-14	2014-15	2015-16	2016-17	2017-18	2018-19 (3 rd RE)	2019-20 (2 nd RE)	2020-21 (1 st RE)	2021-22 (AE)
Primary	3.49	2.82	3.10	2.96	2.80	2.42	2.43	2.71	2.78	3.08	3.08
Secondary	13.09	14.06	13.99	12.01	13.41	13.28	13.65	13.49	12.95	13.70	15.52
Tertiary	83.42	83.12	82.91	85.03	83.79	84.30	83.92	83.80	84.27	83.22	81.40

(3rd RE) - Third Revised Estimates, (2nd RE) - Second Revised Estimates, (1st RE) - First Revised Estimates, (AE) - Advance Estimates.

Analysis of sectoral composition of GSVA at constant (2011-12) prices is also revealing a mixed trend similar to that at current prices in primary sector but with slight variations in percentages and opposite trend in some years. The contribution of the Primary Sector declined to 3.08% in 2021-22 from 3.49% during 2011-12. The Secondary Sector contributed 13.09% in the total GSVA during 2011-12, which is likely to be increased to 15.52% during 2021-22, whereas the Tertiary Sector contributed 83.42% in the total GSVA at constant prices during 2011-12 and its contribution is expected to be 81.40% during 2021-22.

Delhi's economy has a predominant Service Sector with a share of 83.94% (at Current Prices). The reasons for change in the trend of sectoral composition of the Delhi's Economy may be attributed to the rapid urbanization of Delhi and consequential reduction in agricultural and allied activities.

8. SECTORAL COMPOSITION OF DELHI V/S ALL INDIA

**Statement 1.10: Delhi v/s All India Contribution of Primary Sector to GSVA/GVA
(at Current Prices)**

(In %)											
SECTOR	2011-12	2012-13	2013-14	2014-15	2015-16	2016-17	2017-18	2018-19 (3 rd RE)	2019-20 (2 nd RE)	2020-21 (1 st RE)	2021-22 (AE)
DELHI	3.49	2.93	3.29	2.79	2.09	1.70	1.67	2.08	1.94	1.77	2.28
ALL INDIA	21.7	21.3	21.4	20.9	20.1	20.4	20.4	19.8	20.2	21.8	21.0

(3rd RE) - Third Revised Estimates, (2nd RE) - Second Revised Estimates, (1st RE) - First Revised Estimates, (AE) - Advance Estimates.

It may be seen from Statement 1.10 that the contribution of Primary Sector to GSVA/GVA (at Current Prices) of Delhi as well as All India exhibits a mixed trend, although the contribution of Primary Sector to GSVA of Delhi is quite low ranging between 1.7% and 3.5% whereas for all India GVA, it is hovering between 20.0% and 22.0%.

**Statement 1.11: Delhi v/s All India Contribution of Secondary Sector to GSVA/GVA
(at Current Prices)**

	(In %)										
SECTOR	2011-12	2012-13	2013-14	2014-15	2015-16	2016-17	2017-18	2018-19 (3 rd RE)	2019-20 (2 nd RE)	2020-21 (1 st RE)	2021-22 (AE)
DELHI	13.09	14.17	14.07	12.26	13.62	13.48	13.80	13.45	12.58	12.85	13.78
ALL INDIA	29.3	28.7	27.9	27.3	27.6	27.0	27.0	26.9	24.9	25.1	26.2

(3rd RE) - Third Revised Estimates, (2nd RE) - Second Revised Estimates, (1st RE) - First Revised Estimates, (AE) - Advance Estimates.

It may be seen from Statement 1.11 that the contribution of Secondary Sector to GSVA (at Current Prices) of Delhi is showing a mixed trend while for All India GVA, it shows a declining trend except for the years 2015-16 and 2020-21. In terms of percentage, it can be seen that the contribution of Secondary Sector to GSVA (at Current Prices) of Delhi was 13.09% in 2011-12, which is expected to reach 13.78% in 2021-22 with lowest percentage share in 2014-15 as 12.26% and highest percentage share in

2012-13 as 14.17% respectively. In case of All India GVA, the contribution was 29.3% in 2011-12 which is expected to decline to 26.2% in 2021-22.

**Statement 1.12: Delhi v/s All India Contribution of Tertiary Sector to GSVA/GVA
(at Current Prices)**

(In %)

SECTOR	2011-12	2012-13	2013-14	2014-15	2015-16	2016-17	2017-18	2018-19 (3 rd RE)	2019-20 (2 nd RE)	2020-21 (1 st RE)	2021-22 (AE)
DELHI	83.42	82.90	82.64	84.95	84.29	84.82	84.53	84.47	85.48	85.38	83.94
ALL INDIA	49.0	50.0	50.6	51.8	52.3	52.6	52.5	53.3	54.8	53.1	52.8

(3rd RE) - Third Revised Estimates, (2nd RE) - Second Revised Estimates, (1st RE) - First Revised Estimates, (AE) - Advance Estimates.

It may be seen from Statement 1.12 that the contribution of Tertiary Sector to GSVA (at Current Prices) of Delhi is showing a mixed trend while for All India GVA, it shows increasing trend with deviation in few years. Specifically, the contribution of Tertiary Sector to GSVA in respect of Delhi was 83.42% in 2011-12 which is expected to reach 83.94% by 2021-22. In case of All India, the contribution was 49.0% in 2011-12 which is likely to increase to 52.8% in 2021-22.

Further, it may be seen from the above sectoral composition that both for Delhi and All India, the major contributor to GSVA/GVA (at Current Prices) is Tertiary Sector, followed by Secondary and Primary Sectors respectively.

**Statement 1.13: Delhi v/s All India Contribution of Primary Sector to GSVA/GVA
(at Constant Prices)**

(In %)

SECTOR	2011-12	2012-13	2013-14	2014-15	2015-16	2016-17	2017-18	2018-19 (3 rd RE)	2019-20 (2 nd RE)	2020-21 (1 st RE)	2021-22 (AE)
DELHI	3.49	2.82	3.10	2.96	2.80	2.42	2.43	2.71	2.78	3.08	3.08
ALL INDIA	21.7	20.9	20.7	19.5	18.4	18.3	18.0	17.3	17.4	18.6	17.9

(3rd RE) - Third Revised Estimates, (2nd RE) - Second Revised Estimates, (1st RE) - First Revised Estimates, (AE) - Advance Estimates.

It may be seen from Statement 1.13 that the contribution of Primary Sector to GSVA/ GVA (at Constant Prices) exhibits a mixed trend in case of Delhi whereas at National level, the contribution showed a deteriorating trend throughout the series upto 2018-19, while it is 17.4%, 18.6% and 17.9% during the years 2019-20, 2020-21 and 2021-22 respectively. Further, it may be seen that the contribution of Primary Sector to GSVA of Delhi is quite low with marginal decrease in contribution from 2011-12 to 2021-22, the percentage being 3.49% in 2011-12 and 3.08% in 2021-22. In case of All

India, the contribution of Primary Sector to GVA was 21.7% in 2011-12 which declined to 17.9% in 2021-22.

**Statement 1.14: Delhi v/s All India Contribution of Secondary Sector to GSVA/GVA
(at Constant Prices)**

(In %)											
SECTOR	2011-12	2012-13	2013-14	2014-15	2015-16	2016-17	2017-18	2018-19 (3 rd RE)	2019-20 (2 nd RE)	2020-21 (1 st RE)	2021-22 (AE)
DELHI	13.09	14.06	13.99	12.01	13.41	13.28	13.65	13.49	12.95	13.70	15.52
ALL INDIA	29.3	28.8	28.3	28.1	28.5	28.4	28.6	28.7	27.2	27.8	28.3

(3rd RE) - Third Revised Estimates, (2nd RE) - Second Revised Estimates, (1st RE) - First Revised Estimates, (AE) - Advance Estimates.

It may be seen from Statement 1.14 that the contribution of Secondary Sector to GSVA/GVA (at Constant Prices) is showing a mixed trend for Delhi as well as All India. In terms of percentage, it can be seen that the contribution of Secondary Sector to GSVA/GVA (at Constant Prices) of Delhi was 13.09% in 2011-12, which is expected to increase to 15.52% in 2021-22 whereas for All India, the contribution was 29.3% in 2011-12 which declined to 28.3% in 2021-22.

**Statement 1.15: Delhi v/s All India Contribution of Tertiary Sector to GSVA/GVA
(at Constant Prices)**

(In %)

SECTOR	2011-12	2012-13	2013-14	2014-15	2015-16	2016-17	2017-18	2018-19 (3 rd RE)	2019-20 (2 nd RE)	2020-21 (1 st RE)	2021-22 (AE)
DELHI	83.42	83.12	82.91	85.03	83.79	84.30	83.92	83.80	84.27	83.22	81.40
ALL INDIA	49.0	50.3	51.1	52.4	53.0	53.3	53.3	54.0	55.3	53.6	53.8

(3rd RE) - Third Revised Estimates, (2nd RE) - Second Revised Estimates, (1st RE) - First Revised Estimates, (AE) - Advance Estimates.

It may be seen from Statement 1.15 that the contribution of Tertiary Sector to GSVA/GVA (at Constant Prices) is showing a mixed trend in case of Delhi while for All India, it shows an increasing trend upto 2019-20, while it is 53.6% and 53.8% during the years 2020-21 and 2021-22 respectively. In terms of percentage, the contribution of Tertiary Sector to GSVA in respect of Delhi was 83.42% in 2011-12 which is expected to reach 81.40% in 2021-22 whereas in case of All India GVA, the contribution was 49.0% in 2011-12 which is likely to escalate to 53.8% in 2021-22.

Hence, from the overall picture of contribution of Primary, Secondary and Tertiary Sectors to GSVA/GVA (at Constant Prices), it can be seen that the major contributor is Tertiary Sector, followed by Secondary and Primary Sectors respectively, both for Delhi and All India.

