PREFACE

The present report titled “Multiple Indicator Survey in Delhi” brought out by this Directorate on the basis of State Sample data collected in NSS 78th Round. The field work of 78th round of the State Sample Survey was carried out during the period January to December 2020 but extended upto 15.08.2021 due to Corona pandemic as per the directions of the Ministry of Statistics and Programme Implementation (MoSPI), GoI as the field functionaries were facing considerable challenges in collecting the data.

The Ministry of Statistics and Programme Implementation (MoSPI) has developed the National Indicator Framework (NIF) of Sustainable Development Goals (SDGs) for monitoring the progress of SDGs at national level. The Survey on Multiple Indicators was conducted for the first time in NSS during this 78th round to cater the requirements of various national indicators of SDGs. State Governments have participated in the 78th round survey programme on equal or larger matching sample size basis.

All the estimates presented in the report titled ‘Multiple Indicator Survey in Delhi’ are based on the State Sample data collected through the Schedule 5.1: “Multiple Indicator Survey”.

This report was prepared by the Data Processing & Analysis (DPA) unit under the overall guidance of Shri G.S. Rawat, Director and beneath the supervision of Shri Shan-E-Alam, Joint Director; Shri Surendra Kumar, Deputy Director and Smt. Vijay Bharti, Assistant Director. The extraordinary efforts put in by Ms. Varsha Kumar & Shri Rajeev Kumar, Statistical Officers in data analysis and report making stages.

The field work of the survey was supervised by Sh. Mukesh Kumar Sharma, Statistical Officer. Data processing was done by the team of EDP Cell under the supervision of Ms. Tripti Aggarwal, System Analyst.

The Directorate is gratified to the households for extending active co-operation to the field staff. This Directorate is also thankful to NSO for the technical guidance and material assistance provided by them. It is expected that this document may be found useful by the planners, policy makers & researchers.

Suggestions for improvement of future version of the report are welcome.

Place: Delhi

Date: June, 2024

EWS	:	Economically Weaker Section
LIG	:	Lower Income Group
UPR	:	Usual Place of Residence
LPR	:	Last Usual Place of Residence

Limitations

- i. It may be noted that the design of this survey was not aimed at estimating population and households. However, these estimates provided in this report may be useful for combining the rates and ratio pertaining to different indicators.
- ii. It may be noted that the ultimate source of information is the household. The data is totally based upon the information supplied by the household and no proof whatsoever was demanded from them.
- iii. The scope of the survey being all households without special focus on social groups or religions, sample design was not tailored to netting-in social groups/religions. Thus, sample size for social groups/religions may not be enough to provide sufficiently reliable estimates of the various indicators.
- iv. Information on household Usual Monthly Consumer Expenditure was collected in this survey to classify the households in different Usual Monthly Per Capita Consumer Expenditure (UMPCE) classes. Since this information was collected only through a few questions, it cannot be used to estimate the household consumer expenditure which is generally estimated based on detailed household consumer expenditure survey of NSSO. Based on the information collected on household Usual Monthly Consumer Expenditure, quintile classes of UMPCE were formed (with each quintile class containing 20 per cent of the population).
- v. It is to be noted that information on ability to perform each of the ICT skills was collected based on the reporting of the informant. While collecting the information, no test of skills was performed.
- vi. It is to be noted that for collecting the information on registration of births/receipt of birth certificates, only the response of the informant was considered. The data collector did not check whether the affirmative household members actually possessed the certificate or not.
- vii. **The Schedule 5.1 of MIS contains some household level questions on food insecurity experience. These data were collected for internal use of SSD, MoSPI. The Working Group had also recommended that these data may not be released. Therefore, no tables on these have been generated for the report.**
- viii. While using the estimates, it may be kept in mind that the sample size may not be adequate enough for getting sufficiently reliable estimates and interpretation of results should be made with caution. Similarly, while interpreting the results using estimates at much deeper cross-sectional level, data users must keep in mind the inadequacy, if any, of the corresponding domain specific samples before arriving at any conclusion.
- ix. It may be noted that as the estimates in statements are generally presented as 'percentage distribution' or rates 'in per cent', the figures are rounded off. If there are no sample households/persons in a particular category or if the estimates 'in per cent' are greater than 0 but less than 0.05, the

corresponding estimates appear as zero (0). Also since most of the estimates reported were computed by tabulation software on the basis of absolute values so data may have differences in decimal points. Also sum of percentage may or may not be exact 100.

- x. Certain limitations may be there in the reported data as the Ultimate Source of information was the Informant and it has been observed that approximately 22% of the informants were cooperative but incapable in providing the relevant data according to Schedule. Further, due to the Corona Pandemic, the informants have supplied the information hesitantly.

EXECUTIVE SUMMARY

MULTIPLE INDICATOR SURVEY

(Schedule 5.1)

(A) Drinking Water, Sanitation and Hand Washing

❖ Drinking Water

- i. 79.3 % of persons were having piped water into their dwelling/yard/plot and 100.0% of persons were having improved source of drinking water in Delhi { *the sources viz. (i) bottled water, (ii) piped water into dwelling, (iii) piped water to yard/plot, (iv) piped water from neighbour, (v) public tap/standpipe, (vi) tube well, (vii) hand pump, (viii) protected well, (ix) public tanker truck, (x) private tanker truck, (xi) protected spring and (xii) rainwater collection were considered as **improved sources of drinking water** }.*
- ii. 69.7% of households in Delhi and 54.5% households at All-India level were having exclusive use of the Principal Source of Drinking Water { *“**Principal source of drinking water**” of a household is that source of water from which the household obtained most of its drinking water during the last 365 days. It covers Bottled water, Piped water into dwelling, Piped water to yard/plot, Piped water from neighbour, Public tap/standpipe, Tube well, Hand pump, Protected well, Unprotected well, Public tanker truck, Private tanker truck, Protected spring, Unprotected spring, Rainwater collection, Tank/pond, Other surface water (river, dam, stream, canal, lake, etc.), Others (card with small tank or drum etc.) }.*
- iii. In Delhi, major source of drinking water was “Piped water into dwelling” (73.9 %), followed by “Bottled Water” (12.7 %).
- iv. The share of supply from principal source, namely, ‘bottled water’ (30.5%) was more in rural areas as compared to urban (12.3%). Whereas the share of water supply from principal source by piped water into dwelling was observed greater in urban (74.3%) as compared to rural Delhi (55.8%).
- v. In Delhi, 81.8% of households were having the principal source of drinking water within dwelling as compared to 39.1% households at All-India level. However, only 11.4% of households in Delhi & 33.7% of households at All-India level were having the principal source of drinking water outside their premises.
- vi. In Delhi, 77.0% of persons were having piped water into dwelling or yard/plot which was sufficiently available throughout the year.
- vii. 89.7% of persons were having improved source of drinking water located in the household premises which was sufficiently available throughout the year.

❖ Sanitation and Hand Washing

- i. In Delhi, 75.2% of households had access to latrine by the majority of household members as compared to 72.6% of households at All-India level. However, only 0.2% of households in Delhi and 15.4% of households at All-India level had no access to latrine.
- ii. 96.9% of persons reported access to improved latrine among persons reported to have access to latrine in Delhi.
- iii. In Delhi, 96.6% of persons were having the availability of hand washing facility within the household premises as compared to 81.9% of persons at All-India level. However, 0.9% of persons in Delhi and 1.4% of persons at All-India level were having no facility of handwashing within the household premises.
- iv. In Delhi, 77.4% of persons were having exclusive access to improved latrine and hand washing facilities (with water and soap/detergent) within the household premises.

(B) Energy used by Households

- i. 92.6% of households used LPG as primary source of energy for cooking in Delhi while at All-India level, 62.0% of households used LPG as primary source of energy for cooking.
- ii. 2.5% of households in Delhi have no cooking arrangement as compared to 0.7% of household at All-India level.
- iii. Further, 96.6% of households in Delhi and 34.7% of households at All-India level were using *clean fuel* for cooking, lighting, heating { A household is categorized as using **clean fuel for cooking**, if the household reported use of any one of the primary sources, viz. (i) LPG, (ii) other natural gas, (iii) gobar gas, (iv) other biogas, (v) electricity (incl. generated by solar/wind power generators) and (vi) solar cooker for cooking. A household is categorized as using **clean fuel for lighting**, if the household reported use of the primary source (i) electricity (incl. generated by solar/wind power generators) for lighting. A household was categorized as using **clean fuel for heating**, if the household reported use of any one of the primary sources, viz., (i) LPG, (ii) other natural gas, (iii) gobar gas, (iv) other biogas, (v) electricity (incl. generated by solar/wind power generators) and (vi) solar heater for heating }.

(C) Education and ICT Skills

❖ Education

- i. 34.3% persons of age 15-35 years in Delhi were in formal and non-formal education and training during last 12 months from the date of survey as compared to 26.8% persons at All-India level.
- ii. In Delhi, 28.0% persons having the age between 15-29 years reported not in education, employment or training (NEET) as on the date of survey.

- iii. Further, 62.7% of NEET persons (15-29 years) were attending domestic duties, 33.2% of NEET persons (15-29 years) were seeking/available for work during last 7 days preceding the date of survey in Delhi.

❖ ICT Skills

- i. In Delhi, 67.9% of person of age between 15-29 (71.3% male & 63.5% female) were able to copy or move a file or folder; 63.7% persons of age between 15-29 years (66.2% male & 60.5% of female) were able to send e-mails with attached files (e.g. documents, pictures and videos); 43.7% persons of age between 15-29 years (45.8% male & 40.9% female) were having the knowledge to find, download, install, configure software and 12.4% persons of age between 15-29 years (12.8% male & 11.9% female) were able to write a computer program using a specialised programming language.
- ii. It was observed that in Delhi, both male and female of age between 15-24 and 15-29 years were having the knowledge of ICT skills more or less at the same footing.

(D) Mobile, Broadband and Mass Media

❖ Mobile

- i. In Delhi, 97.7% persons of age '18 years and above' and at All-India level, 72.7% persons of age '18 years and above' were using the mobile telephone with active sim card *at least once during last three months* preceding the date of the survey.
- ii. In Delhi, 88.9% persons of age '18 years and above' were *exclusively used* mobile telephone with active sim card at least once during last three months preceding the date of the survey and 11.1% of persons of age '18 years and above' have *shared with household members* and none of the household members (except only 0.1% urban female) had *shared the mobile use with non-household members*.

❖ Broadband and Mass Media

- i. In Delhi, 74.9% of households had reported to have access of broadband within the premises and 94.6% of households had reported that any of its members had access to mass media.

(E) Financial Inclusion and Indebtedness

❖ Financial Inclusion

- i. In Delhi, 91.7% persons having the age 15 years and above, and 93.2% persons having the age 18 years and above, have an account individually or jointly in any bank/other financial institution/mobile money service

provider. Similarly, at All-India level, 87.2% persons having the age 15 years and above, and 89.4% persons having the age 18 years and above, have an account individually or jointly in any bank/other financial institution/mobile money service provider.

❖ **Indebtedness**

- i. In Delhi, out of per 1,00,000 persons having the age '15 years and above', only 6589 persons were indebted and out of per 1,00,000 persons having the age '18 years and above', 7022 persons were indebted either through institutional or non-institutional agencies.
- ii. However, at All-India level, out of per 1,00,000 persons having the age 15 years and above, 14653 persons of age '15 years and above' were indebted and out of per 1,00,000 persons having the age '18 years and above', 15809 persons were indebted either through institutional or non-institutional agencies.

(F) Birth Registration

- i. In Delhi, 99.1% of person of age less than 5 years and at All-India level, 88.2% of person of age less than 5 years have ever registered with civil authority for birth certificate {**civil authority** like municipality, panchayat, Government health institution or other local authority appointed by the State Government for registration of birth and issue of birth certificate}.
- ii. 95.4% of person of age less than 5 years in Delhi have received their birth certificates from the civil authority.

(G) Availability/possession/awareness of various facilities

❖ **Other facilities**

- i. 90.5% of rural households reported availability of all-weather roads within 2 km from the place of living in Delhi at the time of survey.
- ii. 100.0% of urban households reported availability of public transport facility within 500 mtr from place of living in Delhi at the time of survey.
- iii. 90.1% of households (89.8% of rural and 90.1% of urban households) reported availability of open public space within 500 mtr from their place of living in Delhi at the time of survey.
- iv. 97.8% of households (75.5% of rural and 98.4% of urban households) reported distance to the nearest 'hospital with emergency services' of less than 5 km from place of living in Delhi at the time of survey.
- v. 98.7% of households (75.5% of rural and 99.3% of urban households) reported distance to the nearest 'hospital without emergency services' of less than 5 km from their place of living in Delhi at the time of survey.
- vi. 99.8% of households (92.3% of rural and 100.0% of urban households) reported distance to the nearest 'Primary health centre/sub centre' of less than 5 km from place of living in Delhi at the time of survey.

- vii. 34.8% of households (21.3% of rural and 35.1% of urban households) reported possession of air conditioner in Delhi at the time of survey.
- viii. 67.6% of households (82.1% of rural and 67.2% of urban households) reported possession of air cooler in Delhi at the time of survey.
- ix. 57.0% of households (70.0% of rural and 56.7% of urban households) reported where any of the household member is aware of the Pradhan Mantri Awas Yojna (PMAY) in Delhi.
- x. 40.6% of households (53.3% of rural and 40.3% of urban households) reported where any of the household member is aware of Samagra Shiksha Scheme (SSS) in Delhi.

❖ **Bathroom**

- i. In Delhi, 98.1% households reported that they were having access to bathroom facility. Among these households, 76.7 % households were having bathroom for exclusive use, followed by 16.9 % households who shares it jointly as they were residing in the same building and 4.5 % households who were using community based facility with or without payment for bathing. Only 1.9% households have no access to bathroom.

❖ **Tenorial status of dwelling unit**

- i. In Delhi, 60.7 % households were residing in owned dwelling (including leasehold) for their livings and 35.4 % households were having hired accommodation.
- ii. Among the households who were residing in the hired dwelling, 22.9 % households were living in the rented dwellings which were hired without written contract, 8.6 % households with written contract and 3.9 % households were having the accommodation provided by the employer while 3.9 % households were having other arrangement for their livings (e.g., encroached one).

❖ **Type of structure of house**

- i. 99.9% households were living in pucca house in Delhi and only 0.1% households were having katcha house.

❖ **Dwelling units by area type**

- i. In Delhi, 4.3% households have their dwelling units in Notified slum, 3.6% households in Non-notified slum and 92.1% households have their dwelling units in the “Other Areas”.

❖ **Kitchen type of the dwelling unit**

- i. 73.1 % households were having separate kitchen with water tap, 6.3 % households were having separate kitchen without water tap and the rest 20.6 % households were not having separate kitchen in their dwellings in Delhi.

❖ Garbage Collection

- i. 79.8 % households in Delhi reported that arrangement for collection of garbage was provided by the Government Agency i.e. Municipal Corporation, 11.0 % households reported that they had their own local arrangement via by resident/group of residents and 5.3 % households have no arrangement of garbage collection facility.

(H) Purchase/Construction of new house/flat for residential purpose after 31.03.2014

- i. In Delhi, 3.9% of households had purchased/constructed any new house/flat for *residential purpose after 31.03.2014* and out of that households, 95.6% had purchased/constructed any new house/flat for the *first time*.
- ii. In Delhi, 100% of households had purchased/constructed any new house/flat for the first time and owned that house/flat as on date of survey among households which purchased/constructed any new house/flat for residential purpose after 31.03.2014.
- iii. The source from which the maximum amount was financed by the household out of the total finance spent for the purchase/construction of new house/flat after 31.03.2014, was bank (37.1%) followed by own finance (36.6%) in Delhi. However, at All-India level, the source from which the maximum amount was financed by the household out of the total finance spent for the purchase/construction of new house/flat after 31.03.2014, was own finance (35.4%) followed by any other source (35.3%) and bank (28.0%).
- iv. The *average floor area* of the newly purchased/constructed for residential purpose after 31.03.2014 for the first time and owned by the surveyed household as on date of survey in Delhi comes to 72.3 sq. mtr. while at All-India level, it was 54.2 sq. mtr..
- v. Further, in Delhi, average number of living rooms was 2.2 and average number of other rooms was 2.7 and at All-India level, the average number of living & other rooms were 2.3 & 1.7 respectively.
- vi. Out of the households who purchased/constructed new house/flat after 31.03.2014, 38.4% households in Delhi had purchased/constructed new house/flat covering the size between 60 -160 sq. mtr. after 31.03.2014 for residential purpose for the first time and owned that as on date of survey.

(I) Migration

- i. In Delhi, 44.4% persons were falls under the category whose current place of residence is different from the last usual place of residence { *The last usual place of residence was referred to be the village/town/country where the household member stayed continuously for 6 months or more before coming to the present village/town at the place of enumeration. The place of enumeration*

refers to the place (village or town) where the person is being enumerated or surveyed, i.e., the present place of residence of the person }.

- ii. 47.2% persons had migrated in Delhi from the rural area of another state. While at All-India level, only 6.8% persons had migrated at one place or another in the country from the rural areas of another state. However, only 0.2% persons in Delhi and 0.9% persons in India had migrated from another country.
- iii. Out of the total migrated male, 55.7% male have migrated from their last usual place of residence for the sake of employment related reasons. However, out of the total migrated female, 35.6% have left their last usual place of residence due to their marriage and 51.7% female had migrated due to the migration of parent/earning member of the family.
- iv. In Delhi, 38.1% employed and 59.8% persons out of labour force had migrated from their last usual place of residence for the reason one or another.
- v. In Delhi, 29.1% of migrated persons and at All-India level, 14.4% of migrated persons were earner in their last usual place of residence and out of that, 79.6% persons in Delhi and 56.2% persons at All-India level have increased their income from the last usual place of residence. While, the income of 18.6% persons in Delhi and 21.9% persons at All-India level have remained the same from the last usual place of residence. Further, only 1.8% persons in Delhi and 21.9% persons at All-India level has reported decreased in their income from last usual place of residence.
- vi. In Delhi, 0.7% migrated persons have transferred their Ration Card; 0.9% persons have transferred their Voter ID Card; 0.1% persons have transferred their Passport; 5.5% persons have transferred their Aadhar Card from their last usual place of residence. However, at All-India level, 24.6% persons have transferred their Ration Card; 7.7% persons have transferred their Voter ID Card; 0.1% persons have transferred their Passport; 3.9% persons have transferred their Aadhar Card from their last usual place of residence. Further, in Delhi, 91.7% persons and 62.0% persons at All-India level have transferred their documents from their last usual place of residence *in combination*.
- vii. 23.3% male were willing to move out from present place of residence and out of that, 43.3% male were willing to move because of the employment related reasons. However, only 16.2% female were interested in moving from present place of residence and out of that, 33.4% females were willing to move because of the reason of "Migration of parent/earning member of the family".
- viii. In Delhi, 19.6% persons and at All-India level, 2.7% persons were willing to move out from their usual place of residence as on the date of survey and out of that willing persons, 54.8% persons in Delhi and 55.4% persons at All-India level were willing to move to their last usual place of residence.

CHAPTER 1

INTRODUCTION

Introduction

1.1 Background

1.1.1 The National Sample Survey Office (NSSO), Ministry of Statistics and Programme Implementation (MoSPI), Government of India, has been conducting nation-wide large scale sample surveys since its inception to collect socio-economic data employing scientific sampling methods. NSS 78th round was earmarked for collection of data on 'Multiple Indicators'. Survey on Multiple Indicators was conducted for the first time in NSS during this round. The survey was initially planned to be conducted during the period January-December, 2020 but the field work was extended upto 15.08.2021 due to Corona Pandemic by the MoSPI, GoI with the concurrence of the Working Group chaired by Dr. G.C.Manna, Ex-Member, National Statistical Commission (NSC). The extension of the field work was decided with the view to ensure coverage, completeness and collection of sufficient data for generation of reliable estimates; since due to lockdown and other restrictions in different parts of the country, the field functionaries faced considerable challenges in collecting the data.

1.1.2 The primary objective of the Multiple Indicator Survey (MIS) was to collect data for generation of some important national indicators of Sustainable Development Goals (SDG) like:

- i. National Indicator No. 4.1.6: Proportion of students enrolled in Grade I who reaches last grade of primary/upper primary/secondary/higher secondary level.
- ii. National Indicator No. 4.1.7: Out of school ratio (primary, upper primary, elementary, secondary and higher secondary).
- iii. National Indicator No. 4.2.1: Participation rate in organized learning one year before official primary entry.
- iv. National Indicator No. 4.3.1: Participation rate of youth and adults in formal and non-formal education and training in the previous 12 months.
- v. National Indicator No. 4.4.1: Proportion of computer literate adults.
- vi. National Indicator No. 6.1.1: Percentage of population having safe and adequate drinking water within premises.
- vii. National Indicator No. 6.1.2: Percentage of population using improved drinking water source.
- viii. National Indicator No. 8.6.2: Proportion of youth (15-24 years) not in education, employment and training (NEET).
- ix. National Indicator No. 9.1.1: Proportion of the rural population who live within 2 km of an all-weather road.
- x. National Indicator No. 1.4.5: Proportion of population having Bank accounts.
- xi. National Indicator No. 5.a.6: Percentage of adult having an account at a formal financial institution.
- xii. National Indicator No. 5.a.7: Percentage of women having an account at a formal financial institution.

- xiii. National Indicator No. 5.a.8: Number of borrowers per 1,00,000 adults.
- xiv. Global Indicator No. 5.b.1: Proportion of individuals who own a mobile telephone, by sex.
- xv. Global Indicator No. 1.4.1: Proportion of population living in households with access to basic services.
- xvi. Global Indicator No. 2.1.2: Prevalence of moderate or severe food insecurity in the population, based on the Food Insecurity experience Scale (FIES).
- xvii. Global Indicator No. 6.2.1: Proportion of population using (a) safely managed sanitation services and (b) a hand-washing facility with soap and water.
- xviii. Global Indicator No. 7.1.1: Proportion of population with access to electricity.
- xix. Global Indicator No. 8.10.2: Proportion of adults (15 years and older) with an account at a bank or other financial institution or with a mobile-money-service provider.
- xx. Global Indicator No. 16.9.1: Proportion of children under 5 years of age whose births have been registered with a civil authority, by age.

Along with that, the information on (i) Purchase/construction of house (s)/flat(s) by the household for residential purpose after 31.03.2014 and (ii) Migration particulars were also collected on the request of Ministry of Housing and Urban Affairs (MoHUA). Additionally, some information on access to mass media, availability of birth registration certificates etc. was also collected through MIS.

1.2 The survey outline

1.2.1 Schedule of enquiry

The Schedule 5.1-“Multiple Indicator Survey” was canvassed for collecting the following set of information:

- Household level information on access to facilities like drinking water, sanitation, hygiene, etc.
- Person level information on education and ICT skills
- Bank/financial account related information along with status of indebtedness
- Construction/purchase of house/flat for residential purpose after 31.03.2014
- Personal level information on the particulars of migration
- Drinking Water facilities:
 - Principal sources of drinking water
 - Availability of sufficient water throughout the year
 - Access to the principal source of drinking water
 - Distance to the principal source of drinking water
- Sanitation facilities:
 - Access to latrine
 - Type of latrine
 - Availability of hand washing facility within the premises
- Primary source of energy used for cooking/lighting/heating

- Access of the household to bathroom
- Agency made arrangement for collection of garbage of the household
- Registration of births/receipt of birth certificates
- Possession of air conditioner & air cooler

1.2.1.2 Moreover, information was also collected on the availability of some other facilities like, all-weather road in rural areas, nearest public transport facilities in urban areas, access to mass media, etc. at the household level.

1.2.1.3 Detailed information on the educational particulars of the household members of age 3-35 years, regarding enrolment in education (formal or non-formal) along with particulars of vocational/technical training attended by household members were collected. Also, information on the ability of the household members on performing different ICT skills was enquired.

1.2.1.4 On housing particular, important information was collected on (i) households which have purchased/constructed new house/flat for the first time after 31.03.2014 for residential purpose, (ii) source of finance availed for the purchase of new house/flat for residential purpose etc. Information was also collected on (i) last usual place of residence for each of the household members, (ii) main reason for leaving the last usual place of residence, (iii) change in earning due to migration etc.

1.2.2 Geographical Coverage and Sampling design

1.2.2.1 A stratified multi-stage design was adopted for the 78th round survey with first stage units (FSU) as villages/UFS blocks/sub-units (SUs) and ultimate stage units (USU) as households in rural and urban sectors respectively.

1.2.2.2 In NSS 78th round, village/UFS block was notionally divided into a number of sub-units (SUs) of more or less equal population/households during the preparation of frame. Census 2011 population of villages was projected by applying suitable growth rates and the numbers of SUs formed in a village were determined apriori. SUs were formed in villages with population more or equal to 1,000 as per Census 2011 and no SU was formed in the remaining villages. In the urban areas, an UFS block with number of households more than or equal to 250 was divided into a number of SUs apriori and no SU was formed in the remaining UFS blocks. In rural areas, the First Stage Units (FSUs) were either SUs or the entire village and in urban areas, the First Stage Units (FSUs) were either SUs or the entire UFS block.

1.2.2.3 For stratifying the FSUs, each district was considered as a stratum. Within each district of a State/UT, two basic strata were formed: (i) rural stratum comprising of all rural areas of the district and (ii) urban stratum comprising of all the urban areas of the district. For urban areas of a district, if there were one or more towns with population one million or more as per Census 2011, each of them formed a separate basic stratum and the remaining urban areas of the district were considered as another basic stratum. From all the sub-strata in both rural and

urban sector within each stratum, required number of FSUs were selected by Simple Random Sampling Without Replacement (SRSWOR) scheme.

1.2.2.4 For canvassing Schedule 5.1, five second stage strata (SSS) were formed in both rural and urban sectors. Households with household size greater than seven formed the first SSS i.e. SSS1. From the remaining households, those households which had constructed/purchased any new house/flat for residential purpose after 31.03.2014, were divided into two SSSs based on their UMPCE viz. SSS2: households having UMPCE >A and SSS3: households having UMPCE ≤ A. Finally all the remaining households which were not belonging to SSS1, SSS2 and SSS3 were divided into two SSSs based on UMPCE viz. SSS4: households having UMPCE >A and SSS5: households having UMPCE ≤ A. The cut-off point 'A' was determined from the household's usual monthly consumer expenditure collected in Domestic Tourism Expenditure of the NSS 72th round data (with proper adjustments using price indices) for each NSS region for both rural and urban areas separately, in such a way that top 40% of the population have Usual Monthly Per Capita Consumer Expenditure (UMPCE) more than 'A'. The cut-off 'A' in respect of State Sample (Delhi) were Rs.3940/- for Rural and Rs. 4110/- for Urban Delhi.

1.2.2.5 In each FSU, 2,2,2,6 and 8 households were selected from SSS1, SSS2, SSS3, SSS4 and SSS5 respectively for canvassing Schedule 5.1. Sample households from each SSS were selected by SRSWOR.

1.3 Contents of the report:

1.3.1 All the estimates presented in the report are based only on the State Sample (Delhi) Data collected through Schedule 5.1. Important indicators based on collected data have been generated and presented in the report. Some of the important indicators are: (i) Percentage of population having improved and sufficient drinking water within premises, (ii) Proportion of population using (a) improved sanitation services and (b) a hand-washing facility with soap and water, (iii) Percentage of households reporting clean fuel as primary source of energy for cooking/lighting/heating, (iv) Proportion of persons with different ICT skills, (v) Proportion of youth (15-24 years) not in education, employment or training (NEET), (vi) Proportion of households which purchased/constructed any house/flat for residential purpose for the first time after 31.03.2014, (vii) Proportion of persons whose current place of residence is different from the last usual place of residence etc.