Chapter 2

Primary Sector

The Primary Sector of the economy extracts or harvests products from the earth. The primary sector includes the production of raw materials and basic foods. Activities associated with the primary sector include agriculture (both subsistence and commercial), mining, forestry, farming, grazing, hunting and gathering, fishing and quarrying. The packaging and processing of the raw materials associated with this sector is also considered to be part of this sector. The Primary sector includes the following activities:-

- ❖ Agriculture, Forestry & Fishing
- ❖ Mining & Quarrying

AGRICULTURE, FORESTRY AND FISHING

1. Crops

The economic activities included in agriculture proper are (i) growing of field crops, fruits, nuts, seeds, and vegetables, (ii) management of tea, coffee and rubber plantations, (iii) agricultural and horticultural services on a fee or on contract basis such as harvesting, baling and thrashing, operation of tobacco for marketing, pest control, spraying, pruning, picking and packing and (iv) ancillary activities of cultivators such as gur making, transportation of own produce to primary markets, activities yielding rental income from farm building and farm machinery. The estimates of GSVA for this activity are compiled by the production method.

2. Livestock

Livestock and livestock products include breeding and rearing of animals and poultry besides private veterinary services, production of milk, slaughtering, preparation and dressing of meat, production of raw hides and skins, eggs, dung, raw wool, honey and silkworm cocoons etc.

3. Forestry & Logging

The economic activities considered in this activity include (i) forestry (e.g., planting and conservation of forests, gathering of forest products, charcoal burning carried out in the forests), (ii) logging (e.g. felling and rough cutting of trees, hewing or rough shaping of poles, blocks etc.) and transportation of forest products to the sale depots/assembly centers and, (iii) farmyard wood (industrial wood and fuel wood collected by the primary producers from trees outside regular forests). The forest products are classified into two broad groups viz., (a) major products comprising industrial wood (timber, round wood, match and pulpwood) and fuel wood (firewood and charcoal wood) and (b) minor products comprising a large number of heterogeneous items such as bamboo, fodder, lac, sandalwood, honey, resin, gum, tendu leaves etc.

Estimates of GSVA are prepared following the production method. Gross value of output is estimated separately for (a) Industrial wood, (b) Fuel wood and (c) minor forest products. Estimates of Industrial wood are based on data pertaining to Tree Outside Forest (TOF) received from the Forest Survey of India (FSI).

4. Fishing

The activities covered in the fishing are (i) commercial fishing in (a) ocean, coastal and offshore waters and (b) inland waters, that include catching, tackling and gathering of fish from rivers, irrigation and other canals, lakes, tanks, fields inundated tract etc., (ii) subsistence fishing in inland waters and artificial ponds, (iii) gathering of sea weeds, sea shells, pearls, sponges and other ocean and coastal water products and (iv) fish curing viz., salting and sun-drying of fish. Estimates of GSVA of this activity are prepared by following the production method.

Statement 2.1: Agriculture, Forestry & Fishing

(Rs. Crore)

Year Item	2011-12	2012-13	2013-14	2014-15	2015-16	2016-17	2017-18	2018-19 (3 rd RE)	2019-20 (2 nd RE)	2020-21 (1 st RE)	2021-22 (AE)

(3rd RE) - Third Revised Estimates, (2nd RE) - Second Revised Estimates, (1st RE) - First Revised Estimates, (AE) - Advance Estimates.

The change in trend of this sub-sector is presented in the line graph given below:

GSVA of Delhi from Agriculture and allied activities was Rs. 2857 crore during the base year 2011-12 at current prices. As per 2nd revised estimates for 2019-20, GSVA was calculated at Rs. 3170 crore while the figure is likely to touch Rs. 2796 crore during 2020-21 with a decline of 11.78% and Rs. 2887 crore during 2021-22 with a growth of 3.23%, whereas at constant prices, GSVA is estimated to be Rs. 1607 crore and Rs. 1561 crore during 2020-21 and 2021-22 respectively from Rs. 2857 crore in the base year (i.e. 2011-12). Year-wise growths (at current prices) in terms of percentages were as (-) 9.59% (2012-13), 0.13% (2013-14), (-) 4.20% (2014-15), (-) 1.80% (2015-16), 2.84% (2016-17), 14.58% (2017-18), 6.50% (2018-19), 3.83% (2019-20), (-) 11.78% (2020-21) and 3.23% in 2021-22 and at constant prices, annual growths were found to be (-) 21.73% (2012-13), (-) 6.74% (2013-14), (-) 12.95% (2014-15), (-) 8.44% (2015-16), 3.02% (2016-17), 6.58% (2017-18), 7.33% (2018-19), (-) 0.74% (2019-20), (-) 17.36% (2020-21) and (-) 2.85% in 2021-22.

Analysis also reveals that by and large same trend was maintained by NSVA estimates as that of GSVA with slightly changed percentages. NSVA from Agriculture, Forestry & Fishing at current prices was recorded at Rs. 2799 crore in 2011-12, which decreased to Rs. 2685 crore in 2020-21, and then increased to Rs. 2768 crore during

2021-22, while at constant prices it is expected to be at Rs. 1532 crore and Rs. 1484 crore during 2020-21 and 2021-22 respectively.

MINING & QUARRYING

The economic activities covered in this activity, comprise extraction of minerals which occur in nature as solids, liquids or gases; underground and surface mines, quarries and oil wells, with all supplementary operations for dressing and beneficiating ores and other crude minerals such as crushing, screening, washing, cleaning, grading, milling, floatation, melting, pelletising, topping and other preparations needed to render the material marketable.

Estimates of GSVA in this industry are compiled from the annual financial statement of the companies for non-departmental enterprises and private corporate enterprises, extracted from MCA21 database for which production approach is followed.

Statement 2.2: Mining and Quarrying

(Rs. Crore)

Year Item	2011-12	2012-13	2013-14	2014-15	2015-16	2016-17	2017-18	2018-19 (3 rd RE)	2019-20 (2 nd RE)	2020-21 (1 st RE)	2021-22 (AE)
GSVA Current	7729	7466	10155	9638	7554	6507	6909	10429	10534	9541	15518
GSVA Constant	7729	6825	8536	9314	9872	8900	9445	11277	12343	13538	14981
NSVA Current	6796	6560	8696	8182	6320	5464	5840	8795	8730	8314	13925
NSVA Constant	6796	5963	7200	8060	8840	8041	8586	10008	10980	12080	13429

(3rd RE) - Third Revised Estimates, (2nd RE) - Second Revised Estimates, (1st RE) - First Revised Estimates, (AE) - Advance Estimates.

The change in trend of Mining & Quarrying sub-sector is presented in the following line graph:

As per base year estimates for 2011-12, GSVA from Mining & Quarrying sub-sector was calculated at Rs. 7729 crore while the figure is likely to touch Rs. 9541 crore during 2020-21 with annual growth of (-) 9.43% and Rs. 15518 crore during 2021-22 with annual growth of 62.65% at current prices, whereas at constant prices GSVA has increased to Rs. 13538 crore and Rs. 14981 crore during 2020-21 and 2020-21 respectively from Rs. 7729 crore in the base year (i.e. 2011-12). Year-wise growths (at current prices) in terms of percentages were as (-) 3.41% (2012-13), 36.03% (2013-14), (-) 5.10% (2014-15), (-) 21.62% (2015-16), (-) 13.87% (2016-17), 6.19% (2017-18), 50.94% (2018-19), 1.01% (2019-20), (-) 9.43% (2020-21) and 62.65% in 2021-22 and at constant prices, annual growths were found to be (-) 11.69% (2012-13), 25.07% (2013-14), 9.11% (2014-15), 6.00% (2015-16), (-) 9.85% (2016-17), 6.12% (2017-18), 19.40% (2018-19), 9.46% (2019-20), 9.68% (2020-21) and 10.66% in 2021-22 respectively.

Similarly, NSVA from this activity, which was estimated at approximate Rs. 6796 crore during base year 2011-12 both at current and constant prices, has been calculated as Rs. 8314 crore and Rs. 13925 crore for the years 2020-21 and 2021-22 respectively at current prices, while at constant prices, it is estimated to be Rs. 12080 crore and Rs. 13429 crore for the years 2020-21 and 2021-22 respectively.

The analysis of GSVA at current prices reveals that contribution of Primary Sector in the economy of Delhi (viz. Agriculture, Livestock, Forestry & Logging, Fishing, Mining & Quarrying) was 3.49% during the base year i.e. 2011-12 and it is found to be 2.28% and 3.08% during the year 2021-22 at current and at constant prices respectively.

Chapter 3

Secondary Sector

The Secondary Sector of the economy includes those economic sectors that create a finished, usable product: manufacturing, construction and electricity, gas, water supply and other utility services. This sector generally takes the output of the primary sector and manufactures finished goods or where they are suitable for use by other businesses, for export, or sale to domestic consumers.

The Secondary sector includes the following activities:-

- ❖ Manufacturing,
- ❖ Electricity, Gas, Water Supply and Other Utility Services,
- ❖ Construction.

MANUFACTURING

Manufacturing process, in general, is defined as any process for making, altering, repairing, finishing, packing, oiling, washing, cleaning, breaking up, demolishing or otherwise treating or adapting any article or substance with a view to its use, sale, transport, delivery or disposal. For the purposes of estimation of GSVA, the entire manufacturing activities are classified into two broad segments, namely, **Manufacturing-‘Organised Manufacturing’ and ‘Unorganised Manufacturing’**.

1. **Organised Manufacturing:** Estimates have been derived using the annual accounts of Non-Departmental Enterprises (NDE), Private corporate sector from MCA database and quasi-corporations as covered by ASI, apart from the Departmental Enterprises (DEs), like Railway Workshops, GOI Printing Press and Ordnance Factories. ASI captures the data by type of organisation such as private and public limited companies, NDEs, proprietary and partnership factories, Hindu Undivided Family, KVIC etc. Annual accounts of DEs, NDEs and Private Corporate Sector being already available, the estimates relating to the Non-Government unincorporated enterprises, which include partnership and proprietorship enterprises in ASI have been estimated and are classified as quasi-corporations. These enterprises being small in size, their coverage from ASI has been treated as of enterprise even if the data is collected through establishment approach. In addition, in accordance with the recommendation of SNA 2008,

unincorporated manufacturing enterprises maintaining accounts are quasi-corporations and therefore, their estimates have been included in organised manufacturing. For obtaining estimates of GVO/GVA by compilation category in the case of private corporate sector, the estimates as obtained as the sum of all enterprises have been apportioned using the corresponding share in ASI.

2. **Unorganised Manufacturing:** The unorganised manufacturing consists of the household enterprises. The effective labour input method has been used for compilation category wise estimation of GVA of unincorporated manufacturing enterprises from the NSS 67th round Survey on Unincorporated Enterprises, 2010-11 and NSS 68th round Employment Unemployment Survey, 2011-12.

Statement 3.1: Manufacturing

(Rs. Crore)

Year Item	2011-12	2012-13	2013-14	2014-15	2015-16	2016-17	2017-18	2018-19 (3 rd RE)	2019-20 (2 nd RE)	2020-21 (1 st RE)	2021-22 (AE)
GSVA Current	18907	23350	25338	23385	31195	30117	30680	32192	33743	33744	42230

NSVA Current	15911	20085	22060	19862	27816	26762	27106	28131	29417	30045	38155
NSVA Constant	15911	18921	19920	17448	25002	23854	23894	24188	25540	25235	33674

(3rd RE) - Third Revised Estimates, (2nd RE) - Second Revised Estimates, (1st RE) - First Revised Estimates, (AE) - Advance Estimates.

Manufacturing sub-sector is one of the major contributor in the secondary sector in the economy of Delhi. GSVA from manufacturing is estimated at Rs. 33744 crore and Rs. 42230 crore at current prices during 2020-21 and 2021-22 respectively with approximately no growth in 2020-21 while positive growth of 25.15% was observed in 2021-22 over previous year estimates. Similarly, GSVA at constant prices is to the tune of Rs. 28985 crore and Rs. 37656 crore during 2020-21 and 2021-22 respectively registering annual growths of (-) 0.42% and 29.91% over previous years.

NSVA estimates, by and large, are showing mixed trend both at current prices and at constant prices. As per estimates for 2020-21, NSVA is to the tune of Rs. 30045 crore with an annual growth of 2.14% over previous year at current prices and Rs. 25235 crore with a contraction of 1.19% over previous year at constant prices. As per advance estimates for 2021-22, NSVA was to the tune of Rs. 38155 crore with a growth of 26.99% over previous year at current prices and Rs. 33674 crore with a growth of 33.44% over previous year at constant prices respectively.

The change in trend of this sub-sector is presented in the line graph given below:

ELECTRICITY, GAS, WATER SUPPLY AND OTHER UTILITY SERVICES

The economic activities relating to generation, transmission and distribution of electric energy are covered under the electricity sub-sector, the manufacturer of gas in gas works including gohar gas and distribution through mains to household, industrial, commercial and other users are covered under the gas sub-sector and the activities associated with collection, purification and distribution of water excluding the operation of irrigation system are covered under water supply sub-sector. The production of LPG has been included under manufacturing and only supply of gas through pipelines, where it can not be alienated from the activity of its manufacturing is included in the gas sub-sector.

The GSVA estimates in Electricity sub-sector (NDEs & Private Corporate sectors) are prepared using the production method. The estimates are based on the analysis of annual accounts of State Electricity Boards and other electricity undertakings located in the State.

The estimates of GSVA in respect of Gas are compiled through the enterprise approach, by aggregating the estimates for NDEs, companies in the Private Corporate

Sector and the estimates for manufacture of gas in households through bio-gas plants (Gobar Gas). The estimates for Gobar Gas have been classified under the 'Households' sector. Further, as in the other cases, companies in the Private Corporate Sector are being captured through the MCA21 database.

The estimates of GSVA for Water Supply are compiled for the public and private sectors separately following the production method in case of NDEs and Private Corporate segments. The estimates of public sector in respect of State Government and Local Bodies are culled out from the Budget documents. Estimates for private sector are compiled by aggregating those for Companies in the Private Corporate Sector and water supply in the unorganised sector. Estimates for the unorganised sector have been compiled using the wages and the number of workers from the NSS 68th round Employment Unemployment Survey, duly adjusted for the population as per Census 2011.

The estimates of GSVA for Remediation and Other Utility Services have been compiled by aggregating the estimates for recycling, remediation, sewerage and other waste management services. The estimates for recycling in the organised sector have been obtained from ASI, while those for the remaining services have been estimated by aggregating the estimates of DEs and Enterprises of the Private Corporate Sector. Estimates for the Unincorporated Enterprises have been estimated using the NSS 67th round Survey on Unincorporated Enterprises, 2010-11 and NSS 68th round Employment Unemployment Survey, 2011-12. As in the case of unincorporated manufacturing, the unincorporated enterprises are classified as quasi-corporations, if they are maintaining accounts and otherwise, as household enterprises.

Statement 3.2: Electricity, Gas, Water Supply and Other Utility Services

(Rs. Crore)

Year Item	2011-12	2012-13	2013-14	2014-15	2015-16	2016-17	2017-18	2018-19 (3 rd RE)	2019-20 (2 nd RE)	2020-21 (1 st RE)	2021-22 (AE)

GSVA Constant	4106	6769	8058	8474	10812	12939	15779	15720	15446	17861	19898
NSVA Current	2614	4681	5906	6455	8836	10912	14848	15180	15311	16784	20327
NSVA Constant	2614	4261	5066	5309	6919	7663	9984	9910	9493	11765	13121

(3rd RE) - Third Revised Estimates, (2nd RE) - Second Revised Estimates, (1st RE) - First Revised Estimates, (AE) - Advance Estimates.

GSVA from this industry was estimated at Rs. 23998 crore and Rs. 27718 crore at current prices for the years 2020-21 and 2021-22 respectively with respective annual growths of 7.38% and 15.50% over the previous years. Similarly, it is estimated at Rs. 17861 crore and Rs. 19898 crore at constant prices for the years 2020-21 and 2021-22 respectively with respective annual growths of 15.63% and 11.41% over the previous years.

By and large NSVA is also showing the same trend as that of GSVA. The estimates for 2020-21 with annual growth of 9.62% were noted at Rs. 16784 crore at current prices while the advanced estimate for 2021-22 was noted at Rs. 20327 crore with an annual growth of 21.11%. At constant prices, the annual growths were 23.93% and 11.53% in 2020-21 and 2021-22 respectively.

The change in trend of this sub-sector is presented in the line graph given below:

CONSTRUCTION

The construction sector comprises two components namely (i) accounted construction (pucca construction) and (ii) unaccounted construction (kutchha construction). The GVA of former is measured through the commodity flow approach, while the later through the expenditure approach).

The estimates of accounted construction for the entire economy are compiled first through the commodity flow approach on the basis of availability of basic construction materials and factor inputs; this forms the control figure of overall output of accounted construction for the country. From this estimate, output of construction in public sector, private corporate sector and household sector (compiled independently utilizing the data sources of budget documents, profit & loss accounts, balance sheets and results of AIDIS) is separately estimated. The estimates for private corporations are prepared using information on financial parameters of non-government companies from MCA21 database provided by Ministry of Corporate Affairs.

The unaccounted construction included kutchha construction undertaken in public sector, households sector and civilian construction in installing wind energy systems and capital expenditure in cultivating seventeen plantation crops. The capital expenditure incurred on cultivation of plantation crops during the gestation period is treated as output of the 'Construction Industry' for that year. The coverage of capital expenditure in cultivation of plantation crops now include cardamom based on data available from NHB and NABARD for the year 2014-15. Using information on the asset 'Tree, crop and plant resources yielding repeat products' available from the MCA21 database for private corporations and from budgets, annual reports for public corporations, the capital expenditure for the Households Sector is worked out as a residual.

Statement 3.3: Construction

Construction sector is also one of the major contributors within Secondary Sector of the economy of Delhi. Estimates of GSVA for Construction Sector at current prices have been increasing every year except for the latest years 2019-20 and 2020-21. It has increased from Rs. 16669 crore in 2011-12 to Rs. 31622 crore and Rs. 41593 crore in

2020-21 and 2020-21 respectively. The growth rates for different years were 7.18% (2012-13), 10.99% (2013-14), 0.18% (2014-15), 4.80% (2015-16), 18.64% (2016-17), 16.73% (2017-18), 14.20% (2018-19), (-) 0.40% (2019-20), (-) 3.58% (2020-21) and 31.53% in 2021-22. In real terms, GSVA increased from Rs. 16669 crore in 2011-12 to Rs. 20510 crore in 2020-21 and Rs. 25825 crore in 2021-22. The simple annual growth over previous years in terms of percentage were (-) 2.12% (2012-13), 3.01% (2013-14), (-) 4.31% (2014-15), 0.98% (2015-16), 12.92% (2016-17), 11.30% (2017-18), 10.96% (2018-19), (-) 3.19% (2019-20), (-) 6.45% (2020-21) and 25.91% in 2021-22 respectively.

NSVA at current prices from Construction Sector recorded at Rs. 15882 crore in 2011-12 is expected to touch Rs. 39931 crore in 2021-22. However, annual growths over previous years in 2020-21 and 2021-22 were to the tune of (-) 2.93% and 33.09% respectively. In real terms, annual growths in terms of percentages during 2020-21 and 2021-22 over previous years were found to be (-) 7.29% and 27.22% respectively.

The change in trend of this sub-sector is presented in the line graph given below:

Unlike the Primary Sector, the contribution of Secondary Sector in GSVA at current prices has increased to 13.78% in 2021-22 from 13.09% in the base year i.e. 2011-12, rendering the overall positive growth of the economy intact.

Chapter 4

Tertiary Sector

The Tertiary Sector (also known as the Services Sector) has a pivotal role in the Delhi's economic development and constitutes a major part of the economy of the State both in terms of employment potential and its contribution to the State Income. The sector covers a wide range of activities from the most sophisticated in the field of Information and Communication Technology to simple services pursued by the unorganized/informal sector workers, such as, vegetable sellers, hawkers, rickshaw pullers, etc. In terms of industrial categories, this sector inter-alia includes sub-sectors like Trade; Hotels and Restaurants; Transport; Storage; Communication; Financial Services; Real Estate, Ownership of Dwelling & Professional Services; Public Administration; and Other Services including Education, Medical and Health.

A comprehensive overview of the said composition may be obtained with the help of following text:

TRADE, HOTELS & RESTAURANTS

1. Trade & Repair Services:

Trade includes wholesale and retail trade in all commodities. It covers activities of purchase and selling agents, brokers and auctioneers. Wholesale trade covers units, which resell without transformation, new and used goods generally to the retailer and industries, commercial establishments, institutional and professional users or to other wholesalers. Retail trade covers units, which mainly resell without transformation new and used goods for personal and household consumption. Repair services of computers, household goods, motor vehicles (including motor cycles) are also included in this Section. In the earlier series, repair of computers was a part of computer related activities. It has been made a part of this category as per NIC 2008.