1.3.2 *The schedule contains some household level information on food insecurity experience. These data were collected for internal use of SSD, MoSPI. Therefore, no tables on these have been generated for the report.*

1.3.3 While using the estimates, it may be kept in mind that the sample size may not be adequate enough for getting sufficiently reliable estimates and interpretation of results should be made with caution. Similarly, while interpreting the results using estimates at much deeper cross-sectional level, data users must keep in mind the inadequacy, if any, of the corresponding domain specific samples before arriving at any conclusion.

CHAPTER 2

CONCEPTS & DEFINITIONS

Concepts & Definitions

2.1 Concepts and definitions of some important terms used in this report are described below:

2.2 Population Coverage: The following rules regarding the population were adhered to while listing households and persons in the survey:

- i. Under-trial prisoners in jails and indoor patients of hospitals, nursing homes etc., were excluded, but residential staff therein was listed while listing was done in such institutions. The persons of the first category were considered as members of their parent households and were counted there. Convicted prisoners undergoing sentence were kept outside the coverage of the survey.
- ii. Floating population, i.e., persons without any normal residence were not listed. But households residing in open space, roadside shelter, under a bridge, etc., more or less regularly in the same place, were listed.
- iii. Neither the foreign nationals nor their domestic servants were listed, if by definition the latter belong to the foreign national's household. If, however, a foreign national became an Indian citizen for all practical purposes, he or she was covered.
- iv. Persons residing in barracks of military and paramilitary forces (like police, BSF, etc.) were kept outside the survey coverage due to difficulty in conduct of survey therein. However, civilian population residing in their neighbourhood, including the family quarters of service personnel, were covered.
- v. Orphanages, rescue homes, ashrams and vagrant houses were outside the survey coverage. However, persons staying in the old age homes, students staying in ashrams/hostels and the residential staff (other than monk/nuns) of these ashrams/hostels were listed. For orphanages, although orphans were not to be listed, the persons looking after them and staying there were considered for listing.

2.3 House: Every structure, tent, shelter, etc. had been considered a house irrespective of its use. It might have been used for residential or non-residential purpose or both or even might have been vacant.

2.4 Household: A group of persons who normally lived together and took food from a common kitchen constituted a household. It included temporary stay-away (those whose total period of absence from the household was expected to be less than 6 months during the survey period) but excluded temporary visitors and guests

(expected total period of stay less than 6 months during the survey period). Even though the determination of the actual composition of a household was left to the judgment of the head of the household, the following procedures were adopted as guidelines:

- i. Each inmate (including residential staff) of a hostel, mess, hotel, boarding and lodging house, etc. was considered as a single-member household. If a group of persons among them normally pool their income for spending, they were considered to form a single household. For example, a family living in a hotel was treated as a single household.
- ii. In deciding the composition of a household, more emphasis was given on 'normally living together' than on 'ordinarily taking food from a common kitchen'. In case the place of residence of a person was different from the place of boarding, he or she was treated as a member of the household with whom he or she resided.
- iii. A resident employee, or domestic servant, or a paying guest (but not just a tenant in the household) was considered as a member of the household with whom he or she resided even though he or she was not a member of the same family.
- iv. When a person usually slept in one place (say, in a shop or in a room in another house because of space shortage) but took food with his or her family, he or she was not treated as a single member household but as a member of the household in which other members of his or her family stayed.
- v. If a member of a family (say, a son or a daughter of the head of the family) stayed elsewhere (say, in hostel for studies or for any other reason), he/she was not considered as a member of his/her parent's household. However, he/she was listed as a single member household if the hostel was listed.

2.5 Household Size: The number of members of a household was considered as household size.

2.6 Household Premises: For this survey, household premises was defined as the dwelling unit of the household together with the courtyard, compound, garden, out-house, place of worship, garage, family graveyard, guest house, shop and offices for running household enterprises, tanks, wells, latrines, drains and boundary walls annexed to the dwelling unit which were under the possession of the household (possessed exclusively or possessed with some other households).

2.7 Dwelling Unit: In this survey, dwelling unit was defined as the accommodation used by the household for its residential purpose. It might be an entire structure or a part thereof or consisting of more than one structure. There might be cases of more than one household occupying a single structure such as those living in independent flats or sharing a single housing unit, in that case, number of dwelling units was the

same as the number of households sharing the structure. There might also be cases of one household occupying more than one structure (i.e. detached structures for sitting, sleeping, cooking, bathing etc.) for its housing accommodation. In this case, all the structures together constituted a single dwelling unit. In general, a dwelling unit consists of living room, kitchen, store, bath, latrine, garage, open and closed veranda etc. A structure or a portion thereof used exclusively for non-residential purposes or let out to other households did not form part of the dwelling unit of the household under consideration. However, a portion of a structure used for both residential and non-residential purposes was treated as part of the dwelling unit except when the use of such portion for residential purpose was very nominal. The dwelling unit covered all pucca, semi-pucca and katcha structures used by a household.

Tenurial status of dwelling unit:

- ✚ A dwelling unit was considered to be 'owned' by the sample household if permanent heritable possession with or without the right to transfer the title was vested in a member or members of the household. Dwelling unit with owner-like possession under long term lease or assignment was also considered as owned. If the sample household has the right of permanent heritable possession of the dwelling unit with or without the right to transfer the title, the dwelling unit was considered as 'freehold'.
- ✚ In cases where the household did not possess the title of ownership of the dwelling unit but has the right for long term possession of the dwelling unit (e.g., dwelling units possessed under perpetual lease, hereditary tenure and long term lease for 30 years or more), the tenurial status of the dwelling unit was considered as 'leasehold'.
- ✚ If the dwelling unit, in which the sample household lives, was provided to a member of the sample household by his/her employer, the dwelling unit was considered as 'employer quarter'.
- ✚ If the dwelling unit was taken on rent, by the sample household, which was payable at monthly, quarterly or any other periodic intervals or on lease, for a period of less than 30 years, it was treated as a hired dwelling unit. It may be noted that a hired dwelling unit may be free of rent also. If the sample household had written contract with its owner for the hired dwelling unit, the tenurial status of the dwelling unit was considered as 'hired dwelling unit with written contract'.
- ✚ On the other hand, if the sample household had no written contract with its owner for the hired dwelling unit, the tenurial status of the dwelling unit was considered as 'hired dwelling unit without written contract'.

- ✚ Households living more or less regularly in tents, under bridges, in pipes, under staircase, in purely temporary flimsy improvisations built by the road side (which are liable to be removed at any moment) etc., were considered to have no dwelling.

2.8 Independent House: A dwelling unit was considered as an independent house if it had a separate structure and the structure was not shared with any other household. In other words, if the dwelling unit and the entire structure of the house were physically the same, it was considered as an independent house. In some parts, particularly in rural areas, two or more structures together constituted a single housing unit. While the main residence was in one of the structures, the other structures were used for sleeping, sitting and for store, bath etc. In all such cases, all the structures together formed an independent house.

2.9 Flat: A dwelling unit was considered as a flat if it was a part of a structure which was shared with at least two households and the dwelling unit had housing facilities of water supply, bathroom and latrine, which were used exclusively by the households or shared with households residing in that structure. If the household reported that the facilities of water supply, bathroom and latrine were shared with other households residing in other structures, such dwelling unit was considered as flat. If households were residing in flat-like structure without any one of the housing facilities like water supply, bathroom and latrine; those structures/dwelling units were not considered as flat.

2.10 Room: It was defined as a constructed area with walls or partitions on all side with at least one door way and a roof overhead. Wall/partition meant a continuous solid structure (except for the doors, windows, ventilators, air-holes, etc.) extending from floor to ceiling. A constructed space with grill or net on one or more sides in place of wall or partition was not considered a room. In case of conical shaped structures in which the roof itself was build to the floor level, the roof was considered as wall.

2.11 Living Room: A room with floor area (carpet area) of at least 4 square meters (i.e., approximately 43 square feet), a height of at least 2 meters (i.e. approximately 6.6 feet) from the floor to the highest point in the ceiling and used for living purposes was considered as a living room. Thus, rooms used as bedroom, sitting room, prayer room, dining room, servant's room-all were considered as living rooms provided they satisfy the size criterion. Kitchen, bathroom, latrine, store, garage etc. were not considered as living rooms. A room used in common for living purpose and as kitchen or store was also considered as living room.

2.12 Other room: It was defined as a room which did not satisfy the specification of 4 square meters floor area and 2 meters height from the floor to the highest point of the ceiling or a room which though satisfied the specifications, was not used for living purposes. A room which satisfied the size criterion but shared by more than one household or when used for both residential and business purposes was treated as other room.

2.13 Verandah: A roofed space adjacent to living/other room along the outside of house and not walled from all sides was considered a verandah. In other words, at least one side of such space was either open or walled only to some height or protected by grill, net, etc. A verandah was defined as a 'covered verandah', if it was protected from all sides and an 'uncovered verandah', if it was not protected at least from one of the sides. A covered verandah could have a door also. Sometimes verandah was used as an access to the room(s). Corridor or passage within the dwelling unit was considered as portion of a room or a verandah depending on its layout. A common corridor or passage used mainly as access to the dwelling was not considered as verandah.

2.14 Economic activity: The entire spectrum of human activity falls into two categories: economic activity and non-economic activity. Any activity that results in production of goods and services and adds value to national product was considered as an economic activity. The economic activities have two parts-market activities and non-market activities. Market activities are those that involve remuneration to those who perform it, i.e., activity performed for pay or profit. Such activities include production of all goods and services for market including those of government services, etc. Non-market activities are those involving the production of primary commodities for own consumption and own account production of fixed assets.

The term 'economic activity' in the context of collection of information on usual principal activity status particulars of the household members included:

- i. All the market activities i.e., the activities performed for pay or profit which resulted in production of goods and services for exchange.
- ii. Of the non-market activities:
 - a. All the activities relating to the primary sector (i.e., industry Divisions 01 to 09 of NIC-2008) which resulted in production (including free collection of uncultivated crops, forestry, firewood, hunting, fishing, mining, quarrying, etc.) of primary goods, including threshing and storing of grains for own consumption.
 - b. The activities relating to the own-account production of fixed assets. Own account production of fixed assets included construction of own houses, roads,

wells, etc., and of machinery, tools, etc., for household enterprise and also construction of any private or community facilities free of charge. A person might be engaged in own account construction in the capacity of either a laborer or a supervisor. The activities like prostitution, begging, etc., which might result in earning, were not considered as economic activities for the survey.

2.15 Activity Status: It is the activity situation relating to participation in economic and/or non-economic activities in which a person is found engaged during a reference period. According to this, a person is in one or a combination of the following three broad activity statuses during a reference period:

- (i) Working or being engaged in economic activity (work),
- (ii) Being not engaged in economic activity (work) and either making tangible efforts to seek 'work' or being available for 'work' if the 'work' is available and
- (iii) Being not engaged in any economic activity (work) and also not available for 'work'.

The detailed activity categories for these broad activity statuses are as below:

- (i) Working or being engaged in economic activity (employed):
 - (a) Worked in household enterprise (self-employed) as an own-account worker
 - (b) Worked in household enterprise (self-employed) as an employer
 - (c) Worked in household enterprise (self-employed) as 'helper'
 - (d) Worked as regular salaried/wage employee
 - (e) Worked as casual wage labour in public works
 - (f) Worked as casual wage labour in other types of works
- (ii) Not working but seeking or available for work (unemployed)
- (iii) Not working and also not available for work (not in labour force):
 - (a) Attended educational institution
 - (b) Attended domestic duties only
 - (c) Attended domestic duties and was also engaged in free collection of goods (vegetables, roots, firewood, cattle-feed etc.) sewing, tailing, weaving, etc. for household use
 - (d) Rentiers, pensioners, remittance recipients, etc.
 - (e) Not able to work due to disability
 - (f) Others

2.16 Workers (or employed): Persons who, during the reference period, are engaged in any economic activity or who, despite their attachment to economic activity, have temporarily abstained from work for reasons of illness, injury or other physical disability, bad weather, festivals, social or religious functions or other contingencies constitute workers. Unpaid helpers who assist in the operation of an economic activity in the household farm or non-farm activities are also considered as workers.

2.17 Seeking or available for work (or unemployed): Persons, who, during the reference period, owing to lack of work, had not worked but either sought work through employment exchanges, intermediaries, friends or relatives or by making applications to prospective employers or expressed their willingness or availability for work under the prevailing condition of work and remuneration are considered as those who are 'seeking or available for work' (or unemployed).

However, if it is found that a student is currently on the live register of the Employment Exchange, the person is normally be categorized as a student. But if it is found that he/she will leave his studies to take up the job for which he/she has registered, he/she will be considered as unemployed.

2.18 Labour Force: Persons who are either 'working' (or employed) or 'seeking or available for work' (or unemployed) during the reference period *together* constitute the labour force.

2.19 Out of labour force: Persons who are neither 'working' and at the same time nor 'seeking or available for work' for various reasons during the reference period are considered to be 'out of labour force'. The persons under this category are students, those engaged in domestic duties, rentiers, pensioners, recipients of remittances, those living on alms, infirm or disabled persons, too young or too old persons, prostitutes, etc. and casual labourers not working due to sickness.

2.20 Self-employed: Persons who operate their own farm or non-farm enterprises or are engaged independently in a profession or trade on own-account or with one or a few partners are deemed to be self-employed in household enterprises. The essential feature of the self-employed is that they have *autonomy* (i.e. how, where and when to produce) and *economic independence* (i.e. market, scale of operation and money) for carrying out their operation. The remuneration of the self-employed consists of a non-separable combination of two parts: a reward for their labour and profit of their enterprise. The combined remuneration is given by the revenue from sale of output produced by self-employed persons minus the cost of purchased inputs in production.

The self-employed persons may be categorized into the following three groups:

- (i) Own-account workers: They are the self-employed who operate their enterprises on their own account or with one or a few partners and who during the reference period by and large, run their enterprise without hiring any labour. They may, however, have unpaid helpers to assist them in the activity of the enterprise.
- (ii) Employers: The self-employed persons who work on their own account or with one or a few partner and by and large run their enterprise by hiring labour are the employers and
- (iii) Helpers in household enterprises: The helpers are a category of self-employed persons mostly family members who keep themselves engaged in their household enterprises, working full or part time and do not receive any regular salary or wages in return for the work performed. They do not run the household enterprise on their own but assist the related person living in the same household in running the household enterprise.

There is a category of workers who work at a place of their choice which is outside the establishment that employs them or buys their product. Different expressions like 'home workers', 'home based workers' and 'out workers' are generally used synonymously for such workers. For the purpose of this survey, all such workers are categorized as 'self-employed'. The 'home workers' have some degree of autonomy and economic independence in carrying out the work, and their work is not directly supervised, as is the case for the employees. Like the other self-employed, these workers have to meet certain costs, like actual or imputed rent of the space in which they work, costs incurred for heating, lighting and power, storage or transportation, etc., thereby indicating that they have some tangible or intangible means of production. It may be noted that employees are not required to provide such inputs for production.

It may further be elaborated that the 'putting out' system prevalent in the production process in which a part of production which is 'put out' is performed in different household enterprises (and not at the employer's establishment). For example, a woman engaged in tailoring or embroidery work on order from a wholesaler, or making pappad at home on order from some particular unit/contractor/trader are treated as 'home worker'. On the other hand, if she does the work in the employers' premises, she is treated as an employee. Again, if she is not undertaking these activities on orders from outside, but markets the products by herself/other household members for profit, she is considered as an own account worker, if of course, she does not employ any hired help more or less on a regular basis.

2.21 Regular wage/salaried employee: Persons working in other's farm or non-farm enterprises (both household and non-household) and getting in return salary or wages on a regular basis (and not on the basis of daily or periodic renewal of work contract) are the regular wage/salaried employees. This category not only includes persons getting time wage but also persons receiving piece wage or salary and paid apprentices, both full time and part-time.

2.22 Casual wage labour: A person casually engaged in other's farm or non-farm enterprises (both household and non-household) and getting in return wage according to the terms of the daily or periodic work contract is a casual wage labour. Usually, in the rural areas, one category of casual labourers can be seen who normally engage themselves in 'public works' activities.

2.23 Household Type: The household type, based on the means of livelihood of a household, is decided on the basis of the sources of the household's income during the 365 days preceding the date of survey. For this purpose, only the household's income (net income and not gross income) from economic activities is to be considered; but the income of servants and paying guests are not taken into account. The broad household types in both rural and urban areas used in this survey are self-employed, regular wage/salary earning, casual labour and others. A household which does not have any income from economic activities during last 365 days preceding the date of survey are considered as others.

2.24 Usual Principal Activity Status: The activity status of a person was determined on the basis of the activities pursued by the person during certain specified reference period. The usual principal activity status of a person was determined with a reference period of 365 days preceding the date of survey. The activity status on which a person spent relatively long time (major time criterion) during the 365 days preceding the date of survey was considered the usual principal activity status of the person. *To decide the usual principal activity of a person, he/she was first categorized as belonging to the labour force or not, during the reference period on the basis of major time criterion.* Persons, thus adjudged as not belonging to the labour force were assigned the broad activity status 'neither working nor available for work'. For the persons belonging to the labour force, the broad activity status of either 'working' or 'not working but seeking and/or available for work' was then ascertained again on the basis of the relatively long time spent in the labour force during the 365 days preceding the date of survey. Within the broad activity status so determined, the detailed activity status category of a person pursuing more than one such activity was determined again on the basis of the 'relatively long time spent' criterion.

2.25 Principal Industry and Occupation: To determine the household principal industry and occupation, the general procedure followed was to list all the occupations pertaining to economic activities pursued by the members of the household excluding

those employed by the household and paying guests (who in view of their staying and taking food in the household were considered as its normal members) during the one year period preceding the date of survey. Out of the occupations listed, the one which fetched the maximum earnings to the household during the last 365 days preceding the date of survey was considered as the *principal household occupation*. In case one or more members of the household pursue the household occupation in different industries, the particular industry out of all the different industries corresponding to the principal occupation, which fetched the maximum earnings, was considered as the principal industry of the household. In extreme cases where earnings might be equal in two different occupations or industry-occupation combinations, priority was given to the occupation or industry-occupation combination of the senior-most member. *For collection of information on industry, National Industrial Classification-2008 (NIC-2008) was used and for collection of information on occupation, National Classification of Occupations-2004 (NCO-2004) was used.*

2.26 Land Possessed: The area of land possessed by a household was defined as an area which included land ‘owned’, ‘leased in’ and ‘land neither owned nor leased in’ (i.e. encroached) by the household but excluded land ‘leased out’. The total land area possessed by the household as on the date of survey was considered.

- ✚ A piece of land was considered to be owned by the household if permanent heritable possession with or without the right to transfer the title vested in a member or members of the household. Land held in owner-like possession say, under perpetual lease, hereditary tenure, long-term lease for 30 years or more, etc., were also considered as land owned.
- ✚ As regards lease, land given to others on rent or free by owner of the land without surrendering the right of permanent heritable title was defined as land leased out. Land leased in was defined as land taken by a household on rent or free without any right of permanent or heritable possession. The lease contract could be written or oral. For a piece of public/institutional land under the possession of the household, if the household did not have the title of ownership or did not have lease agreement for the use of land transacted, either verbally or in writing, such land was considered as ‘neither owned nor leased in’ i.e. otherwise possessed. Private land (i.e. land owned by the household sector) possessed by the household without title of ownership and occupancy right was not considered in the ‘otherwise possessed’ category. All private land encroached upon by the household was considered as leased-in land.
- ✚ Land possessed by the household members by virtue of family ties with the owner who stayed elsewhere (forms a different household), was considered as land leased in. For such owners (those found to be living away from their family

members who were in possession of the land), the land was recorded as owned and leased out.

- ✚ Land owned, leased in, etc., by a particular household did not include the area of land owned, leased in, etc., by the servants/paying guests who were considered as normal members of household. However, land owned/cultivated jointly by two or more household had been apportioned to determine the land owned/cultivated by any one of them.
- ✚ Land possessed by the households living in a block of flats was computed by apportioning the total area occupied by the building among the households in proportion to the size of the flats.

2.27 Household's Usual Monthly Consumer Expenditure (Rs.): Household consumer expenditure (HCE) is the sum total of monetary values of all goods and services consumed (out of purchase or procured otherwise) by the household on domestic account during a reference period. Household's usual monthly consumer expenditure was defined as the sum total of monetary values of all goods and services consumed by the household on domestic account with a monthly regularity. Unusual expenditures, such as expenditure on social ceremonies, capitation fee, hospitalization, etc., were excluded for deriving usual monthly consumer expenditure of household. However, expenditure on household durable goods, purchase of items like clothing and footwear were included and monthly expenditure on these items were derived by apportioning the total expenditure made by the household on these items during the last 365 days. This information was collected to classify the households into different MPCE (Monthly Per Capita Consumption Expenditure) classes.

For deriving Household's usual monthly consumer expenditure, information on regular monthly expenditure of the household for household purposes out of purchase, home grown and wages in kind, free collection, gift etc. was also collected. Household's usual monthly consumer expenditure was derived as follows:

Household's usual monthly consumer expenditure = A + B + C + [(D+E)/ 12]

A= Usual consumer expenditure in a month for household purposes out of purchase of goods and services excluding items like clothing, footwear

B= Imputed value of usual consumption in a month from home grown stock like, rice, cereals, pulses, vegetables, milk, firewood, chips, cow dung, etc.

C= Imputed value of usual consumption in a month from wages in kind, free collection, gifts, etc.

D= Expenditure on purchase of items like clothing, footwear etc. during last 365 days

E= Expenditure on purchase of household durables during last 365 days}

2.28 Slums: Any compact settlement with a collection of poorly built tenements, mostly of temporary nature, crowded together, usually with inadequate sanitary and drinking water facilities in unhygienic conditions, was considered as a slum in the survey, provided at least 20 households lived there. The criterion of 20 households was not restricted within an FSU only but the whole of such an area which could cut across more than one FSU. A slum may be a notified slum or a non-notified slum.

✚ **Notified Slums:** Notified Slums are the areas notified as slum by the concerned state governments, municipalities, corporations, local bodies or development authorities.

✚ **Non-notified Slums:** A non-notified slum is a compact settlement with a collection of poorly built tenements, mostly of temporary nature, crowded together, usually with inadequate sanitary and drinking water facilities in unhygienic conditions with at least 20 or more households and is not notified as slums by concerned municipalities, corporation, local bodies or development authorities. For this survey the word 'slums' included both notified slums and non-notified slums.

2.29 Squatter Settlement: Slum like settlements with less than 20 households were considered as squatter settlements. The criterion of 20 households was not restricted within an FSU only but the whole of such an area which may cut across more than one FSU. *Slums and Squatter Settlements were considered for urban areas only.*

2.30 Principal Source of Drinking Water: Principal source of drinking water referred to that source of drinking water from which most of the drinking water of the household was obtained during the last 365 days from the date of survey. The different principal sources of drinking water considered for the survey are:

✚ **Bottled drinking water:** Drinking water packaged in bottles, jars, pouches, and similar containers was classified as bottled drinking water. Generally this packaged drinking water meets certain safety standards and are considered safe for drinking. Tap water, well water, etc., kept by households in bottles, for convenience, was not treated as bottled drinking water.

✚ **Piped water into dwelling and piped water to yard/plot:** If an arrangement was made by corporation, municipality, panchayat or other local authorities or any private or public housing estate or agency to supply water through pipe and if sample household availed such facility for drinking, then such sources of drinking water was considered as piped water. *Piped water into dwelling* was defined as a piped water connection to one or more taps to the dwelling unit (e.g., in the kitchen). *Piped water to yard/plot* was defined as a piped water

connection to a tap placed outside the dwelling unit of the household but in the yard or plot within the household premises.

✚ **Piped water from neighbour:** If an arrangement was made by the sample household to avail drinking water from the piped water of the neighbour household supplied by corporation/municipality/panchayat or other local authorities or any private or public housing estate or agency, then the source of drinking water for the sample household was considered as 'piped water from neighbour'. If the sample household collected drinking water from more than one neighbour, then also source of drinking water for the sample household was considered as 'piped water from neighbour'.

✚ **Public tap/standpipe:** Public tap or standpipe is a water point for community use in which water is supplied through pipe by corporation/municipality/panchayat or other local authorities or any private agency. Public tap/standpipe can have one or more taps and are typically made of brickwork, masonry or concrete.

✚ **Tube well and Hand pump:** Tube well and hand pump are bore well used for extracting ground water for drinking purpose. If the pump of the bore well is operated by animal, wind, electric, diesel or solar means etc., it is known as *tube well* and if the pump is operated manually by hand using human power and mechanical advantage to lift ground water, it is known as *hand pump*.

✚ **Protected well/unprotected well:** A well was considered as *protected* if it generally had the following protective measures to lower the risk of contamination:

- a. A headwall around the well with a properly fitting cover
- b. A concrete drainage platform around the well with a drainage channel
- c. A hand pump or bucket with windlass

If instead of hand pump or bucket with windlass, electric pump was used to pump water from such wells, where the conditions (a) and (b) exist, it was considered as protected well. A well which was not protected by the above measures, e.g., the well not protected from runoff water or the well not protected from bird droppings and animals, was classified as *unprotected well*.

✚ **Tanker-truck: Public/Private:** In 'tanker-truck', drinking water is trucked to a locality and supplied from tanker to the households of the locality. If the 'tanker-truck' was operated by any government agencies (central/state/local bodies etc.) and the sample household reported that it was their principal source of drinking water then the source of drinking water of the household was

recorded as ‘public tanker-truck’. In case the ‘tanker –truck’ was operated by private agencies (NGOs, trusts etc.) and the sample household reported that it was their principal source of drinking water, then the source of drinking water of the household was considered as ‘private tanker-truck’.

- ✚ **Protected spring/unprotected spring:** A spring was considered as *protected*, if it was protected from runoff, bird droppings and animals by a ‘spring box’, constructed of brick, masonry or concrete and built around the spring so that water flowed directly out of the box into a pipe or cistern, without being exposed to outside pollution. A spring which was not protected was classed *unprotected spring*.
- ✚ **Rainwater collection:** Rainwater refers to rain that is collected or harvested from surfaces (by roof or ground catchment) and stored in a container, tank or cistern until used. Traditionally, rainwater collection has been practiced in arid and semi-arid areas to get drinking water of the household and water for other uses. When such water was used for drinking purpose, the source of drinking water was considered as rainwater collection.
- ✚ **Surface water:** Surface water is located above ground and includes rivers, dams, lakes, ponds, streams, canals and irrigation channels. For surface water, information on two distinct categories were collected, one for ‘tank/pond’ and another for ‘other surface water’ (river, dam, stream, canal, lake etc.)
- ✚ **Others (cart with small tank or drum, etc.):** In ‘cart with small tank or drum’, water is supplied in small tank or drum to a locality by donkey carts, motorized vehicles and other means.

The source of drinking water of same type located at two different places was not treated as two different sources of drinking water. Drinking water carried through pipe from sources like tanker-truck, well, tank, river, etc., by the owner/occupants only for convenience of the household was not treated as piped water (i.e. piped water into dwelling or piped water to yard/plot). Instead, the actual source from which water was carried through pipe had been considered as the principal source of drinking water. When a household made arrangement for getting drinking water by hiring the services of persons, the source of water was considered as the one from which water was collected by the hired person.

2.31 Type of latrine used by the household: The different types of latrine considered for the survey are:

- ✚ **Flush/pour-flush:** Flush latrine uses a cistern or holding tank for flushing water, and a water seal (which is a U-shaped pipe below the seat or squatting pan) that prevents the passage of flies and odors. A pour-flush latrine uses a

water seal, but unlike a flush latrine, it uses water poured by hand for flushing (no cistern is used). Depending on the system/site where human excreta and waste water are disposed off, flush/pour-flush latrine can be categorized by the types: (i) piped sewer system, (ii) septic tank, (iii) twin leach pit, (iv) single pit, (v) elsewhere (open drain, open pit, open field, etc.).