2. Hotels & Restaurants:

The hotels & restaurants sector covers services rendered by hotels and other lodging places, restaurants, cafes and other eating and drinking places. Trade, Hotels & Restaurants is the one of the major contributors in the state economy and contributing between 10% to 15% to GSVA annually. We may have a glance at the following statistical facts:

Statement 4.1: Trade, Hotels & Restaurants

(3rd RE) - Third Revised Estimates, (2nd RE) - Second Revised Estimates, (1st RE) - First Revised Estimates, (AE) - Advance Estimates.

GSVA for this sector at current prices in 2011-12 was recorded at Rs. 42121 crore. As per 2020-21, GSVA was calculated at Rs. 75655 crore while as per advanced estimates, the figure is likely to touch Rs. 94333 crore in 2021-22. The annual growths for 2020-21 and 2021-22 over the previous years were (-) 21.10% and 24.69% respectively. GSVA at constant prices increased from Rs. 42121 crore in 2011-12 to Rs. 61838 crore and Rs. 69529 crore in 2020-21 and 2021-22 respectively. However, annual growths of (-) 22.03% and 12.44% were observed during 2020-21 and 2021-22 respectively over the previous years.

NSVA at current prices from Trade, Hotels & Restaurants has also been increasing regularly from 2011-12 (except in the year 2020-21) with the estimates being Rs. 39278 crore in 2011-12, which increased to Rs. 66068 crore and Rs. 84323 crore in 2020-21 and 2021-22 respectively. However, annual growth was observed as (-) 23.81% and 27.63% in 2020-21 and 2021-22. NSVA at constant prices increased from Rs. 39278 crore in 2011-12 to Rs. 54111 crore and Rs. 61008 crore in 2020-21 and 2021-22 respectively, whereas annual growth during 2020-21 and 2021-22 were observed at (-) 24.80% and 12.75% respectively over the previous years.

The change in trend of Trade, Hotels & Restaurants sub-sector is presented in the line graph shown below:

TRANSPORT, STORAGE & COMMUNICATION

The economic activities covered in this sector are:

a. Railways

- Estimates of GSVA for railways are considered as part of supra-regional sectors and hence are provided by the NSO to the states. The GVA generated by the Delhi Metro Rail Corporation (DMRC) is also included.

b. Road Transport

- The GSVA for the mechanized road transport (Public Sector) segment are obtained through economic analysis of annual reports/accounts for non-departmental transport undertakings in the state i.e. Delhi Transport Corporation. The estimates of Private corporate sector have been compiled using MCA21 database.
- The GSVA for the non-mechanized road transport segment, the estimates have been prepared by multiplying the workforce with Gross Value Added (GVA) per worker available from the prescribed sources.

c. Air Transport

- The GVA estimates of air transport are prepared separately for the two parts i.e. public and private corporate sector. Estimates for the public sector were obtained

by analyzing the budget documents and the annual accounts of public sector undertakings. The estimates of the private organised part have been compiled using MCA21 database.

d. Water Transport

- The public sector GVA estimate was prepared by analyzing the budget documents and annual accounts of Public Shipping Companies and Inland Water Shipping Companies. The estimates of the private corporate part have been compiled using MCA21 database. The GVA estimates for unorganised sector have been prepared using effective LI method.

e. Services Incidental to transport

- For this industry, the public sector estimates of GVA are prepared by analysing the budget documents for information on lighthouses and lightships and annual accounts of companies engaged in services incidental to water and air transport like Port Trusts, Inland Water Authority, Dredging Corporation and Airport Authority of India. The estimates of the private corporate part have been compiled using MCA21 database. The GVA estimates for unorganised sector have been prepared using effective LI method.

f. Storage

- For Warehousing Corporations, the GVA estimate was based on the analysis of annual accounts of state and central warehousing corporations. The estimates of the private corporate part have been compiled using MCA21 database. The GVA estimates for unorganised sector have been prepared using the effective LI method.

g. Communication & Services related to broadcasting

- **Public Communications:** The estimates of GSDP for Public communication are considered as part of Supra regional Sectors and hence are provided by the NSO to the States. National Statistical Office, Govt. of India is estimating the GVA to Supra Regional Sectors at the National level since operation of these sectors are not co-terminus with the geographical boundaries of the State, and apportioning to the States.
- **Private Communication Services:** The economic activities covered under this are (i) Courier activities, (ii) Activities of the cable operators and (iii) Telecommunication.

A new category - Recording, publishing and broadcasting services - has been included in this category. Estimates for the private corporate sector enterprises for all the categories have been compiled using MCA21 database. The estimates for the unincorporated sector (quasi-corporations and household enterprises) have been compiled using labour input method for 'telecommunication' and using effective labour input method for the remaining categories.

We may have a glance at the following statistical facts:

(3rd RE) - Third Revised Estimates, (2nd RE) - Second Revised Estimates, (1st RE) - First Revised Estimates, (AE) - Advance Estimates.

GSVA from Transport, Storage & Communication sector at current prices were Rs. 79889 crore and Rs. 96717 crore during 2020-21 and 2021-22 depicting respective growths of (-) 7.30% and 21.06% over previous years. In real terms, GSVA from this sector has been increasing regularly (except deviation in few years) from Rs. 39286 crore in 2011-12 to Rs. 55548 crore and Rs. 60227 crore in 2020-21 and 2021-22 respectively while the year-wise growth in terms of percentage were 9.95% (2012-13), 6.58% (2013-14), 32.15% (2014-15), 8.65% (2015-16), 1.77% (2016-17), 1.11% (2017-18), (-) 7.49% (2018-19), 6.49% (2019-20), (-) 17.10% (2020-21) and 8.42% in 2021-22.

NSVA at current prices was recorded at Rs. 64111 crore and Rs. 80140 crore in 2020-21 and 2021-22 respectively against Rs. 34104 crore in 2011-12. However, year-wise growths in terms of percentages were 13.44% (2012-13), 9.23% (2013-14), 32.97% (2014-15), 5.72% (2015-16), 7.86% (2016-17), 2.64% (2017-18), (-) 3.76% (2018-19), 12.48% (2019-20), (-) 9.95% (2020-21) and 25.00% in 2021-22 respectively. NSVA at constant prices from this sector was recorded at Rs. 42710 crore and Rs. 46258 crore in 2020-21 and 2021-22 respectively with respective growths of (-) 21.93% and 8.31% over the previous years.

The change in trend of this sub-sector is presented in the line graph given below:

FINANCIAL SERVICES

The following information has been incorporated for the first time-

- (i) Annual accounts of the Mutual Funds (excluding UTI MF) registered with the Securities and Exchange Board of India (SEBI);
- (ii) Annual accounts of the stock brokers and stock exchanges registered with SEBI (who are also registered under the Companies Act)
- (iii) Annual accounts of the financial regulatory authorities, like SEBI, IRDA and PFRDA; and
- (iv) Annual accounts of the Pension Funds registered with the Pension Fund Regulatory and Development Authority (PFRDA).

Further, the financial corporations have been sub-sectored as recommended by SNA 2008. The sub-sectors are:

- (i) Central Bank
- (ii) Deposit-taking corporations except the Central Bank
- (iii) Money market funds (MMF)
- (iv) Non-MMF investment funds

- (v) Other financial intermediaries except insurance corporations and pension funds (ICPF)
- (vi) Financial auxiliaries
- (vii) Captive financial institutions and money lenders
- (viii) Insurance corporations (IC)
- (ix) Pension funds (PF)

Adoption of sub-sectorisation has effected some changes in classification. These include, classifying the insurance agents under financial auxiliaries; disaggregation of the mutual funds into Money-Market Funds (MMF), non-MMF and Asset Management Companies (AMCs) and treating the AMCs as financial auxiliaries. In the earlier series, insurance agents were under the insurance sub-sector and entire NBFCs were treated together. Estimates pertaining to mutual funds in the earlier series were compiled using the annual accounts of the Unit Trust of India (UTI). In the new series, both public and private mutual funds have been comprehensively covered. Further, these have been segregated into Money Market Funds (MMF), non-MMF and Asset Management Companies (AMCs), as per the recommendations of SNA 2008.

National Statistical Office, Govt. of India is estimating the GVA to Supra Regional Sectors at the National level since operation of these sectors are not co-terminus with the geographical boundaries of the State, and apportioning to the States. Therefore, GSVA of Financial Services Sector is provided by the National Statistical Office, Govt. of India.

(3rd RE) - Third Revised Estimates, (2nd RE) - Second Revised Estimates, (1st RE) - First Revised Estimates, (AE) - Advance Estimates.

In terms of rupees, GSVA from Financial Services at current prices for 2011-12 was recorded at Rs. 53883 crore against Rs. 105710 crore and Rs. 117866 crore in 2020-21 and 2021-22 respectively whereas annual growth for 2020-21 and 2021-22 were noted at 5.90% and 11.50% respectively. In real terms, GSVA from this activity increased from

Rs. 53883 crore in 2011-12 to Rs. 80564 crore and Rs. 84201 crore in 2020-21 and 2021-22 with simple annual growth for 2020-21 and 2021-22 at 6.92% and 4.51% respectively over previous years at constant prices.

NSVA at current prices was recorded at Rs. 53032 crore in 2011-12 which has increased to Rs. 103227 crore and Rs. 115239 crore in 2020-21 and 2021-22, respectively. However, annual increase in NSVA in terms of percentages for 2020-21 and 2021-22 were found to be 5.89% and 11.64% respectively. In real terms, NSVA has increased from Rs. 53032 crore in 2011-12 to Rs. 78530 crore and Rs. 82028 crore in 2020-21 and 2021-22 while simple annual growth for 2020-21 and 2021-22 at constant prices were to the tune of 6.94% and 4.45% respectively over previous years.

The change in trend of this sub-sector is presented in the line graph given below:

REAL ESTATE, OWNERSHIP OF DWELLINGS AND PROFESSIONAL SERVICES

The economic activities covered in this sector in the new series are (i) Real estate activities; (ii) Computer & information related services; (iii) Professional, scientific and technical activities including R&D; (iv) Administrative and support service activities and other professional activities and (v) Ownership of Dwellings.