- ✚ **Flush/pour-flush to piped sewer system:** Piped sewer system is a system of sewer pipes, also called sewerage that is designed to collect human excreta and waste water and remove them from the household environment.
- ✚ **Flush/pour-flush to septic tank:** Septic tank is an excreta collection device consisting of a watertight settling tank, which is normally located underground. The treated effluent of a septic tank usually seeps into the ground through a leaching pit.
- ✚ **Flush/pour-flush to twin leach pits/single pit:** In twin pit flush/pour-flush latrine, the excreta are carried into subsurface leach pits through pipes or covered drains and one pit is used at a time. The liquid infiltrates into the soil through the holes in the pit lining. The gases also disperse into the soil, and therefore, the provision of a vent pipe for its outlet is not necessary. When one pit is full, the excreta are diverted to the second pit. The filled pit can be conveniently emptied after a rest period of one and a half years, during which pathogens are inactivated and the organic matter decomposed. Thus the two pits can be used alternately and continuously. In a single pit system desludging is required immediately after the pit has filled up, and therefore involves handling of fresh and undigested excreta which is hazardous to health. Single leach pits are appropriate only if mechanical desludging vacuum tanker is readily available, or if the pit is abandoned when full.
- ✚ **Flush/pour-flush to elsewhere (open drain, open pit, open field, etc):** This type of latrine refers to the system of flush/pour-flush latrine where excreta are disposed of near the household environment (not into a pit, septic tank, or sewer). Excreta may be flushed to the open drain, open pit, open field, etc.
- ✚ **Ventilated improved pit latrine:** This is a dry pit latrine ventilated by a pipe that extends above the latrine roof. The open end of the vent pipe is covered with gauze mesh or fly-proof netting and the inside of the superstructure is kept dark.
- ✚ **Pit latrine with slab:** This is a dry pit latrine that uses a hold in the ground to collect the excreta and a squatting slab or platform that is firmly supported on all sides, easy to clean and raised above the surrounding ground level to prevent surface water from entering the pit. The platform has a squatting hold, or is fitted with a seat. Unlike the ventilated improved pit latrine, in this type of latrine, vent pipe is not used.
- ✚ **Pit latrine without slab/open pit:** Pit latrine without slab uses a hole in the ground for excreta collection and does not have a squatting slab, platform or seat.

- ✚ **Composting latrine:** This is a dry latrine into which carbon-rich material (Vegetable wastes, straw, grass, sawdust, ash) are added to the excreta and special conditions maintained to produce inoffensive compost.
- ✚ **Others:** Examples of such latrine are (i) hanging latrine which is built over the sea, a river, or other body of water, into which excreta drops directly, (ii) service latrine which are serviced by scavengers.

2.32 Public space: Public space refers to all places that are publicly owned or of public use, accessible and enjoyable by all, free and without a profit motive, categorized into streets, open spaces and public facilities. Public space in general is defined as the meeting or gathering places that exist outside the home and workplace that are generally accessible by members of the public and which foster resident interaction and opportunities for contact and proximity. Open public space includes:

- ✚ **Parks:** Parks are open space inside an urban territory that provide free air recreation and contact with nature. Their principal characteristic is the significant proportion of green area.
- ✚ **Recreational areas:** Recreational areas are public areas that contribute to environmental preservation. Their main functions can be both ornamental and passive recreation. These include areas such as playgrounds, riverfronts, waterfronts, public beaches, etc.
- ✚ **Civic parks:** Civic parks are open spaces created because of building agglomeration around an open area, which was later transformed into a representative civic area. They are characterized by considerable nature, specifically gardens and a good place for cultural events and passive recreation.
- ✚ **Squares and Plazas:** Squares and plazas are open spaces created because of building agglomeration around an open area. Its main characteristics are the significant architectonic elements and interaction between buildings and the open area. Squares are usually public spaces relevant to the city due to their location, territorial development, or cultural importance.

2.33 Computer: In this survey, a computer included the devices like, desktop computer, laptop computer, notebook, net book, palmtop, and tablet (or similar handheld devices). The descriptions of these are given below:

- ✚ **Desktop:** A desktop computer (or desktop PC) is a computer that is designed to put in a single location without portability. Generally, the monitor, keyboard and mouse in a desktop computer are separate units.
- ✚ **Laptop:** A laptop is a small, portable personal computer. A laptop computer can be powered by battery or plugged into the unit. Laptop is suitable for use while travelling.
- ✚ **Notebook:** A notebook is an extremely lightweight portable personal computer smaller than a laptop model.
- ✚ **Netbook:** A netbook is a portable computer that is about half the size of a traditional laptop.

✚ **Palmtop:** A small computer that literally fits in the palm of one's hand is called a Palmtop. Other names for Palmtops are 'hand-held computers' or 'Personal Digital Assistants (PDAs).

✚ **Tablet:** A tablet is a one piece mobile computer. Devices typically have a touch screen, with figure or stylus gestures replacing the conventional computer mouse. An on-screen concealable virtual keyboard is usually used for typing.

2.34 Coverage of Education: In this survey, education covered non-formal education which could be acquired through NFEC/TLC/AEC etc. and formal education which could be acquired through formal schooling. Formal education covered general, technical, professional, vocational courses offered by schools, colleges, university or other institutions.

2.35 Course: In this survey, a course was defined as a structured educational programme having a specified syllabus, duration, level, etc. and necessarily involves appearing in some kind of examination/performance appraisal for getting the degree/diploma/certificate or advancing to the next class/level. Courses were broadly categorized as:

✚ **General:** General courses offered upto Class X, courses in humanities or science or commerce either in Class XI or XII, graduation, post-graduation and above.

✚ **Technical/Professional:** Technical courses referred to courses in medicine, engineering, agriculture, computer, management, education, fine arts/crafts, BCA, MCA etc. approved by All India Council of Technical Education (AICTE), or currently enrolled in some professional courses viz. studying in Chartered Accountancy (CA), Cost and Works Accountant (CWA), Company Secretary (CS), Law etc. approved by institutes like The Institute of Chartered Accountants of India, The Institute of Cost and Works Accountants of India, The Institute of Company Secretaries of India, Actuarial Society of India, etc.

✚ **Vocational:** Vocational courses referred to the vocational training courses recognized by the Industrial Training Institute.

2.36 Attendance and enrolment: The current attendance status refers to whether a person is currently attending any educational institutional institution or not. While every person, who is attending an educational institution is necessarily enrolled in that institution, it may so happen that a person, who is enrolled is not currently attending the institution.

2.37 Vocational/Technical Training: A vocational/technical training may broadly be defined as training through which knowledge and skills for the world of work is acquired. The main objective of vocational/technical education and training is to make individuals employable for a broad range of occupations in various industries and other economic sectors. Vocational/Technical Training may be formal or non-formal.

2.38 Formal Training: For this survey, formal vocational/technical training refers to structured training programmes outside school, college, university, recognized institutions which leads to diploma/certificate.

2.39 Non-formal Training: The training which is not structured and does not lead to certification will be considered as non-formal vocational/technical training in MIS. This occurs in daily life, in the family, in the workplace, in communities, and through the interests and activities of individuals.

2.40 Type of Institutions:

- ✚ **Government institutions:** In this survey, all schools/institutions run by central and state governments, public sector undertakings, autonomous organizations, municipal corporations, municipal committees, notified area committees, zilla parishads, panchayat samitis, cantonment boards, etc., completely financed by the government were treated as government institutions. It may be noted that a government institution may be run by either the government directly or through a governing body/managing committee, etc., set-up by the government.
- ✚ **Private aided by Government:** A private institution aided by Government was defined as an institution/school which was run by an individual or a private organisation and received maintenance grant from the Government.
- ✚ **Private un-aided:** A private unaided institution was defined as an institution/school which was managed by an individual or a private organization and was not receiving any maintenance grant from the Government.

2.41 Migrant: In this survey, household member whose last usual place of residence was different from the present place of enumeration was considered as a migrant. The last usual place of residence was referred to be the village/town/country where the household member stayed continuously for 6 months or more before coming to the present village/town at the place of enumeration.

2.42 Bank: In this survey, bank referred to commercial banks including foreign commercial banks operating in India, nationalized banks, regional rural bank, cooperative society, district or central cooperative banks or other types of cooperative societies.

2.43 Other Financial Institution: Other financial institution includes credit union, microfinance institution, cooperative, or the post office (if applicable), or having a debit card in own name. Account at a financial institution may have been used for receiving wages, government transfers, and payments for agricultural products and for paying utility bills or school fee in the past 12 months.

2.44 Indebtedness: For this survey, a household member was considered as indebted if he/she had taken at least a cash loan amount of Rs. 500/-and that amount

remained outstanding as on the date of survey. The institutional loan providing agencies considered were Government, co-operative society, co-operative bank, commercial bank including regional rural bank, insurance company, provident fund authority and other institutional agencies including private institutional agencies. All other lending agencies, including relatives and friends, were considered as non-institutional agencies for the purpose of this survey.

2.45 Mobile-Money Service Provider: In this survey, a person holding a mobile money account meant that the person was using GSM Association (GSMA) Mobile Money for the Unbanked (MMU) services in the past 12 months to pay bills or to send or receive money. This service may also have been used to receive wages, government transfers and payment for agricultural products through issuance of mobile phone in the past 12 months.

2.46 Last usual place of residence (lpr): The last usual place of residence was referred to be the village/town/country where the household member stayed continuously for 6 months or more before coming to the present village/town at the place of enumeration.

2.47 Usual place of residence (upr): Usual place of residence (upr) is the village/town where a person stayed continuously for a period of 6 months or more. In the present place of enumeration, if a person intends to stay for 6 months or more it is considered as his/her present usual place of residence (upr).

2.48 Reasons for leaving the last upr:

- ✚ **In search of employment:** Persons, who were not in employment at the time of leaving the last upr, when migrated to another village/town *in search of* employment are considered as migrated in search of employment.
- ✚ **In search of better employment:** These include those persons who were employed at the time of leaving last upr, but have come to the place of enumeration *in search of* better employment, in terms of emoluments, job satisfaction, etc.
- ✚ **Business:** Those who migrate to start a new business or due to shifting of the existing business are considered as migrated for business.
- ✚ **To take up employment/better employment:** It relates to persons who come to the place of enumeration to take up employment. These persons were not in search of employment but were *offered jobs or were offered better jobs* than the one they were having at the time of leaving last upr.
- ✚ **Transfer of service/contract:** Transfer of service/contract include persons who as part of the employment contract or service liability migrate from one place of posting to another.
- ✚ **Proximity to place of work:** This includes persons who had moved in order to be nearer to their place of work. These are the people who move to another village/town with the explicit purpose of avoiding or reducing commuting to

place of work or other similar reasons and should be distinguished from the persons who migrate to take up employment/better employment.

- ✚ **Studies:** Students and other who leave their upr for studies are classified under this category. If a person changes upr to pursue his studies and at the same time looks for employment, which is the case in many occasions, the factor which is basic for his change of residence is considered.
- ✚ **Marriage:** A substantial number of women in India change their upr after marriage. Person, whose change in upr occurs exclusively due to marriage are covered here.
- ✚ **Social/political problems (riots, terrorism, political refugee, bad law & order, etc.):** Migration arising out of social or political problems such as riots, terrorism, political refugee, bad law and order etc. are covered here.
- ✚ **Displacement by development project:** Sometime undertaking development projects, such as construction of dams, power plants, or starting a new factory, etc., may result in eviction of persons and those effected by such displacements may migrate to other village/town.
- ✚ **Scarcity of water:** Migration arising out of less availability (scarcity) of water is included in this category.
- ✚ **Acquisition of own house/flat:** Persons who move to a place of stay in a house/flat acquired by them are categorized in this category. The movement should be directly attributable to the acquisition. Persons who on retirement move to their own house, etc. are not included.
- ✚ **Housing problems/insufficient land holding:** Certain persons move from metropolitan cities or large towns to nearby smaller towns or other areas due to the problems of getting suitable accommodation, poor amenities, or high rent, etc. In rural areas, it may be mainly due to poor amenities.
- ✚ **Health care:** Persons sometimes move from one place to another due to the availability of better medical facilities for treatment or conditions, unsuitable weather in the last upr.
- ✚ **Post retirement:** Sometimes after retirement, persons may leave upr either to stay in their native place or in some other place chosen. If the reason for migration is due to retirement from employment they are categorized here.
- ✚ **Natural disaster (earthquake, drought, flood, tsunami, etc.):** Persons who have migrate due to natural disaster caused by earthquake, drought, flood, cyclone, tsunami, etc. are covered under this category.
- ✚ **Migration of parent/earning member of the family:** In many cases, the members are passive movers in the sense that they change upr because the parent or earning member changed upr. Such migrants are categorized here.
- ✚ **Others:** Reasons for migration which cannot be classified into any of the above categories are covered here.

2.49 Location of last usual place of residence: Location of the purpose of the this survey refers to the type of last usual place of residence of the person.

2.50 Source of finance for purchase/construction of the newly purchased/constructed house/flat: The source from which the maximum amount was financed for the purchased/construction of new house/flat was recorded for the purpose of this survey. The description of the source of finance is given below:

- ✚ **Bank** includes commercial banks including foreign commercial banks operating in India, nationalized banks, regional rural bank, cooperative society/bank like district or central cooperative banks or other types of cooperative societies.
- ✚ **Private finance** includes loans taken from Life Insurance Corporation, other insurance fund, refundable advances/loans taken from PPF accounts in private sector offices, private financial corporation/institutions or from any other private institutional agencies. A Non-Banking Financial Company (NBFC) is a company registered under the Companies Act, 1956 engaged in the business of loans and advances, acquisition of shares/stocks/bonds/debentures/securities issued by Government or local authority or other marketable securities of a like nature, leasing, hire-purchase, insurance business, chit business but does not include any institution whose principal business is that of agriculture activity, industrial activity, purchase or sale of any goods (other than securities) or providing any services and sale/purchase/construction of immovable property.

There are twelve categories of NBFCs registered with the RBI, like Asset Finance Companies (NBFC-AFC), Investment Companies (NBFC-IC), Loan Companies (NBFC-LC), Infrastructure Finance Company (IFC), Systemically Important Core Investment Company (CIC-ND-SI), Infrastructure Debt Fund: Non-Banking Financial Company (IDF-NBFC), Micro Finance Institution (NBFC-MFI), Factors (NBFC-Factors), NBFC-Account Aggregator (NBFC-AA), NBFC- Peer to Peer Lending Platform (NBFCP2P), Mortgage Guarantee Companies (MGC) and NBFC-Non-Operative Financial Holding Company (NOFHC).

- ✚ **Own finance** includes savings of the different members of the household, non-refundable amount (final withdrawal or part withdrawal drawn by some of the household members) from provident fund account by the household members, amount received from sale of assets, etc.
- ✚ **Any other source** includes money (including subsidy received either in cash or kind) received from Central or State Government, loans taken from Life Insurance Corporation, Postal Life Insurance, other insurance fund, refundable advances/loans taken from PPF accounts of public sector offices, public financial corporation/institutions or from any other public institutional agencies. Loans/advances may also be taken from non institutional agencies viz. self-help groups, money lenders, friends and relatives etc.

2.51 Pradhan Mantri Awaas Yojana (PMAY): At the time of survey, under this scheme, the government was aimed to provide about 5 Crore affordable homes to the people belonging to Economically Weaker Section (EWS) and Lower Income Group (LIG) categories by the year 2022. Under this scheme, the government will provide

financial assistance to the poor home buyers, interest subsidy on home loan and direct subsidy on homes bought under the scheme. For this survey, the information was collected to get an idea about the awareness of the household for Pradhan Mantri Awaas Yojana (PMAY).

2.52 Samagra Shiksha Scheme: Samagra Shiksha Scheme is an overarching programme for the school education sector extending from pre-school to class 12. The scheme has been, therefore, prepared with the broader goal of improving school effectiveness measured in terms of equal opportunities for schooling and equitable learning outcomes. It subsumes the three erstwhile Schemes of Sarva Shiksha Abhiyan (SSA), Rashtriya Madhyamik Shiksha Abhiyan (RMSA) and Teacher Education (TE).

CHAPTER 3

SUMMARY OF FINDINGS

SUMMARY OF FINDINGS

3.0 INTRODUCTION

3.0.1 The key indicators of Multiple Indicator Survey (MIS) of NSS 78th round are depicted in this chapter. Initially this survey was planned to be conducted during January-December, 2020 but due to COVID 19 pandemic, the field work was extended upto 15.08.2021 with the concurrence of the Working Group chaired by Dr. G.C. Manna, Ex-Member, National Statistical Commission (NSC). The extension of the field work was decided with the view to ensure coverage, completeness and collection of sufficient data for generation of reliable estimates; since due to lockdown and other restrictions, the field functionaries faced considerable challenges in collecting the data.

3.0.2 A stratified multi-stage design was adopted for the 78th round survey with first stage units (FSU) as villages/UFS blocks/sub-units (SUs) and ultimate stage unit (USU) as households in rural and urban sectors respectively. In NSS 78th round, village/UFS block was notionally divided into a number of sub-units (SUs) of more or less equal population/households during the preparation of frame.

3.0.3 The total number of first stage units (FSUs) surveyed was 200 for Delhi (State Sample)(12 in rural areas and 188 in urban areas) and the total number of households surveyed was 3850 (240 in rural areas and 3610 in urban areas) and 15490 persons (1067 in rural areas and 14423 in urban areas) were enumerated.

3.0.4 The Schedule 5.1 of MIS contains some household level questions on food insecurity experience. These data were collected for internal use of SSD, MoSPI. The Working Group had also recommended that these data may not be released. Therefore, no tables on these have been generated for the report.

3.0.5 The primary objective of the MIS was to collect data for generation of some important indicators of Sustainable Development Goals (SDG).

3.0.6 This chapter contains the following broad sections:

Section 1: Households and Population

Section 2: Drinking Water, Sanitation and Hand Washing

Section 3: Energy used by the Households

Section 4: Education and ICT skills

Section 5: Mobile, Broadband and Mass Media

Section 6: Financial Inclusion and Indebtedness

Section 7: Birth Registration

Section 8: Other Facilities

Section 9: Purchase/Construction of new house/flat for residential purpose

Section 10: Migration

3.0.7 The analytical findings of the survey on various indicators in respect of facilities available to the households like drinking water, sanitation, system of disposal of household garbage, etc. are the important determinants of overall quality of living condition of the household members.

3.0.8 In this survey, for each household surveyed, the reported social group of the head of the household was considered as the social group of all other members of that household irrespective of the actual social group to which the individual members of the household belonged. Moreover, the scope of the survey being all households without special focuses on social groups; sample design was not tailored to netting-in social groups. Thus, sample size for social groups may not be enough to provide sufficiently reliable estimates of the various indicators.

3.0.9 Also, for each household surveyed, the reported religion of the head of the household was considered as the religion of all other members of the household irrespective of the actual religion followed by individual members. Moreover, the scope of the survey being all households without special focuses on religious groups; sample design was not tailored to netting-in different religious groups. Thus sample size for the religious groups may not be enough to provide sufficiently reliable estimates of the various indicators.

3.0.10 Information on household Usual Monthly Consumer Expenditure was collected in this survey to classify the households in different Usual Monthly Per Capita Consumer Expenditure (UMPCE) classes. Since this information was collected only through a few questions, it cannot be used to estimate the household consumer expenditure which is generally estimated based on detailed household consumer expenditure survey of NSSO. Based on the information collected on household Usual Monthly Consumer Expenditure, quintile classes of UMPCE were formed (generated by Tabulation Software itself) (with each quintile class containing 20 per cent of the population).

3.0.11 It may be noted that in the Statements given in the report, Percentage may not be add upto 100 due to rounding off.

3.0.12 Further, the design of this survey was not aimed at estimating population and households. However, these estimates provided in this report may be useful for combining the rates and ratio pertaining to different indicators.

3.0.13 It may be further noted that the ultimate source of information is the household. The data is totally based upon the information supplied by the household and no proof whatsoever was demanded from them.

SECTION 1: HOUSEHOLDS AND POPULATION

3.1.1 The estimated values of distribution of population, households, the percentage distribution of persons, percentage distribution of households and average household size are given in Statement 1. These estimates are obtained on the basis of NSS 78th round on 'Multiple Indicator Survey'. **It may be noted that the design of this survey was not aimed at estimating population and households** but presented in report as these control totals can be used to combine rates and ratios pertaining to different indicators.

Statement 1: Percentage distribution of persons, percentage distribution of households and average household size in Delhi & All India as obtained from Multiple Indicator Survey						
Description of item	Delhi			All-India		
	Rural	Urban	All	Rural	Urban	All
Percentage distribution of persons	2.7	97.3	100.0	70.8	29.2	100.0
Percentage distribution of households	2.5	97.5	100.0	68.0	32.0	100.0
Average household size (0.0)	4.2	3.9	3.9	4.5	3.9	4.3

Ref: Table No. A2 & A3 of Appendix B (Detailed Tables) and NSS 78th Round Report No. 589(78/5.1/1), MoSPI, GoI

3.1.2 The statement 1 revealed that out of the total households in Delhi, 97.5 % households were reported in urban and 2.5 % in rural areas of Delhi while at All-India level, 32.0% households were in urban and 68.0% households were in rural areas of the country. However, Average household size in Delhi was 3.9 (4.2 in rural & 3.9 in urban), while at All-India level, it was 4.3 (4.5 in rural and 3.9 in urban). It shows no much difference in the Average household size (0.0) in Delhi and at All-India level.

3.1.3 Percentage distribution of persons and percentage distribution of households in Delhi & at All-India level is presented in Figure 1.

Figure 1: Percentage distribution of persons and percentage distribution of households in Delhi & All India as obtained from Multiple Indicator Survey

3.1.4 Average household size (0.0) in Delhi & at All-India level is presented in Figure 1A.

Figure 1A: Average household size(0.0) in Delhi & All India as obtained from Multiple Indicator Survey

3.1.5 The percentage distribution of persons and average household size for each of the social and religion groups in Delhi is presented in Statement 2.

Statement 2: Percentage distribution of persons and average household size among different social and religion groups in Delhi						
Categories	Percentage distribution of persons			Average household size (0.0)		
	Rural	Urban	All	Rural	Urban	All
Social Group						
ST	2.5	1.2	1.2	6.0	3.6	3.7
SC	16.9	16.0	16.0	4.5	4.0	4.0
OBC	41.7	27.3	27.7	3.9	3.9	3.9
Others	38.9	55.5	55.1	4.5	3.9	3.9
All	100.0	100.0	100.0	4.2	3.9	3.9
Religion Group						
Hinduism	95.3	82.9	83.2	4.2	3.9	3.9

Ref: Table No. A2 to A5 of Appendix B (Detailed Tables)

SECTION 2: DRINKING WATER, SANITATION AND HAND WASHING

3.2.1 Drinking Water: The survey covered source of drinking water and extent of this facility to the households in Delhi.

3.2.1.1 In Multiple Indicator Survey (MIS), information was collected from each surveyed household on various aspects of drinking water like principal source of drinking water, access to the principal source, sufficiency of drinking water from the principal source, distance from the principal source etc.

3.2.2 Principal source of drinking water: In this survey, principal source of drinking water of a household is that source of water *from which the household obtained most of its drinking water during the last 365 days*. The information on the principal source of drinking water of the household was collected using these categories:

- i. Bottled water
- ii. Piped water into dwelling
- iii. Piped water to yard/plot
- iv. Piped water from neighbour
- v. Public tap/standpipe
- vi. Tube well
- vii. Hand pump
- viii. Protected well
- ix. Unprotected well
- x. Public tanker truck
- xi. Private tanker truck
- xii. Protected spring
- xiii. Unprotected spring
- xiv. Rainwater collection
- xv. Tank/pond
- xvi. Other surface water (river, dam, stream, canal, lake, etc.)
- xvii. Others (card with small tank or drum etc.)

3.2.2.1 *The type of principal source of drinking water as reported by a household was considered as same for all of its members.*

3.2.3 Improved sources of drinking water: Out of the above stated sources, the sources viz. (i) bottled water, (ii) piped water into dwelling, (iii) piped water to yard/plot, (iv) piped water from neighbour, (v) public tap/standpipe, (vi) tube well, (vii) hand pump, (viii) protected well, (ix) public tanker truck, (x) private tanker

truck, (xi) protected spring and (xii) rainwater collection were considered as *improved sources of drinking water*.

3.2.4 Piped water into dwelling or yard/plot and improved source of drinking water:

3.2.4.1 The percentage of persons reported to have 'piped water into dwelling or yard/plot' and 'improved source of drinking water' for each of the social group, religion group and UMPCE classes in Delhi is presented in Statement 3.

Statement 3: Percentage of persons reported to have piped water into dwelling/yard/plot and improved source of drinking water in Delhi						
Categories	Percentage of persons reported to have					
	Piped water into dwelling /yard/plot			Improved source of drinking water		
	Rural	Urban	All	Rural	Urban	All
Delhi	62.8	79.7	79.3	100.0	100.0	100.0
Social Group						
ST	36.3	86.9	84.1	100.0	99.9	99.9

80-100	79.5	94.8	94.4	100.0	99.9	99.9
<i>Note: 'Piped water into dwelling or yard/plot' includes both the categories 'Piped water into dwelling' and 'Piped water to yard/plot'</i> <i>* includes Jainism, Buddhism, Zoroastrianism and others</i>						
".." denotes non-availability of sample						

Ref: Table No. A7 & A8 of Appendix B (Detailed Tables)

3.2.4.2 It may be seen from the Statement 3 that 79.3 % of persons were having piped water into their dwelling/yard/plot and 100.0% of persons were having improved source of drinking water in Delhi.

3.2.4.3 Percentage of persons reported to have piped water into dwelling/yard/plot and improved source of drinking water in Delhi is presented in Figure 2.

3.2.5 Access to the principal source of drinking water: In this survey, access to the principal source of drinking water was defined in terms of the prevailing situation of use of the source of drinking water and not the legal right to use. The information on access to principal source of drinking water of the household was collected in terms of these categories:

- i. Exclusive use of household
- ii. Common use of households in the building
- iii. Neighbour's source
- iv. Public source restricted to particular community
- v. public source unrestricted
- vi. private source restricted to particular community
- vii. Private source unrestricted and
- viii. Others

3.2.5.1 The type of access to the principal source of drinking water as reported by a household was considered as same for all of its members.

3.2.5.2 The percentage distribution of households in Delhi and at All-India level, by access to the principal source of drinking water as reported by the household is given in Statement 4.

Statement 4: Percentage distribution of households by access to the Principal Source of Drinking Water as reported by the household in Delhi and at All-India level						
Access to principal source of drinking water	Percentage distribution of households (Delhi)			Percentage distribution of households (All-India)		
	Rural	Urban	All	Rural	Urban	All
Exclusive use of the household	57.6	70.0	69.7	49.4	65.2	54.5
Common use of households in the building	6.5	10.2	10.1	8.5	10.8	9.2
Neighbour's source	0.0	0.4	0.4	3.9	1.8	3.2
Community use*	5.5	7.2	7.1	33.2	11.8	26.3
Other types of access	30.5	12.3	12.7	5.0	10.4	6.7
All	100.0	100.0	100.0	100.0	100.0	100.0
*includes 'public source restricted to particular community', 'public source unrestricted', 'private source restricted to particular community' and 'private source unrestricted'						
Figure '0.0' indicates negligible positive value						

Ref: Table No. A10 of Appendix B (Detailed Tables) and NSS 78th Round Report No. 589(78/5.1/1), MoSPI, GoI

3.2.5.3 It has been presented in Statement 4 that 69.7% of households in Delhi and 54.5% households at All-India level were having exclusive use of the Principal Source of Drinking Water.

3.2.5.4 Percentage distribution of households by access to the principal source of drinking water as reported by the household in Delhi and at All-India level is presented in Figure 3.

"Community use" includes 'public source restricted to particular community', 'public source unrestricted', 'private source restricted to particular community' and 'private source unrestricted'

3.2.5.5 Percentage distribution of households by principal source of drinking water of the household for rural and urban Delhi is given in Statement 5.

Statement 5: Percentage distribution of households by principal source of drinking water of the household			
Principal Source of drinking water	Percentage distribution of households		
	Rural	Urban	All
Bottled water	30.5	12.3	12.7
Piped water into dwelling	55.8	74.3	73.9
Piped water into yard/plot	6.8	5.2	5.2
Piped water from neighbour	0.0	0.4	0.4
Public tap/Stand pipe	2.0	3.3	3.3
Tube well	0.6	0.5	0.5
Hand pump	0.8	0.1	0.1
Public tanker truck	3.5	3.8	3.8
Private tanker truck	..	0.0	0.0
Unprotected Well	..	0.1	0.1
All	100.0	100.0	100.0
<i>".." denotes non-availability of sample</i>			
<i>Figure '0.0' indicates negligible positive value</i>			

Ref: Table No. A9 of Appendix B (Detailed Tables)

3.2.5.6 In Delhi, major source of drinking water was “Piped water into dwelling” (73.9 %), followed by “Bottled Water” (12.7 %).

3.2.5.7 The statement 5 clearly indicates that the share of supply from principal source, namely, ‘bottled water’ (30.5%) was more in rural areas as compared to urban (12.3%). Whereas the share of water supply from principal source by piped water into dwelling was observed greater in urban (74.3%) as compared to rural Delhi (55.8%).

3.2.5.8 Percentage distribution of households by principal source of drinking water of the household in Rural, Urban & Delhi is presented in figures 4 , 4 A & 4 B.

Figure 4 : Percentage distribution of households by principal source of drinking water of the household in Rural Delhi

Figure 4 A: Percentage distribution of households by principal source of drinking water of the household in Urban Delhi

3.2.6 Distance to the principal source of drinking water: The information on the distance of the principal source of drinking water from the dwelling unit was collected in terms of the categories:

- Within dwelling
- Outside dwelling but within the premises
- Outside premises: less than 0.2 km; 0.2 to 0.5 km; 0.5 to 1.0 km; 1.0 to 1.5 km; 1.5 km or more.

3.2.6.1 The category of distance to the principal source of drinking water as reported by a household was considered as same for all of its members. If the reported distance of the principal source of drinking water was 'within dwelling' or 'outside dwelling but within the premises', then the principal source was considered as 'within premises of the household'. The percentage distribution of households in Delhi and at All-India level by distance to the principal source of drinking water is presented in Statement 6.

Statement 6: Percentage distribution of households by distance to the principal source of drinking water in Delhi and at All-India level						
Distance to the principal source of drinking water	Percentage distribution of households (Delhi)			Percentage distribution of households (All-India)		
	Rural	Urban	All	Rural	Urban	All
Within dwelling	82.8	81.8	81.8	29.0	60.5	39.1
Outside dwelling but within premises	7.0	6.7	6.7	30.0	21.2	27.1
Outside premises	10.2	11.6	11.4	41.1	18.4	33.7
All	100.0	100.0	100.0	100.0	100.0	100.0

Ref: Table No. A11 of Appendix B (Detailed Tables) and NSS 78th Round Report No. 589(78/5.1/1), MoSPI, GoI

3.2.6.2 Statement 6 reveals that in Delhi, 81.8% of households while at All-India level, 39.1% households were having the principal source of drinking water within dwelling and only 11.4% of households in Delhi & 33.7% of households at All-India level were having the principal source of drinking water outside their premises.

3.2.6.3 Percentage distribution of households by distance to the principal source of drinking water in Delhi and at All-India level is presented in Figure 5.

3.2.7 Improved source of drinking water located in the household premises which is sufficiently available throughout the year: Statement 7 gives the percentage of persons reported to have piped water into dwelling or yard/plot which was sufficiently available throughout the year and improved source of drinking water located in the household premises which was sufficiently available throughout the year for each of the social group, religion group and UMPCE classes in Delhi.

Statement 7: Percentage of persons reported to have piped water into dwelling or yard/plot which was sufficiently available throughout the year and improved source of drinking water located in the household premises which was sufficiently available throughout the year in Delhi

Categories	Percentage of persons reported to have					
	Piped water into dwelling or yard/plot which was sufficiently available throughout the year			Improved source of drinking water located in the household premises which was sufficiently available throughout the year		
	Rural	Urban	All	Rural	Urban	All

Ref: Table No. A7 & A8 of Appendix B (Detailed Tables)

3.2.7.1 It has been presented in Statement 7 that in Delhi, 77.0% of persons were having piped water into dwelling or yard/plot which was sufficiently available throughout the year and 89.7% of persons were having improved source of drinking water located in the household premises which was sufficiently available throughout the year.

3.2.7.2 Percentage of persons reported to have piped water into dwelling or yard/plot which was sufficiently available throughout the year and improved source of drinking water located in the household premises which was sufficiently available throughout the year in Delhi is presented in Figure 6.

Figure 6: Percentage of persons reported to have piped water into dwelling or yard/plot *and improved source of drinking water located in the household premises*

**which was sufficiently available throughout the year in Delhi*

3.2.8 Comparisons with NSS 76th round:

3.2.8.1 Statement 8 gives, comparative figures, percentage of persons reported to have access to improved source of drinking water and percentage of persons reported to have improved source of drinking water located in the household premises which was sufficiently available throughout the year in Delhi, as obtained from the NSS 78th (2020-2021) and NSS 76th round (July-December 2018).

Statement 8: Comparison of some key indicators of drinking water as obtained from NSS 76th and NSS 78th round in Delhi

Indicators	NSS Rounds	Percentage		
		Rural	Urban	All
Persons reported to have access to improved source of drinking water	76th round	100.0	100.0	100.0
	78th round	100.0	100.0	100.0
Persons reported to have improved source of drinking water located in the household premises which was sufficiently available throughout the year	76th round	73.5	85.9	85.6
	78th round	93.2	89.6	89.7

Ref: Table No. A8 of Appendix B (Detailed Tables) and NSS 76th Round Report "Drinking water, Sanitation, Hygiene and Housing condition in Delhi", State Sample (Delhi), Dte. of Economics & Statistics, Govt. of NCT of Delhi

3.2.8.2 Comparison of some key indicators of drinking water as obtained from NSS 76th and NSS 78th round in Delhi is presented in Figure 7.

3.2.9 Sanitation and Handwashing

3.2.9.1 Considering the sanitation point, it is always crucial to any household having accessibility of latrine facility and the type of latrine used by the household. For the purpose of the survey, a 'latrine' is defined as an infrastructure which allows safer and more hygienic disposal of human excreta than open defecation. In this survey, 'access of the household to latrine' is defined in terms of the latrine facility that can be used by the majority of the household members, irrespective of whether it is being used by them or not. However, information as to whether the household has access to any latrine or not, if the household has access then whether the household's access to latrine is for 'exclusive use of the household' or for 'common use of households in the building' or for 'public/community use with/without payment' or 'others', has been collected.

3.2.9.2 If the sample household has more than one type of latrine, the type of latrine which is generally accessed by the majority of the household members was reported.

3.2.9.3 There are two basic types of latrine, wet and dry, differentiated depending on use of water to divert human excreta. In a wet latrine, water is used to divert human excreta while dry latrines use very limited water or no water for flushing the human excreta. Besides these two basic types of latrines, there are latrines like, incinerating latrines which burn the human excreta; chemical latrines which are used in a variety of situations like in passenger trains and airplanes; hanging latrines, which deposit waste directly into open waterways; bucket latrine, in which human excreta are collected in a bucket placed underneath a latrine hole.

3.2.10 Access to latrine: For the purpose of this survey, information on access to latrine was collected in terms of these six categories viz. (i) exclusive use of household, (ii) common use of households in the building, (iii) public/community use without payment, (iv) public/community use with payment, (v) others and (vi) no latrine. The percentage distribution of households by access to latrine as reported by the households in Delhi and at All-India level is presented in the Statement 9.

Statement 9: Percentage distribution of households reported access to latrine by the majority of household members in Delhi and at All-India level						
Access to latrine #	Percentage distribution of households (Delhi)			Percentage distribution of households (All-India)		
	Rural	Urban	All	Rural	Urban	All
Exclusive use of the household	72.4	75.3	75.2	68.8	80.8	72.6
Common use of households in the building	20.9	17.9	18.0	8.7	13.0	10.1
Community use *	..	6.8	6.6	0.4	2.8	1.2
Other type of access	..	0.0	0.0	0.8	0.5	0.7
No access to latrine	6.7	..	0.2	21.3	2.9	15.4
All	100.0	100.0	100.0	100.0	100.0	100.0
* : includes public/community latrine without payment and public/community latrine with payment						
# : reported by majority of household members						
".." denotes non-availability of sample						
Figure '0.0' indicates negligible positive value						

Ref: Table No. A12 of Appendix B (Detailed Tables) and NSS 78th Round Report No. 589(78/5.1/1), MoSPI, GoI

3.2.10.1 Statement 9 shows that in Delhi, 75.2% of households while at All-India level, 72.6% of households had access to latrine by the majority of household members. However, only 0.2% of households in Delhi and 15.4% of households at All-India level had no access to latrine.

3.2.10.2 Percentage distribution of households reported access to latrine by the majority of household members in Delhi and at All-India level is presented in Figure 8.

Figure 8: Percentage distribution of households reported access to latrine by the majority of household members in Delhi and at All-India level

3.2.11 Types of latrine: The information on latrine was collected using the categories:

(i) Flush/pour flush to piped sewer system, (ii) Flush/pour flush to septic tank, (iii) Flush/pour flush to twin leach pits/single pit, (iv) Flush/pour flush to elsewhere (open drain, open pit, open field, etc.), (v) Ventilated improved pit latrine, (vi) Pit latrine with slab, (vii) Pit latrine without slab/open pit, (viii) Composting latrine and (ix) Others. Out of these different types of latrines, the types viz. (i) Flush/pour flush to piped sewer system, (ii) Flush/pour flush to septic tank, (iii) Flush/pour flush to twin leach pits/single pit, (iv) Ventilated improved pit latrine, (v) Pit latrine with slab and (vi) Composting latrine are considered as improved latrine.

3.2.11.1 The percentage of persons reported access to improved latrine among persons reported to have access to latrine for each of the social group, religion group and UMPCE classes in Delhi is presented in Statement 10.

Statement 10: Percentage of persons reported access to improved latrine among persons reported to have access to latrine in Delhi			
Categories	Percentage of persons		
	Rural	Urban	All
Delhi	99.9	96.8	96.9
Social Group

Ref: Table No. A14 of Appendix B (Detailed Tables)

3.2.11.2 It has been presented in the Statement 10 that in Delhi, 96.9% of persons reported access to improved latrine among persons reported to have access to latrine.

3.2.11.3 Percentage of persons reported access to improved latrine among persons reported to have access to latrine in Delhi is presented in Figure 9.

3.2.12 Availability of hand washing facility within the premises

3.2.12.1 Washing of hands with water in situations like 'before and after taking meal', 'after defecation', 'for removing dirt in hands' etc. are important hygienic practice at personal level to remove soil, dirt, germs etc. from hands which prevent attach from diseases like diarrhea/other stomach problems etc. to a great extent. Information on 'whether hand washing facility available within the premises' etc. was collected. For the purpose of the survey, washing of hand means cleaning of both the palms (front side as well as back side) and all the fingers of hands with water.

3.2.12.2 In this survey, information was collected from each of the sample household on the availability of hand washing facilities within the household premises in terms of the four categories viz. (i) wash hands with water and soap/detergent, (ii) wash hands with water and ash/mud/sand etc. (iii) wash hands with water only and (iv) no hand washing facility. The percentage distribution of persons reporting availability of hand washing facility within the household premises in Delhi & at All-India level is given in Statement 11.

Statement 11: Percentage distribution of persons reported availability of hand washing facility within the household premises in Delhi and at All-India level						
Availability of handwashing facility within the household premises	Percentage distribution of persons (Delhi)			Percentage distribution of persons (All-India)		
	Rural	Urban	All	Rural	Urban	All
With water and soap/detergent	95.9	96.7	96.6	77.4	92.7	81.9
With water and ash/mud/sand etc.	0.7	0.2	0.2	11.2	1.5	8.4
With water only	3.2	2.2	2.2	9.8	5.1	8.4
No facility within the household premises	0.1	0.9	0.9	1.7	0.6	1.4
All	100.0	100.0	100.0	100.0	100.0	100.0

Ref: Table No. A15 of Appendix B (Detailed Tables) and NSS 78th Round Report No. 589(78/5.1/1), MoSPI, GoI

3.2.12.3 Statement 11 shows that in Delhi, 96.6% of persons while at All-India level, 81.9% of persons were having the availability of hand washing facility within the household premises. However, 0.9% of persons in Delhi and 1.4% of persons at All-India level were having no facility of handwashing within the household premises.

3.2.12.4 Percentage distribution of persons reporting availability of hand washing facility within the household premises in Delhi and at All-India level is presented in Figure 10.

Figure 10: Percentage distribution of persons reported availability of hand washing facility within the household premises in Delhi and at All-India level

3.2.13 Exclusive access to improved latrine and hand washing facilities within the household premises

3.2.13.1 Statement 12 presents the percentage of persons reported exclusive access to improved latrine and hand washing facilities with water and soap/detergent located in the household premises for each of the social groups, religion groups and UMPCE classes in Delhi. While developing the estimate at the person level, the type of latrine as reported by the surveyed household was considered same for all of its members. In the same way, mode of hand washing as reported by the surveyed household was considered same for all of its members.

Statement 12: Percentage of persons # reported exclusive access to improved latrine and hand washing facilities (with water and soap/detergent) within the household premises in Delhi			
Categories	Percentage of persons		
	Rural	Urban	All
Delhi	83.4	77.2	77.4

Ref: Table No. A14 of Appendix B (Detailed Tables)

3.2.13.2 It has been seen from the Statement 12 that in Delhi, 77.4% of persons were having exclusive access to improved latrine and hand washing facilities (with water and soap/detergent) within the household premises.

3.2.13.3 Percentage of persons reported exclusive access to improved latrine and hand washing facilities (with water and soap/detergent) within the household premises in Delhi is presented in Figure 11.

#: persons with access to latrine

3.2.14 Comparison with NSS 76th round

3.2.14.1 Statement 13 presents the comparative figures for the percentage of households reported access to latrine, as obtained from NSS 78th round and NSS 76th round (July-December 2018) in Delhi.

Statement 13: Percentage of households reported to have access to latrine in NSS 78th and NSS 76th round in Delhi			
NSS rounds	Percentage of households		
	Rural	Urban	All
78th round	93.3	100.0	99.8
76th round	98.2	98.9	98.9

Ref: Table No. A12 of Appendix B (Detailed Tables) and NSS 76th Round Report
"Drinking water, Sanitation, Hygiene and Housing condition in Delhi",
 State Sample (Delhi), Dte. of Economics & Statistics, Govt. of NCT of Delhi

3.2.14.2 Percentage of households reported to have access to latrine in NSS 76th and NSS 78th round in Delhi is presented in Figure 12.

SECTION 3: ENERGY USED BY HOUSEHOLDS

3.3.1 In this survey, information was collected on the primary source of energy used for cooking, lighting and heating. In MIS, primary source of energy used for cooking/lighting/heating, was defined as that source of energy which the household used majority of time for cooking/lighting/heating. It is to be noted that the source reported by the respondent as primary source following majority time criterion was considered.

3.3.2 The primary source of energy used for *cooking* was collected in terms of the following thirteen categories, viz.

- i. Firewood, chips and crop residue
- ii. LPG
- iii. Other natural gas
- iv. Dung cake
- v. Kerosene
- vi. Coke, coal
- vii. Gobar gas
- viii. Other biogas
- ix. Charcoal
- x. Electricity (incl. Generated by solar/wind power generators)
- xi. Solar cooker
- xii. Others and
- xiii. No cooking arrangement.

3.3.3 The primary source of energy used for *lighting* was collected in terms of the following seven categories, viz.

- i. Electricity (incl. generated by solar or wind power generators)
- ii. Kerosene
- iii. Other oil
- iv. Gas
- v. Candle
- vi. Others and
- vii. No lighting arrangement

3.3.4 The primary source of energy used for *heating* was collected in terms of the following thirteen categories, viz.

- i. Firewood, chips and crop residue
- ii. LPG
- iii. Other natural gas
- iv. Dung cake
- v. Kerosene
- vi. Coke, coal
- vii. Gobar gas
- viii. Other biogas
- ix. Charcoal
- x. Electricity (incl. generated by solar/wind power generators)
- xi. Solar heater
- xii. Others and
- xiii. No heating arrangement

3.3.5 Primary source of energy for cooking: The percentage distribution of households by primary source of energy used for cooking in Delhi and at All-India level is presented in Statement 14.

Statement 14: Percentage distribution of households by primary source of energy used for cooking in Delhi and at All-India level						
Primary sources of energy	Percentage of households (Delhi)			Percentage of households (All-India)		
	Rural	Urban	All	Rural	Urban	All
Firewood, chips and crop residue	0.3	0.5	0.5	46.7	6.5	33.8
LPG	99.1	92.5	92.6	49.4	89.0	62.0
Other sources *	0.4	4.5	4.4	3.7	2.8	3.5
No cooking arrangement	0.1	2.5	2.5	0.2	1.7	0.7
All	100.0	100.0	100.0	100.0	100.0	100.0
<i>* Other sources include other natural gas, dung cake, kerosene, coke, gobar gas, other biogas, charcoal, electricity (incl. generated by solar/wind power generators), solar cooker and others</i>						

Ref: Table No. A17 of Appendix B (Detailed Tables) and NSS 78th Round Report No. 589(78/5.1/1), MoSPI, GoI

3.3.5.1 Statement 14 shows that in Delhi, 92.6% of households and at All-India level, 62.0% of households used LPG as primary source of energy for cooking. However, 2.5% of households in Delhi and 0.7% of household at All-India level have no cooking arrangement.

3.3.5.2 Percentage distribution of households by primary source of energy used for cooking in Rural, Urban & Delhi is presented in Figures 13, 13 A & 13 B.

Figure 13 : Percentage distribution of households by primary source of energy used for cooking in Rural Delhi

Figure 13 A: Percentage distribution of households by primary source of energy used for cooking in Urban Delhi

Figure 13 B: Percentage distribution of households by primary source of energy used for cooking in Delhi

* Other sources include other natural gas, dung cake, kerosene, coke, gobar gas, other biogas, charcoal, electricity (incl. generated by solar/wind power generators), solar cooker and others

3.3.5.3 Percentage distribution of households by primary source of energy used for cooking in All-India (Rural), All-India (Urban) & All-India is presented in Figures 13 C, 13 D & 13 E.

Figure 13 C: Percentage distribution of households by primary source of energy used for cooking at All-India level (Rural)

Figure 13 D: Percentage distribution of households by primary source of energy used for cooking at All-India level (Urban)

Figure 13 E: Percentage distribution of households by primary source of energy used for cooking at All-India level

3.3.6 Clean fuel as primary source of energy for cooking, lighting and heating:

A household is categorized as using clean fuel for cooking, if the household reported use of any one of the primary sources, viz. (i) LPG, (ii) other natural gas, (iii) gobar gas, (iv) other biogas, (v) electricity (incl. generated by solar/wind power generators) and (vi) solar cooker for cooking. A household is categorized as using clean fuel for lighting, if the household reported use of the primary source (i) electricity (incl. generated by solar/wind power generators) for lighting. A household was categorized as using clean fuel for heating, if the household reported

use of any one of the primary sources, viz., (i) LPG, (ii) other natural gas, (iii) gohar gas, (iv) other biogas, (v) electricity (incl. generated by solar/wind power generators) and (vi) solar heater for heating.

3.3.6.1 The percentage of households using clean fuel for cooking, lighting and heating in Delhi and at All-India level is presented in Statement 15.

Statement 15: Percentage of households using clean fuel for cooking, lighting, heating in Delhi and at All-India level						
Households using clean fuel for	Percentage of households (Delhi)			Percentage of households (All-India)		
	Rural	Urban	All	Rural	Urban	All
Cooking	99.6	99.5	99.5	49.8	92.0	63.1
Lighting	99.9	99.7	99.7	98.7	99.7	99.0
Heating	90.4	97.1	97.0	18.7	76.9	36.6
Cooking and lighting and heating	90.6	96.8	96.6	16.4	75.9	34.7

Ref: Table No. A18 of Appendix B (Detailed Tables) and NSS 78th Round Report No. 589(78/5.1/1), MoSPI, GoI

3.3.6.2 It has been presented in Statement 15 that in Delhi, 96.6% of households and at All-India level, 34.7% of households were using clean fuel for cooking, lighting, heating.

3.3.6.3 Percentage of households using clean fuel for cooking, lighting, heating in Delhi and at All-India level is presented in Figure 14.

SECTION 4: EDUCATION AND ICT SKILLS

3.4.1 In this survey, education covers non-formal education which can be acquired through NEFC, TLC or AEC etc. and formal education which can be acquired through formal schooling. Formal education covers general, technical, professional, vocational courses offered by schools, colleges, university or other institutions. Detailed information on the educational particulars like (i) status of enrolment, (ii) status of current attendance in formal, non-formal education and training, (iii) status of earlier enrolment (ever enrolled) in formal and non-formal education and training were collected from each of the surveyed household members (age 3-35 years) depending upon their status of enrolment in education viz., never enrolled, currently enrolled and ever enrolled but currently not enrolled respectively.

3.4.2 Persons in formal and non-formal education and training during last 12 months: Statement 16 gives the percentage of persons of age 15-35 years in formal and non-formal education and training during last 12 months from date of survey for different age groups and genders in Delhi and at All-India level.

Statement 16: Percentage of persons of age 15-35 years in formal and non-formal education and training during last 12 months from the date of survey in Delhi and at All-India level									
Age groups (years)	Male			Female			Person (Male + Female)		
	Rural	Urban	All	Rural	Urban	All	Rural	Urban	All
Delhi									
15-24	63.9	62.6	62.6	58.3	63.7	63.6	61.5	63.1	63.0
15-29	43.7	45.7	45.6	38.5	43.9	43.8	41.5	44.9	44.8
15-35	33.6	35.5	35.5	30.0	32.8	32.8	32.1	34.4	34.3
All-India									
15-24	48.8	56.3	51.0	40.9	54.1	44.5	45.0	55.3	47.9
15-29	36.4	41.2	37.8	29.5	37.4	31.7	33.0	39.4	34.9
15-35	28.3	31.2	29.2	22.7	27.9	24.3	25.6	29.6	26.8

Ref: Table No. A22 of Appendix B (Detailed Tables) and NSS 78th Round Report No. 589(78/5.1/1), MoSPI, GoI

3.4.2.1 It has been presented in Statement 16 that in Delhi, 34.3% persons of age 15-35 years and at All-India level, 26.8% persons of age 15-35 years were in formal and non-formal education and training during last 12 months from the date of survey.

3.4.2.2 Percentage of persons of age 15-35 years in formal and non-formal education and training during last 12 months during the period of survey in Delhi is presented in Figure 15.

Figure 15: Percentage of persons (male + female) of age 15-35 years in formal and non-formal education and training during last 12 months during the period of survey in Delhi

3.4.2.3 Percentage of persons of age 15-35 years in formal and non-formal education and training during last 12 months during the period of survey at All-India level is presented in Figure 15 A.

Figure 15 A: Percentage of persons (male + female) of age 15-35 years in formal and non-formal education and training during last 12 months during the period of survey at All-India level

3.4.3 Youth not in education, employment or training (NEET): Apart from status of education, enrolment and training, information on work/activity status during last 7 days preceding the date of survey for each of the person of the age group 15-35 years were also ascertained. Statement 17 presents the percentage of persons of age 15-24 years and 15-29 years reported to be not in education, employment or training as on the date of survey in Delhi and at All-India level.

Statement 17: Percentage of persons reported not in education, employment or training (NEET) in Delhi and at All-India level						
Gender	15-24 years			15-29 years		
	Rural	Urban	All	Rural	Urban	All
Delhi						
Male	13.7	12.2	12.2	14.4	11.9	12.0
Female	34.4	32.0	32.1	52.9	49.0	49.1
Person	22.4	20.4	20.5	30.7	28.0	28.0
All-India						
Male	15.7	17.2	16.1	14.7	16.9	15.4
Female	45.9	38.3	43.8	52.4	50.0	51.7
Person	30.2	27.0	29.3	33.0	32.6	32.9

Ref: Table No. A22 of Appendix B (Detailed Tables) and NSS 78th Round Report No. 589(78/5.1/1), MoSPI, GoI

3.4.3.1 Statement 17 shows that in Delhi, 28.0% persons having the age between 15-29 years reported not in education, employment or training (NEET) as on the date of survey.

3.4.3.2 Percentage of persons reported not in education, employment or training (NEET) in Delhi and at All-India level is presented in Figure 16.

3.4.3.3 In this survey, for persons who were identified as NEET, additional information on what those members did during last 7 days preceding the date of survey was collected in the survey using categories like (i) seeking/available for work, (ii) engaged in voluntary work in other household/enterprise, (iii) engaged in social/political work voluntarily, (iv) attending domestic duties, (v) not able to work due to health condition, (vi) spending leisure time and (vii) others. Statement 18 presents the percentage distribution of persons of age 15-29 years who were identified as NEET, by different type of activities they did during last 7 days preceding the date of survey in Delhi.

Statement 18: Percentage distribution of NEET persons (15-29 years) by different type of activities they did during last 7 days preceding the date of survey in Delhi									
Description of item	Male			Female			Person		
	Rural	Urban	All	Rural	Urban	All	Rural	Urban	All
Seeking/available for work	82.8	82.3	82.3	17.8	17.6	17.6	35.2	33.2	33.2
Engaged in voluntary work in other household/enterprise	..	0.4	0.4	..	0.7	0.7	..	0.6	0.6
Attending domestic duties	17.2	6.1	6.4	79.6	80.7	80.7	62.8	62.7	62.7
Not able to work due to health condition	..	1.0	0.9	..	0.1	0.1	..	0.3	0.3
Spending leisure time	..	1.5	1.5	..	0.0	0.0	..	0.4	0.4
Others**	0.0	8.7	8.4	3.2	0.9	0.9	2.3	2.8	2.7

<i>* including non response cases (**: others may include engaged in social/political work)</i>									
<i>".." denotes non-availability of sample</i>									
<i>Figure '0.0' indicates negligible positive value</i>									

Ref: Table No. A23 of Appendix B (Detailed Tables) and NSS 78th Round Report No. 589(78/5.1/1), MoSPI, GoI

3.4.3.4 It has been seen from the Statement 18 that in Delhi, 62.7% of NEET persons (15-29 years) were attending domestic duties, 33.2% of NEET persons (15-29 years) were seeking/available for work during last 7 days preceding the date of survey.

3.4.3.5 Percentage distribution of NEET persons (15-29 years) by different type of activities they did during last 7 days preceding the date of survey in Rural, Urban & Delhi is presented in Figures 17, 17 A & 17 B.

Figure 17: Percentage distribution of NEET persons (15-29 years) by different type of activities they did during last 7 days preceeding the date of survey in Rural Delhi

Figure 17 A: Percentage distribution of NEET persons (15-29 years) by different type of activities they did during last 7 days preceeding the date of survey in Urban Delhi

3.4.4 ICT Skills: In this survey, ability of performing different ICT skills of each of the surveyed persons of age 15 years and above were collected in terms of these questions, viz. (i) whether able to copy or move a file or folder, (ii) whether able to use the copy and paste tools to duplicate or move information within a document, (iii) whether able to send e-mails with attached files (e.g. document, pictures and video), (iv) whether able to use basic arithmetic formulae in a spreadsheet, (v) whether able to connect and install new devices (e.g. modem, camera, printer), (vi) whether able to find, download, install and configure software, (vii) whether able to create electronic presentations with presentation software (including text, images, sound, video or charts), (viii) whether able to transfer files between a computer and other devices and (ix) whether able to write a computer program using a specialized programming language.