- a) Real estate:** This sub-sector includes buying, selling, renting and operating of self-owned or leased real estate such as apartment building and dwellings, non-

residential buildings, developing and subdividing real estate into plots, etc. Also included are developments and sale of land and cemetery lots, operating of apartment hotels and residential mobile home sites. Purchase, sale, letting and operating of real estate – residential and non-residential buildings, developing and subdividing real estate into lots, leasers of real property, Real estate activities with own or leased property, real estate activities on a fee or contract basis.

- b) **Computer & information related services:** ‘Repair of computers’ and ‘Software publishing’ are no longer a part of this category and have been moved to ‘Trade & Repair Services’ and ‘Communication & services related to broadcasting’ respectively.
- c) **Professional, scientific and technical activities including R&D:** The category ‘research & development etc.’ in the old series has been modified with inclusion of ‘veterinary activities’ and appropriately renamed.
- d) **Administrative and support service activities and other professional activities:** This is a new category culled out from the certain activities of the previous category- ‘research & development etc.’ and includes all administrative and support service activities. It also includes legal and accounting activities.
- e) **Ownership of dwellings:** As per the production boundary defined for National accounts, ‘production of housing services for owner occupiers’ own final consumption’ has to be taken into consideration in the estimation of GDP. Therefore, this economic activity apart from capturing the housing services generated from rented residential houses, also includes the imputed value of owner occupied dwellings. Services rendered by non-residential buildings are considered to be a subsidiary activity of the industries, which occupy the buildings and therefore, are not included in this sector.

For all these services, other than ‘ownership of dwellings’ in this category, MCA21 database has been used for the private corporate sector, while effective labour input method has been used for compiling the estimates of the unincorporated sector. GVA estimates for the ownership of dwellings of urban areas were estimated as the gross rental (actual rent paid and imputed rent for owned dwellings) of the residential census houses less the cost of repairs and maintenance. The user cost approach was used for estimating the value added from rural dwellings, duly updated with the latest Data on dwellings and rent per dwelling for urban areas has been taken from the Population Census, 2011 and the results of NSS 68th round Consumer Expenditure Survey

respectively. For estimating the services in the rural areas, the user cost approach has been updated using the AIDIS, 2013, Population Census 2011.

This sector is the highest contributor in the economy of Delhi and contributing nearly 29% to the total GSVA (at current prices) of Delhi during 2021-22. We may have a glance at the following statistical facts:

(3rd RE) - Third Revised Estimates, (2nd RE) - Second Revised Estimates, (1st RE) - First Revised Estimates, (AE) - Advance Estimates.

In terms of rupees, GSVA at current prices for 2011-12 was recorded at Rs. 19568 crore against Rs. 44377 crore and Rs. 50357 crore in 2020-21 and 2021-22 respectively whereas annual growth for 2020-21 and 2021-22 were noted at 10.01% and 13.48% respectively. In real terms, GSVA from this activity increased from Rs. 19568 crore in 2011-12 to Rs. 28785 crore and Rs. 31153 crore in 2020-21 and 2021-22 with simple annual growth for 2020-21 and 2021-22 at 5.47% and 8.23% respectively over previous years at constant prices.

NSVA at current prices was recorded at Rs. 15119 crore in 2011-12 which has increased to Rs. 36830 crore and Rs. 42103 crore in 2020-21 and 2021-22, respectively. However, annual increase in NSVA in terms of percentages for 2020-21 and 2021-22 were found to be 10.23% and 14.32% respectively. In real terms, NSVA has increased from Rs. 15119 crore in 2011-12 to Rs. 22933 crore and Rs. 24976 crore in 2020-21 and 2021-22 with simple annual growth for 2020-21 and 2021-22 at constant prices to the tune of 6.67% and 8.91% respectively over previous years.

The change in trend of this sub-sector is presented in the line graph given below:

OTHER SERVICES

The economic activities covered under this sector are (i) education services; (ii) human health & care services; (iii) Private households with employed person and (iv) Others that includes, recreation, cultural and sporting activities; Activities of

membership organisations and Personal services including washing, hair dressing, custom tailoring and other personal service activities. The activities of extra territorial organisations and bodies are not a part of GDP and have hence been excluded from this group. The categories 'Sewerage and refuse disposal' and 'Veterinary services' have been removed from this group and classified as a part of utility services in 'Electricity, gas, water supply and utility services' group and 'professional services' respectively. Private corporate sector is covered using the MCA21 database. For the private unincorporated enterprises (quasi-corporations and household enterprises), the estimates of all categories except 'private households employing persons' have been compiled using effective labour input method for the new series. In a few categories of the industry group, there have been changes in classification due to the adoption of NIC 2008. 'Social work with & without accommodation' which was part of 'activities of membership organisations' is now a part of 'human health & care services'. Further, 'broadcasting' which was earlier a part of 'recreation' is now covered in the group 'Communication & services related to broadcasting'. Data on private households with employed persons is usually not collected in the Survey on Unincorporated Enterprises, as it is not feasible to identify such households as enterprises. The value added generated by this activity relates to wages paid to 'employed persons' by the households. Therefore, the wages related information was estimated from the NSS 68th round Employment & Unemployment Survey, 2011-12.

We may have a glance at the following statistical facts:

ANNEXURE ~ I

METHODOLOGY
RECOMMENDED BY NSO

GROSS VALUE ADDED AT BASIC PRICES

Item	Data: Source	Method of estimation		Remarks
		At current prices	At constant (2011-12) prices	
(1)	(2)	(3)	(4)	(5)
1. Agriculture (Crop Sector)				
(a) Value of output				
(1) Major and minor crops				
(i) Major crops	<ul style="list-style-type: none"> ♦ Production: Directorate of Economics and Statistics, M/o Agriculture (DESAg) ♦ Prices: State DESs 	Value of output = current year production * current year price	Value of output = current year production * base year price	
(ii) Minor Crops	<ul style="list-style-type: none"> ♦ Production: Horticulture Statistics Division (DAC, M/o Agriculture) & State DESs ♦ Prices: State DESs 	Value of output = current year production * current year price	Value of output = current year production * base year price	
(iii) Small Millets	<ul style="list-style-type: none"> ♦ Production: DESAg ♦ Prices: State DESs 	Value of output = current year production * current year price	Value of output = current year production * base year price	Price = 75% of weighted average price of jowar, bajra, barley, maize and ragi in the reference year
(iv) Other Pulses	<ul style="list-style-type: none"> ♦ Production: DESAg and State DESs 	Value of output = current year production * current year price	Value of output = current year production * base year price	Price = 85% of weighted average price of arhar, urad, moong, masur and horsegram in reference year
(2) Commercial Crops				
(i) Tea	<ul style="list-style-type: none"> ♦ Production of processed tea: Tea Board ♦ Prices: State DESs 	Value of output = current year production of Raw tea * current year price	Value of output = current year production of Raw tea * base year price	Production of Raw tea = processed tea / 0.225
(ii) Coffee	<ul style="list-style-type: none"> ♦ Production: Coffee Board ♦ State DESs (prices) 	Value of output = current year production * current year price	Value of output = current year production * base year price	

Item	Data: Source	Method of estimation		Remarks
		At current prices	At constant (2011-12) prices	
(1)	(2)	(3)	(4)	(5)
(iii) Rubber	<ul style="list-style-type: none"> Production: Rubber Board Prices : State DESs 	Value of output = current year production * current year price	Value of output = current year production * base year price	
(iv) Cashew Nuts And Cocoa	<ul style="list-style-type: none"> Production: Directorate of Cashewnut and Cocoa Development Board Prices: State DESs 	Value of output = current year production * current year price	Value of output = current year production * base year price	
(v) Horticulture Crops:	<ul style="list-style-type: none"> Production: Horticulture Statistics Division (DAC, M/o Agriculture) Prices: State DESs 	Value of output = current year production * current year price	Value of output = current year production * base year price	
(vi) Opium	<ul style="list-style-type: none"> Production and Prices: Central Bureau of Narcotics 	Value of output = current year production * current year price	Value of output = current year production * base year price	
(vii) Arecanut	<ul style="list-style-type: none"> Production: Directorate of Arecanut and Spices Development Prices: State DESs 	Value of output = current year production * current year price	Value of output = current year production * base year price	
(viii) Flowers (separately for cut flowers and spike)	<ul style="list-style-type: none"> Production: Horticulture Statistics Division (DAC, M/o Agriculture) Prices: State DESs 	Value of output = current year production * current year price	Value of output = current year production * base year price	
(3) Miscellaneous Crops				
(i) Other Cereals	<ul style="list-style-type: none"> Area: LUS from DES Ag / State DESs 	Value of output = area * current year value per hectare (VPH)	Value of output = area * base year value per hectare	Value per hectare = weighted average of value per hectare of the crops: jowar, bajra, barley, maize and ragi in reference year
(ii) Other Sugars (excluding Palmyra)	<ul style="list-style-type: none"> Area: LUS from DES Ag / State DESs 	Value of output = area * current year value per hectare	Value of output = area * base year value per hectare	Value per hectare = 0.90* VPH of the crop sugarcane in reference year

Item	Data: Source	Method of estimation		Remarks
		At current prices	At constant (2011-12) prices

(i) Fuelwood	Quantity: NSO, MoSPI, Govt. of India Price: NSO, MoSPI, Govt. of India WPI: Office of the Economic Adviser, Department for Promotion of Industry & Internal Trade	Value of output = current year production * current year price	Value of output = current year production * base year price	In case of non-availability/unusual Prices, commodity specific WPI is used, (wherein, Price = Base year price * WPI over the current year/100)
(ii) Agriculture by products	Value of output at current and constant prices: NSO, MoSPI, Govt. of India	Value of output at current prices as provided by the NSO	Value of output at constant prices as provided by the NSO	
(iii) Fodder	Value of output at current and constant prices: NSO, MoSPI, Govt. of India	Value of output at current prices as provided by the NSO	Value of output at constant prices as provided by the NSO	
(b) Inputs		Value of input = 16.2% of total value of output at current prices	Value of input = 16.2% of total value of output at base year price	
4. Fishing				
(a) Outputs				
(i) Inland Fish	Production: Office of Warden of Fisheries, Development Department, GNCTD Prices: Price & Co-ordination Unit, DES, GNCTD WPI: Office of the Economic Adviser, Department for Promotion of Industry	Value of output = current year production * current year adjusted price	Value of output = current year production * base year adjusted price	Price = average of price of three fishes namely, Rohu, Malli and Singhara Adjusted Price = Price - (15% * Price) In case of non-availability/unusual Prices, WPI may be used