3.4.4.1 The percentages of persons of age (15-24) years and (15-29) years, with ability of performing these ICT skills in Delhi are given in Statement 19. *It is to be noted that information on ability to perform each of the skills was collected based on the reporting of the information and no test of skills was performed.*

Statement 19: Percentage of persons of age 15-24 years and 15-29 years with ICT skills in Delhi							
Persons able to		15-24 years			15-29 years		
		Rural	Urban	All	Rural	Urban	All
(a) Copy or move a file or folder	Male	81.7	74.1	74.3	73.9	71.2	71.3
	Female	74.2	68.6	68.7	60.0	63.6	63.5
	Person	78.6	71.8	72.0	68.0	67.9	67.9
(b) Use copy and paste tools to duplicate or move information within a document	Male	80.0	73.8	73.9	72.6	70.9	70.9
	Female	71.4	68.4	68.5	58.2	63.2	63.1
	Person	76.4	71.5	71.6	66.5	67.6	67.5
(c) Send e-mails with attached files (e.g. documents, pictures and videos)	Male	71.2	67.9	68.0	66.7	66.2	66.2
	Female	67.5	65.2	65.2	53.2	60.7	60.5
	Person	69.6	66.8	66.8	61.0	63.8	63.7
(d) Use basic arithmetic formulae in a spreadsheet	Male	31.8	40.5	40.3	34.8	41.1	40.9
	Female	30.0	43.1	42.8	23.2	40.2	39.8
	Person	31.0	41.6	41.4	29.8	40.7	40.5
(e) Connect, install new devices	Male	35.5	45.0	44.8	38.9	46.0	45.8
	Female	30.4	41.5	41.2	23.9	39.4	39.0
	Person	33.3	43.6	43.3	32.5	43.1	42.9
(f) Find, download, install, configure software	Male	38.9	45.3	45.1	39.8	45.9	45.8
	Female	32.4	43.4	43.1	25.7	41.3	40.9
	Person	36.1	44.5	44.3	33.8	43.9	43.7
(g) Create electronic presentation with presentation software (including text, images, sound, video or charts)	Male	16.7	30.8	30.5	20.6	32.5	32.2
	Female	14.4	31.5	31.1	13.1	30.4	30.0
	Person	15.7	31.1	30.8	17.4	31.6	31.2
(h) Transfer files between a computer and other devices	Male	46.0	40.1	40.3	44.5	40.6	40.7
	Female	36.1	38.7	38.7	27.4	38.0	37.7
	Person	41.8	39.5	39.6	37.2	39.5	39.4
i) Write a computer program using a specialised programming language	Male	5.5	11.3	11.1	4.7	13.0	12.8
	Female	5.1	11.7	11.6	5.7	12.1	11.9
	Person	5.3	11.5	11.3	5.1	12.6	12.4

Ref: Table No. A25 of Appendix B (Detailed Tables)

3.4.4.2 It may be seen from the Statement 19 that in Delhi, 67.9% of person of age between 15-29 (71.3% male & 63.5% female) were able to copy or move a file or folder; 63.7% persons of age between 15-29 years (66.2% male & 60.5% of female) were able to send e-mails with attached files (e.g. documents, pictures and videos); 43.7% persons of age between 15-29 years (45.8% male & 40.9% female) were having the knowledge to find, download, install, configure software and 12.4% persons of age between 15-29 years (12.8% male & 11.9% female) were able to write a computer program using a specialised programming language.

3.4.4.3 It may be observed that in Delhi, both male and female of age between 15-24 and 15-29 years were having the knowledge of ICT skills more or less at the same footing.

3.4.4.4 Percentage of persons of age 15-24 years with ICT skills in Delhi is presented in Figure 18.

3.4.4.5 Percentage of persons of age 15-29 years with ICT skills in Delhi is presented in Figure 18 A.

SECTION 5: MOBILE, BROADBAND AND MASS MEDIA

3.5.1 Use of Mobile telephone: In this survey, from each of the surveyed person, it was enquired whether he/she uses any mobile telephone with active sim card at least once during last three months preceding the date of the survey. The information was collected using four categories of type of use, viz. (i) yes: exclusive use, (ii) yes: shared with household member(s), (iii) yes: shared with non-household member(s) and (iv) no.

3.5.1.1 This information was collected in particular to track gender equality since the mobile phone is a personal device that if owned and not just shared provides women with a degree of independence and autonomy including professional purposes.

3.5.1.2 The percentage of persons who used mobile telephone with active sim card exclusively/with household member/ with non-household member at least once during last three months preceding the date of the survey for each gender and age groups (15 years and above) and (18 years and above) in Delhi and at All-India level is presented in Statement 20.

Statement 20: Percentage of persons who used mobile telephone with active sim card at least once during last three months preceding the date of the survey in Delhi and at All-India level							
Age group (years)		Percentage of persons (Delhi)			Percentage of persons (All-India)		
		Rural	Urban	All	Rural	Urban	All
15 years and above	Male	98.4	98.6	98.6	80.2	90.0	83.2
	Female	90.8	95.8	95.7	49.9	72.4	56.7
	Person	95.0	97.3	97.3	65.3	81.4	70.2
18 years and above	Male	99.4	99.1	99.1	83.8	92.8	86.6
	Female	92.8	96.0	96.0	51.5	74.2	58.5
	Person	96.3	97.7	97.7	67.8	83.7	72.7

Ref: Table No. A24 of Appendix B (Detailed Tables) and NSS 78th Round Report No. 589(78/5.1/1), MoSPI, GoI

3.5.1.3 It has been seen from the Statement 20 that in Delhi, 97.7% persons of age '18 years and above' and at All-India level, 72.7% persons of age '18 years and above' were using the mobile telephone with active sim card at least once during last three months preceding the date of the survey.

3.5.1.4 Percentage of persons who used mobile telephone with active sim card at least once during last three months preceding the date of the survey in Delhi is presented in Figure 19.

3.5.1.5 Percentage of persons who used mobile telephone with active sim card at least once during last three months preceding the date of the survey at All-India level is presented in Figure 19 A.

3.5.1.6 Statement 21 gives the percentage distribution of persons (15 years and above and 18 years and above) who used mobile telephone with active sim card at least once during last three months preceding the date of the survey by different type of use in Delhi.

Statement 21: Percentage distribution of persons who used mobile telephone with active sim card at least once during last three months preceding the date of the survey by different type of use in Delhi

Type of Use	Age: 15 years and above			Age: 18 years and above		
	Male	Female	Person	Male	Female	Person
Rural						
Exclusive use	91.0	67.7	81.0	96.9	69.9	84.9
Shared with household members	9.0	32.3	19.0	3.1	30.1	15.1
Shared with non-household members	..	..	..	..	..	..
All	100.0	100.0	100.0	100.0	100.0	100.0
Urban						
Exclusive use	92.5	78.7	86.3	95.5	81.0	89.0
Shared with household members	7.5	21.3	13.7	4.4	18.9	11.0
Shared with non-household members	0.0	0.1	0.0	0.0	0.1	0.0
All	100.0	100.0	100.0	100.0	100.0	100.0
All						
Exclusive use	92.4	78.4	86.1	95.6	80.8	88.9

Shared with non-household members	0.0	0.1	0.0	0.0	0.1	0.0
All	100.0	100.0	100.0	100.0	100.0	100.0
".." denotes non-availability of sample						
Figure '0.0' indicates negligible positive value						

Ref: Table No. A24 of Appendix B (Detailed Tables)

3.5.1.7 Statement 21 presents that in Delhi, 88.9% persons of age '18 years and above' were *exclusively used* mobile telephone with active sim card at least once during last three months preceding the date of the survey and 11.1% of persons of age '18 years and above' have *shared with household members* and none of the household members (except only 0.1% urban female) had *shared the mobile use with non-household member*.

3.5.1.8 Percentage distribution of Male, Female & Person having age 15 years and above who used mobile telephone with active sim card at least once during last three months preceding the date of the survey by different type of use in Delhi is presented in Figures 20, 20 A & 20 B.

Figure 20: Percentage distribution of Male having age 15 years and above who used mobile telephone with active sim card at least once during last three months preceding the date of the survey by different type of use in Delhi

Figure 20 A: Percentage distribution of Female having age 15 years and above who used mobile telephone with active sim card at least once during last three months preceding the date of the survey by different type of use in Delhi

Figure 20 B: Percentage distribution of Person having age 15 years and above who used mobile telephone with active sim card at least once during last three months preceding the date of the survey by different type of use in Delhi

3.5.1.9 Percentage distribution of Male, Female & Person having age 18 years and above who used mobile telephone with active sim card at least once during last three months preceding the date of the survey by different type of use in Delhi is presented in Figures 20 C, 20 D & 20 E.

Figure 20 C: Percentage distribution of Male having age 18 years and above who used mobile telephone with active sim card at least once during last three months preceding the date of the survey by different type of use in Delhi

Figure 20 D: Percentage distribution of Female having age 18 years and above who used mobile telephone with active sim card at least once during last three months preceding the date of the survey by different type of use in Delhi

Figure 20 E: Percentage distribution of Person having age 18 years and above who used mobile telephone with active sim card at least once during last three months preceding the date of the survey by different type of use in Delhi

3.5.2 Access of Broadband and Mass Media: Information was collected from surveyed households on (i) whether the household had broadband access within the premises and (ii) whether any of the household members had access to any of the mass media like internet, newspaper, magazine, radio, television etc. It may be noted that the use of internet may be via any device, like, desktop, laptop, palmtop, notebook, smart phone, tablets, etc. Also, use of ATM was not being considered as use of internet. Further, internet was to be accessed by the household member himself/herself. Thus, if any member used internet services through another person (like booking of railway/air ticket/hotel through another person), those were not to be considered as use of internet by the person.

3.5.2.1 The percentage of households which reported to have access of broadband within the premises and the percentage of households which reported that any of its members had access to mass media in Delhi and at All-India level is presented in Statement 22.

Statement 22: Percentage of households reported access to broadband within the premises and mass media in Delhi and at All-India level						
Indicator	Percentage of households reported (Delhi)			Percentage of households reported (All-India)		
	Rural	Urban	All	Rural	Urban	All
Access of broadband within the premises	53.3	75.4	74.9	32.1	62.4	41.8
Any of the household member had access to mass media*	96.6	94.5	94.6	70.4	92.7	77.5

*: access to any of internet, newspaper, magazine, radio, television etc.

Ref: Table No. A29 of Appendix B (Detailed Tables) and NSS 78th Round Report No. 589(78/5.1/1), MoSPI, GoI

3.5.2.2 It has been presented in Statement 22 that in Delhi, 74.9% of households had reported to have access of broadband within the premises and 94.6% of households had reported that any of its members had access to mass media.

3.5.2.3 Percentage of households reported access to broadband within the premises and mass media in Delhi and at All-India level is presented in Figure 21.

Figure 21: Percentage of households reported access to broadband within the premises and mass media in Delhi and at All-India level

SECTION 6: FINANCIAL INCLUSION AND INDEBTEDNESS

3.6.1 Accounts at bank/other financial institution/mobile money service provider and indebtedness: For the persons of age 15 years and above, information was collected on whether surveyed persons hold accounts at bank/other financial institution/mobile money service provider as on date of survey and also on their status of indebtedness to any institutional/non-institutional agency as on date of survey. In this survey, a person holding an account at a bank or another type of financial institution means that the person is having an account at a bank or at another type of financial institution, such as a credit union, microfinance institution, cooperative, or the post office (if applicable), or having a debit card in own name. In addition to these, the household member who reports to be receiving wages, government transfers, or payments for agricultural products into an account at a financial institution in the past 12 months; or receiving wages or government transfers into a card in the past 12 months were also included under this category. Also, in this survey, a person holding a mobile money account means that the person was using GSM Association (GSMA) Mobile Money for the Unbanked (MMU) services in the past 12 months to pay bills or to send or receive money. In addition, it includes respondents who reported of receiving wages, government transfers, or payments for agricultural products through a mobile phone in the past 12 months.

3.6.2 Accounts at any bank/other financial institution/mobile money service provider: Statement 23 gives the percentage of persons (15 years and above and 18 years and above) who had an account individually or jointly in any bank/other financial institution/mobile money service provider as on date of survey for each of the gender in Delhi and at All-India level.

Statement 23: Percentage of persons who have an account individually or jointly in any bank/other financial institution/mobile money service provider in Delhi and at All-India level						
Gender	15 years and above			18 years and above		
	Rural	Urban	All	Rural	Urban	All
Delhi						
Male	96.6	94.3	94.4	98.0	96.2	96.3
Female	86.6	88.6	88.5	88.4	89.6	89.6
Person	92.1	91.7	91.7	93.6	93.2	93.2
All-India						
Male	89.5	90.5	89.8	92.2	93.0	92.4
Female	84.6	84.4	84.5	86.4	85.9	86.3
Person	87.1	87.5	87.2	89.3	89.6	89.4

Ref: Table No. A27 & A28 of Appendix B (Detailed Tables) and NSS 78th Round Report No. 589(78/5.1/1), MoSPI, GoI

3.6.2.1 Statement 23 presents that in Delhi, 91.7% persons having the age 15 years and above, and 93.2% persons having the age 18 years and above, have an account individually or jointly in any bank/other financial institution/mobile money service provider. Similarly, at All-India level, 87.2% persons having the age 15 years and above, and 89.4% persons having the age 18 years and above, have an account individually or jointly in any bank/other financial institution/mobile money service provider.

3.6.2.2 Percentage of persons who have an account individually or jointly in any bank/other financial institution/mobile money service provider in Delhi is presented in Figure 22.

3.6.2.3 Percentage of persons who have an account individually or jointly in any bank/other financial institution/mobile money service provider at All-India level is presented in Figure 22 A.

3.6.3 Indebtedness: This information was collected for sample household members of age 15 years or more. **In this survey, a minimum cash loan of Rs.500/- as on date of the survey was considered as the threshold for categorizing a person as indebted.** The institutional agencies are Government, co-operative society, co-operative bank, commercial bank including regional rural bank, insurance company, provident fund authority and other institutional agencies including private institutional agencies. All other lending agencies, including relatives and friends were considered as non-institutional agencies for this survey. The number of borrowers per 1,00,000 persons (15 years and above and 18 years and above) who were indebted to any institutional/non-institutional agency as on date of survey for each of the gender in Delhi and at All-India level is presented in Statement 24.

Statement 24: Number of borrowers * per 1,00,000 persons in Delhi and at All-India level						
Gender	15 years and above			18 years and above		
	Rural	Urban	All	Rural	Urban	All
Delhi						
Male	11358	10646	10664	12609	11444	11473

Person	6686	6586	6589	7254	7016	7022
All-India						
Male	20137	19674	19994	21967	21051	21680
Female	9622	7939	9111	10369	8427	9772
Person	14957	13966	14653	16223	14889	15809

* : who have minimum cash loan of Rs. 500/- as on date of the survey

Ref: Table No. A27 & A28 of Appendix B (Detailed Tables) and NSS 78th Round Report No. 589(78/5.1/1), MoSPI, GoI

3.6.3.1 Statement 24 shows that in Delhi, out of per 1,00,000 persons having the age '15 years and above', only 6589 persons were indebted and out of per 1,00,000 persons having the age '18 years and above', 7022 persons were indebted either through institutional or non-institutional agencies. However, at All-India level, out of per 1,00,000 persons having the age 15 years and above, 14653 persons of age '15 years and above' were indebted and out of per 1,00,000 persons having the age '18 years and above', 15809 persons were indebted either through institutional or non-institutional agencies.

3.6.3.2 Number of borrowers * per 1,00,000 persons in Delhi is presented in Figure 23.

* : who have minimum cash loan of Rs. 500/- as on date of the survey

3.6.3.3 Number of borrowers * per 1,00,000 persons at All-India level is presented in Figure 23 A.

* : who have minimum cash loan of Rs. 500/- as on date of the survey

SECTION 7: BIRTH REGISTRATION

3.7.1 Registration of births/receipt of birth certificates: In this survey, information was collected regarding the receipt of birth certificates ever for persons of age less than 5 years. Also, for the persons of age less than 5 years who had not received birth certificates ever or did not know about the receipt status of the birth certificates, information was collected on whether they were registered with civil authority for birth certificates. Civil authority includes municipality, Panchayat, Government health institution or other local authority appointed by the State Government for registration of birth and issue of birth certificate. *It is to be noted that for collecting this information, only the response of the informant was considered. The data collector did not check whether the affirmative household members actually possessed the certificate or not.*

3.7.1.1 The percentage of persons of age less than 5 years who have registered with civil authority for the birth certificate ever (including those who received birth certificates) in Delhi and at All-India level is presented in Statement 25.

Statement 25: Percentage of persons of age less than 5 years, who have ever registered with civil authority for birth certificate in Delhi and at All-India level						
Gender	Percentage of persons of age less than 5 years (Delhi)			Percentage of persons of age less than 5 years (All-India)		
	Rural	Urban	All	Rural	Urban	All
Male	99.0	99.4	99.4	86.8	93.4	88.3
Female	100.0	98.7	98.7	86.5	93.0	88.1
Person	99.6	99.0	99.1	86.6	93.2	88.2
<i>Note: Registered cases include persons who have received birth certificates as well as persons who have not received birth certificates, but registered with the civil authority (like municipality, panchayat, Government health institution or other local authority appointed by the State Government for registration of birth and issue of birth certificate)</i>						

Ref: Table No. A26 of Appendix B (Detailed Tables) and NSS 78th Round Report No. 589(78/5.1/1), MoSPI, Gol

3.7.1.2 From the Statement 25, it may be seen that in Delhi, 99.1% of person of age less than 5 years and at All-India level, 88.2% of person of age less than 5 years have ever registered with civil authority for birth certificate.

3.7.1.3 Percentage of persons of age less than 5 years, who have ever registered with civil authority for birth certificate in Delhi and at All-India level, is presented in Figure 24.

Figure 24: Percentage of persons of age less than 5 years, who have ever registered with civil authority for birth certificate in Delhi and at All-India level

SECTION 8: OTHER FACILITIES

3.8.1 Availability/possession/awareness of various facilities

3.8.1.1 In this survey, information was collected on some facilities of the household for generating SDG indicators like availability of all-weather roads within 2 km from place of living (for rural households), availability of public transport within 500 mtr (for urban households) and availability of open public space (for urban households). Further, information on the distance to the nearest hospital from place of living with emergency services, without emergency services and distance to the nearest Primary health centre/sub centre was also collected. Information was collected from households on possession of air conditioner & air cooler etc. Information was collected from the households where any of the household members is aware of the Pradhan Mantri Awas Yojna (PMAY) & Samagra Shiksha Scheme (SSS).

3.8.1.2 The percentage of rural households reported the availability/possession/awareness of various facilities in Delhi is presented in Statement 26.

Statement 26: Percentage of households reported the availability/possession/awareness of various facilities in Delhi			
Description of items	Rural	Urban	All
Percentage of rural households reported availability of all-weather roads within 2 km from the place of living	90.5		
Percentage of urban households reported availability of public transport facility within 500 mtr from place of living		100.0	
Percentage of households reported availability of open public space within 500 mtr from place of living	89.8	90.1	90.1
Percentage of households reported distance to the nearest hospital of less than 5 km from place of living with emergency services	75.5	98.4	97.8
Percentage of households reported distance to the nearest hospital of less than 5 km from place of living without emergency services	75.5	99.3	98.7
Percentage of households reported distance to the nearest Primary health centre/sub centre of less than 5 km from place of living	92.3	100.0	99.8
Percentage of households reported possession of air conditioner	21.3	35.1	34.8
Average number of air conditioner per household reported possession of air conditioner (0.0)	1.2	1.5	1.5
Percentage of households reported possession of air cooler	82.1	67.2	67.6
Average number of air cooler per household reported possession of air cooler (0.0)	1.0	1.0	1.0
Percentage of households where any of the household member is aware of the Pradhan Mantri Awas Yojna (PMAY)	70.0	56.7	57.0
Percentage of households where any of the household member is aware of Samagra Shiksha Scheme (SSS)	53.3	40.3	40.6
Percentage of households where any of the household member is aware of Pradhan Mantri Awas Yojna (PMAY) & Samagra Shiksha Scheme (SSS)	0.5	0.4	0.4

Ref: Table No. A20, A21, A53, A54, A57 & A58 of Appendix B (Detailed Tables)

3.8.2 Bathroom

3.8.2.1 Bathroom is one of the important amenities for the good standard of living. The information was recorded whether bathroom facility was available for the household exclusively or not. In this survey, a bathing place which satisfies the criteria of a room is considered as a 'bathroom'. An enclosed area without a roof used for bathing purposes or any living room/kitchen used for bathing purpose was not considered as a bathroom. Here, 'access of the household to bathroom' is defined in terms of the bathroom facility that can be used by the majority of the household members, irrespective of whether it is being used by them or not. If the household has access to bathroom, then the information on whether household's access to bathroom is for 'exclusive use of the household' or for 'common use of households in the building' or for 'public/community use with/without payment' or 'others' was gathered. Distribution of households by access to bathroom in Delhi is presented in Statement 27.

Statement 27: Percentage distribution of households by access to bathroom in Delhi			
Access to bathroom	Percentage distribution of households		
	Rural	Urban	All
Exclusive use of household	79.0	76.7	76.7
Common use of household in the building	15.9	16.9	16.9
Public/community use without payment	..	4.5	4.4
Public/community use with payment	..	0.1	0.1
Others	1.6	0.0	0.0
No access to bathroom	3.5	1.9	1.9
All	100.0	100.0	100.0
".." denotes non-availability of sample			
Figure '0.0' indicates negligible positive value			

Ref: Table No. A52 of Appendix B (Detailed Tables)

3.8.2.2 Statement 27 reveals that in Delhi, 98.1% households reported that they were having access to bathroom facility. Among these households, 76.7 % households were having bathroom for exclusive use, followed by 16.9 % households who shares it jointly as they were residing in the same building and 4.5 % households who were using community based facility with or without payment for bathing. Only 1.9% households have no access to bathroom.

3.8.2.3 Percentage distribution of households by access to bathroom in Rural, Urban & Delhi is presented in Figures 25, 25 A & 25 B.

Figure 25: Percentage distribution of households by access to bathroom in Rural Delhi

Figure 25 A: Percentage distribution of households by access to bathroom in Urban Delhi

Figure 25 B: Percentage distribution of households by access to bathroom in Delhi

3.8.3 Tenorial status of dwelling unit

3.8.3.1 Dwelling unit is defined as the accommodation occupied by a household for its residential purpose. It may be an entire structure or a part thereof or may consist of more than one structure. This aspect can be considered as one of the important qualitative indicators of housing conditions. To ascertain the tenorial status of dwelling unit, type of ownership has been classified in three major categories namely owned (freehold and lease hold), hired (including accommodation provided by employer) and others which fall in the category of neither owned nor hired.

3.8.3.2 Percentage distribution of households by tenorial status of dwelling unit in Delhi is presented in Statement 28.

Statement 28: Percentage distribution of households by tenorial status of dwelling unit in Delhi			
Description of item	Percentage distribution of households		
	Rural	Urban	All
Owned:			
Freehold	77.7	60.2	60.6
Leasehold	..	0.1	0.1
Hired:			
Employer quarter	..	4.0	3.9
Hired dwelling units with written contract	6.9	8.6	8.6
Hired dwelling units without written contract	14.8	23.1	22.9
Others	0.6	4.0	3.9
All	100.0	100.0	100.0
".." denotes non-availability of sample			

Ref: Table No. A50 of Appendix B (Detailed Tables)

3.8.3.3 Statement 28 depicts that in Delhi, 60.7 % households were residing in owned dwelling (including leasehold) for their livings and 35.4 % households were having hired accommodation. Among the households who were residing in the hired dwelling, 22.9 % households were living in the rented dwellings which were hired without written contract, 8.6 % households with written contract and 3.9 % households were having the accommodation provided by the employer while 3.9 % households were having other arrangement for their livings.

3.8.3.4 Percentage distribution of households by tenorial status of dwelling unit in Rural, Urban & Delhi is presented in Figures 26, 26 A & 26 B.

Figure 26: Percentage distribution of households by tenurial status of dwelling unit in Rural Delhi

Figure 26 A : Percentage distribution of households by tenurial status of dwelling unit in Urban Delhi

Figure 26 B: Percentage distribution of households by tenurial status of dwelling unit in Delhi

3.8.4 Comparison with NSS 76th Round

The percentage of households having owned dwelling unit were decreased from 69.5 % (NSS 76th round) to 60.7 % (NSS 78th round) in Delhi. On the other hand, households residing in rented dwellings were increased from 27.6 % (NSS 76th round) to 35.4 % in NSS 78th round.

3.8.5 Type of structure of house

3.8.5.1 Information on the basic building materials with which the walls of the dwelling unit of the household are constructed; was recorded. When the basic building materials (e.g. Cement/RBC/RCC, burnt brick/stone/lime stone, iron or other metal sheet/ asbestos sheet, mud (with or without bamboo), unburnt brick etc.) used are different for different walls, the materials used for major portion of wall area of the dwelling unit was considered as wall type. For determining the wall type, only the walls of the dwelling was considered.

3.8.5.2 Information on the basic building materials with which the roof of the dwelling unit of the household are constructed; was collected. Roof type was determined on the basis of the material (e.g. grass, mud/unburnt brick, canvas/cloth, tiles/slate, burnt brick/stone/lime stone, iron/zinc/other metal sheet/asbestos sheet, cement/RBC/RCC etc.) used for major portion of roof area of the dwelling, if the different portions of the roof/floor are made of different building materials. For determining the material of the roof, the material of which the outer roof exposed to the weather (and not the ceiling) is made, i.e., tiles, thatch, corrugated iron, zinc or asbestos sheet, etc., with the mud, cement or lime plaster exposed to the sky, the material of roof was brick, tile, stone, etc. and not the mud, cement, lime etc.

3.8.5.3 Percentage distribution of households living in houses by type of structure of house in Delhi is presented in Statement 29.

Statement 29: Percentage distribution of households living in houses by type of structure of house in Delhi			
Type of structure	Rural	Urban	All
(1)	(2)	(3)	(4)
a) Pucca	100.0	99.0	99.1
b) Semi-pucca	0.0	0.8	0.8
All Pucca (Sub- total of a & b)	100.0	99.8	99.9
c) Serviceable katcha	..	0.1	0.1
d) Unserviceable katcha	..	..	..
All katcha (Sub- total of c & d)	..	0.1	0.1
All	100.0	100.0	100.0
".." denotes non-availability of sample			
Figure '0.0' indicates negligible positive value			

Ref: Table No. A30 of Appendix B (Detailed Tables)

3.8.5.4 It may be seen from the Statement 29, that 99.9% households were living in pucca house in Delhi and only 0.1% households were having katcha house.

3.8.5.5 Percentage distribution of households living in houses by type of structure of house in Delhi is presented in Figure 27.

3.8.6 Dwelling units by area type

3.8.6.1 Percentage distribution of urban households with dwelling units by area type in Delhi is presented in Statement 30.

Statement 30: Percentage distribution of urban households with dwelling units by area type in Delhi	
Area Type	Percentage distribution of urban households with dwelling units
(1)	(2)
Notified slum	4.3
Non-notified slum	3.6
Squatter settlement	0.0
Other areas	92.1
All	100.0

Figure '0.0' indicates negligible positive value

Ref: Table No. A51 of Appendix B (Detailed Tables)

3.8.6.2 The Statement 30 clearly indicates that in Delhi, 92.1% households have their dwelling units in the “other areas”.

3.8.6.3 Percentage distribution of urban households with dwelling units by area type in Delhi is presented in Figure 28.

3.8.7 Kitchen type of the dwelling unit

3.8.7.1 Being a quality indicator for better hygiene and ventilation condition in the housing structure, kitchen is an important part of the house structure for any household. Information regarding the kitchen facility available in the dwelling unit of the household was recorded. If the dwelling unit of the household has a room used exclusively as a kitchen, it was considered that the dwelling unit of the household has a separate kitchen. If a room was used as kitchen-cum-store or kitchen-cum-dining room, then also the household was considered to have a separate kitchen.

3.8.7.2 Percentage distribution of households living in houses by kitchen type of the dwelling unit in Delhi is presented in Statement 31.

Statement 31: Percentage distribution of households living in houses by kitchen type of the dwelling unit in Delhi			
Description of item	Percentage distribution of households		
	Rural	Urban	All
Households having separate kitchen with water tap	67.2	73.3	73.1
Households having separate kitchen without water tap	3.4	6.4	6.3
Households having no separate kitchen	29.5	20.3	20.6
All	100.0	100.0	100.0

Ref: Table No. A56 of Appendix B (Detailed Tables)

3.8.7.3 It can be seen from the Statement 31 that in Delhi, 73.1 % households were having separate kitchen with water tap, 6.3 % households were having separate kitchen without water tap and the rest 20.6 % households were not having separate kitchen in their dwellings. The trend in rural and urban areas was seen more or less same for the households having separate kitchen facility. However, the

percentage of households, having separate kitchen with water tap in urban (73.3 %) were more as compared to rural (67.2 %). Besides this the percentage of households having no separate kitchen was more in rural (29.5%) as compared to urban Delhi (20.3 %).

3.8.7.4 Percentage distribution of households living in houses by kitchen type of the dwelling unit in Rural, Urban & Delhi is presented in Figures 29, 29 A & 29 B.

Figure 29: Percentage distribution of households living in houses by kitchen type of the dwelling unit in Rural Delhi

Figure 29 A: Percentage distribution of households living in houses by kitchen type of the dwelling unit in Urban Delhi

3.8.8 Garbage Collection

3.8.8.1 In this item, information was recorded regarding the agency that made arrangement to collect household garbage. These agencies make arrangement for accumulating garbage of the households at a common place. The agencies may be panchayat/municipality corporation or resident/group of residents or charitable bodies/NGOs etc.

3.8.8.2 If the households deposit their garbage in the community dumping spots build by panchayat/municipality corporation, it was considered that arrangement for collection of garbage of the household has been made by panchayat/municipality corporation.

3.8.8.3 If panchayat/municipality corporation made arrangement to collect garbage of the household on a regular basis from a fixed point in the locality or from the common place other than the community dumping spot (open area/street etc.) or made arrangement for door to door collection of household garbage, then also it was considered that the arrangement for collection of garbage of the household has been made by panchayat/municipality corporation.

3.8.8.4 Percentage distribution of households living in houses by type of agency made arrangement for collection of garbage of the household in Delhi has been presented in Statement 32.

Statement 32: Percentage distribution of households living in houses by type of agency made arrangement for collection of garbage of the household in Delhi

Description of item	Percentage distribution of households		
	Rural	Urban	All
(1)	(2)	(3)	(4)
Municipal corporation	88.6	79.6	79.8
Resident/group of residents	0.1	11.3	11.0
Others	8.9	2.6	2.8
Not known	1.6	1.0	1.0
No arrangement	0.7	5.4	5.3
All	100.0	100.0	100.0

Ref: Table No. A55 of Appendix B (Detailed Tables)

3.8.8.5 Statement 32 reveals that 79.8 % households in Delhi reported that arrangement for collection of garbage was provided by the Government Agency i.e. Municipal Corporation, 11.0 % households reported that they had their own local arrangement via by resident/group of residents and 5.3 % households have no arrangement of garbage collection facility.

3.8.8.6 Percentage distribution of households living in houses by type of agency made arrangement for collection of garbage of the household in Rural, Urban & Delhi is presented in Figures 30, 30 A & 30 B.

Figure 30 A: Percentage distribution of households living in houses by type of agency made arrangement for collection of garbage of the household in Urban Delhi

Figure 30 B: Percentage distribution of households living in houses by type of agency made arrangement for collection of garbage of the household in Delhi

SECTION 9: PURCHASE/CONSTRUCTION OF NEW HOUSE/FLAT FOR RESIDENTIAL PURPOSE AFTER 31.03.2014

3.9.1 Information was collected from the household whether the household has constructed/purchased any new house/flat (which is ready for possession) after 31st March, 2014 for residential purpose; the total number of such constructed/purchased new house/flat by the household for residential purpose in rural or urban areas, whether the new house/flat (which is ready for possession) was purchased/constructed by the surveyed household for the first time, whether it was owned (including leased-out) by the surveyed household as on date of survey etc. *It is to be noted that construction/purchase of house/flat by the household for use as an enterprise was not considered here.* The constructions mean constructions irrespective of whether lying vacant or occupied. For the purpose of this survey, the construction exclude repair and maintenance (major/minor) of the structure and construction undertaken by the household as an enterprise.

3.9.1.1 For house/flat which was purchased/constructed by the surveyed household after 31.03.2014 for the first time and the surveyed household owned the same, information on 'type of house/flat', 'number of rooms', 'floor area', 'source of maximum amount of finance for purchase/construction of such house/flat' etc was also collected.

3.9.1.2 Information on source of finance for house/flat which was purchased/constructed by the household for the first time and owned as on date of survey was collected in terms of four categories, (i) bank, (ii) private finance (NBFC etc.), (iii) own finance and (iv) any other source.

3.9.1.3 Type of the newly purchased/constructed house/flat of the household was also recorded. If the dwelling unit and the entire structure of the house are physically the same, it is considered as an independent house. The dwelling unit of a household is considered as a flat if it is a part of a structure which is shared with at least one other household and the dwelling unit has housing facilities of water supply, bathroom and latrine, which are used exclusively by the household or shared with other households residing in that structure. If the facilities of water supply, bathroom and latrine, created for the households of the structure where the dwelling unit of the sample household is located, are shared with households residing in other structures, in such cases also such dwelling units are considered as flat. If the households residing in flat – like structure without having all the facilities of water supply, bathroom and latrine, these dwelling units are not classified as flat and are treated as others.

3.9.1.4 It is to be noted that construction/purchase of house/flat by the household for use as an enterprise was not considered here. The construction excludes repair and maintenance (major/minor) of the structure and construction undertaken by the household as an enterprise.

3.9.1.5 Statement 33 gives the percentage of households which have purchased/constructed any new house/flat for residential purpose after 31.03.2014 and the percentage of households (among households which purchased/constructed any new house/flat after 31.03.2014) which have purchased/constructed new house/flat for the first time, for each of the social group and religion group in Delhi.

Statement 33: Percentage of households which have purchased/constructed any new house/flat for residential purpose after 31.03.2014 and percentage of households purchased/constructed new house/flat for the first time# in Delhi

3.9.1.9 Statement 34 presents that in Delhi, 100% of households had purchased/constructed any new house/flat for the first time and owned that house/flat as on date of survey among households which purchased/constructed any new house/flat for residential purpose after 31.03.2014.

3.9.1.10 Percentage of households which have purchased/constructed any new house/flat for the first time and owned that house/flat as on date of survey among households which purchased/constructed any new house/flat for residential purpose after 31.03.2014 in Delhi is presented in Figure 32.

* among households which purchased/constructed any new house/flat for residential purpose after 31.03.2014

3.9.2 Source of finance: The source from which the maximum amount was financed for the purchase/construction of new house/flat was recorded such as bank, private finance (NBFC etc.), own finance or any other source.

3.9.2.1 Bank includes commercial banks including foreign commercial banks operating in India, nationalized banks, regional rural bank, cooperative society/bank like district or central cooperative banks or other types of cooperative societies.

3.9.2.2 Private finance includes loans taken from Life Insurance Corporation, other insurance fund, refundable advances/loans taken from PPF accounts in private sector offices, private financial corporation/institutions or from any other private institutional agencies. A Non-Banking Financial Company (NBFC) is a company

registered under the Companies Act, 1956 engaged in the business of loans and advances, acquisition of shares/stocks/bonds/debentures/securities issued by Government or local authority or other marketable securities of a like nature, leasing, hire-purchase, insurance business, chit business but does not include any services and sale/purchase/construction of immovable property.

3.9.2.3 At the time of survey, there were twelve categories of NBFCs registered with the RBI, these are:

3.9.2.4 Asset Finance Companies (NBFC-AFC), Investment Companies (NBFC-IC), Loan Companies (NBFC-LC), Infrastructure Finance Company (IFC), Systemically Important Core Investment Company (CIC-ND-SI), Infrastructure Debt Fund: Non-Banking Financial Company (IDF-NBFC), Micro Finance Institution (NBFC-MFI), Factors (NBFC-Factors), NBFC-Account Aggregator (NBFC-AA), NBFC-Peer to Peer Lending Platform (NBFCP2P), Mortgage Guarantee Companies (MGC) and NBFC-Non-Operative Financial Holding Companies (NOFHC).

3.9.2.5 Own finance includes savings of the different members of the household, non-refundable amount (Final withdrawal or part withdrawal drawn by some of the household members) from provident fund account by the household members, amount received from sale of assets, etc.

3.9.2.6 Any other source includes money (including subsidy received either in cash or kind) received from Central or State Government, loans taken from Life Insurance Corporation, Postal Life Insurance, other insurance fund, refundable advances/loans taken from PPF accounts of public sector offices, public financial corporation/institutions or from any other public institutional agencies. Loans/advances may also be taken from non institutional agencies viz. self-help groups, money lenders, friends and relatives etc.

3.9.2.7 For households that had purchased/constructed any new house/flat for residential purpose after 31.03.2014, for the first time and owned the same house/flat as on date of survey, the source from which the maximum amount was financed by the household for purchase/construction of the new house/flat in Delhi and at All-India level is presented in Statement 35. Here “any other source” refers to money received from central or state governments, loans taken from Life Insurance Corporation, postal life insurance, refundable loans/advances from PPF accounts of public sector offices, loans from money lenders, friends and relatives etc.

Statement 35: Percentage distribution of different sources of finance from which maximum amount was financed by the household* in Delhi and at All-India level						
Sources of finance	Percentage distribution (Delhi)			Percentage distribution (All-India)		
	Rural	Urban	All	Rural	Urban	All
Bank	17.6	37.7	37.1	22.8	41.9	28.0
Private finance	..	5.4	5.3	1.2	1.8	1.4
Own finance	49.6	36.3	36.6	35.5	35.1	35.4
Any other source	32.8	20.7	21.0	40.4	21.2	35.3
All	100.0	100.0	100.0	100.0	100.0	100.0
*: households who purchased/constructed new house/flat after 31.03.2014 for the first time and owned the same as on date of survey						
".." denotes non-availability of sample						

Ref: Table No. A34 of Appendix B (Detailed Tables) and NSS 78th Round Report No. 589(78/5.1/1), MoSPI, GoI

3.9.2.8 It may be seen from the Statement 35 that the source from which the maximum amount was financed by the household out of the total finance spent for the purchase/construction of new house/flat after 31.03.2014, was bank (37.1%) followed by own finance (36.6%) in Delhi. However, at All-India level, the source from which the maximum amount was financed by the household out of the total finance spent for the purchase/construction of new house/flat after 31.03.2014, was own finance (35.4%) followed by any other source (35.3%) and bank (28.0%).

3.9.2.9 Percentage distribution of different sources of finance from which maximum amount was financed by the household in Delhi and at All-India level is presented in Figure 32.

3.9.3 Floor area, number of rooms etc.: For the survey, a constructed area with walls or partitions on all sides with at least one door way and a roof overhead is considered as a room. A room with a floor area (carpet area) of at least 4 square meters and a height of at least 2 meters from the floor to the highest point in the ceiling which is used for living purpose is considered as a living room. A room which does not satisfy the specification of 4 square meters floor area and 2 meters of height from the floor to the highest point in the ceiling or a room which though satisfies the specification but not used for living purpose is considered as other room. A room which is used for both commercial purpose and residential purpose

is considered as 'other room'. If two or more households use a single room for living purpose, it is considered as 'other room'.

3.9.3.1 Information regarding the floor area of living rooms, other rooms, covered veranda, uncovered veranda and total floor area of the dwelling unit of the household was recorded. Information on each of these was recorded in square meter and in whole numbers. The information on inside floor area (carpet area), i.e. the inside area of the floor of all 'living rooms' and 'other rooms' taken together (excluding the area covered by the walls) was recorded. If a room is used both for business and residential purposes and the residential use is not very nominal, the total area of the room was recorded. On the other hand, if only a portion of a room is used for residential purposes, only the area of that portion was included. The same procedure was adopted in case of room being shared with another household. The floor area of the 'covered veranda' and that of 'uncovered veranda' was recorded. A veranda is considered as 'covered veranda' if it is protected from all sides and it is considered as 'uncovered veranda' if it is not protected from at least one side.

3.9.3.2 Information regarding the floor area of living rooms, other rooms, covered veranda, uncovered veranda and total floor area of the dwelling unit of the household was recorded. Information for each of these items is recorded in square feet and in whole numbers. Statement 36 gives the average floor area, average number of living rooms and other rooms of the house/flat which were newly purchased/constructed for residential purpose after 31.03.2014 for the first time and owned by the surveyed household as on date of survey in Delhi and at All-India level.

Statement 36: Average floor area, Average number of living rooms and other rooms of the house/flat* in Delhi and at All-India level

Description of items	Delhi			All-India		
	Rural	Urban	All	Rural	Urban	All
Average floor area (sq. mtr.)	78.1	72.2	72.3	50.5	64.5	54.2
Average number of living rooms (0.0)	1.7	2.2	2.2	2.2	2.6	2.3
Average number of other rooms (0.0)	2.0	2.8	2.7	1.5	2.3	1.7

*: newly purchased/constructed for residential purpose after 31.03.2014 for the first time and owned by the surveyed household as on date of survey

Ref: Table No. A33 of Appendix B (Detailed Tables) and NSS 78th Round Report No. 589(78/5.1/1), MoSPI, GoI

3.9.3.3 Statement 36 shows that the average floor area of the *newly purchased/constructed for residential purpose after 31.03.2014 for the first time and owned by the surveyed household as on date of survey* in Delhi comes to 72.3 sq. mtr. while at All-India level, it was 54.2 sq. mtr.. Further, in Delhi, average number of living rooms was 2.2 and average number of other rooms was 2.7 and at All-India level, the average number of living & other rooms were 2.3 & 1.7 respectively.

3.9.3.4 Average floor area (sq. mtr.) of the house/flat newly purchased/constructed for residential purpose after 31.03.2014 for the first time and owned by the

surveyed household as on date of survey in Delhi & at All-India level is presented in Figure 33.

3.9.3.5 Average number of living rooms and other rooms of the house/flat newly purchased/constructed for residential purpose after 31.03.2014 for the first time and owned by the surveyed household as on date of survey in Delhi and at All-India level is presented in Figure 33 A.

3.9.3.6 The percentage distribution of households that purchased/constructed new house/flat after 31.03.2014 for residential purpose for the first time and owned that as on date of survey among households who purchased/constructed new house/flat after 31.03.2014, by different floor area in Delhi and at All-India level is presented in Statement 37.

Statement 37: Percentage distribution of households* by different size class of floor area in Delhi and at All-India level						
Description of items	Delhi			All-India		
	Rural	Urban	All	Rural	Urban	All
Percentage of households*	100.0	100.0	100.0	96.5	96.7	96.6

SECTION 10: MIGRATION

3.10.1 Migrants are those whose last usual place of residence is different from the present place of enumeration. The last usual place of residence was referred to be the village/town/country where the household member stayed continuously for 6 months or more before coming to the present village/town at the place of enumeration.

3.10.2 Information was collected from each of the sample household members whether the place of enumeration differs from the last usual place of residence. However, detailed information on migration particulars were collected at person level. For the purpose of this survey, a person was considered to have migrated if his/her present place of enumeration was different from the last usual place of residence. The last usual place of residence was referred to the village/town/country where the household member stayed continuously for 6 months or more before coming to the present village/town (i.e. the place of enumeration). Information collected from the migrated individuals include (i) particulars of last usual place of residence, (ii) reason for leaving the last usual place of residence, (iii) change in income due to migration if the household member was an earning member of the household at the time of migration, (iv) document(s) which has/have been transferred in present place of enumeration, (v) willingness to move out from the current place of residence & (vi) main reason for willing to move out from current place of residence etc. Information on whether the migrant household member faced any problem at his/her present place of residence (i.e. where he/she stayed or intends to stay for 6 months or more) due to the change in the usual place of residence was also collected.

3.10.3 Statement 38 presents the percentage of persons whose current place of residence is different from the last usual place of residence for each of the social and religion groups in Delhi. This information was intended to capture the migration of the household members. This was decided based on the concept of change in the usual place of residence (upr). The usual place of residence here was defined as a place (village or town) where the person has stayed continuously for a period of six months or more. The place of enumeration refers to the place (village or town) where the person is being enumerated or surveyed, i.e., the present place of residence of the person.

Statement 38: Percentage of persons whose current place of residence is different from the last usual place of residence in Delhi			
Categories	Percentage of persons		
	Rural	Urban	All
Delhi	40.7	44.5	44.4
Social Group

Other religions *	..	49.2	49.2
*: includes Jainism, Buddhism, Zoroastrianism and others			
".." denotes non-availability of sample			

Ref: Table No. A36 of Appendix B (Detailed Tables)

3.10.4 Statement 38 shows that in Delhi, 44.4% persons were falls under the category whose current place of residence is different from the last usual place of residence.

3.10.5 Percentage of persons whose current place of residence is different from the last usual place of residence in Delhi is presented in Figure 35.

3.10.6 Location of last usual place of residence: In this survey, location refers to the type of last usual place of residence of the person. The information on the location of the last usual place of residence was collected using seven categories viz. (i) rural area of same district, (ii) urban area of same district, (iii) rural area of same state but another district, (iv) urban area of same state but another district, (v) rural area of another state, (vi) urban area of another state and (vii) another country. The percentage distribution of persons who have migrated; by location of their last usual place of residence in Delhi and at All-India level is presented in Statement 39.

Statement 39: Percentage distribution of persons by the location of their last usual place of residence for different present place of residence in Delhi and at All-India level						
Location of the present place of residence	Location of last usual place of residence					
	Same State-Rural	Same State-Urban	Another State-Rural	Another State-Urban	Another Country	All
Delhi

".." denotes non-availability of sample						

Ref: Table No. A36 of Appendix B (Detailed Tables) and NSS 78th Round Report No. 589(78/5.1/1), MoSPI, GoI

3.10.6.1 It has been clearly seen from the Statement 39 that 47.2% persons had migrated in Delhi from the rural area of another state. While at All-India level, only 6.8% persons had migrated at one place or another in the country from the rural areas of another states. However, only 0.2% persons in Delhi and 0.9% persons in India had migrated from another country.

3.10.6.2 Percentage distribution of persons by the location of their last usual place of residence for different present place of residence in Delhi is presented in Figure 36.

Figure 36: Percentage distribution of persons by the location of their last usual place of residence for different present place of residence in Delhi

3.10.6.3 Percentage distribution of persons by the location of their last usual place of residence for different present place of residence at All-India level is presented in Figure 36 A.

Figure 36 A: Percentage distribution of persons by the location of their last usual place of residence for different present place of residence at All-India level

3.10.7 Reason for migration: The main reason for which the household member left his/her last usual place of residence was collected using the categories like, (i) in search of employment, (ii) in search of better employment, (iii) business, (iv) to take up employment/better employment, (v) transfer of service/contract, (vi) proximity to place of work, (vii) studies, (viii) marriage, (ix) displacement by development project, (xi) scarcity of water, (xii) acquisition of own house/flat, (xiii) housing problems/insufficient land holding, (xiv) health care, (xv) post retirement, (xvi) natural disaster (drought, flood, tsunami etc.), (xvii) migration of parent/earning member of the family and (xviii) others. Statement 40 gives the percentage distribution of persons by main reason for leaving the last usual place of residence in Delhi.

Statement 40: Percentage distribution of persons by main reason for leaving last usual place of residence in Delhi				
Gender	Main reason for leaving last usual place of residence	Rural	Urban	All
Male	Employment related reasons*	49.1	55.7	55.7
	Studies	..	1.6	1.6
	Marriage	4.5	0.8	0.9
	Social/political problems	15.7	11.5	11.6
	Migration of parent/earning member of the family	30.7	27.7	27.7
	Other reason**	0.0	2.6	2.5

Ref: Table No. A38 of Appendix B (Detailed Tables)

3.10.8.1 It has been revealed from the Statement 41 that in Delhi, 38.1% employed and 59.8% persons out of labour force had migrated from their last usual place of residence for the reason one or another.

3.10.8.2 Percentage distribution of persons by labour force status at the present place of residence for each main reason for leaving last usual place of residence in Delhi is presented in Figure 38.

Figure 38: Percentage distribution of persons by labour force status at the present place of residence for each main reason for leaving last usual place of residence in Delhi

3.10.9 Change in income: The percentage distribution of persons by reported change in income due to leaving the last usual place of residence in Delhi and at All-India level is presented in Statement 42. This information was collected only from those household members who reported that he/she was an earner before leaving his/her last usual place of residence.

Statement 42: Percentage distribution of persons * by reported change in income due to leaving the last usual place of residence in Delhi and at All-India level

Description of items	Delhi			All-India		
	Rural	Urban	All	Rural	Urban	All
Percentage of persons reported as earner in last usual place of residence	23.6	29.2	29.1	12.0	18.7	14.4
Percentage of persons* reported change in income from last usual place of residence						
Increased from last usual place of residence	68.4	79.8	79.6	46.5	67.7	56.2
Decreased from last usual place of residence	6.5	1.7	1.8	30.0	12.2	21.9
Same as last usual place of residence	25.1	18.5	18.6	23.5	20.0	21.9
All	100.0	100.0	100.0	100.0	100.0	100.0

*: who was an earner in the last usual place of residence

Ref: Table No. A40 of Appendix B (Detailed Tables) and NSS 78th Round Report No. 589(78/5.1/1), MoSPI, GoI

3.10.9.1 Statement 42 revealed that in Delhi, 29.1% persons and at All-India level, 14.4% persons were earner in their last usual place of residence and out of that, 79.6% persons in Delhi and 56.2% persons at All-India level have increased their income from the last usual place of residence. While, the income of 18.6% persons

in Delhi and 21.9% persons at All-India level have remained the same from the last usual place of residence. Further, only 1.8% persons in Delhi and 21.9% persons at All-India level has reported decreased in their income from last usual place of residence.

3.10.9.2 Percentage of persons reported as earner in last usual place of residence in Delhi and at All-India level is presented in Figure 39.

3.10.9.3 Percentage distribution of persons who was an earner in the last usual place of residence by reported change in income due to leaving the last usual place of residence in Delhi is presented in Figure 39 A.

Figure 39 A: Percentage distribution of persons who was an earner in the last usual place of residence by reported change in income due to leaving the last usual place of residence in Delhi and at All-India level

3.10.10 Documents transferred from the last usual place of residence to present place of residence: For the persons who have migrated, the percentage distribution of persons who have transferred any document(s) from last usual place of residence to the present place of residence, by the type of document(s) transferred in Delhi and at All-India level is given in Statement 43.

Statement 43: Percentage distribution of migrated persons who have transferred any document(s) from last usual place of residence, by type of document(s) transferred in Delhi and at All-India level

Type of documents transferred	Delhi			All-India		
	Rural	Urban	All	Rural	Urban	All
(a) Ration Card	..	0.7	0.7	27.9	18.1	24.6
(b) Voter ID Card	1.0	0.9	0.9	7.6	7.7	7.7
(c) Passport	1.3	0.0*	0.1	0.0*	0.1	0.1
(d) Aadhar Card	0.9	5.7	5.5	3.0	5.6	3.9
(e) Any combination of (a) to (d)	96.0	91.5	91.7	60.1	65.7	62.0
(f) Other#	0.8	1.3	1.2	1.3	2.8	1.8
All	100.0	100.0	100.0	100.0	100.0	100.0

*: negligible figure rounded off to 0.0 due to one place of decimal

#: Other includes driving license, electricity bill, telephone bill, gas connection, bank/post office pass book, etc.

".." denotes non-availability of sample

Ref: Table No. A46 of Appendix B (Detailed Tables) and NSS 78th Round Report No. 589(78/5.1/1), MoSPI, GoI

3.10.10.1 It can be seen from the Statement 43 that in Delhi, 0.7% persons have transferred their Ration Card; 0.9% persons have transferred their Voter ID Card; 0.1% persons have transferred their Passport; 5.5% persons have transferred their Aadhar Card from their last usual place of residence. However, at All-India level, 24.6% persons have transferred their Ration Card; 7.7% persons have transferred their Voter ID Card; 0.1% persons have transferred their Passport; 3.9% persons have transferred their Aadhar Card from their last usual place of residence. Further, in Delhi, 91.7% persons and 62.0% persons at All-India level have transferred their documents from their last usual place of residence *in combination*.

3.10.10.2 Percentage distribution of migrated persons who have transferred any document(s) from last usual place of residence, by type of document(s) transferred in Delhi and at All-India level is presented in Figure 40.

#: Other includes driving license, electricity bill, telephone bill, gas connection, bank/post office pass book, etc.

3.10.11 Reason to move out from the present place of residence: For migrated persons, information was collected on whether they were willing to move out from the present place of residence as on the date of survey. Statement 44 presents the percentage of persons willing to move out from present place of residence and percentage distribution of persons by the main reasons for willing to move out from present place of residence, as on date of survey in Delhi.

Statement 44: Percentage of persons willing to move out from present place of residence and percentage distribution of persons by the main reasons for willing to move out from present place of residence, as on date of survey in Delhi				
Gender	Description of item	Rural	Urban	All
Male	Percentage of persons willing to move out from present place of residence	24.8	23.3	23.3
	Percentage distribution by main reason for willing to move out from present place of residence			
	Employment related reasons*	37.0	43.4	43.3
	Studies	..	0.1	0.1
	Marriage	..	..	..
	Social/political problems	27.9	16.6	16.8
	Migration of parent/earning member of the family	16.4	17.0	17.0
	Other reasons**	18.7	22.5	22.4
	All (including n.r.)	100.0	100.0	100.0
Female	Percentage of persons willing to move out from present place of residence	15.3	16.2	16.2
	Percentage distribution by main reason for willing to move out from present place of residence			
	Employment related reasons*	2.8	8.9	8.7
	Studies	..	0.1	0.1

	Social/political problems	28.7	19.9	20.2
	Migration of parent/earning member of the family	33.2	33.4	33.4
	Other reasons**	32.5	36.3	36.2
	All (including n.r.)	100.0	100.0	100.0
*employment related reasons include: in search of employment, in search of better employment, business, to take up employment/better employment, transfer of service/contract, proximity to place of work **others include: displacement by development project, scarcity of water, acquisition of own house/flat, housing problems/insufficient land holding, healthcare, post retirement, natural disaster, others-19 ".." denotes non-availability of sample				

Ref: Table No. A48 of Appendix B (Detailed Tables)

3.10.11.1 Statement 44 revealed that 23.3% male were willing to move out from present place of residence and out of that, 43.3% male were willing to move because of the employment related reasons. However, only 16.2% female were interested in moving from present place of residence and out of that 16.2% females, 33.4% females were willing to move because of the reason of “Migration of parent/earning member of the family”.