Item	Data: Source	Method of Estimation		Remarks
		At Current Prices	At Constant (2011-12) Prices	
(1)	(2)	(3)	(4)	(5)
	& Internal Trade			(wherein, Adjusted Price = Base year price * WPI over the current year/100)
(ii) Subsistence Fish	Production: Office of Warden of Fisheries, Development Department, GNCTD Prices: Price & Co-ordination Unit, DES, GNCTD WPI: Office of the Economic Adviser, Department for Promotion of Industry & Internal Trade	Value of output = current year production * current year adjusted price	Value of output = current year production * base year adjusted price	Production = 12.5% of Production of Inland Fish Price = average of price of three fishes namely, Rohu, Malli and Singhara Adjusted Price = Price - (15% * Price) In case of non-availability/unusual Prices, WPI may be used (wherein, Adjusted Price = Base year price * WPI over the current year/100)
(b) Inputs				
(i) Repair and Maintenance: Inland Fish		10% of value of output of Inland Fish at current prices	10% of value of output of Inland Fish at constant prices	
(i) Repair and Maintenance: Subsistence Fish		1% of value of output of Subsistence Fish at current prices	1% of value of output of Subsistence Fish at constant prices	
5. Mining & Quarrying				
(i) Coal	Estimate of GSVA at current prices: NSO, MoSPI, Govt. of India WPI: Office of the Economic Adviser, Department for Promotion of Industry & Internal Trade	Estimate of GSVA at current prices as provided by the NSO	Estimate of GSVA at constant prices = Estimate of GSVA at current prices / WPI* 100	

Item	Data: Source	Method of Estimation		Remarks
		At Current Prices	At Constant (2011-12) Prices	
(1)	(2)	(3)	(4)	(5)
(i) Petroleum and Natural Gas	Estimate of GSVA at current prices: NSO, MoSPI, Govt. of India WPI: Office of the Economic Adviser, Department for Promotion of Industry & Internal Trade	Estimate of GSVA at current prices as provided by the NSO	Estimate of GSVA at constant prices = Estimate of GSVA at current prices / WPI* 100	
6. Manufacturing				
(i) Annual Survey of Industries (Non-Corporate + Private Corporate)	Estimate of GSVA at current prices: NSO, MoSPI, Govt. of India WPI: Office of the Economic Adviser, Department for Promotion of Industry & Internal Trade	Estimate of GSVA at current prices as provided by the NSO	Estimate of GSVA at constant prices = Estimate of GSVA at current prices / WPI* 100	
(ii) Non-Departmental Enterprises	Estimate of GSVA at current prices: NSO, MoSPI, Govt. of India WPI: Office of the Economic Adviser, Department for Promotion of Industry & Internal Trade	Estimate of GSVA at current prices as provided by the NSO	Estimate of GSVA at constant prices = Estimate of GSVA at current prices / WPI* 100	
(iii) Departmental Enterprises	Estimate of GSVA at current prices: NSO, MoSPI, Govt. of India WPI: Office of the Economic Adviser, Department for Promotion of Industry & Internal Trade	Estimate of GSVA at current prices as provided by the NSO	Estimate of GSVA at constant prices = Estimate of GSVA at current prices / WPI* 100	
(iv) Unorganised Sector	Estimate of GSVA at current prices: NSO, MoSPI, Govt. of India WPI: Office of the Economic Adviser, Department for Promotion of Industry & Internal Trade	Estimate of GSVA at current prices as provided by the NSO	Estimate of GSVA at constant prices = Estimate of GSVA at current prices / WPI* 100	

Item	Data: Source	Method of Estimation		Remarks
		At Current Prices	At Constant (2011-12) Prices	
(1)	(2)	(3)	(4)	(5)
7. Electricity, Gas, Water Supply & other Utility Services				
(a) Electricity				
(i) State Non-Departmental Enterprises Electricity Generating Companies (DPCL, DTL, PPCL, IPGCL)	Annual Reports of Electricity Generating Companies	GSVA estimates obtained after analysis of Annual Reports of Electricity Generating Companies	Estimate of GSVA at constant prices = Estimate of GSVA at current prices / Electricity Index * 100	Electricity Index = No. of billed units of electricity for NDMC, TPDDL, BSES Yamuna Power Ltd. & BSES Rajdhani Power Ltd. for current year moved over by base year estimate
(ii) Central Non-Departmental Enterprises Electricity Generating Companies (NTPC, PTC, REC Transmission Projects, SJVN, Bhartiya Rail Bijlee, Power Grid Corp. etc.)	Estimate of GSVA at current prices: NSO, MoSPI, Govt. of India	Estimate of GSVA at current prices as provided by the NSO	Estimate of GSVA at constant prices = Estimate of GSVA at current prices / Electricity Index * 100	Electricity Index = No. of billed units of electricity for NDMC, TPDDL, BSES Yamuna Power Ltd. & BSES Rajdhani Power Ltd. for current year moved over by base year estimate
(iii) New Delhi Municipal Council	Budget document of New Delhi Municipal Council	GSVA estimates obtained after analysis of Budget document of New Delhi Municipal Council	Estimate of GSVA at constant prices = Estimate of GSVA at current prices / Electricity Index * 100	Electricity Index = No. of billed units of electricity for NDMC, TPDDL, BSES Yamuna Power Ltd. & BSES Rajdhani Power Ltd. for current year moved over by base year estimate
(iv) Private Electricity distribution Companies (TPDDL, BSES Yamuna Power Ltd. & BSES Rajdhani Power Ltd.)	Annual Reports of Electricity distribution Companies	GSVA estimates obtained after analysis of Annual Reports of Electricity distribution Companies	Estimate of GSVA at constant prices = Estimate of GSVA at current prices / Electricity Index * 100	Electricity Index = No. of billed units of electricity for NDMC, TPDDL, BSES Yamuna Power Ltd. & BSES Rajdhani Power Ltd. for current year moved over by base year estimate

Item	Data: Source	Method of Estimation		Remarks
		At Current Prices	At Constant (2011-12) Prices	
(1)	(2)	(3)	(4)	(5)
(b) Gas				
(i) Non-Departmental Enterprises Gas Generating/distribution Companies (IGL and GAIL)	Annual Reports of Gas distribution Company (IGL) Estimate of GSVA for GAIL: NSO, MoSPI, Govt. of India	GSVA estimates obtained after analysis of Annual Reports of Gas Generating/distribution Companies (IGL) + Estimate of GSVA for GAIL	Estimate of GSVA at constant prices = Estimate of GSVA at current prices / Sale of Gas Index * 100	Sale of Gas Index = Total Sales for CNG and PNG from IGL Annual Accounts for current year moved over by base year estimate
(ii) Household (Gobar Gas)	Estimate of GSVA at current prices: NSO, MoSPI, Govt. of India	Estimate of GSVA at current prices	Estimate of GSVA at constant prices = Estimate of GSVA at current prices / Sale of Gas Index * 100	Sale of Gas Index = Total Sales for CNG and PNG from IGL Annual Accounts for current year moved over by base year estimate
(c) Water Supply				
(i) Public Corporations (DJB, NDMC, DCB) and CFC	Budget documents of Delhi Jal Board, New Delhi Municipal Council & Delhi Cantonment Board CFC: NSO, MoSPI, Govt. of India Consumer Price Index: Combined (General): MoSPI	NSVA estimates obtained after analysis of Budget documents of Delhi Jal Board, New Delhi Municipal Council & Delhi Cantonment Board + CFC	Estimate at constant prices = Estimate at current prices / CPI * 100	
(iii) Private Corporations	Estimate of GSVA at current prices: NSO, MoSPI, Govt. of India Consumer Price Index: Combined (General): MoSPI	Estimate of GSVA at current prices	Estimate of GSVA at constant prices = Estimate of GSVA at current prices / CPI * 100	

Item	Data: Source	Method of Estimation		Remarks
		At Current Prices	At Constant (2011-12) Prices	
(1)	(2)	(3)	(4)	(5)
(iv) Household	Estimate of GSVA at current prices: NSO, MoSPI, Govt. of India Consumer Price Index: Combined (General): MoSPI	Estimate of GSVA at current prices	Estimate of GSVA at constant prices = Estimate of GSVA at current prices / CPI * 100	
(d) Remediation				
(i) Local Bodies	Budget documents of East, North & South MCD, NDMC, DCB and DJB Consumer Price Index: Combined (General): MoSPI	GSVA estimates obtained after analysis of Budget documents of East, North & South MCD, NDMC, DCB and DJB	Estimate of GSVA at constant prices = Estimate of GSVA at current prices / CPI * 100	
(ii) Annual Survey of Industries	Estimate of GSVA at current prices: NSO, MoSPI, Govt. of India Consumer Price Index: Combined (General): MoSPI	Estimate of GSVA at current prices as provided by the NSO	Estimate of GSVA at constant prices = Estimate of GSVA at current prices / CPI * 100	
(iii) CFC	CFC: NSO, MoSPI, Govt. of India Consumer Price Index: Combined (General): MoSPI	CFC at current prices as provided by the NSO	Estimate at constant prices = Estimate at current prices / CPI * 100	
(iv) Quasi Sewage	Estimate of GSVA at current prices: NSO, MoSPI, Govt. of India Consumer Price Index: Combined (General): MoSPI	Estimate of GSVA at current prices	Estimate of GSVA at constant prices = Estimate of GSVA at current prices / CPI * 100	
(v) Household Sewage	Estimate of GSVA at current prices: NSO, MoSPI, Govt. of India Consumer Price Index: Combined (General): MoSPI	Estimate of GSVA at current prices	Estimate of GSVA at constant prices = Estimate of GSVA at current prices / CPI * 100	