3.10.11.2 Percentage of male willing to move out from present place of residence in Delhi is presented in Figure 41.

3.10.11.3 Percentage of female willing to move out from present place of residence in Delhi is presented in Figure 41 A.

3.10.11.4 Percentage of male by main reason for willing to move out from present place of residence in Rural, Urban & Delhi is presented in Figures 41 B, 41 C & 41 D.

Figure 41 B: Percentage of male by main reason for willing to move out from present place of residence in Rural Delhi

Figure 41 C: Percentage of male by main reason for willing to move out from present place of residence in Urban Delhi

Figure 41 D: Percentage of male by main reason for willing to move out from present place of residence in Delhi

3.10.11.5 Percentage of female by main reason for willing to move out from present place of residence in Rural, Urban & Delhi is presented in Figures 41 E, 41 F & 41 G.

Figure 41 E: Percentage of female by main reason for willing to move out from present place of residence in Rural Delhi

Figure 41 F: Percentage of female by main reason for willing to move out from present place of residence in Urban Delhi

Figure 41 G: Percentage of female by main reason for willing to move out from present place of residence in Delhi

3.10.11.6 The percentage distribution of migrated persons, who were willing to move out from present place of residence as on date of survey, by the type of place they are willing to move out is presented in Statement 45 for Delhi and at All-India level.

Statement 45: Percentage of persons willing to move out from usual place of residence as on date of survey by the type of place in Delhi and at All-India level

Description of item	Delhi			All-India		
	Rural	Urban	All	Rural	Urban	All
Percentage of persons willing to move out from present place of residence	19.0	19.6	19.6	2.3	3.5	2.7
Type of place willing to move out						
Last usual place of residence	31.7	55.4	54.8	56.7	53.7	55.4
Any place other than last usual place of residence	68.3	44.3	44.8	43.1	45.9	44.4
All (including n.r.)	100.0	100.0	100.0	100.0	100.0	100.0

Ref: Table No. A49 of Appendix B (Detailed Tables) and NSS 78th Round Report No. 589(78/5.1/1), MoSPI, GoI

3.10.11.7 It has been revealed from the Statement 45 that in Delhi, 19.6% persons and at All-India level, 2.7% persons were willing to move out from their usual place of residence as on the date of survey and out of that willing persons, 54.8% persons in Delhi and 55.4% persons at All-India level were willing to move to their last usual place of residence.

3.10.11.8 Percentage of persons willing to move out from usual place of residence as on date of survey by the type of place in Delhi and at All-India level is presented in Figure 42.

3.10.11.9 Percentage of persons willing to move out from present place of residence in Delhi and at All-India level is presented in Figure 42 A.

Figure 42 A: Percentage of persons willing to move out from usual place of residence as on date of survey by the type of place in Delhi and at All-India level

APPENDIX - A

MULTIPLE INDICATOR DATA COMPARISON BETWEEN DELHI & ALL-INDIA

List of Comparative Tables (Delhi & All-India) (Sch. 5.1)

Table No.	Description	Page No.
1	Number of persons, households and average household size	A-1
2	Percentage of persons reported to have access to piped water into dwelling or yard/plot and reported to have access to improved source of drinking water	A-2
3	Percentage distribution of households by access to the principal source of drinking water	A-3
4	Percentage distribution of households by distance to the principal source of drinking water	A-4
5	Percentage of persons reported access to drinking water, exclusive access to drinking water, access to improved source of drinking water and sufficiency of drinking water	A-5
6	Percentage distribution of households reported access to latrine by the majority of household members	A-6
7	Percentage of persons reported access to improved latrine and exclusive access to improved latrine among persons reported to have access to latrine	A-7
8	Percentage distribution of persons by availability of hand washing facility within the premises	A-8
9	Percentage of persons reported access to improved latrine and hand washing facilities with water, soap/detergent within the household premises and percentage of persons reported exclusive access to improved latrine and hand washing facilities with water, soap/detergent within the household premises	A-9
10	Percentage distribution of households living in houses by primary source of energy used for cooking	A-10
11	Percentage of households using clean fuel as a primary source of energy for cooking, lighting, heating	A-11
12	Percentage of persons in formal and non-formal education and training during last 12 months	A-12
13	Percentage of persons not in education, employment or training (NEET)	A-13
14	Percentage of persons of age 15-24 years who reported ability to perform different ICT skills	A-14 to A-18
14.1	Percentage of persons of age 15-29 years who reported ability to perform different ICT skills	A-19 to A-23
14.2	Percentage of persons of age 15 years & above reported ability to perform different ICT skills	A-24 to A-28
15	Percentage of persons who used mobile telephone with active sim card at least once during last three months preceding the date of survey	A-29
16	Percentage of persons who used mobile telephone exclusively with active sim card at least once during last three months preceding the date of survey	A-30
17	Percentage of households reported access to broadband within the premises and mass media (any of internet, newspaper, magazine, radio, television etc.)	A-31

18	Percentage distribution of persons with an account individually/jointly at any bank/other financial institution/mobile money service provider	A-32
19	Number of persons per 1,00,000 who were indebted to any institutional/non-institutional agency as on date of survey	A-33
20	Percentage distribution of persons of age less than 5 years, who have registered ever with civil authority for birth certificate	A-34
21	Percentage distribution of households by the availability of facilities like road, public transport and open public space	A-35
22	Percentage of households reported possession of air conditioner and air cooler	A-36
23	Percentage of households which have purchased/constructed new house/flat for residential purpose after 31.03.2014, purchased for the first time and owned that house/flat as on date of survey	A-37
24	Percentage distribution of different sources of finance from which maximum amount was financed by the household for new house/flat	A-38
25	Average number of rooms and average floor area of the new house/flat	A-39
26	Percentage distribution of households which have purchased/constructed new house/flat by floor area (in sq. meter)	A-40
27	Percentage of persons whose current place of residence is different from the last usual place of residence	A-41
28	Percentage distribution of persons by location of their last usual place of residence	A-42
29	Percentage distribution of persons by main reason# for leaving last usual place of residence	A-43 to A-51
30	Percentage distribution of persons by labour force status at the present place of residence for each main reason of leaving last usual place of residence	A-52 to A-54
31	Percentage distribution of persons reported as earner in the last usual place of residence by change in income due to migration	A-55
32	Percentage distribution of persons who have transferred any document(s) from last usual place of residence, by type of document(s) transferred	A-56
33	Percentage of persons willing to move out from the present place of residence and percentage distribution of such persons by main reason for leaving present place of residence	A-57 to A-65
34	Percentage distribution of persons willing to move out from the present place of residence by type of place willing to move out	A-66

APPENDIX – B

DETAILED TABLES

List of Detailed Tables (Sch. 5.1)

Table No.	Description	Page No.
A1	Number of first stage units (FSUs) allotted, surveyed and number of sample households surveyed in Delhi	B-1
A2	Estimated number of persons (00) in Delhi classified by household social group	B-2 to B-5
A3	Estimated number of households (00) and average household size (0.0) in Delhi classified by household social group	B-6 to B-9
A4	Estimated number of persons (00) in Delhi classified by household religion group	B-10 to B-13
A5	Estimated number of households (00) and average household size (0.0) in Delhi classified by household religion group	B-14 to B-17
A6	Percentage of persons having access to improved source of drinking water for each "quintile class of UMPCE", "social group", "religion"	B-18 to B-26
A7	Percentage of persons having access to piped water into dwelling or yard/plot which is sufficiently available throughout the year, for each "quintile class on UMPCE""Social group" and "religion group"	B-27 to B-35
A8	Percentage of persons having exclusive access to improved source of drinking water located in the household premises which is sufficiently available throughout the year , for each "quintile class on UMPCE" "social group" and "religion group"	B-36 to B-44
A9	Percentage distribution of households by principal source of drinking water for each quintile class of UMPCE, social group and religion group	B-45 to B-47
A10	Percentage distribution of households by type of access to the principal source of drinking water for each quintile class of UMPCE, social group, religion group	B-48 to B-50
A11	Percentage distribution of households by distance to the principal source of drinking water for each principal source	B-51 to B-53
A12	Percentage distribution of households by access to latrine for each "quintile class on UMPCE" , "social group" and "religion group"	B-54 to B-56
A13	Percentage of persons with exclusive access to improved latrine by type of latrine for each "quintile class on UMPCE", "social group", "religion group"	B-57 to B-65
A14	Percentage of persons having access to improved latrine and hand washing facilities located in the household premises for each "quintile class on UMPCE", "social group" and "religion group"	B-66 to B-74
A15	Percentage distribution of persons by hand washing facility available within the household premises for each quintile class on UMPCE, Social group, religion group	B-75 to B-77
A16	Percentage of households living in houses with access to electricity by "quintile class of UMPCE", "social group" and "religion group"	B-78 to B-80
A17	Percentage distribution of households living in houses by primary source of energy used for cooking for each "quintile class of UMPCE", social group and religious group	B-81 to B-83
A18	Percentage of households using clean fuel as a primary source of energy for each "quintile class of UMPCE", "social group" and "religion group"	B-84 to B-86

A19	Percentage distribution of households living in houses by primary source of energy used for lighting for each quintile class of UMPCE, social group, religion group	B-87 to B-89
A20	Percentage distribution of households by distance of the nearest open public space from the place of living of the household for each "quintile class of UMPCE", "social group" and "religion group"	B-90 to B-92
A21	Percentage distribution of households by the availability of facilities like road, public transport and open public space for each State/UT	B-93
A22	Percentage of persons of age 3-35 years in formal and non-formal education and training in the previous 12 months and percentage of persons neither currently attending any course in education, training nor in employment for each "social group", "religious group", "age group"	B-94 to B-102
A23	Percentage distribution of persons of age 15-35 years currently neither attending any course in education, training nor in employment by their activity during last 7 days preceding the date of survey for different "social group", "religion group", and "age group"	B-103 to B-111
A24	Percentage distribution of person using mobile telephones with an active sim card during last 3 months, for each "age group", "social group" and "religion group"	B-112 to B-120
A25	Percentage of person (15 years and above) by type of ICT# skills for each age group of youth and adult population	B-121 to B-129
A26	Percentage distribution of persons of age < 5 years who have received birth certificate by receipt status of certificate for each "social group" and "religion group"	B-130 to B-138
A27	Number of borrowers per 1,00,000 persons (of age 15+) and percentage distribution of persons with accounts at bank/other financial institute/mobile-money service provider by "social group" and "religion group"	B-139 to B-147
A28	Number of borrowers per 1,00,000 persons (of age 15+) and percentage distribution of persons with accounts at bank/other financial institute/mobile-money service provider by "social group" and "religion group"	B-148 to B-156
A29	Percentage of households reported access to broadband and mass media (any of internet, newspaper, magazine, radio, television etc) in Delhi	B-157
A30	Percentage distribution of households living in houses by type of structure of house for each "quintile class of UMPCE", "social group", and "religion group"	B-158 to B-160
A31	Percentage of households which purchased/constructed any house/flat for the first time in rural and urban area for each "Quintile class of UMPCE", "social group" and "religion group"	B-161 to B-163
A32	Percentage of households which purchased/constructed a house/flat for the first time and currently own that house/flat and percentage distribution of such households by type of house/flat by "Quintile class of UMPCE", "social group" and "religion group"	B-164 to B-166
A33	Average number of rooms and average floor area of the house/flat purchased/constructed for the first time and currently owned by "quintile class of UMPCE", "social group", and "religion group"	B-167 to B-175

A34	Percentage distribution of households who purchased/constructed house/flat for the first time and currently own that house/flat by source from which maximum amount was financed for each "Quintile class of UMPCE", "social group" and "religion group"	B-176 to B-178
A35	Percentage distribution of households which currently owned the first time purchased/constructed house/flat and percentage distribution of such household by floor area of house/flat for each "Quintile class of UMPCE", "social group" and "religion group"	B-179 to B-181
A36	Percentage of persons and distribution of persons by location of their last usual place of residence for each age group, quintile class of UMPCE, social group, religion group	B-182 to B-190
A37	Percentage of persons and percentage distribution of persons by main reason #for leaving last usual place of residence for each age group, quintile class of UMPCE, social group, religion group	B-191 to B-199
A38	Percentage distribution of persons by labour force status at the present place of residence for each of main reason of leaving last upr for each age group	B-200 to B-253
A39	Percentage distribution of persons by labour force status at the present place of residence for each of main reason of leaving last upr for each religion group	B-254 to B-301
A40	Percentage distribution of persons reporting as earner in the last usual place of residence by change in income due to migration, for each age group, quintile class of UMPCE, social group, religion group	B-302 to B-310
A41	Percentage distribution of persons by status of change in income due to change in last usual place of residence for each "age group", "quintile class of UMPCE", "social group", "religion group"	B-311 to B-319
A42	Percentage distribution of persons by dwelling type of present place of residence for each type of dwelling unit at last usual place of residence for each religion group	B-320 to B-335
A43	Percentage distribution of persons by dwelling type of present place of residence for each type of dwelling unit at last usual place of residence for each social group	B-336 to B-350
A44	Percentage distribution of persons by area type of the present place of residence for each area type of the last usual place of residence for each religion group in urban area	B-351 to B-361
A45	Percentage distribution of persons by area type of the present place of residence for each area type of the last usual place of residence for each quintile class(State X Sector) in urban area	B-362 to B-367
A46	Percentage of persons by transfer of documents in the present place of residence for each "quintile class of UMPCE", "social group", "religion group"	B-368 to B-370
A47	Percentage of persons# and percentage distribution of persons by type of problem faced for each age group, "quintile class of UMPCE", "social group", "religion group"	B-371 to B-379
A48	Percentage of persons and percentage distribution of such persons by reason for leaving present place of residence for each "age group", "quintile class of UMPCE", "social group", "religion group"	B-380 to B-388

A49	Percentage distribution of persons by type of place for each age group, quintile class of UMPCE, social group, religion group	B-389 to B-397
A50	Percentage distribution of households by tenurial status of dwelling units classified by "quintile class of UMPCE", "social group" and "religion group"	B-398 to B-400
A51	Percentage distribution of urban households with dwelling units by area type for each quintile class of UMPCE , and household social group"	B-401
A52	Percentage distribution of households by access to bathroom for each "quintile class of UMPCE", "social group" and "religion" group	B-402 to B-404
A53	Percentage distribution of households living in houses with access to basic health facilities by "quintile class of UMPCE", "Social Group", "Religion"	B-405 to B-407
A54	Percentage of households where any of the household member is aware of Pradhan Mantri Awas Yojana (PMAY) & Samagra Shiksha scheme, for each quintile class on UMPCE, social group, religion group	B-408 to B-410
A55	Percentage distribution of households living in houses by type of agency made arrangement for collection of garbage of the household for different places of disposal of household garbage	B-411 to B-413
A56	Percentage distribution of households living in houses by kitchen type of the dwelling unit for each quintile class of UMPCE, Social group and Religion group	B-414 to B-416
A57	Average number (0.0) and Average age (0.0) of air conditioners among households reported at least one air conditioner in Delhi	B-417
A58	Average number (0.0) and Average age (0.0) of air cooler among households reported at least one air cooler in Delhi	B-418

APPENDIX – C

SAMPLE DESIGN

&

ESTIMATION PROCEDURE

Sample Design and Estimation Procedure

1. Introduction

1.1 The National Sample Surveys (NSS) are being conducted by the 'National Sample Survey Office (NSSO)' now named as 'National Statistical Office (NSO)', Ministry of Statistics and Programme Implementation (MoSPI), Government of India since 1950 to collect socio-economic data employing scientific sampling methods. In its 78th round survey, NSO carried out the 'Multiple Indicator Survey (MIS)' covering the entire country. Seventy-eighth round of NSO was commenced from 1st January 2020.

1.2 Survey on 'Multiple Indicators' was conducted for the first time in NSO during this round.

2. Objectives of the Survey on Multiple Indicators (Schedule 5.1)

2.1 The primary objective of Multiple Indicator Survey (MIS) was to collect information for developing some important national indicators of Sustainable Development Goals 2030. Information on (i) Migration and (ii) Construction of houses since 2014-15 was also collected through MIS as per the request of Ministry of Housing and Urban Affairs (MoHUA). In addition to these, information on access to mass media, availability of birth registration certificate was also collected in MIS.

3. Outline of the Survey Programme

3.1 Geographical coverage: The Delhi Sample Survey covered the rural and urban Delhi.

3.2 Survey Period: The survey was commenced from 1st January, 2020. The survey period was of one year duration. *But the field work was extended upto 15.08.2021 as per the directions of MoSPI, GoI due to Covid-19 pandemic. The extension of the field work was decided with the view to ensure coverage, completeness and collection of sufficient data for generation of reliable estimates; since due to lockdown and other restrictions, the field functionaries faced considerable challenges in collecting the data.*

3.3 Sub-rounds: The survey period of the round was divided into four sub-rounds of three months' duration each as follows:

Sub-round 1: January-March 2020

Sub-round 2: April-June 2020

Sub-round 3: July-September 2020

Sub-round 4: October-December 2020

In each of these four sub-rounds equal number of sample First Stage Units (FSUs) was allotted for survey with a view to ensure uniform spread of sample FSUs over the entire survey period.

3.4 Schedule of enquiry: During this round, the following schedules of enquiry were canvassed:

Schedule 0.0	List of Households
Schedule 5.1	Multiple Indicator Survey

4. Sample Design

4.1 Formation of Sub-Units (SUs)

4.1.1 Rural Areas: A rural village was notionally divided into a number of sub-units (SUs) of more or less equal population during the preparation of frame. Census 2011 population of villages was projected by applying suitable growth rates and the number of SUs formed in a village was determined apriori.

4.1.2 The above procedure of SU formation was implemented in the villages with population *more than or equal to 1000 as per Census 2011*. In the remaining villages, no SU was formed.

4.1.3 The number of SUs formed in the villages (with Census 2011 population 1000 or more) of the frame was decided before selection of the samples following the criteria given below:

Projected population of the village	No. of SUs formed
Less than 1200	1
1200 to 2399	2
2400 to 3599	3
3600 to 4799	4
4800 to 5999	5
..... and so on	

4.1.4 Urban areas:

SUs were formed in urban sector also. The procedure was similar to that adopted in rural areas except that SUs were formed on the basis of households in the UFS frame instead of population, since UFS frame does not have population. Each UFS block with number of households more than or equal to 250 was divided into a number of SUs. In the remaining UFS blocks, no SU was formed.

4.1.5 The number of SUs formed in the UFS blocks of the frame were decided before selection of the samples following the criteria given below:

Number of households of the UFS block	No. of SUs formed
Less than 250	1
250 to 499	2
500 to 749	3
750 to 999	4
1000 to 1249	5
..... and so on	

4.2 Outline of sample design:

A stratified multi-stage design was adopted for the 78th round survey. The first stage units (FSU) were villages/UFS blocks/sub-units (SUs) as per the situation. The ultimate stage units (USU) were households in both the sectors.

4.3 Sampling Frame for First Stage Units (FSUs)

There was no SU formation in uninhabited villages and villages with population less than 1000 as per Census 2011 and the entire village was considered as one FSU. All such villages were the First Stage Units (FSUs).

In the remaining villages, notional sub-units (SUs) were formed. Such SUs were considered as First Stage Units (FSUs).

For the UFS blocks with less than 250 households, the entire UFS block was considered as one FSU. In the remaining UFS blocks, the SUs were considered as First Stage Units (FSUs).

4.4 Stratification of FSUs

Each district was a stratum. Within each district of a State/UT, two basic strata were formed: (i) rural stratum comprising of all rural areas of the district and (ii) urban stratum comprising of all the urban areas of the district. However, within the urban areas of a district, if there were one or more towns with population one million or more as per Census 2011, each of them was formed a separate basic stratum and the remaining urban areas of the district were considered as another basic stratum.

4.5 Sub-stratification of FSUs

4.5.1 Rural Sector: Three groups of villages were formed within each stratum.

Group 1: all villages with Census 2011 population less than 250

Group 2: all villages with Census 2011 population more than or equal to 250 but less than 500

Group 3: remaining villages

The sample size for a rural stratum was allocated among 3 groups in proportion to population. Let r_1 , r_2 and r_3 be the allocations to Group 1, Group 2 and Group 3 respectively. The villages within each group were first arranged in ascending order of number of population. For all the three groups within each strata, ' $r_1/4 > 1$ ', ' $r_2/4 > 1$ ' and ' $r_3/4 > 1$ ' imply formation of 2 or more sub-strata in each group. Sub-strata was demarcated in Group 1, Group 2 and Group 3 respectively in such a way that each sub-stratum was comprised a group of villages (all SUs of a village considered together) of the arranged frame and have more or less equal population.

If number of FSUs in a particular Group is very small, no sub-stratum was formed in that Group.

4.5.2 Urban Sector: Let ' u ' be the sample size allocated for an urban stratum. For all strata, if ' $u/4 > 1$ ', implying formation of 2 or more sub-strata, all the UFS blocks within the stratum were first arranged in ascending order of total number of households in the UFS blocks as per urban frame. Then sub-strata was demarcated in such a way that each sub-stratum was comprised a group of UFS blocks (all SUs of a block considered together) having more or less equal number of households.

4.6 Total sample size (FSUs): 200 FSUs were allocated for the State Sample (Delhi) out of which 188 FSUs were for Urban and 12 FSUs were for Rural Sector.

4.7 Selection of FSUs within a stratum/sub-stratum: From all the sub-strata in both rural and urban sector within each stratum, required number of FSUs were selected by Simple Random Sampling Without Replacement (SRSWOR) scheme.

4.8 Formation of sub-units and listing of households:

- **Proper identification of the FSU boundaries:** The first task of the field investigators was to ascertain the exact boundaries of the village as per its identification particulars given in the sample list. The village may either itself be a sample FSU or may contain a sample FSU (i.e. sub-unit). For urban samples, the boundaries of the UFS block may similarly be identified by referring to the map for that UFS block.
- **Procedure of formation of SUs:** After identification of the boundaries of the village/UFS block which contained the sample FSU, the village/UFS block was divided into number of SUs (say, D) as given in the sample list by more

or less equalizing the present population of the village/UFS block in which the sample FSUs were located. It was also ensured that SUs formed were clearly identifiable in terms of physical landmarks. For villages/blocks where the number of SUs formed was 1 as per the sample list, no SU formation was required.

- **Listing of households:** All the households of the sample FSU were listed. Temporarily locked households were also listed after ascertaining the temporariness of locking of households through local enquiry.

4.9 Formation of Sub-divisions in the selected SU: The criteria for determining the number of sub-divisions (D_1) to be formed in the selected rural/urban SUs were as follows:

Approx. population of the SU	No. of Sub-divisions (D_1) to be formed
Less than 1800	1
1800 to 2399	2
2400 to 3599	3
3600 to 4799	4
4800 to 5999	5
.... and so on	...

4.10 Formation of second stage strata (SSS) and allocation of households in different SSS for Schedule 5.1- “Multiple Indicator Survey”:

Five SSS were formed in both rural and urban sectors. The composition of the SSS and number of households surveyed from different SSS for both rural and urban sectors were as follows:

SSS	Composition of SSS		Number of households surveyed
Rural/Urban			
1	Household size more than 7		2
2	From the remaining, households who had constructed/purchased any new house/flat for residential purpose after 31 st March 2014	With UMPCE > A	2
3		With UMPCE ≤ A	2
4		From the remaining households	With UMPCE > A
5		With UMPCE ≤ A	8
Total			20

A : In Rural UMPCE = Rs. 3940/- and In Urban UMPCE = Rs. 4110/-

4.1.1 Selection of households: The sample households from each SSS for each of the schedules were selected by SRSWOR.

5. Estimation Procedure

5.1 Notations:

s = subscript for s-th stratum

t = subscript for t-th sub-stratum

i = subscript for i-th FSU [SU/ village (panchayat ward)/ block]

j = subscript for j-th second stage stratum in an FSU

k = subscript for k-th sample household within an FSU

D_1 = total number of sub-divisions formed in the sample FSU ($D_1 = 1$, if no Sub-division is formed in the SU)

N = total number of FSUs in any rural/urban sub-stratum

n = number of sample FSUs surveyed including ‘uninhabited’ and ‘zero cases’ but excluding casualty for a particular sub-stratum

H = total number of households listed in a second-stage stratum of an FSU

h = number of households surveyed in a second-stage stratum of an FSU

x, y = observed value of characteristics x, y under estimation

$\hat{X}, \hat{Y}$ = estimate of population total X, Y for the characteristics x, y

Under the above symbols,

y_{stijk} = observed value of the characteristic y for the k -th household of the j -th second stage stratum of the i -th FSU for the t -th sub-stratum of s -th stratum.

However, for ease of understanding, a few symbols have been suppressed in following paragraphs where they are obvious.

5.2 Formulae for Estimation of Aggregates for a stratum x sub-stratum:

5.2.1 Schedule 0.0 (Rural/Urban):

- For estimating the number of households in a stratum x sub-stratum possessing a characteristic:

$$\hat{Y} = \frac{N}{n} \sum_{i=1}^n D_1 x y_i$$

Where y_i is the total number of households possessing the characteristic y in i -th FSU.

5.2.2 Schedule 5.1:

- i. For j -th second-stage stratum of a stratum x sub-stratum:

$$\hat{Y}_j = \frac{N}{n_j} \sum_{i=1}^{n_j} \left[D_1 * \frac{H_{ij}}{h_{ij}} \sum_{k=1}^{h_{ij}} y_{ijk} \right]$$

Where n_j is the number of sample FSUs with non-void j -th second-stage stratum.

- ii. Aggregate $\hat{Y}$ is obtained combining all the second-stage strata:

$$\hat{Y} = \sum_j \hat{Y}_j$$

Note: Values of j for Schedule 5.1 are 1, 2, 3, 4 or 5

5.3 Overall Estimate for Aggregates for a stratum:

The overall estimate for a stratum ($\hat{Y}_s$) was obtained as

$$\hat{Y}_s = \sum_t \hat{Y}_{st}$$

5.4 Overall Estimate of Aggregates at State/UT/all-India level:

The overall estimate $\hat{Y}$ at the State/UT/all-India level was obtained by summing the stratum estimates $\hat{Y}_s$ over all strata belonging to the State/ UT/ all-India.

5.5 Estimates of Ratios:

Let $\hat{Y}$ and $\hat{X}$ be the overall estimates of the aggregates Y and X for two characteristics y and x respectively at the State/ UT/ all-India level.

Then the combined ratio estimate ($\hat{R}$) of the ratio ($R = \frac{Y}{X}$) was obtained as

$$\hat{R} = \frac{\hat{Y}}{\hat{X}}$$

6. Multipliers:

6.1 The formulae for multipliers at stratum/sub-stratum/second-stage stratum level for Sch. 0.0 & Sch. 5.1 are given below.

Schedule type	Sector	Formula for multipliers
0.0	Rural/Urban	$\frac{N_{st}}{n_{st}}$
	j=1, 2, 3, 4 or 5	
5.1	Rural/Urban	$\frac{N_{st}}{n_{stj}} * D_1 * \frac{H_{stij}}{h_{stij}}$
	j=1, 2, 3, 4 or 5	

Note:

- For estimating any characteristic for any domain not specifically considered in sample design, indicator variable was used.
- Multipliers were computed on the basis of information available in the listing schedule irrespective of any misclassification observed between the listing schedule and detailed enquiry schedule (schedule 5.1).

7. Treatment for zero cases, casualty cases etc:

7.1 While counting the number of FSUs surveyed (n_{st} or n_{stj}) in a stratum/sub-stratum, all the FSUs with survey codes 1 to 6 in listing schedule were considered. In addition, if no household was available in the frame then also that FSU was treated as surveyed. However, if households are available in the frame of the FSU but none of them could be surveyed, then that FSU was treated as casualty and it was not treated as surveyed in respect of schedule 5.1.