Item	Data: Source	Method of Estimation		Remarks
		At Current Prices	At Constant (2011-12) Prices	
(1)	(2)	(3)	(4)	(5)
8. Construction				
(a) Public Sector				
(i) State Administrative Departments, Local Bodies and CFC	Budget document of Govt. of NCT of Delhi, East, North & South MCD, NDMC, DCB, DDA and DJB CFC: NSO, MoSPI, Govt. of India Consumer Price Index: Combined (General): MoSPI	NSVA estimates obtained after analysis of Budget documents of East, North & South MCD, NDMC, DCB, DDA and DJB + CFC	Estimate at constant prices = Estimate at current prices / CPI * 100	
(ii) Central Govt. Administrative Departments	Estimates of GSVA at current prices: NSO, MoSPI, Govt. of India Consumer Price Index: Combined (General): MoSPI	Estimate of GSVA at current prices	Estimate of GSVA at constant prices = Estimate of GSVA at current prices / CPI * 100	
(iii) Railways	Estimate of GSVA at current prices: NSO, MoSPI, Govt. of India Consumer Price Index: Combined (General): MoSPI	Estimate of GSVA at current prices	Estimate of GSVA at constant prices = Estimate of GSVA at current prices / CPI * 100	
(iv) Central Govt. Departmental Enterprises (except Railways & Communication)	Estimate of GSVA at current prices: NSO, MoSPI, Govt. of India Consumer Price Index: Combined (General): MoSPI	Estimate of GSVA at current prices	Estimate of GSVA at constant prices = Estimate of GSVA at current prices / CPI * 100	
(v) Non-Departmental Enterprises	Estimate of GSVA at current prices: NSO, MoSPI, Govt. of India Consumer Price Index: Combined (General): MoSPI	Estimate of GSVA at current prices	Estimate of GSVA at constant prices = Estimate of GSVA at current prices / CPI * 100	

Item	Data: Source	Method of Estimation		Remarks
		At Current Prices	At Constant (2011-12) Prices	
(1)	(2)	(3)	(4)	(5)
(b) Household Sector				
(i) Rural residential buildings	Estimate of GSVA at current prices: NSO, MoSPI, Govt. of India Weighted Cost of Construction Index RRB: NSO, MoSPI, Govt. of India	Estimate of GSVA at current prices	Estimate of GSVA at constant prices = Estimate of GSVA at current prices / Weighted Cost of Construction Index RRB * 100	AIDIS 2013
(ii) Urban residential buildings	Estimate of GSVA at current prices: NSO, MoSPI, Govt. of India Weighted Cost of Construction Index URB: NSO, MoSPI, Govt. of India	Estimate of GSVA at current prices	Estimate of GSVA at constant prices = Estimate of GSVA at current prices / Weighted Cost of Construction Index URB * 100	AIDIS 2013
(iii) Non-Residential Buildings & Other Construction Works	Estimate of GSVA at current prices: NSO, MoSPI, Govt. of India Weighted Cost of Construction Index NRB & OCW: NSO, MoSPI, Govt. of India	Estimate of GSVA at current prices	Estimate of GSVA at constant prices = Estimate of GSVA at current prices / Weighted Cost of Construction Index NRB & OCW * 100	AIDIS 2013
(iv) Other household	Estimate of GSVA at current prices: NSO, MoSPI, Govt. of India Consumer Price Index: Combined (General): MoSPI	Estimate of GSVA at current prices	Estimate of GSVA at constant prices = Estimate of GSVA at current prices /CPI* 100	Includes NPISH and unincorporated enterprises not covered in AIDIS

Item	Data: Source	Method of Estimation		Remarks
		At Current Prices	At Constant (2011-12) Prices	
(1)	(2)	(3)	(4)	(5)
(c) Residual	Estimate of GSVA at current prices: NSO, MoSPI, Govt. of India Consumer Price Index: Combined (General): MoSPI	Estimate of GSVA at current prices	Estimate of GSVA at constant prices = Estimate of GSVA at current prices / CPI * 100	Includes data on Private Corporate Sector and other un-allocated portion of GSVA
9. Trade & Repair Services				
(a) Public Corporations				
(i) Departmental Enterprises	Estimate of GSVA at current prices: NSO, MoSPI, Govt. of India WPI: Office of the Economic Adviser, Department for Promotion of Industry & Internal Trade	Estimate of GSVA at current prices as provided by the NSO	Estimate of GSVA at constant prices = Estimate of GSVA at current prices / WPI* 100	
(ii) Non-Departmental Enterprises (NDEs) of State and Centre	For State NDE: Annual Accounts of D.S.C.S.C. and D.S.I.I.D.C. For Central NDE: NSO, MoSPI, Govt. of India WPI: Office of the Economic Adviser, Department for Promotion of Industry & Internal Trade	GSVA estimates obtained after analysis of Annual Accounts of D.S.C.S.C. and D.S.I.I.D.C. + GSVA estimates of Central NDEs (FCI, MMTC, MSTC, STC etc.)	Estimate of GSVA at constant prices = Estimate of GSVA at current prices / WPI* 100	
(b) Private Corporations	Estimate of GSVA at current prices: NSO, MoSPI, Govt. of India WPI: Office of the Economic Adviser, Department for Promotion of Industry & Internal Trade	Estimate of GSVA at current prices as provided by the NSO	Estimate of GSVA at constant prices = Estimate of GSVA at current prices / WPI* 100	

Item	Data: Source	Method of Estimation		Remarks
		At Current Prices	At Constant (2011-12) Prices	
(1)	(2)	(3)	(4)	(5)
(c) Co-operatives & Unincorporated Sector	Estimate of GSVA at current prices: NSO, MoSPI, Govt. of India WPI: Office of the Economic Adviser, Department for Promotion of Industry & Internal Trade	Estimate of GSVA at current prices as provided by the NSO	Estimate of GSVA at constant prices = Estimate of GSVA at current prices / WPI* 100	NSS 68 th round EUS, 2011-12 and Population Census 2011 NSS 67 th round ES, 2010-11
10. Hotels & Restaurants				
(a) Public Corporations: Non-Departmental Enterprises of State and Centre (DTTDC, ITDC, IRCTC etc.)	For State NDE: Annual Accounts of DTTDC For Central NDEs: NSO, MoSPI, Govt. of India WPI: Office of the Economic Adviser, Department for Promotion of Industry & Internal Trade	GSVA estimates obtained after analysis of Annual Accounts of DTTDC + GSVA estimates of Central NDEs	Estimate of GSVA at constant prices = Estimate of GSVA at current prices / WPI* 100	
(b) Private Corporations	Estimate of GSVA at current prices: NSO, MoSPI, Govt. of India WPI: Office of the Economic Adviser, Department for Promotion of Industry & Internal Trade	Estimate of GSVA at current prices as provided by the NSO	Estimate of GSVA at constant prices = Estimate of GSVA at current prices / WPI* 100	
(c) Unincorporated Sector	Estimate of GSVA: NSO, MoSPI, Govt. of India WPI: Office of the Economic Adviser, Department for Promotion of Industry & Internal Trade	Estimate of GSVA at current prices as provided by the NSO	Estimate of GSVA at constant prices = Estimate of GSVA at current prices / WPI* 100	NSS 68 th round EUS, 2011-12 and Population Census 2011 NSS 67 th round ES, 2010-11

Item	Data: Source	Method of Estimation		Remarks
		At Current Prices	At Constant (2011-12) Prices	
(1)	(2)	(3)	(4)	(5)
11. Railways				
(a) Estimates of GSVA	Estimates of GSVA at current and constant prices: NSO, MoSPI, Govt. of India	Estimate of GSVA at current prices as provided by the NSO	Estimate of GSVA at constant prices as provided by the NSO	
12. Road transport				
(a) Public Corporations: Central & State Non-Departmental Enterprises	Estimate of GSVA at current prices: NSO, MoSPI, Govt. of India, (Analysis of annual accounts of DTC & DTIDC) Consumer Price Index: Combined (Transport & Communication): MoSPI	Estimate of GSVA at current prices as provided by the NSO (including DTC & DTIDC)	Estimate of GSVA at constant prices = Estimate of GSVA at current prices / CPI * 100	
(b) Private Corporations	Estimate of GSVA at current prices: NSO, MoSPI, Consumer Price Index: Combined (Transport & Communication): MoSPI	Estimate of GSVA at current prices as provided by the NSO	Estimate of GSVA at constant prices = Estimate of GSVA at current prices / CPI * 100	
(c) Unincorporated Sector	Estimate of GSVA at current prices: NSO, MoSPI, Govt. of India Consumer Price Index: Combined (Transport & Communication): MoSPI	Estimate of GSVA at current prices as provided by the NSO	Estimate of GSVA at constant prices = Estimate of GSVA at current prices / CPI * 100	NSS 68 th round EUS, 2011-12 and Population Census 2011 NSS 67 th round ES, 2010-11

Item	Data: Source	Method of Estimation		Remarks
		At Current Prices	At Constant (2011-12) Prices	
(1)	(2)	(3)	(4)	(5)
13. Water transport				
(a) Public Corporations: Central Non-Departmental Enterprises (Shipping Corporation of India Ltd.)	Estimate of GSVA at current prices: NSO, MoSPI, Govt. of India Consumer Price Index: Combined (Transport & Communication): MoSPI	Estimate of GSVA at current prices as provided by the NSO	Estimate of GSVA at constant prices = Estimate of GSVA at current prices / CPI * 100	
14. Air transport				
(a) Estimate of GSVA (Both Public & Private sectors)	Estimate of GSVA at current prices: NSO, MoSPI, Govt. of India Consumer Price Index: Combined (Transport & Communication): MoSPI	Estimate of GSVA at current prices as provided by the NSO	Estimate of GSVA at constant prices = Estimate of GSVA at current prices / CPI * 100	
15. Services incidental to transport				
(a) Public Corporations	Estimate of GSVA at current prices: NSO, MoSPI, Govt. of India Consumer Price Index: Combined (Transport & Communication): MoSPI	Estimate of GSVA at current prices as provided by the NSO	Estimate of GSVA at constant prices = Estimate of GSVA at current prices / CPI * 100	
(b) Private Corporations	Estimate of GSVA at current prices: NSO, MoSPI, Govt. of India Consumer Price Index: Combined (Transport & Communication): MoSPI	Estimate of GSVA at current prices as provided by the NSO	Estimate of GSVA at constant prices = Estimate of GSVA at current prices / CPI * 100	