7.2 Casualty cases:

FSUs with survey code 'selected FSU casualty' as per listing schedule were treated as casualties. In addition to this, an FSU, although surveyed might be treated as casualty for schedule 5.1 in a particular second stage stratum as given in the following para:

7.2.1 FSUs with survey codes 'if selected FSU surveyed: inhabited' or 'originally selected FSU not surveyed but substitute FSU surveyed: inhabited' as per listing schedule having number of households in the frame of j-th second stage stratum

greater than 0 (i.e. $H > 0$) but number of households surveyed according to data file as nil ($h=0$), was taken as casualties for j-th second stage stratum.

All the FSUs with survey codes 'if selected FSU surveyed: inhabited', 'if selected FSU surveyed: uninhabited', 'if selected FSU surveyed: zero case', 'originally selected FSU not surveyed but substitute FSU surveyed: inhabited', 'originally selected FSU not surveyed but substitute FSU surveyed: uninhabited' and 'originally selected FSU not surveyed but substitute FSU surveyed: zero case' as per listing schedule 0.0 minus the number of casualties as identified above was taken as the number of surveyed FSUs (n_{stij}) for that (stratum/sub-stratum) $\times$ (second stage stratum).

8. Treatment in cases of void second-stage strata/sub-strata/strata at FSU or household level

8.1 A stratum/sub-stratum might be void because of the casualty of all the FSUs belonging to the stratum/sub-stratum.

8.2 When a stratum/sub-stratum was void, the following procedure was adopted.

Case (I): Stratum/Sub-stratum void cases at FSU levels (i.e. all FSUs having survey code 'selected FSU casualty'):

- (i) If a rural/urban sub-stratum was void then it was merged with the other sub-stratum of the same Group of the stratum. If for a particular group only one sub-stratum is there and only FSU was allocated and the FSU become casualty then this sub-stratum was merged with next group sub-stratum with proper size adjustment. Merged (in which void sub-stratum was merged) sub-stratum size was calculated as :
Merged Stratum Size + Merging Stratum Size * (per FSU size of merging sub-stratum/per FSU size of merged sub-stratum).

Here merging sub-stratum means void sub-stratum and merged sub-stratum means in which void sub-stratum was merged.

- (ii) If a rural/urban stratum (district) was void due to all FSUs being casualty, it was excluded from the coverage of the survey. The State level estimates were based on the estimates of districts for which estimates were available and remarks to that effect might be added in appropriate places.

Case (II): Stratum/Sub-stratum void case at second stage stratum level (i.e. all the FSUs were casualties for a particular second stage stratum).

8.3 An FSU might be a casualty for a particular second stage stratum although survey code was not 'selected FSU casualty'. If all the FSUs of a stratum/sub-stratum become casualties in this manner for a particular second stage stratum, the stratum/sub-stratum had been considered as void.

NATIONAL STATISTICAL OFFICE
SEVENTY-EIGHTH ROUND: JANUARY – DECEMBER, 2020
SCHEDULE 5.1: MULTIPLE INDICATOR SURVEY

[0] descriptive identification of sample household			
1. state/u.t.:		6. sample sub-unit (SU) number	
2. district:		7. sample sub-division number	
3. sub-district/tehsil/town: *		8. name of head of household:	
4. village name:		9. name of informant:	
5. investigator unit number /block number:			

[1] identification of sample household							
item no.	item	code			item no.	item	code
1.	srl. no. of sample FSU				7.	serial number of informant# (as in column 1 of block 3)	
2.	round number	7		8	8.	response code	
3.	schedule number	5		1	9.	survey code	
4.	sample sub-division number				10.	for 2 or 3 in item 9, reason for substitution of original household (code)	
5.	second-stage stratum number						
6.	sample household number						

Codes for Block 1

item 8: **response code:** informant: co-operative and capable -1, co-operative but not capable -2, busy -3, reluctant -4, others -9

item 9: **survey code:** original -1, substituted -2; casualty -3

item 10: **reason for substitution of original household:** informant busy -1, members away from home -2, informant non-cooperative -3, others -9

* tick mark (✓) may be put in the appropriate place.

if the informant is not a household member, code 99 will be recorded.

Codes for Block 3

col. 3: **relation to head:** self - 1, spouse of head - 2, married child - 3, spouse of married child - 4, unmarried child - 5, grandchild - 6, father/mother/father-in-law/mother-in-law - 7, brother/ sister/ brother-in-law/ sister-in-law/ other relatives - 8, servant/ employees /other non-relatives - 9

col. 4: **gender:** male -1, female - 2, transgender - 3

col. 6: **marital status:** never married- 1, currently married (including living together) - 2, widowed -3, divorced/separated - 4

col. 7:**highest level of education:**

not literate (i.e. not able to read or write a simple message with understanding in any language)	01
literate with non-formal education (like, NFEC, AEC, TLC, literate without any schooling, etc.)	02
literate with formal education:	
below primary	03
primary	04
upper primary/ middle	05
secondary	06
higher secondary	07
diploma /certificate course (upto secondary)	08
diploma /certificate course (upto higher secondary)	10
diploma /certificate course (graduation and above)	11
graduate	12
post graduate and above	13

col. 8: **usual principal activity status:**

worked in household enterprise (self-employed): own account worker-11, employer-12, worked as helper in household enterprise (unpaid family worker) -21;
 worked as regular salaried/ wage employee -31;
 worked as casual wage labour: in public works -41, in other types of work -51;
 did not work but was seeking and/or available for work -81,
 attended educational institution -91,
 attended domestic duties only -92,
 attended domestic duties and was also engaged in free collection of goods (vegetables, roots, firewood, cattle feed, etc.), sewing, tailoring, weaving, etc. for household use -93,
 rentiers, pensioners, remittance recipients, etc. -94,
 not able to work due to disability -95,
 others (including begging, prostitution, etc.) -97

col. 9: **industry:** 2-digit code as per NIC -2008

col. 10: **occupation:** 2-digit code as per NCO -2004

[4] household characteristics, household level information on drinking water, sanitation, hygiene etc. and other facilities available to the household			
srl. no.	item		code/entry
(1)	(2)		(3)
1.	household size		
2.	religion (code)		
3.	social group (code)		
4.	land possessed as on date of survey (code)		
household's usual monthly consumer expenditure (in whole number of Rs.)			
5.	usual consumer expenditure in a month for household purposes out of purchase of goods and services excluding items like clothing, footwear (A)		
6.	imputed value of usual consumption in a month from home grown stock like, rice, cereals, pulses, vegetables, milk, firewood, chips, cow dung, etc. (B)		
7.	imputed value of usual consumption in a month from wages in kind, free collection, gifts, etc. (C)		
8.	expenditure on purchase of items like clothing, footwear etc during last 365 days (D)		
9.	expenditure on purchase of household durables during last 365 days (E)		
10.	usual monthly consumer expenditure $[A + B + C + (D+E)/12]$ (make entry in rounded to the nearest rupee)		
11.	tenurial status of dwelling unit (code)		
12.	for 1 to 5 or 9 in item 11	area type in which the dwelling unit is located (code)	
13.		wall type of the dwelling unit (code)	
14.		roof type of the dwelling unit (code)	
15.		kitchen type of the dwelling unit (code)	
16.	primary source of energy used for cooking (code)		
17.	primary source of energy used for lighting (code)		
18.	primary source of energy used for heating (code)		
19.	whether electricity is used for cooking/lighting/heating (code)		
20.	principal source of drinking water (code)		
21.	whether availability of drinking water from the principal source is sufficient throughout the year (yes-1, no -2)		
22.	access to the principal source of drinking water (code)		
23.	distance to the principal source of drinking water (code)		
24.	for codes 3 to 7 in item 23 , time taken for a single trip to reach the principal source of drinking water, obtain water and back to household (in minutes) [no decimal point]		

[4] household characteristics, household level information on drinking water, sanitation, hygiene etc. and other facilities available to the household		
srl. no.	item	code/entry
(1)	(2)	(3)
25.	access of the household to latrine (code)	
26.	for codes 1 to 4 or 9 in item 25 , type of latrine in which the household has access (code)	
27.	access of the household to bathroom (code)	
28.	whether hand washing facility is available within the premises (code)	
29.	agency made arrangement for collection of garbage of the household (code)	
30.	place of disposal of household garbage (code)	
31.	for codes 3 and 4 in item 30 , how frequently garbage is cleared? (code)	
32.	for rural areas , whether an all-weather road (i.e. usable during all seasons) is within a distance of 2 km from the place of living of the household (yes-1, no -2)	
33.	for urban areas , whether the nearest public transport facility is within a distance of 0.5 km from the place of living of the household (yes-1, no-2)	
34.	distance to nearest accessible hospital with emergency services from the place of living of the household (code)	
35.	distance to nearest accessible hospital without emergency services from the place of living of the household (code)	
36.	distance to nearest accessible primary health centre/sub centre from the place of living of the household (code)	
37.	distance to nearest open public space from the place of living of the household (code)	
38.	whether any of the household member has access to any of these mass media (viz. internet, newspaper, magazine, radio, television etc.) (yes-1, no -2)	
39.	whether any of the household member is aware of Pradhan Mantri Awaas Yojana (PMAY) (yes-1, no-2)	
40.	whether any of the household member is aware of Samagra Shiksha Scheme (yes-1,no-2)	
41.	whether all members of the household of age 5 to 17 years having access to primary/upper primary/secondary/higher secondary schools (yes-1, no-2)	
42.	whether the household is having broadband access within the premises (yes-1, no-2)	
43.	whether household possesses any air conditioner (yes-1, no-2)	
44.	if code 1 in item 43 , number of air conditioner(s) (in whole number)	
45.	whether household possesses any air cooler (yes-1, no-2)	
46.	if code 1 in item 45 , number of air cooler(s) (in whole number)	

[4.1] age of air conditioner(s) possessed by the household [for each of the air conditioners in possession (item 44, block 4) of the household]

This block will be filled in if entry in item 44, block 4 ≥ 1

[illegible]

[4.2] age of air cooler(s) possessed by the household [for each of the air coolers in possession (item 46, block 4) of the household]

This block will be filled in if entry in item 46, block 4 ≥ 1

[illegible]

Codes for Block 4

item 2: **religion:** Hinduism -1, Islam -2, Christianity -3, Sikhism -4, Jainism -5, Buddhism -6, Zoroastrianism -7, others -9

item 3: **social group:** scheduled tribe(ST) -1, scheduled caste(SC) -2, other backward class (OBC)-3, others-9

item 4: **land possessed (area in hectare):** less than 0.005 - 01, 0.005 - 0.02 - 02, 0.02 - 0.21 - 03, 0.21 - 0.41- 04, 0.41 - 1.01 - 05, 1.01 - 2.01 - 06, 2.01 – 3.01 - 07, 3.01 - 4.01 - 08, 4.01 - 6.01 - 10, 6.01 - 8.01- 11, greater than or equal to 8.01 - 12

[Note: 1 acre = 0.4047 hectare, 1 hectare=10,000 square metre, 1 acre=4047 sq metre]

item 11: **tenurial status of dwelling unit:** owned: freehold-1, leasehold-2; hired: employer quarter-3, hired dwelling unit with written contract-4, hired dwelling unit without written contract-5; others-9, no dwelling -6

item 12: **area type of dwelling unit:** notified slum-1, non-notified slum-2, squatter settlement-3, other areas-9

item 13: **wall type of the dwelling unit:** grass/ straw/ leaves/ reeds/ bamboo, etc. - 1, mud (with / without bamboo) / unburnt brick - 2, canvas / cloth - 3, other katcha - 4, timber - 5, burnt brick /stone/ lime stone - 6, iron or other metal sheet - 7, cement / RBC / RCC - 8, other pucca - 9

item 14: **roof type of the dwelling unit:** grass/ straw/ leaves/ reeds/ bamboo etc. - 1, mud / unburnt brick - 2, canvas / cloth - 3, other katcha - 4, tiles / slate - 5, burnt brick / stone / lime stone - 6, iron / zinc /other metal sheet /asbestos sheet - 7, cement / RBC / RCC - 8, other pucca - 9

item 15: **kitchen type of the dwelling unit:** separate kitchen: with water tap - 1, without water tap - 2; no separate kitchen - 3

item 16: **primary source of energy used for cooking:** firewood, chips & crop residue - 01, LPG - 02, other natural gas - 03, dung cake - 04, kerosene - 05, coke, coal - 06, gobar gas - 07, other biogas - 08, charcoal - 09, electricity (incl. generated by solar /wind power generators) - 10, solar cooker - 11, others - 19, no cooking arrangement - 12

item 17: **primary source of energy used for lighting :** electricity (incl. generated by solar /wind power generators) - 1, kerosene - 2, other oil - 3, gas - 4, candle - 5, others - 9, no lighting arrangement - 6

item 18: **primary source of energy used for heating:** firewood, chips & crop residue - 01, LPG - 02, other natural gas - 03, dung cake - 04, kerosene - 05, coke, coal - 06, gobar gas - 07, other biogas - 08, charcoal - 09, electricity (incl. generated by solar /wind power generators) - 10, solar cooker - 11, others - 19, no heating arrangement - 12

item 19: **whether electricity is used for cooking/lighting/heating:** cooking only -1, lighting only -2, heating only-3, lighting and cooking-4, lighting and heating-5, cooking and heating -6, all (lighting and cooking and heating)-7, not used for any of lighting, cooking, heating - 8

item 20: **principal source of drinking water:** bottled water-01, piped water into dwelling-02, piped water to yard/plot-03, piped water from neighbour-04, public tap/standpipe-05, tube well-06, hand pump-07, well: protected-08, unprotected-09; tanker-truck: public-10, private-11; spring: protected-12, unprotected-13; rainwater collection -14, surface water: tank/pond-15, other surface water (river, dam, stream, canal, lake, etc.)-16; others (cart with small tank or drum, etc)-19

item 22: **access to the principal source of drinking water:** exclusive use of household- 1, common use of households in the building -2, neighbour's source- 3, community use: public source restricted to particular community - 4, public source unrestricted- 5, private source restricted to particular community- 6, private source unrestricted- 7; others- 9

item 23: **distance to the principal source of drinking water:** within dwelling -1, outside dwelling but within the premises -2, outside premises: less than 0.2 k.m. -3, 0.2 to 0.5 k.m. -4, 0.5 to 1.0 k.m. -5, 1.0 to 1.5 k.m. - 6, 1.5 k.m. or more -7

item 25: **access of the household to latrine:** exclusive use of household-1, common use of households in the building -2, public/community latrine without payment-3, public/community latrine with payment-4, others -9, no access to latrine-5

item 26: **type of latrine in which the household has access:** flush/pour-flush to: piped sewer system-01, septic tank-02, twin leach pit -03, single leach pit -04, elsewhere (open drain, open pit, open field, etc)-05; ventilated improved pit latrine-06, pit latrine with slab-07, pit latrine without slab/open pit-08, composting latrine-10, open drain/nallah-11, others-19

item 27: **access of the household to bathroom:** exclusive use of household - 1, common use of households in the building - 2, public/community use without payment - 3, public/community use with payment - 4, others - 9, no access to bathroom - 5

item 28: **whether hand washing facility is available within the premises:** yes: with water and soap/detergent - 1, with water and ash/mud/sand etc.- 2, with water only - 3; no - 4

item 29: **agency made arrangement for collection of garbage of the household:** panchayet/ municipality/corporation - 1, resident/group of residents - 2, any other arrangement - 9, not known - 3; no arrangement - 4

item 30: **place of disposal of household garbage:** disposed to: bio-gas plant or manure pit - 1, household's individual dumping spot(s) - 2, community dumping spot (vat, container, etc.) - 3, common place (dumping spot) other than community dumping spot (open area/street/open drain) - 4, others (codes other than 1 to 4 or thrown anywhere) - 9; not known - 5

item 31: **how frequently garbage is cleared:** daily - 1, not daily but at least once in a week - 2, not even once in a week - 3, not known - 4

item 34: **distance to nearest accessible hospital with emergency services:** less than 5 km -1, 5-10 km -2, 10-20 km -3, greater than 20 km -4, not known -5

item 35: **distance to nearest accessible hospital without emergency services:** less than 5 km -1, 5-10 km -2, 10-20 km -3, greater than 20 km -4, not known -5

item 36: **distance to nearest accessible primary health centre/sub centre:** less than 5 km -1, 5-10 km -2, 10-20 km -3, greater than 20 km -4, not known -5

item 37: **distance to nearest open public space :**less than 500 mtrs -1, 500 mtrs to 1 km -2, 1-2 km -3, 2-3 km -4, greater than 3 km -5, not known -6

[5] person level information on education and ICT skills for household members with age ≥ 3							
1.	srl. no. (as in col. 1, bl. 3)*						
2.	age (years) (as in col. 5, bl. 3)*						
3.	broad usual principal activity status (codes: in employment-1, not in employment-2) ‘in employment’ includes codes 11 to 51 in col. 8 of block 3. ‘not in employment’ includes codes other than 11 to 51 in col. 8 of block 3.						
for persons of age 3 to 35 years, information on items 4 to 4.2 and item 5/ 6/ 7 will be collected as the case may be							
4.	status of enrolment in education (code)						
4.1	if code 2 or 3 in item 4	the age at which first enrolled in education (in completed years)					
4.2		whether ever enrolled in class I (yes-1, no-2)					
for code 3 in item 4 (i.e. for currently enrolled persons) information on item 5.1 to item 5.10.2 will be collected							
5.1	current level of enrolment in education (code)						
5.2	type of course in which currently enrolled (code)						
5.3	type of institution in which enrolled (code)						
5.4.1	for codes 06 – 08 or 10 in item 5.1	class in which enrolled (code)					
5.4.2		whether the class of enrolment is same as that of the previous academic year (yes - 1, no - 2)					
5.5	for code 01 in item 5.4.1 , whether ever enrolled in pre-primary education (yes - 1, no - 2)						
5.6.1	whether currently attending the course reported in items 5.1 and 5.2 (yes - 1, no - 2)						
5.6.2	whether currently attending any other course in education (not reported in items 5.1 and 5.2) (yes - 1, no - 2)						
5.7	if code 2 both in items 5.6.1 and 5.6.2 , whether attended any course in education during last 12 months (yes - 1, no - 2)						
5.8	whether currently receiving any vocational/technical training outside the coverage of education (yes: formal - 1, non-formal - 2, no - 3)						
5.9	if code 3 in item 5.8 , whether received any vocational/technical training outside the coverage of education during last 12 months (yes: formal - 1, non-formal - 2, no - 3)						
5.10.1	whether the household member worked for at least 1 hour on any day during last 7 days preceding the date of survey (yes - 1, no - 2)						
5.10.2	if code 2 in item 5.10.1 and code 3 in item 5.8 and code 2 in both items 5.6.1 and 5.6.2 , what the household member generally did during last 7 days preceding the date of survey (code)						

[5] person level information on education and ICT skills for household members with age ≥ 3						
for code 2 in item 4 (i.e. for ever enrolled but currently not enrolled persons) information on item 6.1 to item 6.6.2 will be collected						
6.1	level of last enrolment in education (code)					
6.2	for codes 06 - 08 or 10 in item 6.1 , class in which last enrolled (code)					
6.3	whether attended any course in education during last 12 months (yes - 1, no - 2)					
6.4	whether currently receiving any vocational/technical training outside the coverage of education (yes: formal - 1, non-formal - 2, no - 3)					
6.5	if code 3 in item 6.4 , whether received any vocational/technical training outside the coverage of education during last 12 months (yes: formal - 1, non-formal - 2, no - 3)					
6.6.1	whether the household member worked for at least 1 hour on any day during last 7 days preceding the date of survey (yes - 1, no - 2)					
6.6.2	if code 2 in item 6.6.1 and code 3 in item 6.4 , what the household member generally did during last 7 days preceding the date of survey (code)					
for code 1 in item 4 (i.e. for never enrolled persons) ask item 7.1 - item 7.3.2						
7.1	whether currently receiving any vocational/technical training outside the coverage of education (yes: formal -1, non-formal - 2, no - 3)					
7.2	if 3 in item 7.1 , whether received any vocational/technical training outside the coverage of education during last 12 months (yes: formal - 1, non-formal - 2, no - 3)					
7.3.1	whether the household member worked for at least 1 hour on any day during last 7 days preceding the date of survey (yes - 1, no - 2)					
7.3.2	if code 2 in item 7.3.1 and code 3 in item 7.1 , what the household member generally did during last 7 days preceding the date of survey (code)					
for persons of age 15 years and above, information on item 8 to item 16 will be collected						
8.	whether able to copy or move a file or folder (yes - 1, no - 2)					
9.	whether able to use the copy and paste tools to duplicate or move information within a document (yes - 1, no - 2)					
10.	whether able to send e-mails with attached files (e.g. document, pictures and video) (yes - 1, no - 2)					
11.	whether able to use basic arithmetic formulae in a spreadsheet (yes - 1, no - 2)					
12.	whether able to connect and install new devices (e.g. modem, camera, printer) (yes - 1, no - 2)					
13.	whether able to find, download, install and configure software (yes - 1, no - 2)					
14.	whether able to create electronic presentations with presentation software (including text, images, sound, video or charts) (yes - 1, no - 2)					
15.	whether able to transfer files between a computer and other devices (yes - 1, no - 2)					
16.	whether able to write a computer program using a specialised programming language (yes - 1, no - 2)					
*: to be transferred automatically from block 3 using software						

Codes for Block 5

item 4: **status of enrolment in education:** never enrolled - 1, ever enrolled but currently not enrolled - 2, currently enrolled -3

item 5.1: **current level of enrolment in education: non-formal education:** NFEC -01, through TLC/ AEC -02, play school/crèche - 03, others -04; **formal education:** pre- primary (nursery, kinder garden etc.) -05, primary (class I to V)- 06, upper primary/middle -07, secondary -08, higher secondary -10, diploma /certificate course (up to secondary)-11, diploma/certificate course(higher secondary)-12, diploma/certificate course(graduation & above) -13, graduate -14, post graduate and above -15

item 5.2: **type of course in which currently enrolled:** general - 1, technical / professional - 2, vocational -3, others - 4

item 5.3: **type of institution in which enrolled:** Government - 1, private aided by Government- 2, private un-aided-3, not known - 4

item 5.4.1: **class in which enrolled:** class I - 01, class II - 02, class III - 03, class IV - 04, class V - 05, class VI - 06, class VII - 07, class VIII - 08, class IX - 09, class X - 10, class XI - 11, class XII - 12

item 5.10.2/6.6.2/7.3.2: **what the household member generally did during last 7 days preceding the date of survey:** seeking/available for work-1, engaged in voluntary work in other household/enterprise-2, engaged in social/political work voluntarily-3, attending domestic duties-4, not able to work due to health condition-5, spending leisure time-6, others-9

item 6.1: **level of last enrolment in education: non-formal education:** NFEC -01, through TLC/ AEC -02, play school/crèche - 03, others -04; **formal education:** pre- primary (nursery, kinder garden etc.) -05, primary (class I to V)- 06, upper primary/middle -07, secondary -08, higher secondary -10, diploma /certificate course (up to secondary)-11, diploma/certificate course(higher secondary)-12, diploma/certificate course(graduation & above) -13, graduate -14, post graduate and above -15

item 6.2: **class in which last enrolled:** class I - 01, class II - 02, class III - 03, class IV - 04, class V - 05, class VI - 06, class VII - 07, class VIII - 08, class IX - 09, class X - 10, class XI - 11, class XII - 12

[6] purchase/construction of house(s) /flat(s) by household for residential purpose				
1.	whether the household has purchased/constructed any new house/flat after 31 st March, 2014 for residential purpose (yes-1, no -2)			
2.1	if code 1 in item 1,		rural	
2.2	number of newly purchased/constructed house(s)/flat(s) after 31 st March, 2014 entry 0 is to be reported in item 2.1 or 2.2 if there is no newly purchased/constructed house/flat in rural or urban area respectively		urban	
2.3			total	
3.	whether any of the newly purchased/constructed house(s)/flat(s) reported in any of items 2.1 or 2.2 was owned by the household for the first time (yes-1, no -2)			
if code 1 in item 3, information on items 4 and 5 will be collected in respect of the newly purchased/constructed house/flat owned by the household for the first time				
4.	whether the newly purchased/constructed house/flat is in rural or urban area (rural-1,urban-2)			
5.	whether the newly purchased/constructed house/flat is currently owned (including leased-out) by the household (yes-1, no -2)			
if code 1 in item 5, information on items 6 to 17 will be collected in respect of the newly constructed/purchased house/flat currently owned by the household				
6.	type of the newly purchased/constructed house/flat (independent house - 1, flat - 2, others - 9)			
7.	year of purchase/construction of the new house/flat (YYYY)			
8.	number of rooms of the newly purchased/constructed house/flat (in whole number)	living rooms		
9.		other rooms		
10.	floor area of the newly purchased/constructed house/flat (in square feet and in whole number) Note: <i>1 square metre = 10.76 square feet</i>	living rooms		
11.		other rooms		
12.		covered veranda		
13.		uncovered veranda		
14.		total (sum of items 10 to 13)		
15.	wall type of the newly purchased/constructed house/flat (grass/ straw/ leaves/ reeds/ bamboo, etc. - 1, mud (with / without bamboo) / unburnt brick - 2, canvas / cloth - 3, other katcha - 4, timber - 5, burnt brick /stone/ lime stone - 6, iron or other metal sheet - 7, cement / RBC / RCC - 8, other pucca - 9)			
16.	roof type of the newly purchased/constructed house/flat (grass/ straw/ leaves/ reeds/ bamboo etc. - 1, mud / unburnt brick - 2, canvas / cloth - 3, other katcha - 4, tiles / slate - 5, burnt brick / stone / lime stone - 6, iron / zinc /other metal sheet /asbestos sheet - 7, cement / RBC / RCC - 8, other pucca - 9)			
17.	source of finance for purchase/construction of the newly purchased/constructed house/flat (bank -1, private finance (NBFC etc.) -2, own finance -3, any other source - 4)			

[7] migration particulars of household members [person level information]							
1.	srl. no. (as in col. 1, bl. 3) *						
2.	age (years) (as in col. 5, bl. 3) *						
3.	whether place of enumeration differs from last usual place of residence (yes - 1, no - 2)						
information on item 4 to item 16 will be collected for only those members of the household whose place of enumeration differs from last usual place of residence (i.e. for code 1 in item 3)							
4.	location of last usual place of residence (code)						
5.	state/u.t./country of last usual place of residence (code)						
6.	main reason for leaving last usual place of residence (code)						
7.	tenurial status of dwelling unit in the last usual place of residence (code)						
8.	for codes 1 to 5 or 9 in item 7 , area type of dwelling unit in the last usual place of residence (code)						
9.	whether the household member was an earning member of the household before migration? (yes-1, no-2)						
10.	if code 1 in item 9 , change in income due to migration (code)						
11.	documents transferred in the present place of residence from last usual place of residence (code)						
12.	whether facing any problem in present place of residence due to migration (yes-1, no-2)						
13.	if code 1 in item 12 , type of problem faced in the present place of residence (social-1, economical-2, political-3, cultural -4, others-5)						
14.	whether willing to move out from the present place of residence (yes-1, no-2)						
15.	if code 1 in item 14	main reason for willing to move out (code)					
16.		where are you willing to move out from the present place of residence (last usual place of residence- 1, any place other than the last usual place of residence- 2)					
*: to be transferred automatically from block 3 using software							

Codes for Block 7

item 4: **location of last usual place of residence:** same district: rural-1, urban-2; same state but another district: rural-3, urban-4; another state: rural-5, urban-6; another country-7

item 5: **state/u.t./country of last usual place of residence:**

state/u.t. code:

State/UT name	code	State/UT name	code	State/UT name	code	State/UT name	code
Andhra Pradesh	28	Himachal Pradesh	02	Mizoram	15	Uttarakhand	05
Arunachal Pradesh	12	Jammu & Kashmir	01	Nagaland	13	Uttar Pradesh	09