Item	Data: Source	Method of Estimation		Remarks
		At Current Prices	At Constant (2011-12) Prices	
(1)	(2)	(3)	(4)	(5)
(c) Unincorporated Sector	Estimate of GSVA at current prices: NSO, MoSPI, Govt. of India Consumer Price Index: Combined (Transport & Communication): MoSPI	Estimate of GSVA at current prices as provided by the NSO	Estimate of GSVA at constant prices = Estimate of GSVA at current prices / CPI * 100	NSS 68 th round EUS, 2011-12 and Population Census 2011 NSS 67 th round ES, 2010-11
16. Storage				
(a) Public Corporations (CWC etc.)	Estimate of GSVA at current prices: NSO, MoSPI, Govt. of India WPI: Office of the Economic Adviser, Department for Promotion of Industry & Internal Trade	Estimate of GSVA at current prices as provided by the NSO	Estimate of GSVA at constant prices = Estimate of GSVA at current prices / WPI* 100	
(b) Private Corporations	Estimate of GSVA at current prices: NSO, MoSPI, Govt. of India WPI: Office of the Economic Adviser, Department for Promotion of Industry & Internal Trade	Estimate of GSVA at current prices as provided by the NSO	Estimate of GSVA at constant prices = Estimate of GSVA at current prices / WPI* 100	
17. Communication & Services related to broadcasting				
(a) Private Communication				
(i) Courier Activities	Estimate of GSVA at current prices: NSO, MoSPI, Govt. of India Consumer Price Index: Combined (Transport & Communication): MoSPI	Estimate of GSVA at current prices as provided by the NSO	Estimate of GSVA at constant prices = Estimate of GSVA at current prices / CPI * 100	

Item	Data: Source	Method of Estimation		Remarks
		At Current Prices	At Constant (2011-12) Prices	
(1)	(2)	(3)	(4)	(5)
(ii) Telecommunication	Estimate of GSVA at current prices: NSO, MoSPI, Govt. of India Consumer Price Index: Combined (Transport & Communication): MoSPI	Estimate of GSVA at current prices as provided by the NSO	Estimate of GSVA at constant prices = Estimate of GSVA at current prices / CPI * 100	
(iii) Cable Operators+ Recording, Publishing and Broadcasting services	Estimate of GSVA at current prices: NSO, MoSPI, Govt. of India Consumer Price Index: Combined (Transport & Communication): MoSPI	Estimate of GSVA at current prices as provided by the NSO	Estimate of GSVA at constant prices = Estimate of GSVA at current prices / CPI * 100	
(b) Public Communication	Estimates of GSVA at current and constant prices: NSO, MoSPI, Govt. of India	Estimate of GSVA at current prices as provided by the NSO	Estimate of GSVA at constant prices as provided by the NSO	
18. Financial Services				
(a) Estimates of GSVA	Estimates of GSVA at current and constant prices: NSO, MoSPI, Govt. of India	Estimate of GSVA at current prices as provided by the NSO	Estimate of GSVA at constant prices as provided by the NSO	
19. Real estate, ownership of dwellings & professional services				
(a) Real Estate				
(i) Private Corporate Sector	Estimate of GSVA at current prices: NSO, MoSPI, Govt. of India Consumer Price Index: Combined (General): MoSPI	Estimate of GSVA at current prices as provided by the NSO	Estimate of GSVA at constant prices = Estimate of GSVA at current prices / CPI * 100	

Item	Data: Source	Method of Estimation		Remarks
		At Current Prices	At Constant (2011-12) Prices	
(1)	(2)	(3)	(4)	(5)
(ii) Computer and Information related Services, Research & Development	Estimate of GSVA at current prices: NSO, MoSPI, Govt. of India Consumer Price Index: Combined (General): MoSPI	Estimate of GSVA at current prices as provided by the NSO	Estimate of GSVA at constant prices = Estimate of GSVA at current prices / CPI * 100	
(iii) Unincorporated Sector	Estimate of GSVA at current prices: NSO, MoSPI, Govt. of India Consumer Price Index: Combined (General): MoSPI	Estimate of GSVA at current prices as provided by the NSO	Estimate of GSVA at constant prices = Estimate of GSVA at current prices / CPI * 100	NSS 68 th round EUS, 2011-12 and Population Census 2011 NSS 67 th round ES, 2010-11
(iv) Public Corporations	Estimate of GSVA at current prices: NSO, MoSPI, Govt. of India Consumer Price Index: Combined (General): MoSPI	Estimate of GSVA at current prices as provided by the NSO	Estimate of GSVA at constant prices = Estimate of GSVA at current prices / CPI * 100	
(b) Professional Services				
Public Sector (Veterinary Services)	Budget documents of Govt. of NCT of Delhi, East, North & South MCD and NDMC Consumer Price Index: Combined (General): MoSPI	Estimates of Veterinary Services obtained after analysis of budget documents of Govt. of NCT of Delhi, East, North & South MCD and NDMC	Estimates at constant prices = Estimates at current prices / CPI * 100	
(c) Ownership of Dwellings				
(i) Rural GSVA	Estimate of GSVA at current prices: NSO, MoSPI, Govt. of India Consumer Price Index: Combined (General): MoSPI	Estimate of GSVA at current prices as provided by the NSO	Estimate of GSVA at constant prices = Estimate of GSVA at current prices / CPI * 100	

Item	Data: Source	Method of Estimation		Remarks
		At Current Prices	At Constant (2011-12) Prices	
(1)	(2)	(3)	(4)	(5)
(ii) Urban GSVA	Repair & Maintenance: NSO, MoSPI, Govt. of India Consumer Price Index (Housing): MoSPI Rent per household: NSS 68 th round CES 2011-12	Estimate of GSVA = Gross Rental - Repair & Maintenance	Estimate of GSVA at constant prices = Estimate of GSVA at current prices / CPI * 100	Gross Rental = No. of Dwellings (Urban) * Rent per Household (based on NSS 68 th Round) / 100000, where No. of Dwellings (Urban) for a year is previous year's estimate * Inter-Censal Growth Rate (Base Year estimate provided by NSO & Inter-Censal Growth Rate is 1.04) and Rent per Household = Base year estimate * CPI (Housing)/100 & Repair & Maintenance estimates are provided by NSO
20. Public Administration				
(a) State Government and Local Bodies	Budget documents of Govt. of NCT of Delhi, East, North & South MCD, NDMC, DCB and DDA Consumer Price Index: Combined (General): MoSPI	Estimates of Public Administration obtained after analysis of Budget document of Govt. of NCT of Delhi, East, North & South MCD, NDMC, DCB and DDA	Estimates at constant prices = Estimates at current prices / CPI * 100	
(b) Central Government	Estimates at current and constant prices: NSO, MoSPI, Govt. of India (Budget analysis of Central Govt)	Estimates at current prices as provided by the NSO	Estimates at constant prices as provided by the NSO	

Item	Data: Source	Method of Estimation		Remarks
		At Current Prices	At Constant (2011-12) Prices	
(1)	(2)	(3)	(4)	(5)
(c) Central Autonomous Institutions	Estimate at current prices: NSO, MoSPI, Govt. of India Consumer Price Index: Combined (General): MoSPI	Estimate at current prices as provided by the NSO	Estimates at constant prices = Estimates at current prices / CPI * 100	
(d) State level Autonomous Institutions	Annual Accounts of State level Autonomous Institutions Consumer Price Index: Combined (General): MoSPI	Estimates obtained after analysis of Annual Accounts of State level Autonomous Institutions	Estimate at constant prices = Estimate at current prices / CPI * 100	
(e) CFC	Estimates at current and constant prices: NSO, MoSPI, Govt. of India	Estimate of CFC at current prices as provided by the NSO	Estimate of CFC at constant prices as provided by the NSO	
21. Other Services				
(a) Education				
(i) Public Sector				
(1) State Government and Local Bodies	Budget documents of Govt. of NCT of Delhi, East, North & South MCD, NDMC and DCB Consumer Price Index: Combined (Education): MoSPI	Estimates of Education obtained after analysis of Budget documents of Govt. of NCT of Delhi, East, North & South MCD, NDMC and DCB	Estimate at constant prices = Estimate at current prices / CPI * 100	
(2) Central Government Admn & Autonomous Institutions	Estimate at current prices: NSO, MoSPI, Govt. of India Consumer Price Index: Combined (Education): MoSPI	Estimate at current prices as provided by the NSO	Estimate at constant prices = Estimate at current prices / CPI * 100	

Item	Data: Source	Method of Estimation		Remarks
		At Current Prices	At Constant (2011-12) Prices	
(1)	(2)	(3)	(4)	(5)
(3) State level Autonomous Institutions	Annual Accounts of State level Autonomous Institutions, Consumer Price Index: Combined (Education): MoSPI	Estimates obtained after analysis of Annual Accounts of State level Autonomous Institutions	Estimate at constant prices = Estimate at current prices / CPI * 100	
(ii) Private Corporate Sector	Estimate at current prices: NSO, MoSPI, Govt. of India Consumer Price Index: Combined (Education): MoSPI	Estimate at current prices as provided by the NSO	Estimate at constant prices = Estimate at current prices / CPI * 100	
(iii) Unincorporated Sector	Estimate at current prices: NSO, MoSPI, Govt. of India Consumer Price Index: Combined (Education): MoSPI	Estimate at current prices as provided by the NSO	Estimate at constant prices = Estimate at current prices / CPI * 100	NSS 68 th Round EUS, 2011-12 NSS 64 th and 71 st Rounds on Education, 2007-08 & 2014 respectively NSS 67 th Round ES, 2010-11
(b) Health				
(i) Public Sector				
(1) State Government and Local Bodies	Budget document of Govt. of NCT of Delhi, East, North & South MCD, NDMC and DCB Consumer Price Index: Combined (Health): MoSPI	Estimates of Health (Medical) obtained after analysis of Budget document of Govt. of NCT of Delhi, East, North & South MCD, NDMC and DCB	Estimate at constant prices = Estimate at current prices / CPI * 100	
(2) Central Government Admn & Autonomous Institutions	Estimate at current prices: NSO, MoSPI, Govt. of India Consumer Price Index: Combined (Health): MoSPI	Estimate at current prices as provided by the NSO	Estimate at constant prices = Estimate at current prices / CPI * 100	

Item	Data: Source	Method of Estimation		Remarks
		At Current Prices	At Constant (2011-12) Prices	
(1)	(2)	(3)	(4)	(5)
(3) State level Autonomous Institutions	Annual Accounts of State level Autonomous Institutions Consumer Price Index: Combined (Health): MoSPI	Estimates obtained after analysis of Annual Accounts of State level Autonomous Institutions	Estimate at constant prices = Estimate at current prices / CPI * 100	
(ii) Private Corporate Sector	Estimate at current prices: NSO, MoSPI, Govt. of India Consumer Price Index: Combined (Health): MoSPI	Estimate at current prices as provided by the NSO	Estimate at constant prices = Estimate at current prices / CPI * 100
